

SureColor® T7770D

44-Inch Large-Format
Dual-Roll CAD/Technical Printer

A1/D-size prints in as fast
as 16 seconds¹

**This design changes
everything.**

Incredible speed and performance — delivers crisp, detailed, colorful prints using a reliable 2.64" PrecisionCore® Micro TFP® printhead, producing remarkable A1/D-size prints in as little as 16 seconds¹

Innovative design fits any workflow — with a unique flattop design and complete front operation

Stunning image quality and precise line detail — vivid UltraChrome® XD3 Ink with Red Ink produces crisp lines and vibrant colors for graphics, signage, blueprints, documents and more

Print on a wide range of media for various applications — print on a variety of media, including glossy, technical, bond, matte and specialty media, and rigid posterboard up to 1.5 mm thick

Fast processing with Adobe® Embedded Print Engine — print PDFs with up to three times faster processing of complicated data than previous generations and accurate printing of transparent layers

Seamless, dual-roll productivity — accommodate two media types or sizes, or use the second roll as a take-up reel for roll-to-roll production

Easy setup and operation — fast, easy setup with minimal assembly required, plus 4.3" touchscreen control panel, automated routine maintenance and user self-service for convenient operation

Versatile connectivity — SuperSpeed USB 3.0, Gigabit Ethernet and Wi-Fi® connectivity (2.4 GHz and 5 GHz) options to fit virtually any production workflow

IT and security features — over 28 IT and security features for office or remote office locations, including IC card option for user control and tracking, SSD Encryption and IEEE 802.1x

Designed for use exclusively with Epson ink cartridges.*

* This product uses only genuine Epson-brand cartridges. Other brands of ink cartridges and ink supplies are not compatible and, even if described as compatible, may not function properly or at all.

¹ Print speeds are based on the print engine speed only. Total throughput time for any print depends on various factors including workstation configuration, file size, print resolution, ink coverage and networking. Actual print speeds will vary. | ² Part of the ink from the first cartridges/packs is used for initializing the printer. Ink usage will vary considerably based on images printed, print settings, paper type, frequency of use, temperature and humidity. Variance may be more pronounced when printing infrequently or predominantly with one ink color. Ink is used for printing and printer maintenance and all colors must be available for printing. For print quality, a variable amount of ink remains after the "replace ink" indicator comes on. | ³ High-volume cutting of canvas and heavy media stocks may require frequent cutter replacement. | ⁴ At 23 °C (73 °F), 50% relative humidity, single-weight matte paper, CAD/Line Drawing, Max. Quality, High Speed = On. | ⁵ Allowed by printer driver for Mac, PC, and RIP used. Application, version of application, operating system, and operating system version may limit maximum length. | ⁶ For the latest drivers, visit epson.com/support | ⁷ All features of this system require an active Internet connection and the use of a supported browser. | ⁸ For convenient and reasonable recycling options, visit epson.com/recycle | ⁹ SmartWay is an innovative partnership of the U.S. Environmental Protection Agency that reduces greenhouse gases and other air pollutants and improves fuel efficiency. | ¹⁰ Product comes with a 1-year limited warranty with the option to purchase extended service plans up to a total of 5 years of continuous coverage. | ¹¹ Geographic limitations may apply. Service request must be received and processed by 1 p.m. Pacific Time, Monday through Friday, excluding holidays. See extended service plan for details.
