**Mobile chair  
Fully upholstered**

Loop master stitch with handle  
Four weight-activated self-locking casters

Loop Master Stitch Specification: The thread color must be specified. Reference Mitt/Stitching on [bernhardtdesign.com](http://bernhardtdesign.com) for color options. The same thread color will be used for the chair and handle.

Standard handle is the same fabric or leather as the chair. Yardage for the handle is included in yardage requirements.

The contrasting handle is a different fabric or leather than the chair. For contrasting handle, the following yardage must be used. Specify the fabric or leather application by designating the appropriate letter on the purchase order. Yardage shown must be used.

- A) One fabric or leather for chair  
yardage: 4.5 yds.      leather: 57 sq. ft.
- C) One fabric or leather for 1 - 5 handles  
yardage: 1.0 yds.      leather: 20 sq. ft.

**Becca Seating System Specification Guide**

**Standard Features**

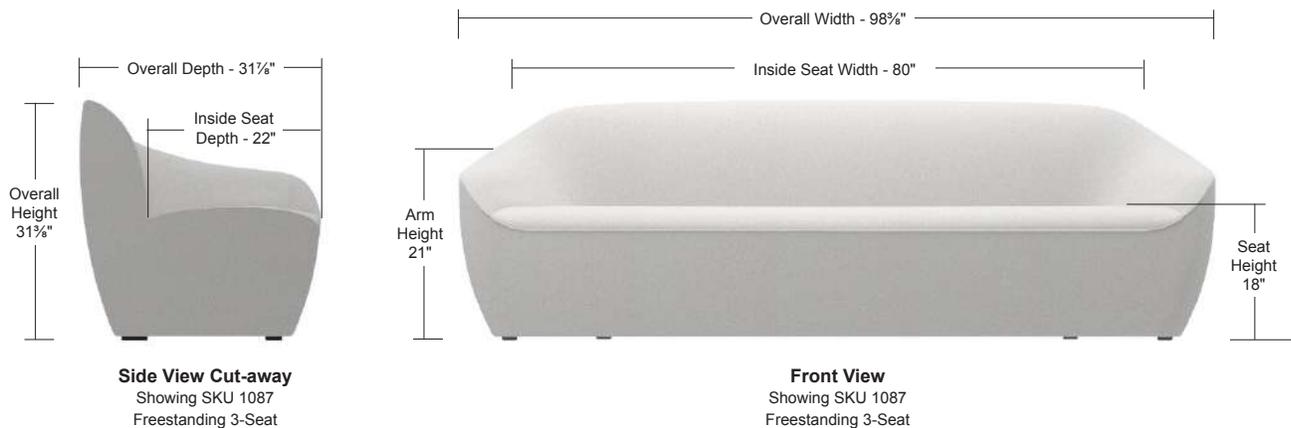

The Becca Lounge Collection is fully upholstered and includes 6 freestanding skus and 14 unique modules. Becca freestanding units come with non-leveling guides. The Becca modular units come with leveling non-marring glides.

Modules can be used interchangeably to create a variety of configurations. The Becca modules can only be used in conjunction with other Becca modules and are not intended to be used as freestanding units. All necessary ganging brackets are included and pre-installed.

All COM/COL fabrics must be preapproved by Bernhardt Design prior to application. SCS Indoor Advantage™ Gold and LEVEL® 2 certified. See terms and conditions for additional environmental information.

When ordering multi-item configurations, please provide the total COM yardage from the same dye lot in a continuous roll(s).

Please visit [Bernhardtdesign.com](http://Bernhardtdesign.com) for a complete library of 2D, 3D and Revit models. You may also contact your local sales representative or the Bernhardt Design corporate office for specification assistance.

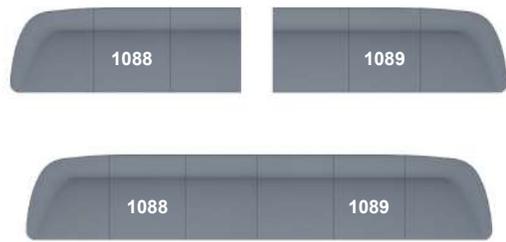

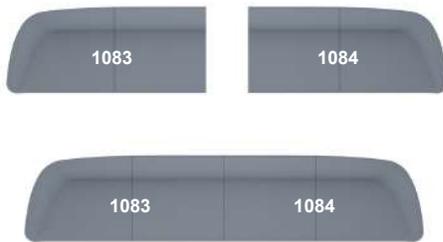

## Product Selection

Becca modules can be used interchangeably to create a variety of modular options. A left and right arm module is required for all configurations. Specify a connecting module when a 45° or 90° angle is needed. All modules are available in fabric or leather. **Becca modules may not be used as a freestanding unit.** See modular options below.

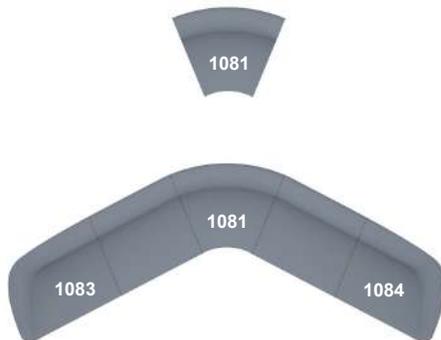

### A. Arm Modules

All Becca configurations must include a left and right arm module for the ends of the configuration. All modules are available in fabric or leather. Left and right arm modules may not be used as a freestanding unit.

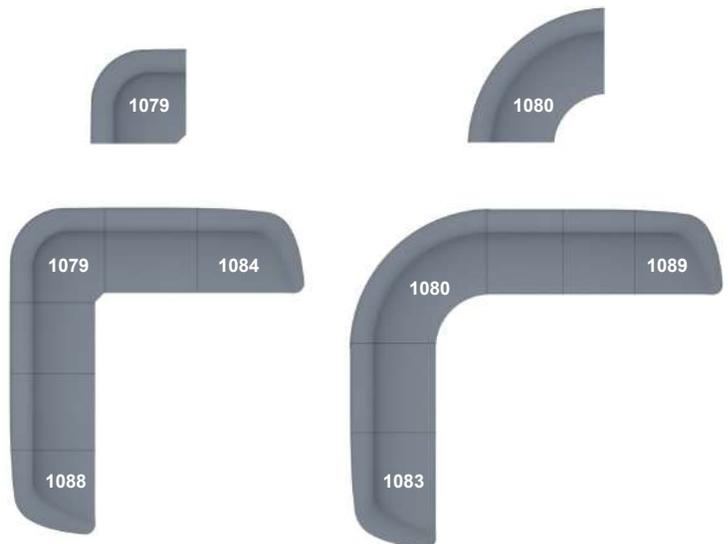

### B. 45° Connecting Modules

45° connecting modules are used in conjunction with the left and right arm modules. Connecting modules may not be used at the end of a configuration or as a freestanding unit.

### C. 90° Connecting Modules

90° connecting modules are used in conjunction with the left and right arm modules. Connecting modules may not be used at the end of a configuration or as a freestanding unit.

Casino Seating System Specification Guide

Standard Features

Casino is a modular seating system comprised of eleven unique modules which may be used interchangeably to create an unlimited number of configurations. All Casino configurations must include an end module on each end of the configuration.

Casino is fully upholstered with leveling non-marring glides. All COM/COL fabrics must be preapproved by Bernhardt Design prior to application. When ordering multi-item configurations, please provide the total COM yardage from the same dye lot in a continuous roll(s).

All necessary ganging brackets are included and pre-installed.

SCS Indoor Advantage™ Gold and LEVEL® 2 certified. See terms and conditions for additional environmental information

Please visit [Bernhardtdesign.com](http://Bernhardtdesign.com) for a complete library of 2D, 3D and Revit models. You may also contact your local sales representative or the Bernhardt Design corporate office for specification assistance.

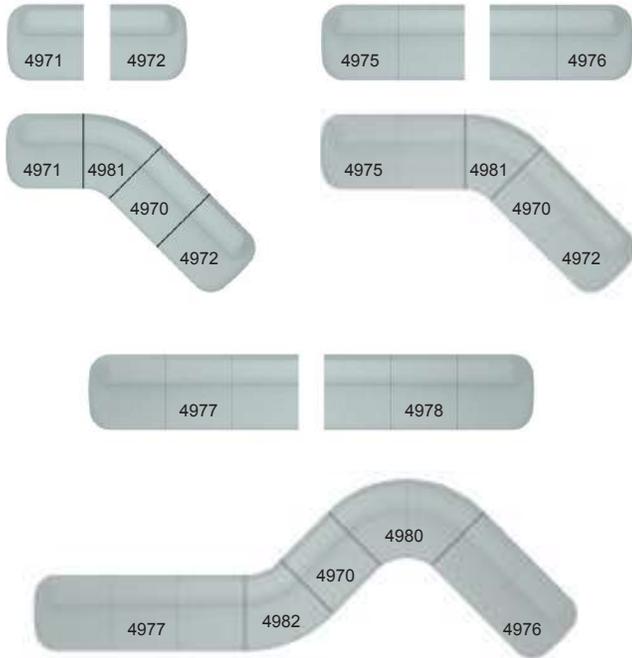

**Product Selection**

Casino modules can be used interchangeably to create a variety of modular options. An end module is required for all configurations. Specify a connecting module when a 45° or 90° angle is needed. **Casino modules may not be used as a freestanding unit.** See modular options below.

**A. End Modules**

All Casino configurations must include an end module on each configuration. All modules are available in fabric or leather. End modules can not be used as freestanding units.

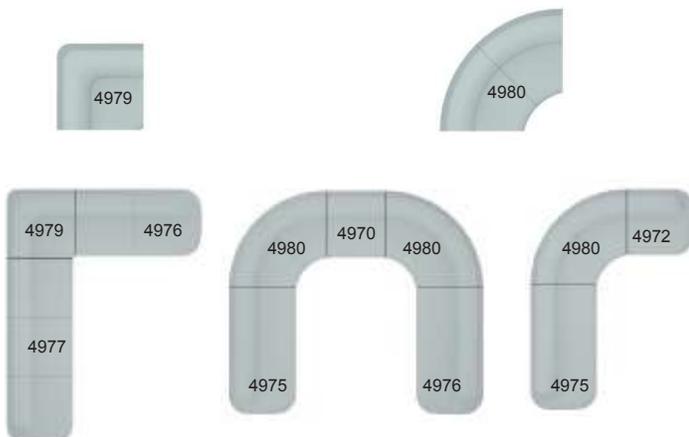

**B. 45° Connecting Modules**

45° connecting modules are used in conjunction with end modules. Connecting modules may not be used at the end of a configuration or as a freestanding unit.

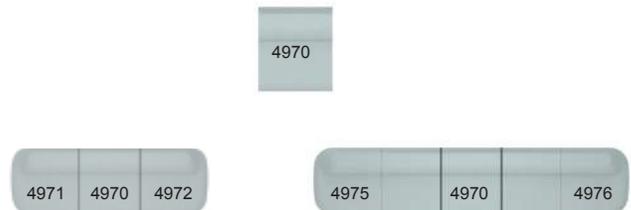

**C. 90° Connecting Modules**

90° connecting modules are used in conjunction with end modules. Connecting modules may not be used at the end of a configuration or as a freestanding unit.

