An intelligent, connected, security and merchandising technology platform that promotes and secures all merchandise at retail.

InVue is a global technology company that provides retailers and brands with innovative merchandising, software and security solutions. Our products seamlessly promote and secure retail merchandise, enhancing the in-store experience to improve our customers' profits.

We back our commitment with a 90,000 square foot innovation, quality, design and service center in Charlotte, NC. Our quality control facilities in Charlotte and China, use custom designed testing equipment to simulate actual, daily in-store use of our products.

OneKEY™

ecosystem

The synergy gained from aligning brand displays with existing retailer technology results in increased profits.

BEST-IN-CLASS SECURITY

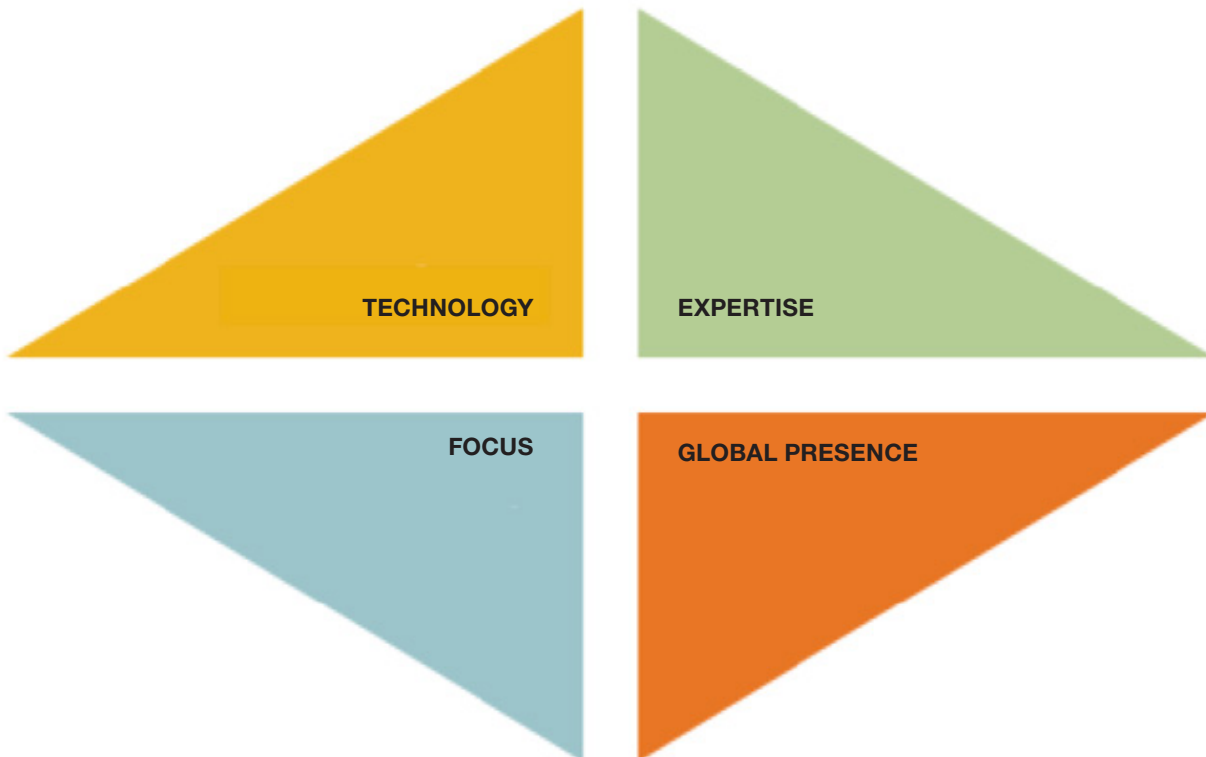

Assign a unique code per store, 12 hour time-out feature for greater protection, and ability to create zones and audit employee use.

IN-STORE VISIBILITY

Monitor, understand and manage associate interactions through software analytics. Know who did what, where and when.

