

### HS80-IR

Lock Down Angled Stand with IR  
HS80IR-B/W, DFD100-W,  
HS184IR-B/W

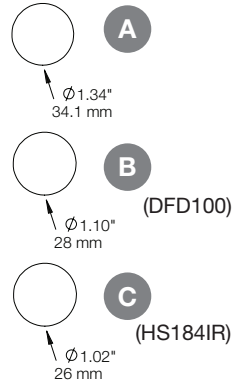

**1a Determine installation of stand:**  
If drilling fixture, determine desired screw orientation. Reference base plate and drill accordingly.

#### MULTIPLE HOLE

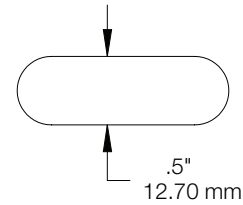

#### SINGLE HOLE

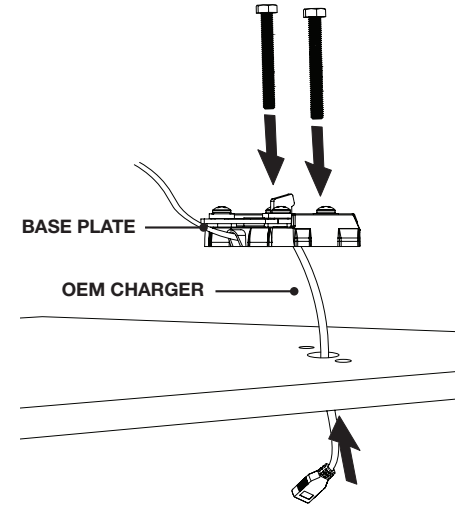

**1b** To mount through slot in fixture, confirm the opening is not wider than .5" (12.7 mm).

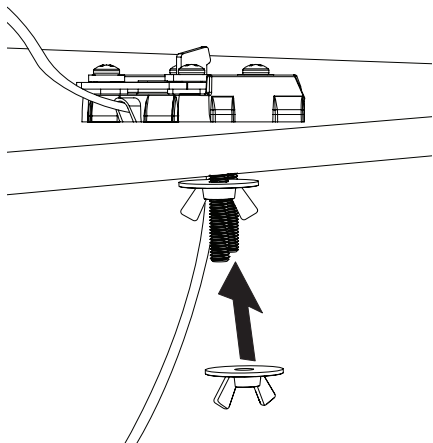

#### SLOT MOUNT

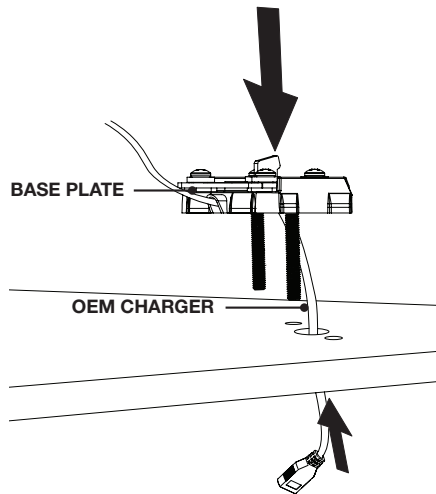

**2a For Mounting Option "A":**  
Route OEM power supply up through fixture and through front of base plate. Insert threaded screws through base plate.

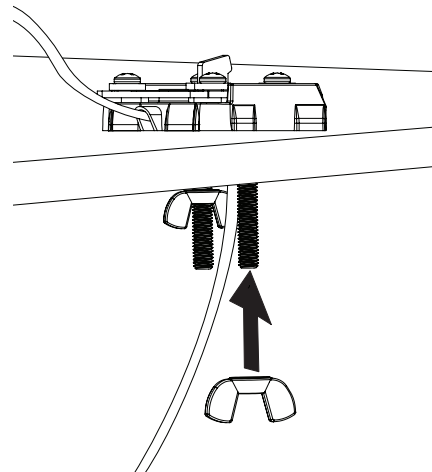

**2b** Insert threaded screw through hole in fixture. **Below fixture:** Fully tighten the flanged wing nut to threaded screw.

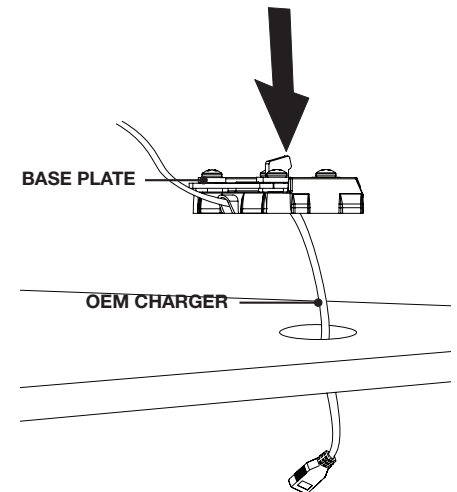

**3a For Mounting Option "B" (DFD100):**  
Route OEM power supply up through fixture and through front of base plate. Insert threaded rods on the base plate through the fixture.