**D. Straight Connecting Module**

Connecting modules are used in conjunction with end modules. Straight connecting modules may not be used at the end of a configuration or as a freestanding unit.

## Cinema Seating System Specification Guide

### Standard Features

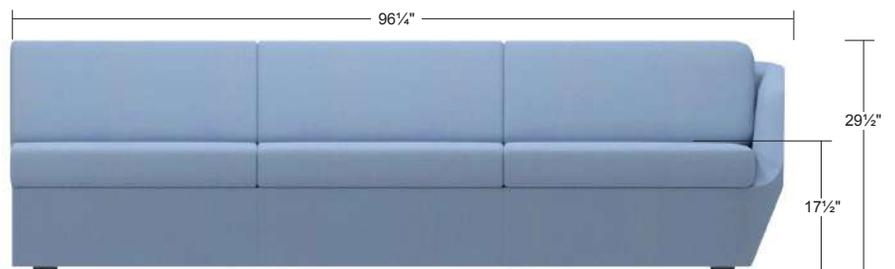

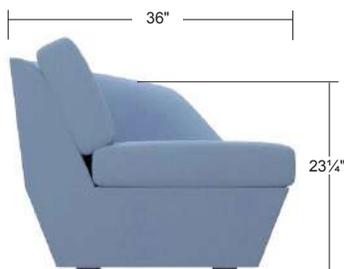

Cinema is a modular seating product comprised of 15 unique modules which may be used interchangeably to create an unlimited number of configurations.

Cinema is fully upholstered with leveling non-marring glides. When ordering multi-item configurations, please provide the total COM yardage from the same dye lot in a continuous roll(s).

All necessary ganging brackets are included and pre-installed.

SCS Indoor Advantage™ Gold and LEVEL® 2 certified. See terms and conditions for additional environmental information.

Please visit [BernhardtDesign.com](http://BernhardtDesign.com) for a complete library of 2D, 3D and Revit models. You may also contact your local sales representative or the Bernhardt Design corporate office for specification assistance.

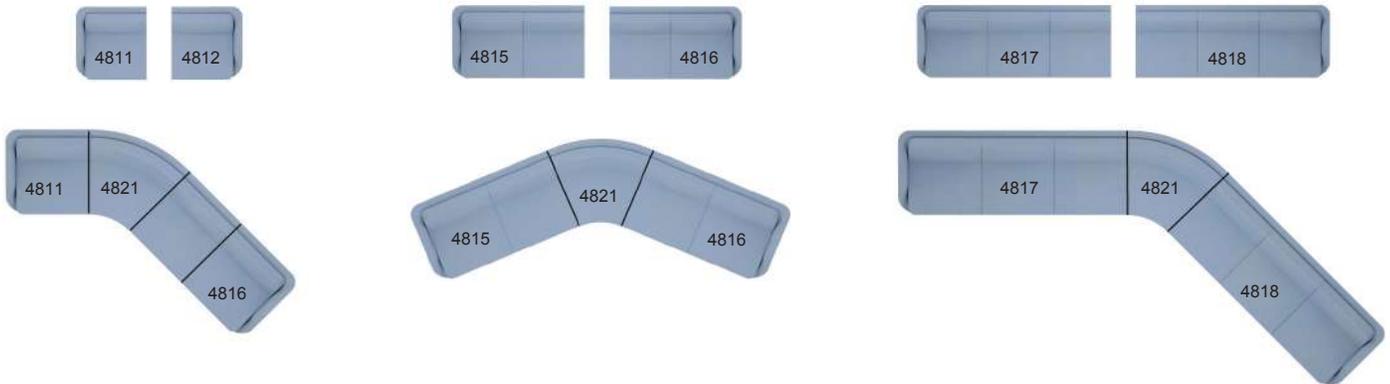

**Product Selection**

Cinema modules can be used interchangeably to create a variety of modular options. A left and right end module is required for all configurations. Specify a connecting module when a 45°, 67.5° or 90° angle is needed. All modules are available in fabric or leather. **Cinema modules may not be used as a freestanding unit.** See modular options below.

**A. Arm Modules**

All Cinema configurations must include a left and right arm module for the ends of the configuration. Arm modules may not be used as a freestanding unit.

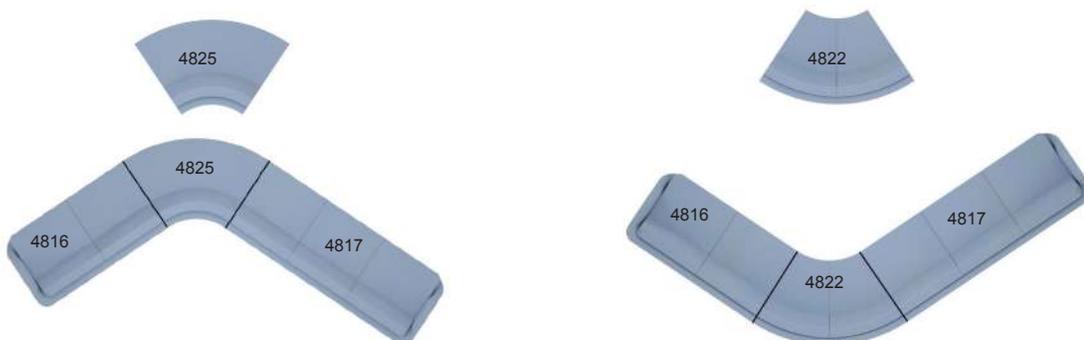

**B. 45° Connecting Modules**

45° Connecting modules are used in conjunction with arm modules. Connecting modules may not be used at the end of a configuration or as a freestanding unit.

**C. 67.5° Connecting Modules**

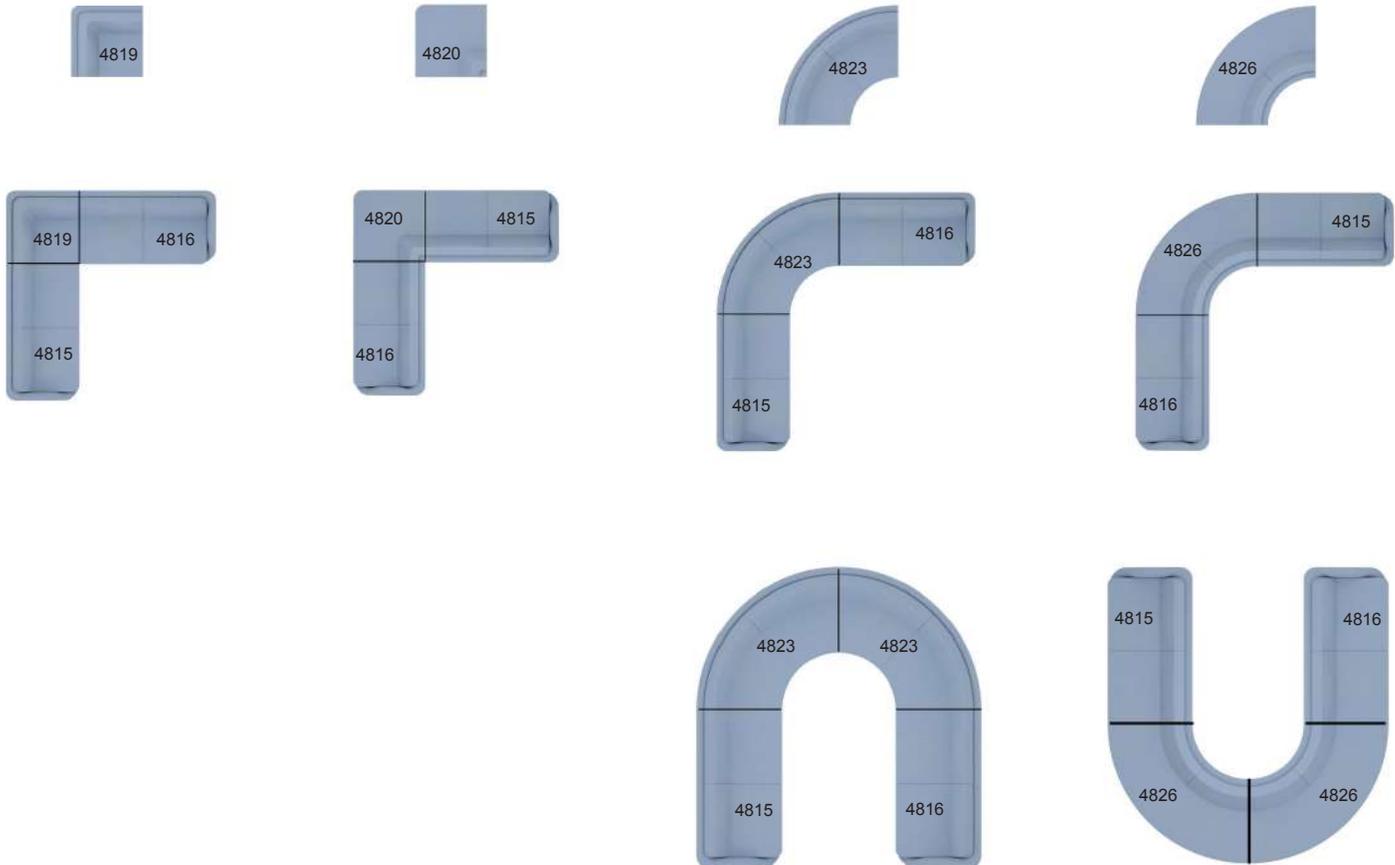

67.5° Connecting modules are used in conjunction with arm modules. Connecting modules may not be used at the end of a configuration or as a freestanding unit.

### Cinema Seating System Specification Guide

#### D. 90° Connecting Arm Modules

90° Connecting modules are used in conjunction with arm modules. Connecting modules may not be used at the end of a configuration or as a freestanding unit.

#### E. Straight Connecting Modules

Connecting modules are used in conjunction with arm modules. Connecting modules may not be used at the end of a configuration or as a freestanding unit.

Code Seating System Specification Guide

Standard Features

Code is a seating system designed to provide privacy and create landscapes in open spaces. The system includes modular units which can be combined to create expanded sofas, U-Shaped and L-Shaped configurations. Individual freestanding privacy units are also available, as well as conventional chairs, settees and sofas. When ordering multi-item configurations, please provide the total COM yardage from the same dye lot in a continuous roll(s).

Privacy walls are attached to the seat prior to shipping. **Verify that the assembled sku are within size requirements for delivery (elevators, hall intersections, stairwells, etc.).**

SCS Indoor Advantage™ Gold and LEVEL® 2 certified. See terms and conditions for additional environmental information.

Visit [BernhardtDesign.com](http://BernhardtDesign.com) for installation instructions as well as a library of 2D, 3D and Revit models. You may also contact your local sales representative or the Bernhardt Design corporate office for specification assistance.