OUR BRAND MISSION

Enabling an Authentic Brand Experience

TECHNOLOGY

- › Investing over 7%+ yearly in research and development. Custom designed testing equipment to simulate actual in-store use.
- › 90,000 sq. ft innovation, quality, design and service center in Charlotte, NC

EXPERTISE

- › Leveraging extensive retail experience and investments to bring innovative solutions to market.
- › Broad merchandising and security portfolio alongside data and analytics that give insight into customer behavior and interactions

FOCUS

- › A history working with brands at the Head-quarter, Regional and Retail level to maintain a comprehensive understanding of the brands ecosystem.
- › Offering products that balance the desire for high experience with the need for security.

GLOBAL PRESENCE

- › Global presence and local support in 90+ countries.
- › Innovative concepts that are informed by a global retail landscape.
- › Dedicated white-glove service for brands at the HQ, Regional and Local levels.

K-Lock

K-Lock, one of the Zips for Laptops solutions, is the ideal merchandising and enhanced security solution for laptops. Available in both alarm and non-alarming options, the modern design both cleanly displays products and elevates the customer experience. Featuring a high security, cut resistant steel cable and plate, this solution balances the demand for maximum security with a highly interactive in-store customer experience. Minimize theft, upgrade the interaction experience and boost sales of high value consumer electronics.

At a glance:

FEATURES AND BENEFITS

- › High security, cut resistant steel cable
- › 200 lbs of pull force security
- › Sleek, modern design to complement laptops
- › Simple installation, no tools required
- › Alarming option compatible with Zips
- › Non-alarming, mechanical option available

COMPATIBILITY

THIRD-PARTY WINDOWS LAPTOPS

Reverse K-Lock

Reverse K-Lock, one of the Zips for Laptops solutions, is the ideal solution for laptops without a Kensington port that desire the same enhanced security our traditional K-Lock solution provides. The Reverse K-Lock applies the same level of security with a reverse application - putting the security out of sight and giving the customer optimal interaction with the product.

Available as a non-alarming option, the modern design both cleanly displays products and elevates the customer experience. Featuring a high security, cut resistant steel cable and plate, this solution balances the demand for maximum security with a highly interactive in-store customer experience. Minimize theft, upgrade the interaction experience and boost sales of high value consumer electronics.

At a glance:

FEATURES AND BENEFITS

- › High security, cut resistant steel cable

Microsoft Accessory Solutions

Optimal customer experience & security for wireless headphones.

Zips Headphone Recoiler is the only interactive merchandising solution on the market that provides both security and audio transmission through a recoiler for wireless headphones. Featuring an integrated audio cable inside the recoiler, this cost-effective solution ensures that audio always passes through to headphones, creating a stimulating shopping experience.

Zips All-in-One sensor goes a step further and integrates power for continuous charging, various combinations of audio and power available. Retailers can now openly and securely display wireless headphones for optimal customer engagement and increased sales.

At a glance:

FEATURES AND BENEFITS

- › Fully integrated audio cable for playback in the headphones, promoting an optimal customer experience
- › Reliable security to openly and safely display wireless headphones
- › Supports multiple audio barrel sizes: 2.5mm and 3.5mm
- › Type-C and Micro-USB, power connections available with AiO
- › Integration with Zips platform
- › Display stand accessory available

Versatile and scalable, Zips features alarm, power and high security options.

Zips provides secure protection for a wide range of merchandise and consumer electronic devices on display. As the only complete solution for powered and non-powered accessories or consumer electronics, Zips offers multiple

attachment and power sensors for both standard and high security applications. With Zips, create dynamic displays with minimal operational investment to increase sales.

OneKEY

Data is the key. The key is data.

At a glance:

FEATURES AND BENEFITS

The most secure and convenient key system that enables associates to assist customers quickly and easily. Each interaction from OneKEY instantly transfers to Access Manager, where you

can assign store access zones, deauthorize keys, as well as understand who interact with what, and when. Together with InVue LIVE, you can monitor and manage store activity in real-time.

