OZZI® Collection Systems 18

We only make products from renewable, post-consumer recycled, and reusable materials, and care deeply about what happens to them after use.

This singular focus makes it possible for us to lead in ways that are hard to follow.

We deliver benefits to our partners that are unavailable anywhere else in the market.

Eco-Products meets high standards of social and environmental impact.

Certified B Corps are companies that meet high standards of social and environmental performance, accountability, and transparency. Our B Corp Certification, and updated articles of incorporation from an INC to a PBC (Public Benefit Corporation) provide third-party certification that we are "walking-the-talk" and push us to be the best we can be.

Creative Support

Need help bringing your program to life? Our creative team can use their graphic design, photography, videography, and digital know-how to tell your story, promote your sustainability efforts, inform guests, and so much more.

Our Product Lines

We offer a variety of products that balance environmental, performance, economic, and market needs. Our bundle is divided into three product lines defined by raw material types and end-of-life potential.

GreenStripe®

Made with Renewable Resources and/or Compostable

Raw Materials:

Bioplastic, Paper, Sugarcane, Bamboo

Product Types:

Containers, Lids

End-of-Life:

Compostable
(certifications vary by product)

Third-Party Verification:

ASTM, BPI, CMA, DIN CERTCO

BlueStripe™

Made with Post-Consumer Recycled Content

Raw Materials:

Post-Consumer Recycled Plastic or Paper (RPET, RPS, or PCF)

Product Types:

Cups, Container Lids

End-of-Life:

Recyclable
(in select communities, varies by product)

Veda™

Made with Durable Materials and Reusable

Raw Materials:

Heavyweight Polypropylene

Product Types:

Cups, Take-Out Containers

End-of-Life:

Reusable
Recyclable (via takeback program)

Third-Party Verification:

NSF, EcoLab

TAKE-OUT CONTAINERS

Moulded Fibre Bowls

Just say yes to moulded fibre. This reclaimed fibre is strong, sturdy, renewable and compostable. A wide range of shapes and sizes makes our moulded fibre bowls suited for the tiniest side portion to an individual serving, all the way up to a family sized meal. All sizes available with matching lids in RPET, PLA and moulded fibre.

DRINKING CUPS

Recyclable Hot Cups & Lids

Our recyclable PE lined hot cups are designed for durability and dependable performance for hot drinks. The lining helps prevent leaks, while the sturdy paperboard ensures comfort and strength. Available in a range of sizes, they're a practical, reliable option within our hot cup range. **Made from 10% post-consumer recycled fibre.**

REUSABLE CONTAINERS
EP-HCRU83-G reusable clamshell,
3 compartments

Veda™ Reusable range - benefits

- Exclusive barcode tracking and collection technology.
- Real-time collection data for containers paired with OZZI® collection machines.
- Take back programme for recycling worn out containers.
- Custom embossing and colour options available.

veda™
BY ECO-PRODUCTS

Collection systems are now part of our solution

How does a reusable take-out container system work?

Containers

It all starts with containers that are specifically designed for the rigours of reuse programmes. Veda™ containers are NSF-certified to meet food protection and sanitation standards, and are ECOLAB ware tested up to 1,000 washes. Custom embossing and colour options are available as well.

Collection

The best way to ensure high collection rates is to pair Veda™ containers with the OZZI® collection machine – a “smart” collection receptacle that scans containers and credits the user via token or credit for their return. A less “techy” version of the machine called the “Drop ‘N Go” is available as well. Both come with a cart designed to help with wash logistics.

Tracking

Every Veda™ container comes equipped with proprietary barcode tracking and collection technology created by our partner, OZZI®, that integrates with leading campus meal plan systems like Atrium and CBORD.

Washing

Once Veda™ containers are collected, they are either washed on-site or transported to an off-site washing hub, typically via partnership with a “ware wash” service provider.

Reporting

When Veda™ containers are used with the OZZI® machine, collection data is available free of charge and typically delivered on a monthly basis. Some programmes have achieved as high as 97% collection rates!

Use Veda™ containers and cups with existing dishware collection stations, Veda™ Drop N’ GO systems or get Real-time collection data for containers paired with OZZI® collection machines.

Machine Custom Graphics

Looking to make an impression? Add customisable graphics to your Machine or Drop N’ GO Collection Box - the perfect way to display your logo, mascot, or even your sustainability mission.