**3b Below fixture:** Fully tighten the non-flanged wing nut to threaded rod.

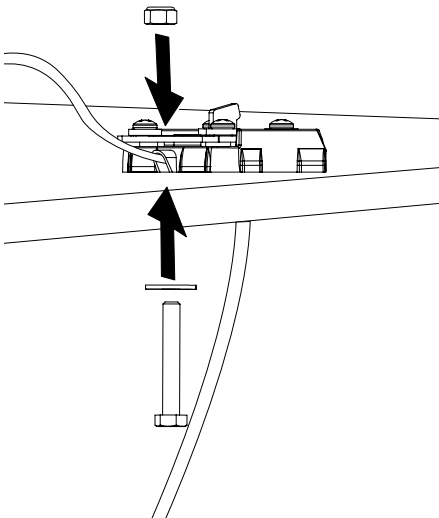

**4a For Mounting Option "C" (HS184IR - 19.5mm thick counters):**  
For counters 19.5mm thick, route OEM power supply up through fixture and through front of base plate. Insert threaded rods on the base plate through the fixture.

4b

**Below fixture:** Place the washer onto the bolt and insert the bolt up through the hole in the fixture into the hole on the left side of the base plate.  
**Above fixture:** Place the lock nut onto the bolt and tighten fully.

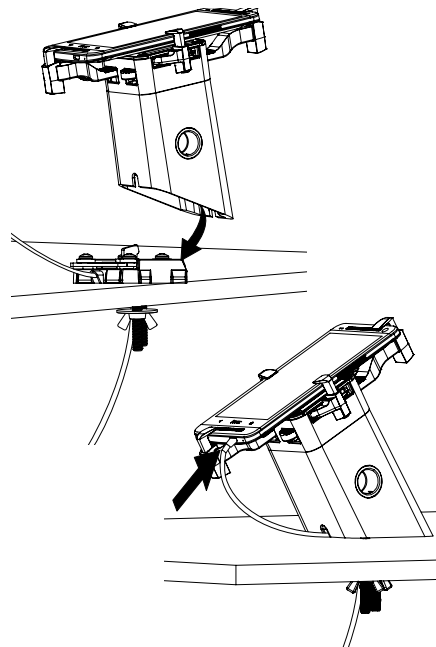

5

See the arm kit instructions for installing the security arms and device to the stand.

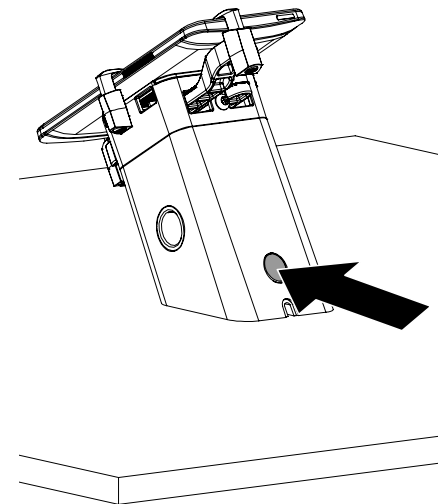

6

Attach stand to base plate. Plug OEM power supply into merchandise and connect to power.

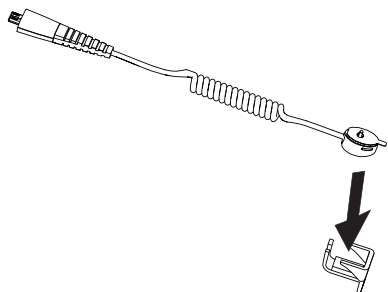

7

Press the button on the back of the stand to engage the lock.

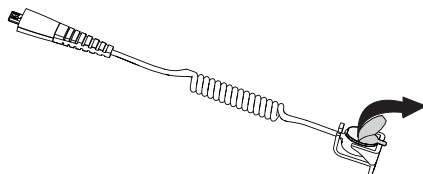

8a

**Optional:** To attach Zips Mini Sensor (ZA2700), place head of sensor into Cradle Mount (HS87-W).

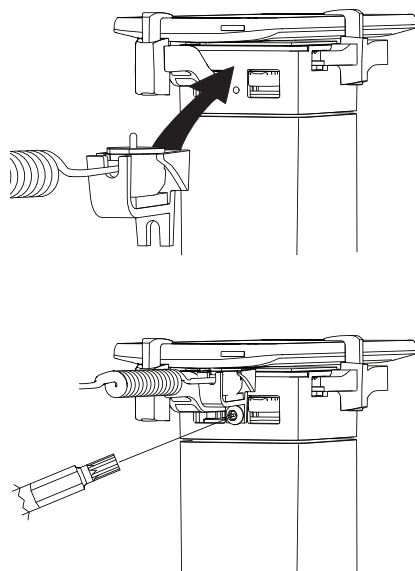

Remove clear film from adhesive on sensor.

8b

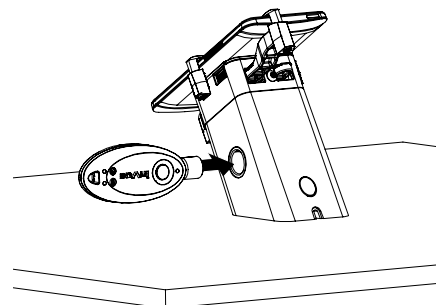

Use TT-20 bit to screw Cradle Mount to stand as shown. Press sensor to back of merchandise for 10 seconds. Plug sensor into alarm unit.

1

### Stand Removal:

Insert a coded IR key into the lens on the side of the stand and press the button. The button on the back of the stand will pop out indicating that the stand is unlocked.