OVERVIEW

OneKEY is the most secure and convenient key system that enables associates to assist customers quickly and easily. Each interaction from OneKEY instantly transfers to Access Manager, where you can assign access zones, deauthorize keys, as well as understand who interacted with what, and when. Operating on InVue LIVE, OneKEY allows you to monitor and manage all key interactions real time.

OneKEY™ ecosystem

SECURITY & MERCHANDISE

ANALYTICS

ACCESS CONTROL

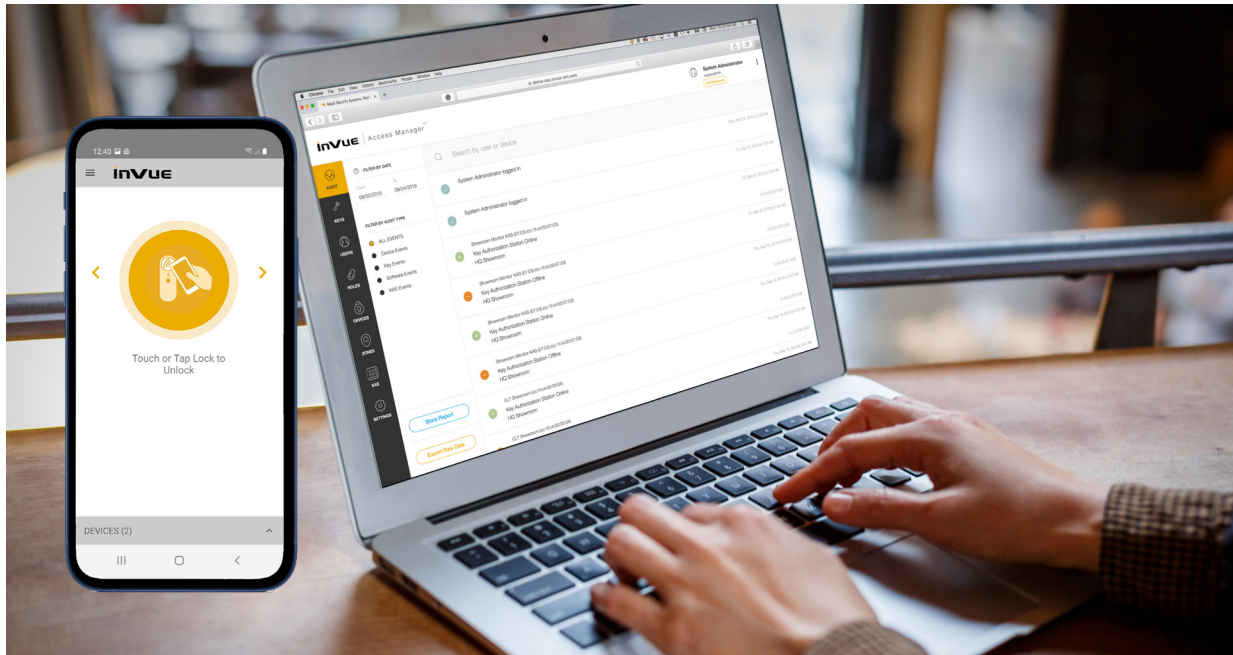

Advanced Technology & Software

Using unique infrared technology, OneKEY transfers power and data to a complete ecosystem of merchandise and mobile point-of-sale solutions, providing industry-leading protection to your high-theft products and essential operating systems.

LIVE Access

Real-time access, managed with confidence.