## Code Seating System Specification Guide

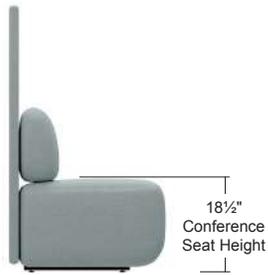

### Seat Height Selection

Code units are available in two seat heights.  
 Standard seat height: 16½" and Conference seat height: 18½".  
 Product numbers ending with the suffix C are Conference height.

**Standard Seat Height**

**Conference Seat Height**

### Wall Selection

Code privacy walls are available in two different models. Standard walls afford maximum privacy. Angled walls are lighter in appearance and provide improved seating access when used in a banquet application.

## Colours Seating System Specification Guide

### Standard Features

Colours is a modular seating product comprised of 13 unique modules which may be used interchangeably to create an unlimited number of configurations. To select the modules that are appropriate for your application use the guide below.

Colours is fully upholstered with saddle stitch detailing. Fabric and vinyl applications will be railroaded. Leather will incorporate saddle stitch seams on the top panel.

When ordering multi-item configurations, please provide the total COM yardage from the same dye lot in a continuous roll(s). Non-marring glides with vinyl sleeves prevent the units from sliding on smooth surfaces.

Due to the organic shapes, the dimensions can vary depending on the orientation of the product. Therefore, a maximum dimension is provided in the price list information. The 2D models provide dimensioned drawings of Colours. Consult [Bernhardtdesign.com](http://Bernhardtdesign.com) for a complete library of 2D, 3D and Revit models.

SCS Indoor Advantage™ Gold and LEVEL® 2 certified. See terms and conditions for additional environmental information.

Please visit [Bernhardtdesign.com](http://Bernhardtdesign.com) for a complete library of 2D, 3D and Revit models. You may also contact your local sales representative or the Bernhardt Design corporate office for specification assistance.

friends lounge modular seating collection

## Friends Seating System Specification Guide

### Standard Features

Friends is an upholstered modular seating system comprised of 35 unique modules which can be used interchangeably to create an unlimited number of configurations. The collection includes freestanding, two-seat, three-seat, corner and connecting modules that are available with and without arms. Arms are available as upholstered, solid oak or solid walnut.

The base is offered in polished aluminum or Bernhardt standard powder coat offerings and has  $\frac{5}{8}$ " diameter non-marring adjustable nylon glides on each leg.

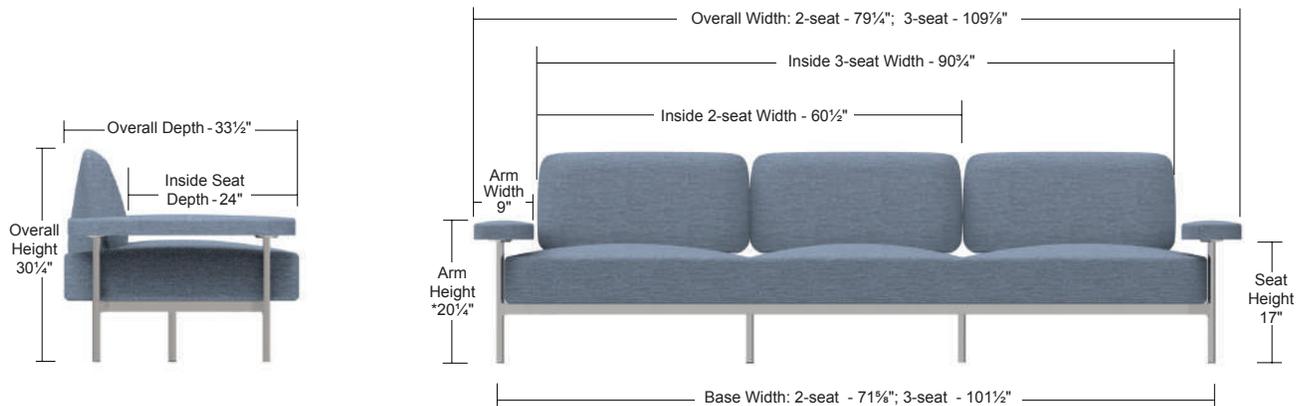

Welt is standard on the seat, back and upholstered arms. All COM/COL fabrics must be preapproved by Bernhardt Design prior to application.

When ordering configurations, please provide the total COM yardage from the same dye lot in a continuous roll(s).

All configurations are connected by pre-installed ganging brackets.

Friends is SCS Indoor Advantage™ Gold certified. See terms and conditions for additional finish and environmental information.

Please visit [BernhardtDesign.com](http://BernhardtDesign.com) for a complete library of 2D, 3D and Revit models. You may also contact your local sales representative or the Bernhardt Design Corporate Office for specification assistance.

## Harmony Seating System Specification Guide

### Standard Features

Harmony is an extensive seating platform which allows you to design your own product. You can easily personalize pieces to create different looks within a space.

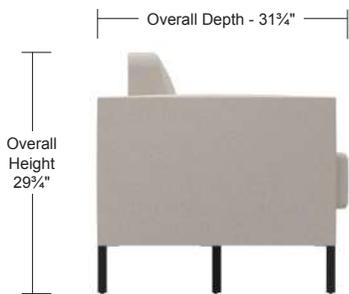

Customization is made easy by following a simple menu of options including: style, scale, cushion type, cushion stitching options, fabric application and leg design. The collection of chairs, sofas, benches and modular units are available in three distinctive styles - Classic, Tuxedo and Luxe, and two scales - Standard and Grande. Two cushion types are offered, along with five unique stitching details and twenty-five leg choices. A standalone compact chair is also offered in classic and tuxedo styles.

All necessary ganging brackets are included and pre-installed. When ordering multi-item configurations, provide the total COM yardage from the same dye lot in a continuous roll(s).

Harmony's 11,176 options present endless design possibilities.

Harmony is SCS Indoor Advantage™ Gold and LEVEL® 2 certified. See terms and conditions for additional environmental information.

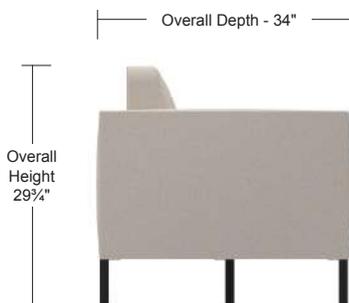

Please visit [Bernhardtdesign.com](http://Bernhardtdesign.com) for a complete library of 2D, 3D, and Revit models. You may also contact your local sales representative or the Bernhardt Design Corporate office for specification assistance.

## Harmony Specification Guide

The next pages provide an overview of Harmony as well as a guide for ordering. Use these steps below to create your custom design.

1. Select your style: Classic or Luxe
2. Select your scale: Grande, Standard or Compact
3. Select the product
4. Select cushion type: Radius or Square
5. Select cushion stitching option
6. Select fabric or leather application
7. Specify leg shape and material. Choose either metal leg/metal finish code or wood leg/wood species. When specifying wood leg make sure to also specify the wood finish code.

holden lounge modular seating collection

## Holden Seating System Specification Guide

### Standard Features

The Holden modular seating system is comprised of 13 skus that can be used in multiple ways to create unique seating environments. Included within the collection are two freestanding skus and 11 connecting modules. Freestanding options are not available for the connecting modules.

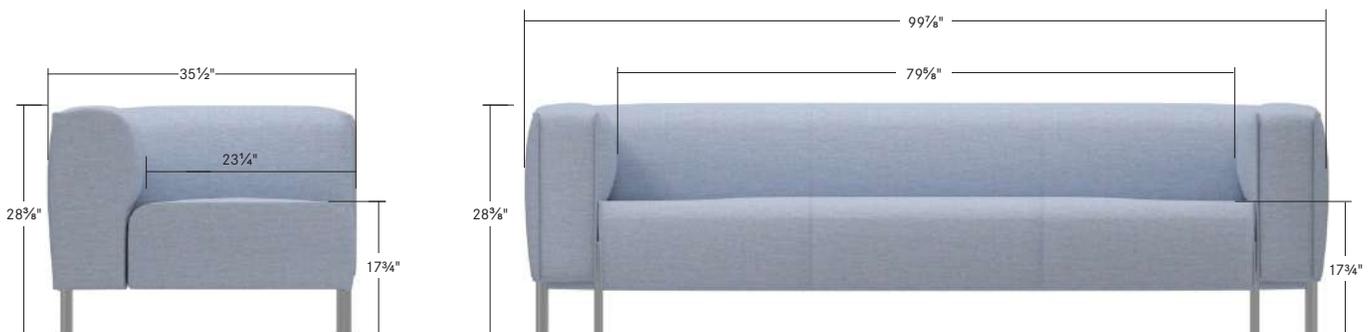

Holden is upholstered and features polished aluminum legs that are available in all Bernhardt standard powder coat finishes. Each unit comes standard with a non-marring leveler pre-installed.

Module configurations connect via a ganging bracket and a load bearing bracket for ease of installation and added support. The ganging bracket and load bearing bracket come pre-installed.

All COM/COL fabrics must be preapproved by Bernhardt Design prior to application. When ordering configurations, please provide the total COM yardage from the same dye lot in a continuous roll(s).

Holden is SCS Indoor Advantage Gold certified. See terms and conditions for additional finish and environment information.

Please visit [Bernhardtdesign.com](http://Bernhardtdesign.com) for a complete library of 2D, 3D and Revit models. You may also contact your local sales representative or the Bernhardt Design corporate office for specification assistance.

**Side View Cut Away**  
Showing SKU 6157  
Three-seat Freestanding

**Front View**  
Showing SKU 6157  
Three-seat Freestanding

**Connecting Modules**

Holden features 11 connecting modules that connect via a pre-installed ganging bracket and a load bearing bracket to help with assembly. The load bearing bracket is part of what we call the Leg Configuration, which also includes 2 legs.

When connecting two modules, one module must contain a leg configuration, and the second module must have an open end with no legs on the open end. The leg configuration end is then pushed together with the open end, the ganging bracket and load bearing bracket positioned and secured with bolts.

Examples below show modules with the leg configuration and modules with open ends that together form a modular configuration.

## Item Seating System Specification Guide

### Standard Features

The Item modular seating system contains ten modules that were designed to create freeflowing design configurations. Item modules twist, rise and fall in their design creating a final assembly sculptured from both the plan and elevation views.

Modular heights range from 19 $\frac{1}{8}$ " to 31 $\frac{1}{8}$ " requiring modules with corresponding heights to be paired together.

All necessary ganging brackets are included and pre-installed. When ordering multi-item configurations, please provide the total COM yardage from the same dye lot in a continuous roll(s).

Fabric on corner module will be railroaded. If modules are used in a configuration with the corner module, specify fabric railroaded.

Item is SCS Indoor Advantage™ Gold and LEVEL® 2 certified. See terms and conditions for additional environmental information.

