InVue

Contents

Frictionless access to merchandise with smart locks.

Streamline your operations today while shaping the future of your customer's shopping experience for tomorrow.

Employee Access

Empower your sales associates with their own key or a handheld device to increase sales

FRICTIONLESS CUSTOMER EXPERIENCE

Customer Access

Enable your customers access to locked cabinets via the customer's device

LIVE Locks

Smart locks that work with our proprietary OneKEY or the OneKEY App, providing live data and remote access for the ultimate customer convenience.

OneKEY Locks

Simplify store management with a single key for associates—no batteries, no maintenance, no hassle.

Smart security, simplified.

InVue's OneKEY Software is designed to deliver seamless security and effortless management for businesses of all sizes. Whether safeguarding a single location or multiple sites, our intuitive platform ensures you stay in control—anytime, anywhere.

Flexible access – Use mobile or handheld devices to unlock secured displays, cabinets, and stockrooms—no keys needed.

Simplified management – Assign and update permissions, monitor activity, and ensure security compliance with ease.

User management – Easily assign and revoke access for employees, customers, vendors, and visitors from anywhere.

**Scalability** – Manage multiple locations, doors, and users in a single, streamlined system.

Seamless integration – Works with existing enterprise systems for effortless administration.

Advanced security – Industry-leading SDC and encryption protocols safeguard your assets, ensuring the highest level of protection.

With InVue's connected solutions, you get the security and convenience you need—without the hassle of traditional keys.
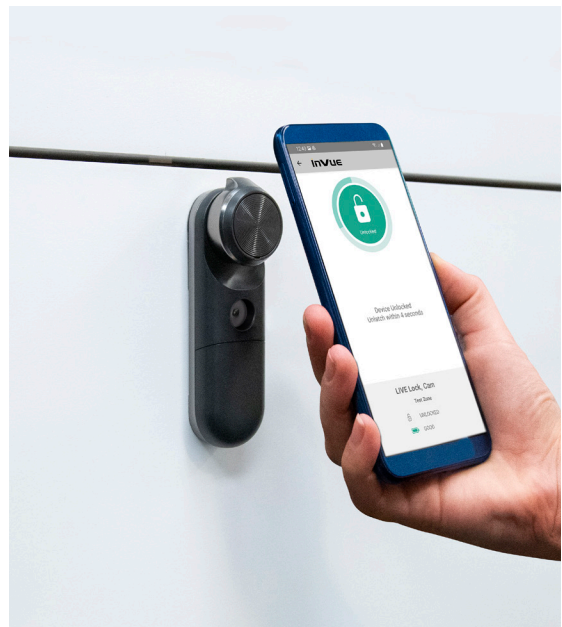

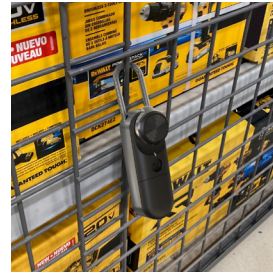

Types of locks:

LIVE LOCKS

Secure access in a single tap:
› Unlock with a mobile phone or store issued device
› Utilizes both the OneKEY App and o physical OneKEY for ultimate flexibility
› Provides current status of fixture to determine if merchandise is secured—in seconds

ONEKEY LOCKS: SELF-LATCHING

Self-latching protection for sales-boosting performance:
› Locks incorporate a self-latching feature that ensures your fixtures are locked when closed

ONEKEY LOCKS: MANUAL LATCHING

A versatile, easy to use, smart security lock:
› No batteries or local wiring
› Operated with a OneKEY

PL745	L430 Shim Replacements	› 10 pack
PL746	L430 Low Profile Ramp	› 5 pack

Guidance for mounting into metal:

› Metal can interfere with the communication between InVue keys and locks. If the L430 is installed in a door with a metal laminate surface, the barrel of the lock must protrude beyond the door's surface.
› For 1/8" thick steel, a 15mm protrusion is recommended
› For 1/8" thick aluminum, a 18mm protrusion is recommended
› If the fixture is unable to accommodate the recommended protrusion or if the material is thicker than 1/8", please contact InVue Customer Service

L440 Showcase Lock

Order Code	Description	Notes
Body		
PL901	L440 Showcase Lock (Chrome)	
Kits

OneKEY System Components

ONEKEY MANAGER (OKM)

The OneKEY Manager works with our OneKEY software to help reduce internal theft by logging every InVue device for every associate:

› Each associate is tracked by their own unique check-out codes
› Keys will record times for checking-in/out keys, where the keys were used and how long displays were open
› Logged information will be stored in the poral for easy access and report generation

ONEKEY CHARGERS

Keep keys charged when not in use. Choose from either single-, four-, or eight-position charging bases — depending on the need of your environment.

Single Charger

4-Position Charger

8-Position Charger