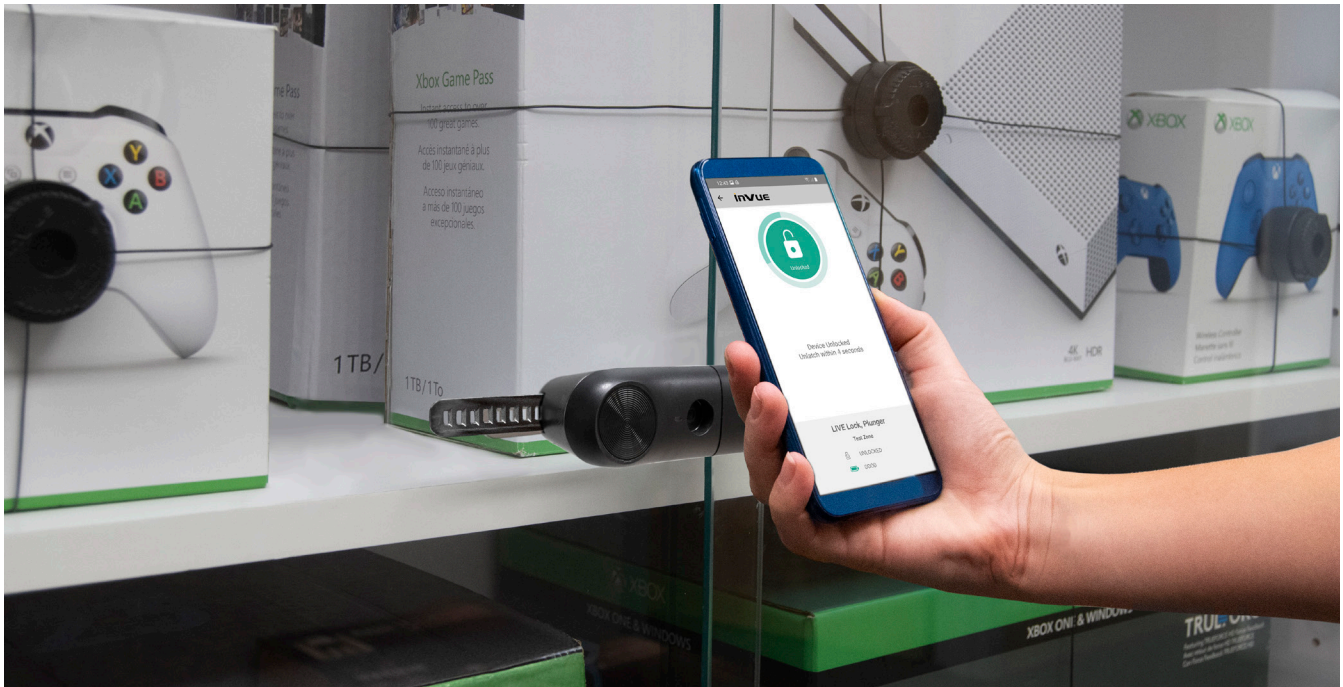

At a glance:

FEATURES AND BENEFITS

- › Authorize and define personnel access across all or a single locations, specific departments, or products.
- › Audit and effectively track and act on user activity, unauthorized attempts, and product demand.
- › Manage a cloud-based enterprise management of access and data to easily evaluate personnel, department, and product activity.

LIVE Locks

Secure access in a single tap.

At a glance:

FEATURES AND BENEFITS

- › Supports NFC, Bluetooth or 2D barcode
- › No local wiring
- › 2-year battery life
- › Remote unlock capability*
- › Configurations: Slider, Plunger, and Cam
- › Uses InVue's LIVE Access to operate
- › Compatible with existing OneKEY

LIVE Display

Connect and optimize your stores.

At a glance:

FEATURES AND BENEFITS

- › Easy to use and streamlined management of displayed merchandise from your phone.
- › Real-time guidance to empower associates and minimize downtime with real-time alerts and diagnostics.
- › Essential Insights that analyze and report on store performance at any time.

OSA Sensor

Instant and Accurate.

At a glance:

FEATURES AND BENEFITS

- › Installs in seconds
- › Continuous monitoring of product availability
- › Interchangeable components easily integrate into existing furniture
- › Easily snap onto hanging hook rods
- › Quickly mounts to pegboard back walls
- › Discreetly place on at the back of shelves
- › Each sensor can be rescanned and reused to track new products

TV Manager

One system to manage all your TVs.