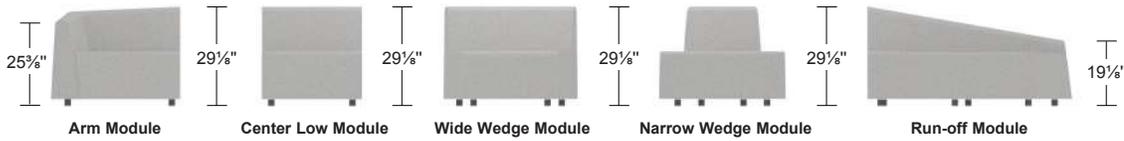

Please visit [BernhardtDesign.com](http://BernhardtDesign.com) for a complete library of 2D, 3D and Revit models. You may also contact your local sales representative or the Bernhardt Design Corporate Office for specification assistance.

### Item Seating System Product Overview

The Item product overview below shows examples of some of the different modules within the collection and their connecting heights. Item modules can only connect to another module of the same connecting height. Some

modules feature a low and high connecting side which allows for more flexibility in creating modular configurations.

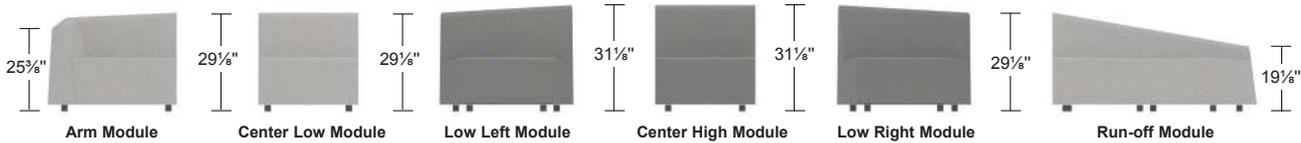

#### Low Lounge Modules - Connecting Height 29 1/8"

#### Low and Tall Transition Modules - Connecting Heights 29 1/8" and 31 1/8"

Items low and tall transition modules change in height adds to the palette of creativity that exists within the sectional group. Low and tall modules must be paired with a module with a matching height.

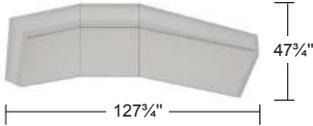

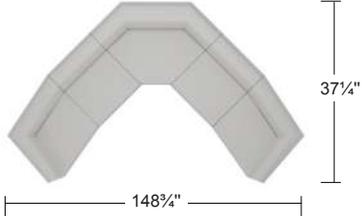

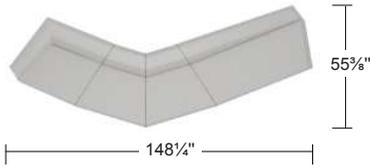

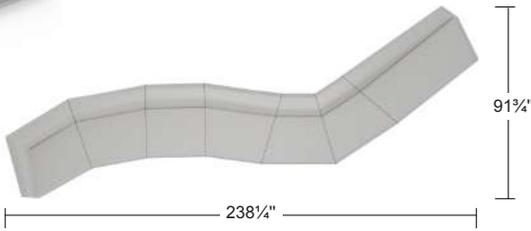

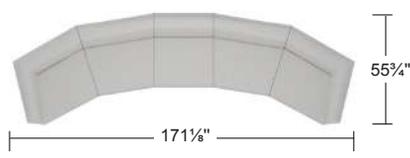

The 31 1/8" height will only pair to other 31 1/8" height modules, as the 29 1/8" height will only pair with corresponding 29 1/8" height modules. Note: Shaded modules show the tall and transitional modules.

## Luca Seating System Specification Guide

### Standard Features

Luca is a modular seating system comprised of 41 unique modules which can be used as freestanding or interchangeably to create an unlimited number of configurations. Options include freestanding benches, two-seat and three-seat modules, corner modules and seating and bench modules with end tables. End table tops are available in oak or walnut and are offered with and without power. Legs are available in one of three finishes: polished aluminum, matte black powder coat and satin white powder coat.

Luca is fully upholstered with 5/8" diameter non-marring adjustable nylon glides. When ordering configurations, please provide the total COM yardage from the same dye lot in a continuous roll(s). All COM/COL fabrics must be preapproved by Bernhardt Design prior to application. SCS Indoor Advantage™ Gold and LEVEL® 2 certified. See terms and conditions for additional finish and environmental information.corporate office for specification assistance.

Configurations are connected by a ganging bracket. Ganging brackets are sold separately and will ship with product. See the Luca lounge-modular accessories page for ordering information.

Please visit [Bernhardtdesign.com](http://Bernhardtdesign.com) for a complete library of 2D, 3D and Revit models. You may also contact your local sales representative or the Bernhardt Design corporate office for specification assistance.

### Leg Options

Polished Aluminum - 6

Matte Black Powder Coat - 3

Satin White Powder Coat - W

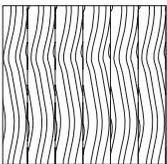

**Table Options**

**C Oak**

Order Code - C  
Rift Cut

**9 Walnut**

Order Code - 9  
Flat Cut

A three-character sku identifies each wood veneer option as well as standard finishes. Base and top finishes are specified separately. When selecting light finishes such as 836, 837, 840, or 870, the color and characteristic variances of the wood veneer are apparent, and exact color matches are not possible.

**C Oak**

**Edge Profile**

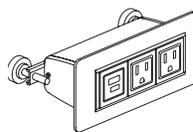

**Surface Mount Power Modules**

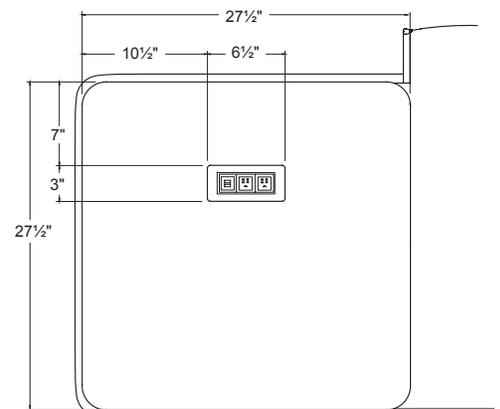

Luca offers a proprietary surface mount power solution which is installed flush to the worksurface and provides (2) 15 amp receptacles and (1) 2 amp USB-A port and (1) 2 amp USB-C port. The unit has a 10' infeed with a grounded plug. Power module finish is determined by leg finish selection.

**Power Module**  
Black Finish

- (2) 120 v 60 Hz. 15 amp receptacles
- (1) 2 amp USB-A port, 10 watt
- (1) 2 amp USB-C port, 20 watt
- 6½" w x 3" d x 2¾" h

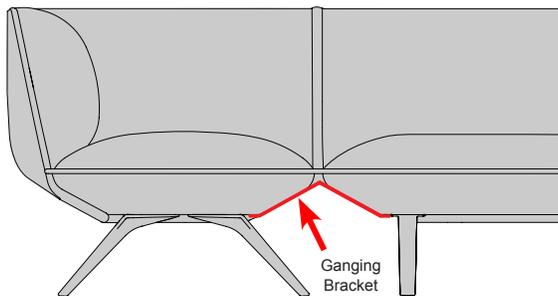

## Connecting Modules

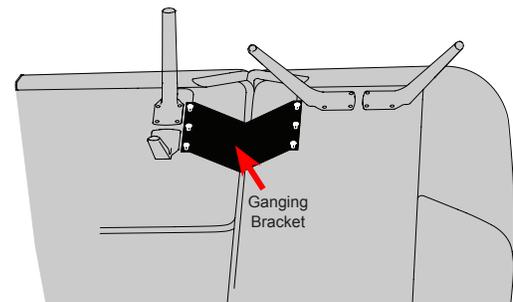

Luca modules connect by attaching a ganging bracket to the underside of the furniture. Order one ganging bracket per point of connection of modular units. Ganging brackets are sold separately and will ship with product.

To connect the modules together insert the three fasteners into the inserts at the location each module is desired to be connected. Push modules together in desired location.

Leave 1/4" between head of fastener and upholstery. Fit bracket over heads of fasteners and slide bracket to lock fasteners into keyhole slots cut into fastener. Tighten fasteners against bracket.

Ganging bracket is concealed behind flange and is not visible when looking at the sofa.

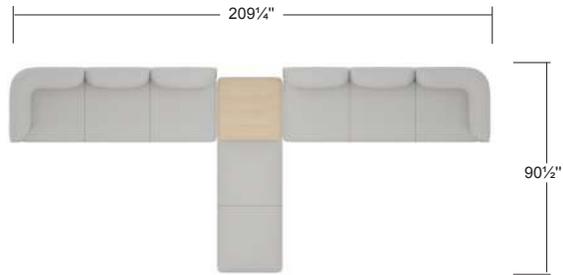

Under side view of the ganging bracket placement

## Mirador Seating System Specification Guide

### Standard Features

Mirador is a modular seating product comprised of 63 unique modules, which may be used interchangeably to create an unlimited number of configurations. To select the modules that are appropriate for your application use the Four Step Selection Process shown on the next page.

Mirador is fully upholstered with a polished cast aluminum frame with levelers and non-marring glides.

When ordering multi-item configurations, please provide the total COM yardage from the same dye lot in a continuous roll(s). \*All COM/COL fabrics must be preapproved by Bernhardt Design prior to application.

See terms and conditions for instructions on tagging COM. Specify fabric railroaded when used with Item 5905 corner module.

All necessary ganging brackets are included and pre-installed.

SCS Indoor Advantage™ Gold and LEVEL® 2 certified. See terms and conditions for additional environmental information.

Please visit [Bernhardtdesign.com](http://Bernhardtdesign.com) for a complete library of 2D, 3D and Revit models. You may also contact your local sales representative or the Bernhardt Design corporate office for specification assistance.

## Mirador Seating System Specification Guide

### Four Step Selection Process

To specify Mirador configurations follow our Four Step Selection process.

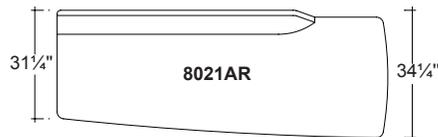

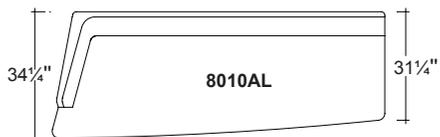

The process includes;

1. Front Selection
2. Arm Selection
3. End Selection
4. Connecting Module Selection

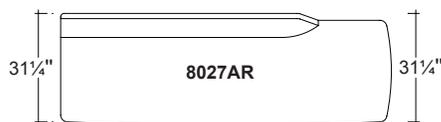

### Step 1 - Front Selection

Two and Three-seat modules offer two different front styles.

#### A - Flared Front

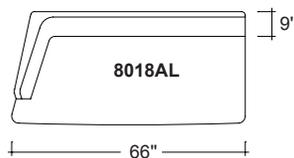

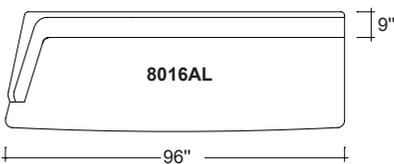

#### B - Non-Flared Front

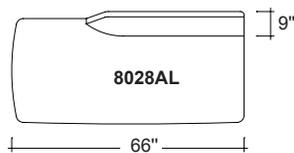

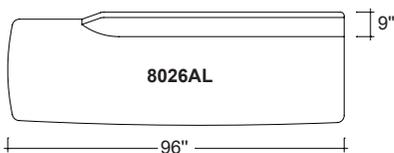

### Step 2 - Arm Selection

Two and Three-seat modules are available with and without arms.

