

## Cable Lock

# One Solution. Multiple Applications. Zero Magnetic Defeats.

## Made for Retail's Most-Handled Merchandise

Protect apparel, handbags, home goods, consumer electronics and more with a compact alarming lanyard lock designed to blend seamlessly into any merchandise. As the only cable lock resistant to magnetic defeats, Cable Lock delivers unmatched security that helps retailers stay ahead of evolving theft methods. One-step application and OneKEY compatibility make securing and unlocking fast and simple for associates.

### UNDEFEATED PROTECTION

The only alarming cable lock designed to resist magnetic defeats, helping reduce theft of high-shrink merchandise.

### PREMIUM LOOK AND EXPERIENCE

A compact, low-profile design protects merchandise without distracting from the product or the brand.

### SIMPLE FOR ASSOCIATES

Secure and remove Cable Lock in seconds with one-step application and OneKEY access to improve daily operations.

## Proven Performance in Every Detail

### Elegant by Design

A compact, elegant housing blends seamlessly into premium merchandise to maintain product presentation.

### Instant Audible Deterrence

An integrated 95 dB alarm provides an immediate audible alert when unauthorized removal or tampering is detected.

### Expanded EAS Compatibility

Choose from AM, RF, or RFID-compatible versions to support your store's existing security infrastructure.

### Flexible Cable Lengths

Available with 6", 18", 48" and 72" cables to secure a wide variety of merchandise.

### Built to Hold Strong

A durable steel cable helps protect high-value merchandise against theft.

### Visual Theft Deterrent

A blinking red LED provides a visible indication that merchandise is actively protected.

### Part of OneKEY Ecosystem

Cable Lock is part of the exclusive InVue OneKEY Ecosystem, a storewide single key solution that improves customer service, increases sales and provides high theft protection.