At a glance:

FEATURES AND BENEFITS

- › Home screen provides quick status of all connected TV sensors
- › Instantly manage on/off functionality of individual TVs or all at once
- › Automate display schedules by preprogramming functionality
- › Real-time feedback on make and model of each display position
- › Detailed dashboard view provides measured data of individual TVs, including power and battery status, model number, name and position

NE360

Any device. Any payment. Anywhere.

The NE360 is an innovative tablet display with a flexible design that is fully mobile that provides exceptional customer interaction and increased sales. Its design gives Total freedom to chose any payment device, handheld, tablet, or OS. Integrated charging and USB connectivity enable complete mobility and transactions. Improves the in-store experience and conversion rates.

At a glance:

NE360T

- › 4ft (1.2m) drop protection, mil-spec 810g
- › Supports USB communication with compatible devices
- › Full access to speakers, mic, and camera
- › Tablet frame has integrated kickstand
- › Single and 5-position gang charger available

NE360C

- › Universal tablet mount supports any tablet
- › Quickly and easily remove tablet for mobility
- › Heavy-duty cast metal construction base
- › The base can rotate 270° or can be locked down and the tablet tilts 30°-75°

CT200

Durable and versatile fixed tablet display, wherever you do business.

The CT200 is a high security, fixed tablet solution that allows businesses to place tablets anywhere. It features three stand options that include a counter display, wall/VESA mount, and floor stand. Tamper-resistant and durable enough for high traffic environments, the CT200 is distinct in its ability to offer security and ease of maintenance in any commercial setting.

At a glance:

FEATURES AND BENEFITS

- › Three counter-based stands — fixed, swivel, and freestanding
- › Low profile wall mount bracket with standard 75 mm VESA pattern
- › The floor stand features a weighted base designed to be resistant to accidental tipping and can be bolt mounted for added stability
- › Tablet tilt is standard on the floor stand (from 30° to 85°)
- › Frames compatible with 10" and 12" tablets

CT101

High-security, instantly mobile universal tablet stand with integrated charging.

The CT101 is a high-security, instantly mobile universal tablet stand with integrated charging. When docked the CT101 automatically locks and immediately begins charging so that the tablet is secure, completely powered and ready for use. The rugged tablet enclosure can be easily removed for mobile use and includes ergonomically designed handles with straps to reduce user fatigue and can be adapted to a variety of business needs.

At a glance:

FEATURES AND BENEFITS

- › Rugged all-metal stand securely mounts to any drillable surface
- › In-stand contacts charge tablet when docked to support standalone or attended use 24/7
- › IR interface is easily accessed. OneKEY™ or CT Key instantly unlocks the tablet for mobility with no impact to transaction time
- › Easily rotate tablet between portrait and landscape orientations
- › Swivel base option rotates 180° in either direction for enhanced customer engagement
- › Base plate option for drill-free surfaces

CT80 & CT150

The freestanding tablet display that's ready to use right out of the box.

Take your business to your customers with a fixed kiosk and mobile tablet solution. Tablets can easily be rotated to portrait or landscape mode as well as flipped to face the customer. The CT150's versatile design allows the tablet to easily be removed for mobile use from the base plate providing a second auxiliary stand as well as a convenient handle. CT150 works with all tablets regardless of manufacturer or operating system.

At a glance:

FEATURES AND BENEFITS

- › Utilize OEM power cable for charging (CT80 only)
- › Integrated charging keeps your tablet powered and ready to use (CT150 only)
- › Tablet can go from fixed to mobile in seconds with InVue's OneKEY™ (CT150) or a simple switch
- › CT80/CT150 supports a wide range of tablet sizes regardless of manufacturer or operating system
- › Easily rotate between landscape and portrait display and flip to face the customer
- › Freestanding out of the box with fixed mounting options available