#### A - Arm Module

#### B - Armless Module

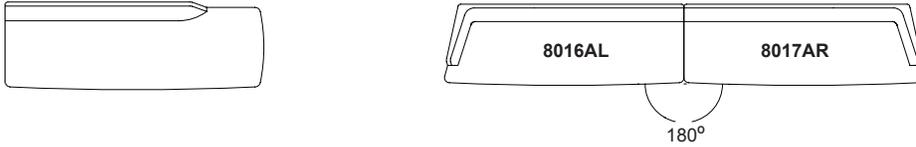

### Mirador Seating System Specification Guide

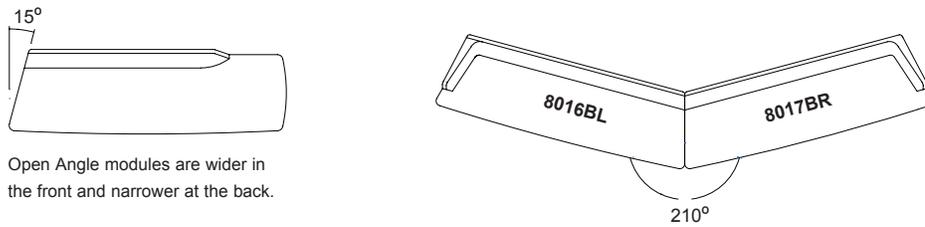

#### Step 3 - End Selection

Two and Three-seat modules are available with three unique ends: straight end, open angle end and closed angle end.. The selection of an end is used to achieve different angles

**A - Straight Ends** are specified for creating a configuration in a straight line 180°.

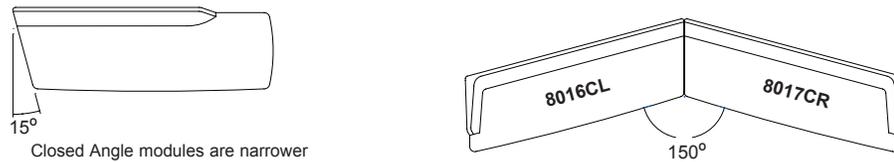

**B - Open Angle Ends** are specified for opening up a configuration and achieving an angle which is greater than 180°.

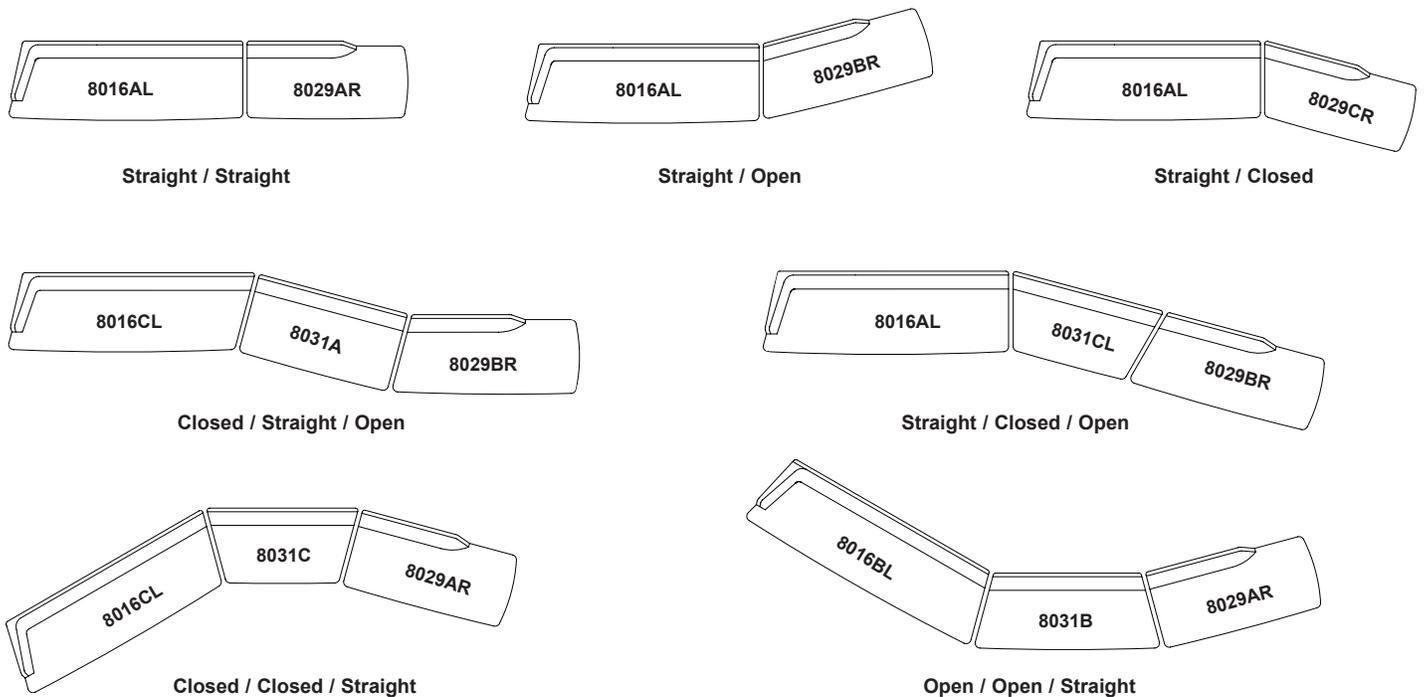

Open Angle modules are wider in the front and narrower at the back.

**C - Closed Angle Ends** are specified for closing up a configuration and achieving an angle which is less than 180°.

Closed Angle modules are narrower in the front and wider at the back.

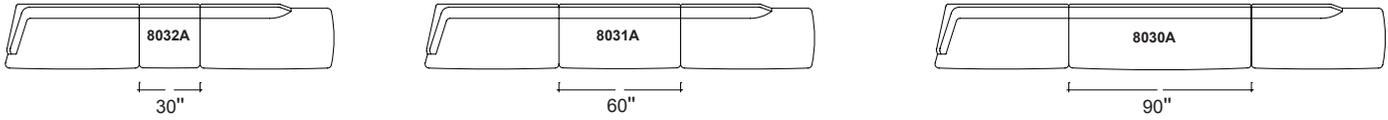

Modules with different end conditions may be connected to achieve the appropriate angle.

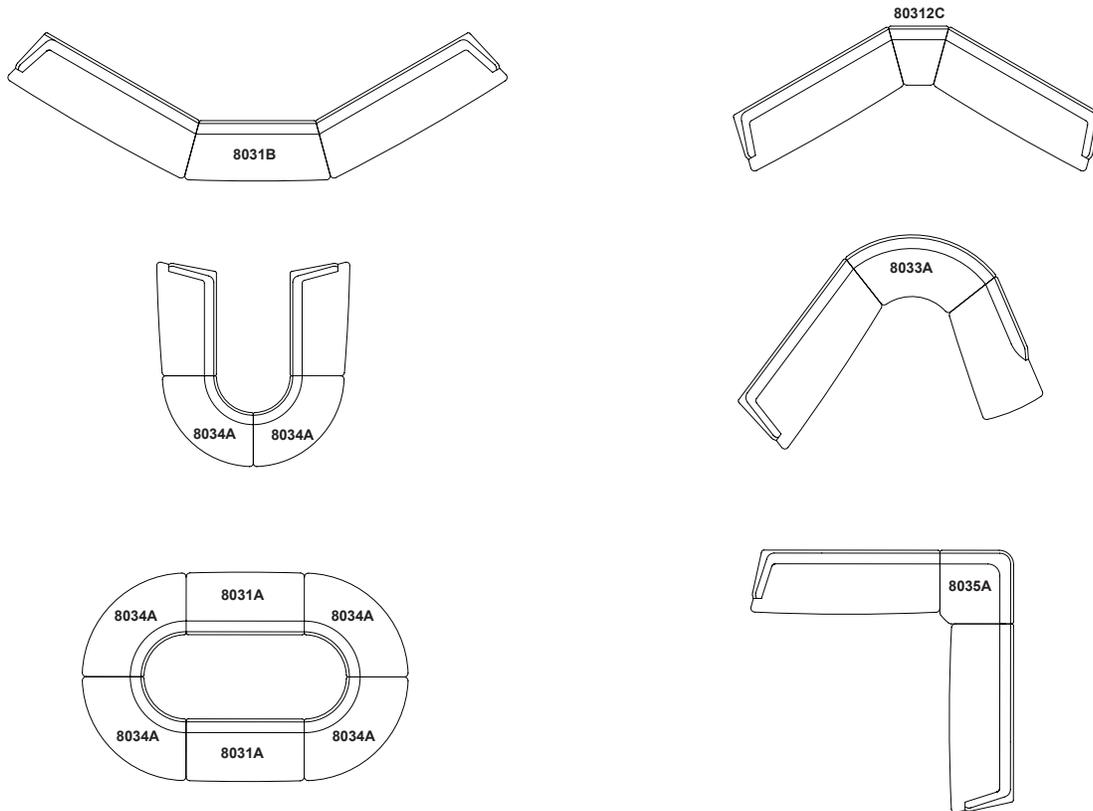

**Mirador Seating System Specification Guide**

**Step 4 - Connecting Module Selection**

A - Specify these connecting modules to achieve a desired length. - Or - For a desired length, specify these connecting modules.

B - Specify these connection modules to achieve a desired angle. - or - For a desired angle, specify these connecting modules.

