

# Join the Reuse Revolution

## A Better Way to Serve: Reusable Cups, Bowls & Clamshells

Campuses and corporate dining programs are under pressure to deliver convenient, high-quality meals without the waste that comes with single-use packaging.

Reusable systems like Veda™ by Eco-Products and OZZI® make that shift not only possible but practical. With durable containers built for hundreds of uses, simple return workflows, and seamless integration into existing dining operations, reuse becomes a visible, high-impact sustainability win.

Veda reusables support campus and stadium waste-diversion goals with durable, trackable packaging designed for repeated use and seamless returns.

# Cups & Lids

	STANDARD	PREMIUM	ULTRA
	Lightweight, durable, and cost-effective. Perfect for cold beverages and high-turn-over stations.	A sturdier feel with added versatility. Compatible with lids and suitable for hot or cold drinks, making it a strong fit for coffee bars, cafés, and all-day beverage service.	Our most durable option. Lid-compatible, hot-and-cold friendly, and built for the toughest environments. Ideal for stadiums, arenas, and campus programs that need maximum longevity.

# Bowls & Lids

- » Made with heavyweight polypropylene
- » Microwavable and freezable
- » Snapping tab for secure closure
- » NSF Certified to meet food protection and sanitation standards
- » Ecolab Ware tested up to 1,000 washes in commercial dishwashers
- » Proprietary barcode tracking and collection technology integrated with leading campus meal plan systems like Atrium and CBORD
- » Real-time collection data for containers paired with OZZI® collection machines
- » Take back program to recycle damaged or worn out containers
- » Customizable with embossed logos or team colors

# Make your Brand the One They Carry Everywhere

Give your Veda reusable cups and containers a look that's unmistakably yours. Custom printing, embossing, and tinting turn everyday eco-products into branded workhorses that travel across campuses, stadiums, and corporate spaces.

- » Boost recognition every time a container leaves the dining hall or concession stand.
- » Reinforce sustainability commitments with packaging that looks intentional, not generic.
- » Create a unified experience across multiple venues, from university cafés to arena suites.
- » Add premium cues with embossing or custom tints that signal quality at a glance.
- » Encourage return and reuse by making cups feel like part of the community culture.

## Life's better in color

- » Tint your Veda Bowls, Clamshells, and Ultra Cups to match your team colors, corporate branding, or just for fun!

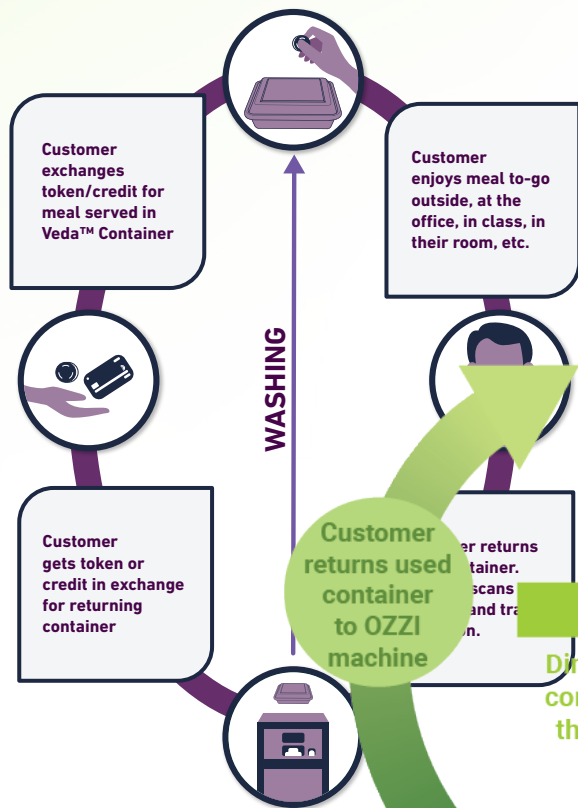

Other colors available with additional lead time. Colors shown are representative only and may not accurately display on screen. Please request samples prior to ordering.

# Reusable Systems

## Containers

It all starts with containers that are specifically designed for the rigors of reuse programs. Veda containers are NSF Certified to meet food protection and sanitation standards, and are ECOLAB Ware tested up to 1000 washes. Custom embossment and color options are available as well.

## Collection

One way to ensure high collection rates is to pair Veda with the OZZI collection machine - a "smart" contact that scans containers and credits the customer for their return. A less "techy" option for the "Drop 'N Go" is available as well. Both come with a cart designed to help with wash logistics.

## Tracking

Every Veda container is tracked with proprietary technology created by our partner, OZZI, that integrates with existing campus meal plan systems like Atrium and CBORD.

Dining Services wash containers and return them to service line

## Washing

Once Veda containers are collected, they are either washed on-site or transported to an off-site washing hub, typically via partnership with a "wash" service provider.

## Reporting

Monthly reports are generated with the OZZI machine, providing data on collection rates, free of charge and typically delivered on a monthly basis. Some programs have achieved as high as 97% collection rates!

**OZZI**  
Simply Reusable.

The OZZI® Automated Collection Machine is part of the larger OZZI® Collection System, designed to revolutionize zero-waste dining by combining sustainability with advanced technology.

Compact footprint: Less than 12 sq. ft. (36"W x 30"D x 66"H)

Holds 200+ tokens or accepts card swipes for credit, integrating seamlessly with most POS systems

Monthly reports provide accountability for container returns

Includes washable, removable mat and O2GO Cart (not pictured)

24/7 collecting - OZZI® never sleeps

## Cups & Containers

It all starts with containers that are specifically designed for the rigors of reuse programs. Veda containers are NSF Certified to meet food protection and sanitation standards, and are ECOLAB Ware tested up to 1000 washes. Custom embossment and color options are available as well.

## Collection

The best way to ensure high collection rates is to pair Veda containers with the OZZI collection machine - a "smart" collection receptacle that scans containers and credits the user via token or other means for their return. A less "techy" version of the machine, called the "Drop 'N Go" is available as well. Both come with a cart designed to help with wash logistics.

## Tracking

Every Veda container comes equipped with proprietary barcode tracking and collection technology created by our partner, OZZI®, that integrates with leading campus meal plan systems like Atrium and Transact + CBORD.

## Washing

Once Veda containers are collected, they are either washed on-site or transported to an off-site washing hub, typically via partnership with a "ware wash" service provider.

## Reporting

When Veda containers are used with the OZZI machine, collection data is available free of charge and typically delivered on a monthly basis. Some programs have achieved as high as 97% collection rates!
