

Label Boost™ Designer

Simple design and print software for Epson label printers

Create labels in minutes with Label Boost Designer¹, the no-cost label design and print software from Epson. As a complement to existing third-party software options, this simple solution is specially created for ColorWorks™ and select Epson thermal label printers² to help customers get started with on-demand in-house labeling.

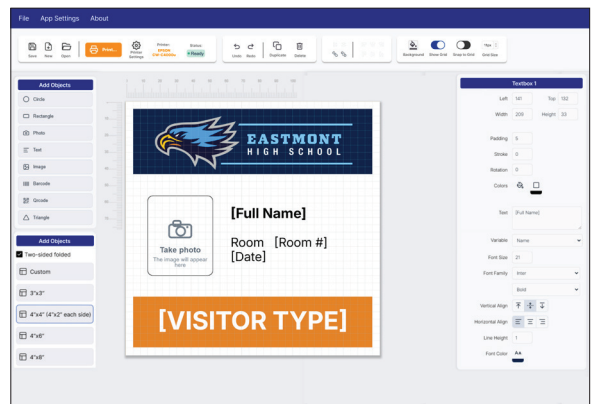

Available for Mac® and PC, Label Boost Designer¹ provides an intuitive and easy-to-use drag-and-drop interface for creating full-color labels with text, shapes, traditional barcodes, QR codes, images and other elements. Start from scratch or use one of our ready-made templates for visitor badges, shelf tags, fresh food labels and other applications.

One software, multiple printer types — designed for use with ColorWorks or select Epson thermal label printers²

Cross-platform support — supports both Mac and PC operating systems; no-cost add-on print app is available on Mac, PC, Android® and iOS®

Streamlined print settings — enjoy in-app guided configuration for common printer settings

Dynamic data support — label elements can be static for each label, or they can be dynamic based on a data lookup or user input provided at the time of printing

Screen image simulated. Computer not included.

Label Boost Concierge

Get extra features designed for badge printing

Organizations printing visitor or event badges can benefit even more from this software solution by taking advantage of Label Boost Concierge³, a no-cost add-on app that is purpose-built to facilitate check-in and badge printing.

Available for desktop and mobile platforms, this app allows you to leverage the badge designs you build on Label Boost Designer¹ as well as a customizable form-based interface for efficiently checking in visitors or event attendees and printing badges on demand. When used with a webcam, you can even capture and print a photo directly on each badge as part of your check-in workflow.

¹ Internet connection required for software download. | ² Compatible with CW-C4000, CW-C6000, CW-C6500, CW-C8000, CW-D3800 and TM-L100 printers. | ³ Internet connection required for download. Data usage fees may apply.