**Connecting module overview: There are twelve unique connecting modules available to alter both the length and the angle of a configuration.**

**Straight Connecting Modules**

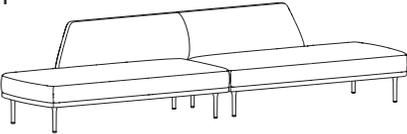

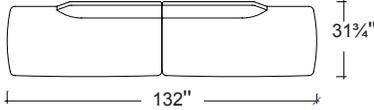

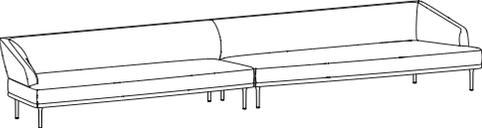

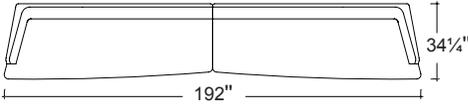

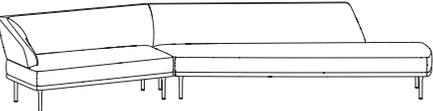

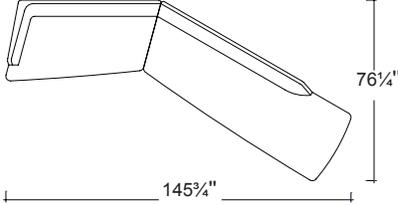

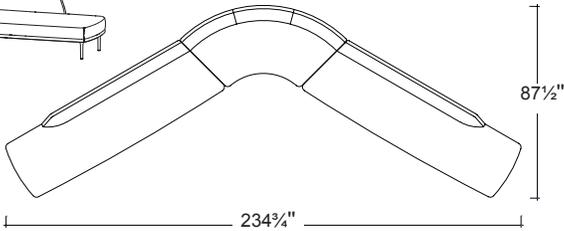

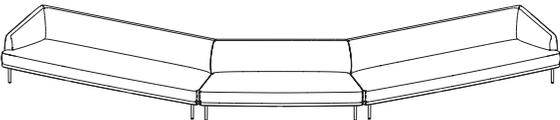

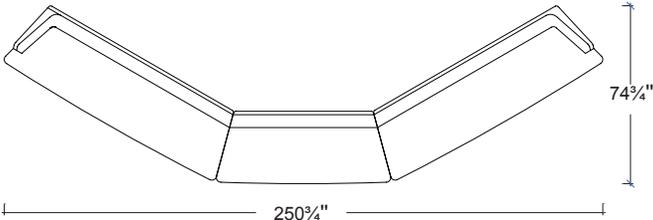

**Open Angle Connecting Modules**

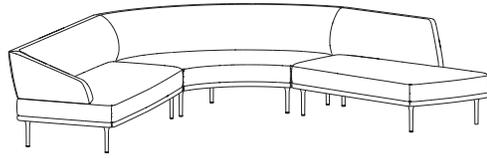

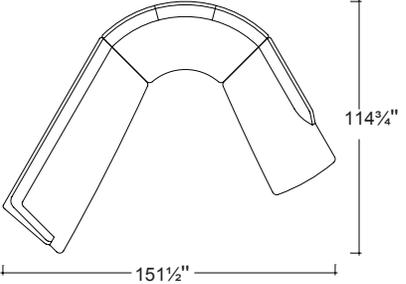

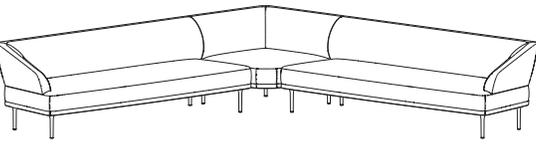

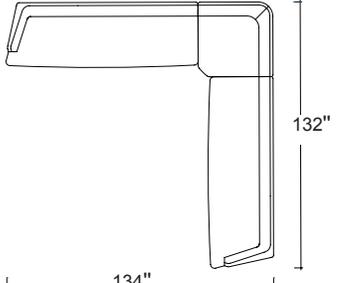

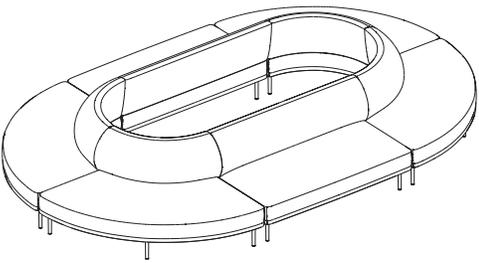

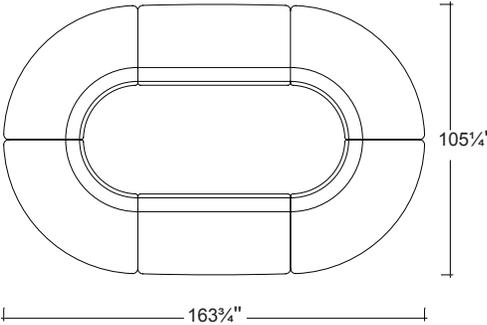

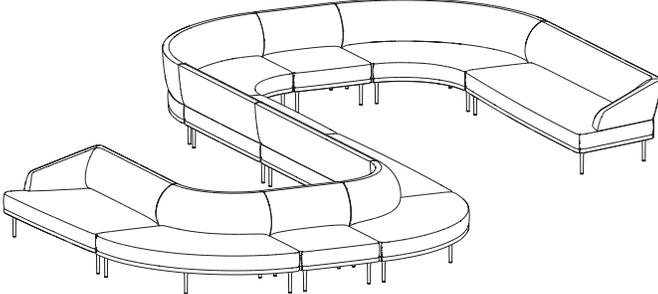

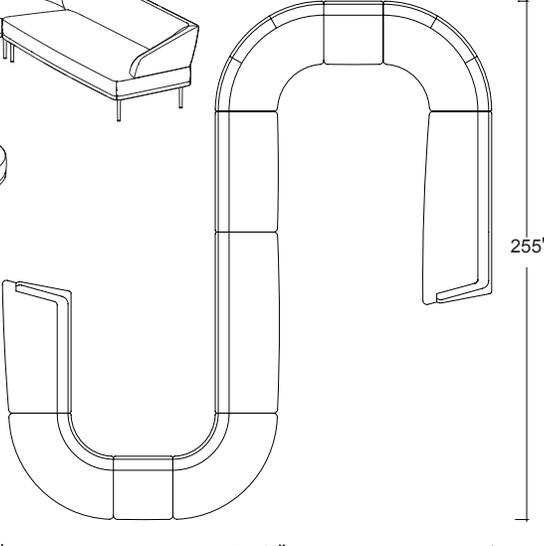

**Closed Angle Connecting Modules**

## Neighborhood Seating System Specification Guide

### Standard Features

Neighborhood is a modular seating and table system consisting of thirty-nine unique modules for use in creating an unlimited number of configurations. Options include single sided, double sided and privacy modules as well as freestanding modules for use with any configuration. To select modules appropriate for your application use the scope of line shown on the following pages.

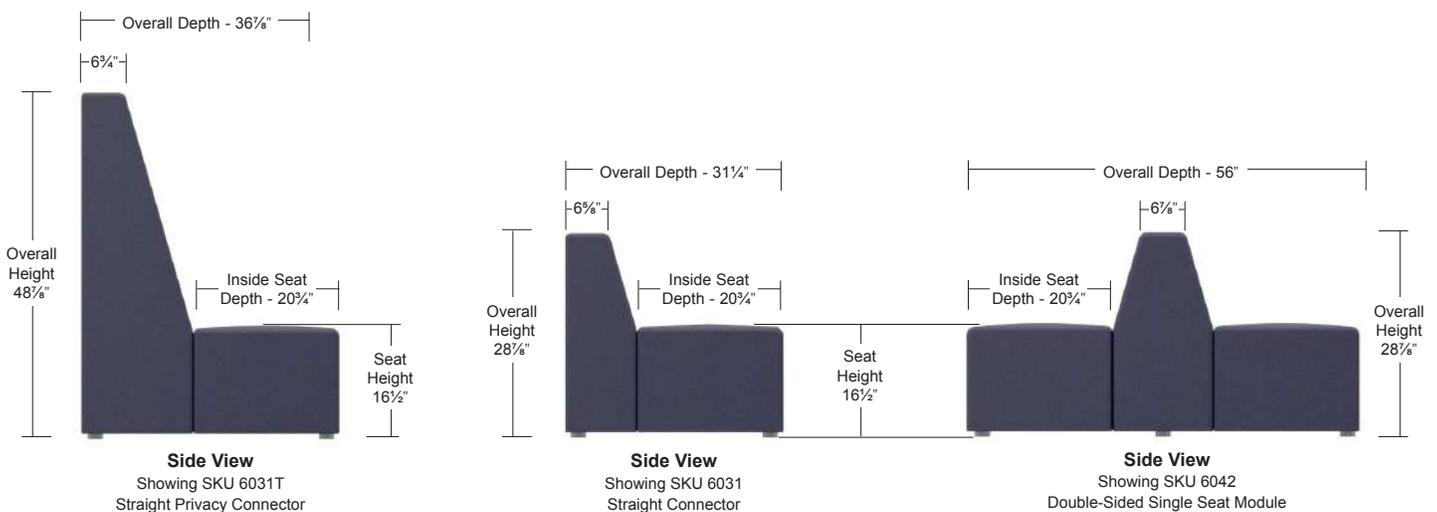

Neighborhood tables are available with worksurfaces in oak veneer in a variety of standard finishes, designer white laminate, or glacier white corian® as connecting modules and freestanding units. Power + USB duplex options are available.

Pivoting connectors join units in a configuration. When rotated inward, connectors are concealed allowing the modules to be used independently.

When specifying the privacy modules, please verify that the specified sku is within size requirements for delivery (elevators, hall intersections, doorways, stairwells).

Neighborhood is SCS Indoor Advantage® Gold and LEVEL® 2 certified. See terms and conditions for additional finish and environmental information.

Visit [Bernhardtdesign.com](http://Bernhardtdesign.com) for a complete drawing library of 2D, 3D and Revit models. You may also contact your local sales representative or the Bernhardt Design corporate office for specification assistance.

## Upholstery Specification Guide

The Neighborhood seating and table modules are fully upholstered with a saddle stitch or a jump master stitch. Thread color must be specified for the jump master stitch.

Reference Neighborhood/Stitching on [BernhardtDesign.com](http://BernhardtDesign.com) for thread color options available for jump master stitch only.

Leather may be specified for single sided, double sided and table modules. Leather is not applicable on privacy modules. Approved leather alternatives or fabric may be used on all Neighborhood frames.

When ordering multi-item configurations, please provide the total COM yardage from the same dye lot in a continuous roll(s).

**Saddle Stitch**

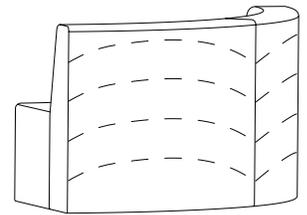

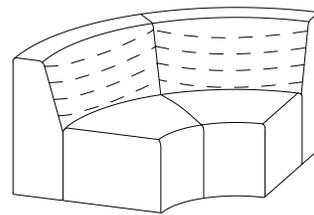

**Jump Master Stitch**

## COM/COL Preapproval Requirements

When specifying stripes or fabrics with linear grain, the curvature of certain frames may affect the pattern alignment. As a result, the COM/COL preapproval procedure requires  $\frac{1}{2}$  yard of fabric or leather alternative, or 1 sq. ft. leather to be submitted for testing for prior approval on all frames except mobile seating, freestanding ottomans, benches and tables.

Preapproval procedure for testing COM/COL for mobile seating, freestanding ottomans and benches, and all tables requires the standard 12" x 12" sample. Reference the terms and conditions for COM/COL approval procedures.

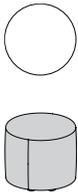

**Pattern Alignment When Specifying Directional Grain Fabric**

**Neighborhood Seating System Specification Guide**

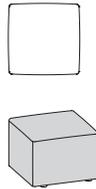

**A. Mobile Seating**

Mobile modules have non-locking casters and are used as freestanding units. The mobile lounge 6030M has a brushed aluminum handle located mid-back.

