

PowerLite® L210SF

Wireless 1080p 3LCD Short Throw
Lamp-Free Laser Display

**Lamp-free laser projector
delivers immersive images up to
300" for classrooms and more.**

Bold and bright display with 3-chip 3LCD technology — 4,000 lumens of color and white brightness¹

Full HD 1080p resolution — delivers easy-to-read images with stunning clarity

No lamps to purchase or replace — virtually maintenance-free 20,000-hour laser light source²

Large display size — up to 300" diagonal in 16:9; up to 284" in ultra wide 21:9

Fast and efficient operation — display in seconds with instant-on laser light source

Convenient short throw design — greatly reduces shadowing

Upgrade to Full HD — replace short throw, lower-resolution WXGA displays

Built-in split screen³ — allows simultaneous display of up to four connected devices

Connect and cast from up to 50 devices⁴ — free downloadable Epson iProjection™ software⁵ makes it easy to cast wirelessly from Chromebooks, iOS® and Android® devices, Mac® computers and PCs⁴; with moderator feature⁶, teachers maintain control of the displayed content

Place it virtually anywhere — use multi-projection with edge blending and 360-degree mounting capabilities to create larger-than-life immersive displays

¹ Color brightness (color light output) and white brightness (white light output) will vary depending on usage conditions. Color light output measured in accordance with IDMS 15.4; white light output measured in accordance with ISO 21118. | ² No required maintenance for the light source for up to 20,000 hours. Approximate time until brightness decreases 50% from first usage. Measured by acceleration test assuming use of 0.04 - 0.20 mg/m³ of particulate matter. Time varies depending on usage conditions and environment. Replacement of parts other than the light source may be required in a shorter period. | ³ Consult your user manual for Split Screen input combinations. | ⁴ For wireless functionality, including via the Epson iProjection App, the projector must be configured on a network, either through the Ethernet port on the projector (check model specifications for availability) or via a wireless connection. Check your owner's manual to determine if a wireless LAN module must be purchased separately to enable a wireless connection. Not all Epson projectors are able to be networked. The Epson iProjection App does not support all files and formats. See epson.com for details. | ⁵ Internet connection required for download. Data usage fee may apply. | ⁶ Moderator control, connecting via QR code and projector remote are not available on Epson iProjection for Chromebooks. | ⁷ For convenient and reasonable recycling options, visit epson.com/recycle | ⁸ SmartWay is an innovative partnership of the U.S. Environmental Protection Agency that reduces greenhouse gases and other air pollutants and improves fuel efficiency. | ⁹ Product comes with a 3-year limited warranty with the option to purchase extended service plans up to a total of 5 years of continuous coverage. Extended service plan can be purchased at any time that you are covered under an Epson limited warranty or Epson extended service plan.
