

Self Latching Drawer & Door Lock

One Less Thing to Worry About. Seamlessly Designed.

Simplify Retail Access

The Self-Latching Drawer and Door Lock modernizes drawer and cabinet security with electronic OneKEY access and a battery-free, self-latching design. It replaces traditional mechanical locks to simplify access, reduce maintenance, and deliver reliable security for both new and existing fixtures.

SELF-LOCKING PROTECTION

Unlock with OneKEY, then simply close the drawer/door to automatically secure merchandise. Self-latching tech helps prevent items from being left unsecured.

BATTERY FREE OPERATION

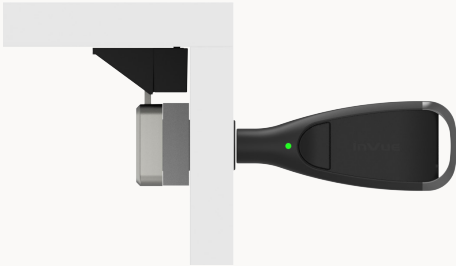

No batteries, local wiring, or re-keying required. Eliminate routine lock maintenance and get dependable, hassle-free security that keeps stores moving.

BUILT FOR NEW & EXISTING FIXTURES

Designed for seamless integration into new furniture or easy retrofit into existing fixtures, with adjustable components that maintain a secure fit over time.

Every Detail Designed for Every Retail

OneKEY Ecosystem.

Operate all drawers and doors with the same OneKEY used throughout the store, with user-based access control and centralized key management.

Designed for Retrofit

Flexible mounting options and adjustable screw holes and short/long latch options make installation easy across new and existing fixtures.

Long-Term Alignment

As fixtures settle and doors shift over time, the adjustable strike plate helps maintain proper alignment and reliable security.

Pick Resistant Security

A protected latch helps resist picking and tampering. The adjustable strike plate (sold separately) easily realigns to maintain a secure fit over time—no reinstall needed.

Battery & Wire-Free

Requires no batteries or local power, eliminating maintenance while simplifying installation.

Discreet Integration

Installed internally for a clean, semi-hidden appearance that preserves fixture aesthetics.

Types of Fixtures

Drawers

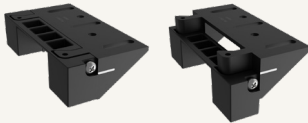

Cabinets & Swing Doors

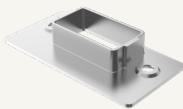

Compatible Accessories

Strike Plates

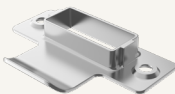

Adjustable

Adjusts easily to maintain a secure fit as drawers settle over time—no reinstallation required.

Flat

A cleaner, more refined look, paired with included latch ramp for reliable latching.

Curved

Guides the latch into place for smooth, reliable closing. It extends slightly from the cabinet.

Accessories

Trim Ring

Covers existing 28mm lock openings for a clean look when upgrading to the new lock.