**Neighborhood Seating System Specification Guide**

**D. Single Sided Modules**

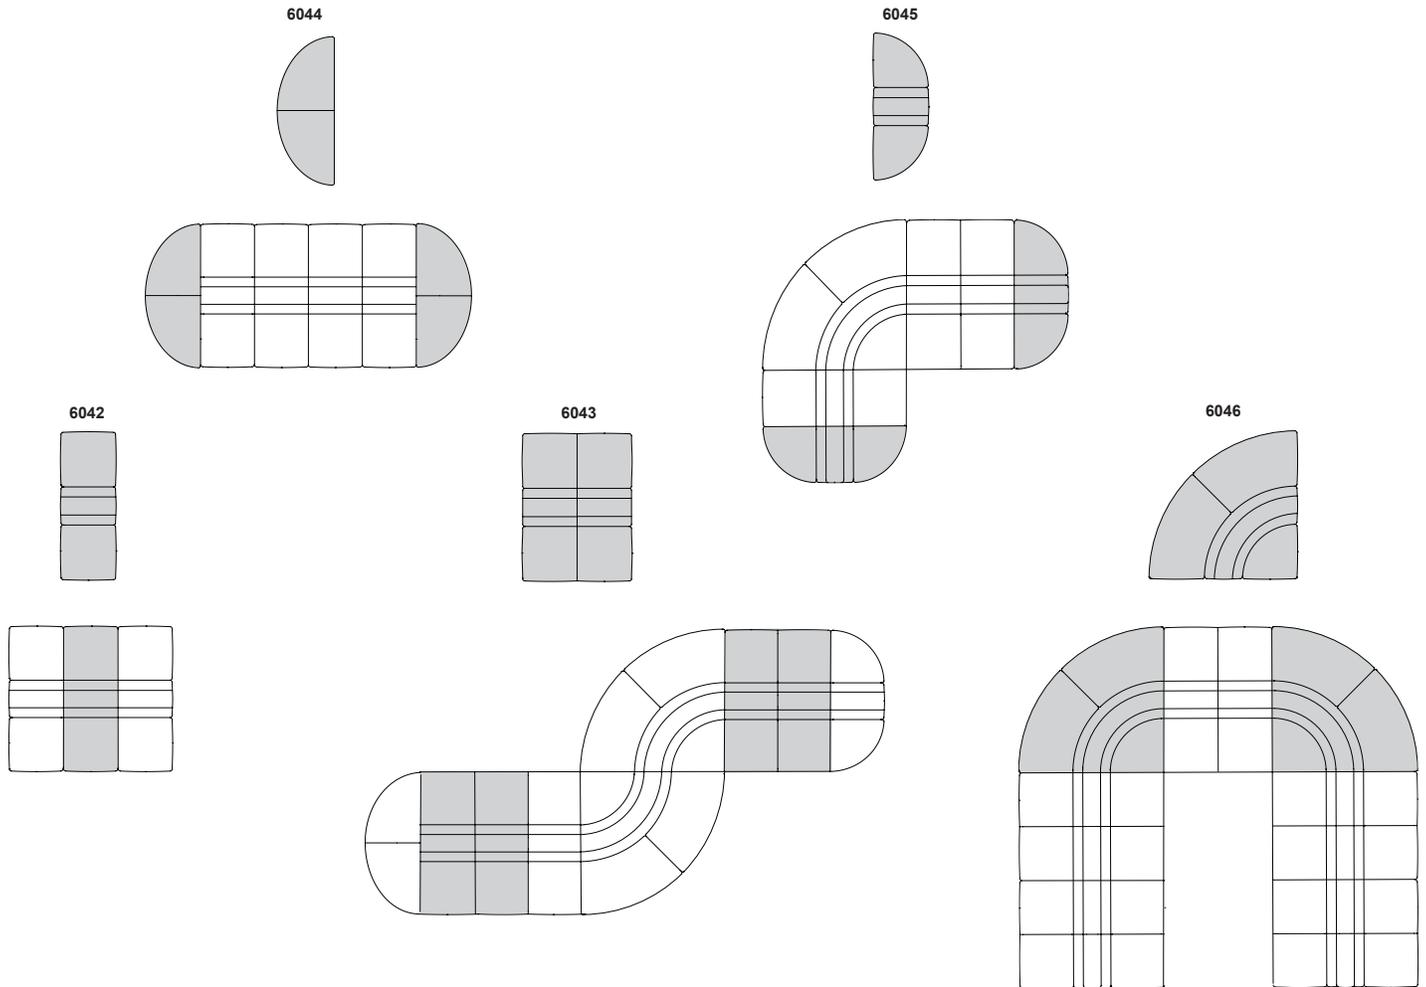

Single sided connecting modules are used in conjunction with other single sided modules to create seating configurations. Single sided units may not be used with double sided units or privacy units.

**Neighborhood Seating System Specification Guide**

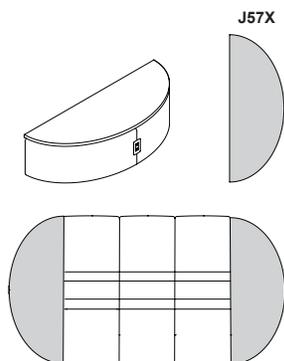

**F. Double-Sided Modules**

Double-sided connecting modules are used in conjunction with other double-sided modules to create seating configurations. Double-sided units may not be used with single sided units or privacy units.

**G. Tables for Double-Sided Connecting Modules**

Double-sided connecting module tables are used in conjunction with double-sided seating modules. A power/USB option is available on double-sided connecting tables.

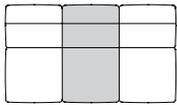

**Neighborhood Seating System Specification Guide**

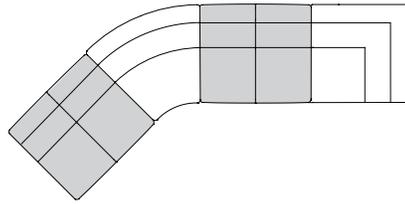

**H. Privacy Modules**

Privacy connecting modules are used in conjunction with other privacy modules to create seating configurations. Privacy units may not be used with single or double sided units.

## Neighborhood Seating System Specification Guide

### Tables for Freestanding and Connecting Modules

Neighborhood tables were designed for use as freestanding units or with single or double-sided connecting modules to create continuous configurations. Connecting tables are not available for use with privacy modules.

The Neighborhood table worksurface is available in oak veneer, laminate or corian. Connecting tables have a flat edge profile; freestanding table edges are beveled.

The base is fully upholstered with saddle stitching or a jump master stitch. Thread color must be specified for the jump master stitch. Reference Neighborhood/Stitching on BernhardtDesign.com for thread color options. When ordering multi-item configurations, please provide the total **COM** yardage from the same dye lot in a continuous roll(s).

Power + USB modules are optional and upcharges apply. Reference information on the following page for power options specifics.

#### Freestanding Tables

#### End Tables

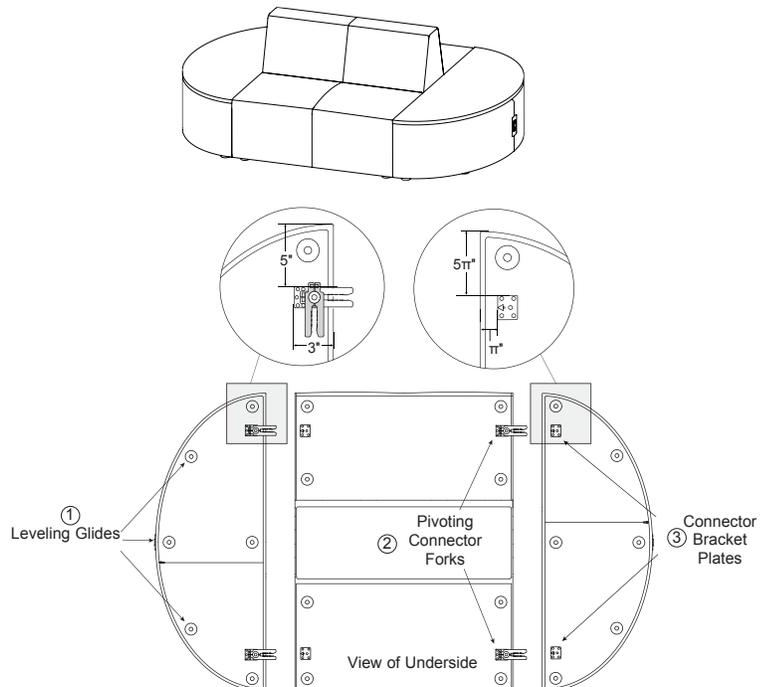

### Connecting Modules

Neighborhood modules connect by inserting the ganging fork into the bracket plate located on the underside of the furniture. To connect modules, rotate the connecting forks perpendicular to the module and slide the modules together. The forks fit around the bracket plates when the modules are connected. Use the leveling glides as needed to align the overall height of the modules on uneven flooring surfaces.

To disconnect modules, lift the side of the module where the bracket plates are located, generally the left hand facing side. Pull to disconnect the brackets from the connecting forks and slide apart.

Modules used in configurations may also be used as freestanding units. The connector fork can be concealed by rotating the connecting fork underneath the furniture module.

Hardware is provided with the 180° curved module for left or right hand orientation.

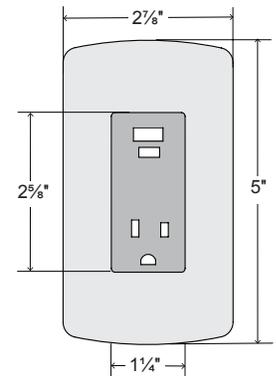

**Neighborhood Seating System Specification Guide**

**Power Module**

An optional power + USB module is available for all Neighborhood tables except the 22" round table. Single sided connecting tables and the 42" round freestanding tables are available with a single power module; double-sided connecting tables and the 42" and 48" square freestanding tables are available with two modules. Upcharges apply as indicated on the price list for each table.

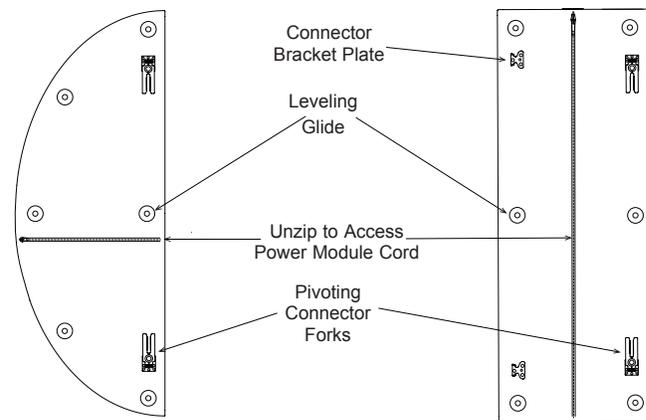

The power module has (1) 15 amp receptacle, (1) 2 amp USB-A port and (1) 2 amp USB-C port for charging tablets or other USB friendly devices. The power module is UL approved and includes a 10', 14/3 SJT black power cord with right angle plug. The power module has an aluminum powder coat finish and installs in the side of the base. An underside zipper allows access to power.

pasadena lounge modular seating collection

**Pasadena Seating System Specification Guide**

**Standard Features**

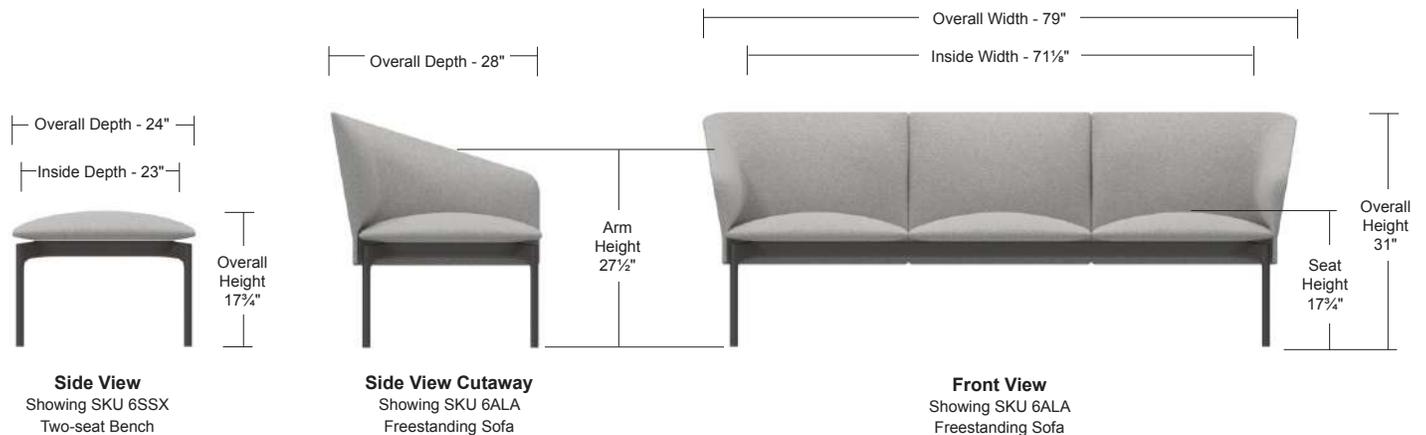

Pasadena is a modular seating system comprised of 64 unique modules which can be used as freestanding or interchangeably to create an unlimited number of configurations. Options include freestanding benches, two and three-seat modules, corner modules and seating and bench modules with end tables. End table tops are available in oak and walnut as well as black or white phenolic materials. All table options are offered with and without power. Base assemblies are available in all powder coat finishes or with polished aluminum.

Pasadena is fully upholstered. When ordering configurations, please provide the total COM yardage from the same dye lot in a continuous roll(s). All COM/COL fabrics must be preapproved by Bernhardt Design prior to application.

Each unit comes standard with felt glides installed and ships with non-marring nylon glides that can be installed as needed.

All configurations are connected by a ganging bracket. Ganging brackets are sold separately and field installed. See the Pasadena accessories page for ordering information.

Pasadena is SCS Indoor Advantage™ Gold certified. See terms and conditions for additional finish and environmental information. Please visit [bernhardtdesign.com](http://bernhardtdesign.com) for a complete library of 2D, 3D and Revit models. You may also contact your local sales representative or the Bernhardt Design Corporate Office for specification assistance.

**Table Options**

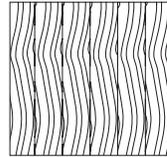

**Veneer Selection**

A sku identifies each wood veneer option as well as standard finishes. Base and top finishes are specified separately.

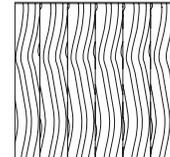

When specifying light finishes the natural characteristics of the wood will be visible and color will vary. See terms and conditions for additional finish information.

**Surface Mount Power Modules**

Pasadena offers a proprietary surface mount power solution which is installed flush to the worksurface and provides (2) 15 amp receptacles and (1) 2 amp USB-A port and (1) 2 amp USB-C port. The unit has a 10' infeed with a grounded plug. Power module finish is determined by table finish selection. The power module location is determined by table location as shown below.

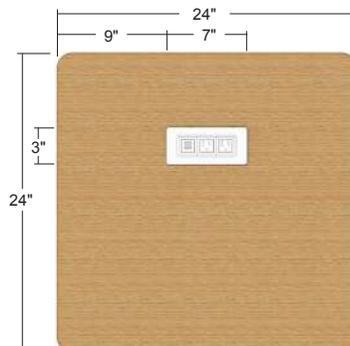

**Power Module**

Black or White Finish

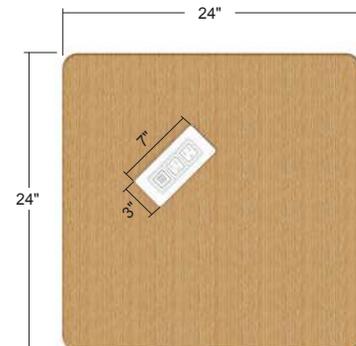

(2) 120 v 60 Hz. 15 amp receptacles  
(1) 2 amp USB-A port, 10 watt  
(1) 2 amp USB-C port, 20 watt  
6 1/2" w x 3" d x 2 3/4" h

**In Line Power Location**

**Corner Table Power Location**

**Connecting Modules**

Pasadena modules connect by attaching a ganging bracket to the underside of the module. Order one ganging bracket per point of connection. Ganging brackets are sold separately and will ship with the product. See Pasadena accessories page to order brackets.

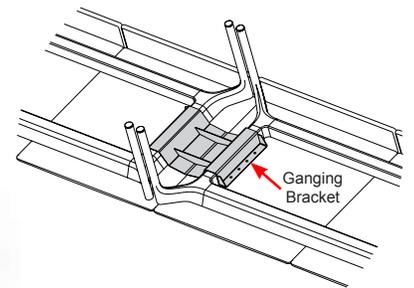

To connect the modules together, attach one end of the bracket to the underside of one module using the supplied hardware. The ganging brackets are formed to nest around the extruded base rails. Push modules together into desired location then attach the other end of the bracket in the same manner.

**Ganging Bracket**  
14½" w x 9" d x 9½" h

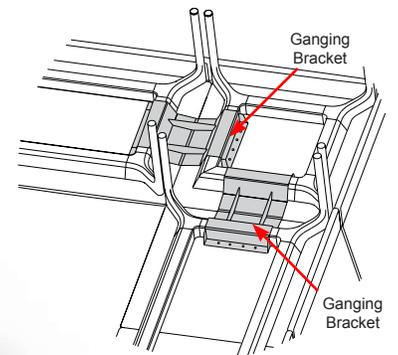

**End to End Connection**

sunset lounge modular seating collection

**Sunset Seating System Specification Guide**

**Standard Features**

The Sunset lounge collection is fully upholstered and features 9 freestanding skus and 8 connecting modules. Modules can be used interchangeably to create an unlimited number of configurations.

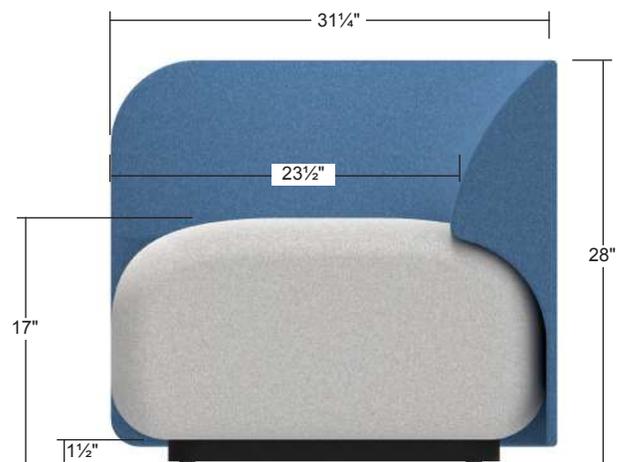

All necessary ganging brackets are included and installed.

Sunset features a black 1½" maple plinth base with adjustable non-marring glides.

All COM/COL fabrics must be preapproved by Bernhardt Design prior to application. When ordering multi-item configurations, please provide the total COM yardage from the same dye lot in a continuous roll(s).

SCS Indoor Advantage™ Gold and LEVEL® 2 certified. See terms and conditions for additional environmental information.

Please visit [BernhardtDesign.com](http://BernhardtDesign.com) for a complete library of 2D, 3D and Revit models. You may also contact your local sales representative or the Bernhardt Design corporate office for specification assistance.

## Valentina Seating System Specification Guide

### Standard Features

Valentina is a modular seating system comprised of 6 unique modules which can be used interchangeably to create an unlimited number of configurations. All modules can also be used as freestanding units.

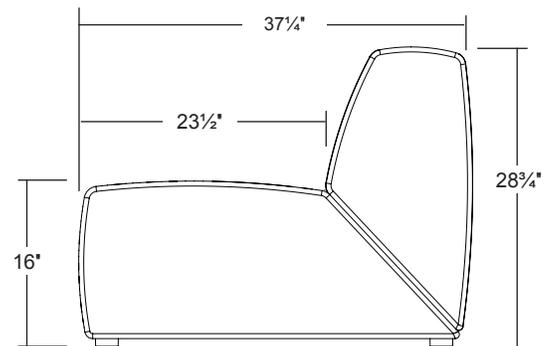

Valentina features new contrasting fabric options and comes standard with welt and a saddle stitch detail on the seat, back and arm.

Configurations are connected by a ganging bracket. Ganging brackets are included with each module. 1½" diameter non-marring adjustable glide.

When ordering configurations, please provide the total COM yardage from the same dye lot in a continuous roll(s). All COM/COL fabrics must be preapproved by Bernhardt Design prior to application.

Valentina is SCS Indoor Advantage™ Gold and LEVEL® 2 certified. See terms and conditions for additional finish and environmental information.

Please visit [Bernhardtdesign.com](http://Bernhardtdesign.com) for a complete library of 2D, 3D, and Revit models. You may also contact your local sales representative or the Bernhardt Design Corporate office for specification assistance.

**Side view of sku 5650**

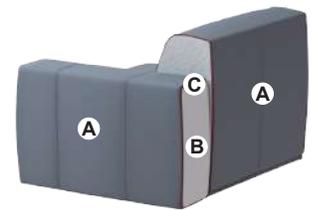

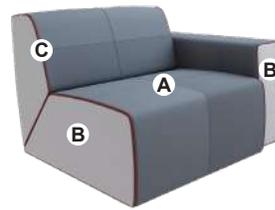

1½" Diameter Non-Marring Adjustable Nylon Glides

**Valentina Contrasting Fabric Options**

Valentina modular seating offers three contrasting fabric options.

- A. Inside seat and back, top and side panels of the arms.
- B. Seat and back side panels, front and back panels of the arms.
- C. Welt

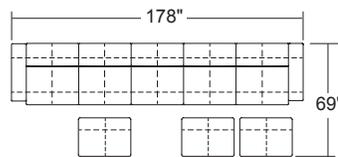

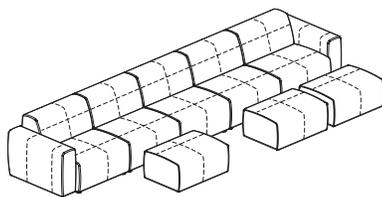

\*All COM/COL fabrics must be preapproved by Bernhardt Design prior to application. When ordering multi-item configurations, provide the total COM yardage from the same dye lot in a continuous roll(s). See terms and conditions for instructions for tagging COM.
