collection overview

Laminate Selections

A three character sku identifies each laminate selection as well as the standard finish offered. Individual components are priced with standard finish on standard laminate.

A variety of Wilsonart® standard laminates with standard finishes is offered on conference and multipurpose tables. Additional colors may be available but are subject to upcharges and extended lead times. The laminate option is available on components where noted as an option in the material specification code.

All laminate tops will have a 3mm matching edge band.

Veneer Selections

A three character sku identifies each species as well as the standard finish offered. Individual components are priced with standard finish. Special finishes on veneers made to customer specifications are subject to factory approval and a 10% net upcharge with a $500 net minimum.

Transparent stains and sealers are applied in multiple steps to enhance the beauty of the natural wood. A durable, baked-on, top-coat of conversion varnish or UV topcoat is applied to protect the product. It is recommended that felt, cork or fabric backed desk pads and accessories are used on worksurfaces to minimize wear.

When specifying light finishes the natural characteristics of the wood will be visible and color will vary. Paint finishes are available as custom orders. See terms and conditions for additional finish information.

Dillon Tables

Dillon tables are designed for use in flexible environments requiring reconfiguration and easy storage. Table options include a rectangle, teleconference, and half-round table. Configurations include but are not limited to paired half rounds, teleconference, half round conference, and closed conference as shown on the right. Dillon table tops are 1" thick and available in either wood veneer and laminate. Grain will run the length of the table in veneer applications. Pre-installed ganging brackets are included for all tables.

The collection offers two styles of aluminum bases: T-base and C-base. T-base are positioned in the center of the table with either an edge or an inset mount that allows users to be seated on all sides of the table. The C-base is positioned at the front of the table with either an edge or inset mount that allows for users to sit on one side of the table only. Base styles are available with 2" heavy-duty casters with non-marring urethane wheels or adjustable leveling glides.

Aluminum bases are available as polished or in standard Bernhardt powder coat finishes.

Dillon power options include surface mount power and under mount power modules. A trough between bases provides a channel for wire management and electrical components. A removable cover located on the inside of the base provides wire management access and conceals cables.

Flip top tables fold and nest for compact storage. Pulling a handle, located underneath the tabletop, towards the front table edge releases the top to fold. A gas spring allows the top to rest gently when folding or closing. Fixed tops do not fold to nest or for storage.

An optional modesty panel is available in either aluminum, laminate or veneer. Aluminum modesty panels are available either in polished or in standard Bernhardt powder coat finishes.

SCS Indoor Advantage™ Gold and LEVEL® 2 certified. See terms and conditions for additional environmental information.

C-base Design

C-base Edge Mount

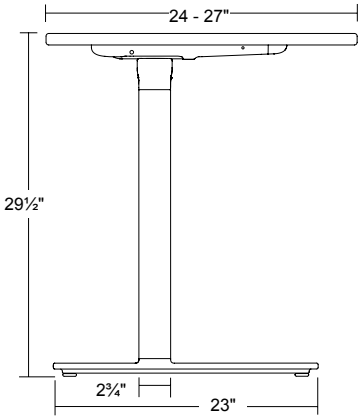

Storage Position User View C-base

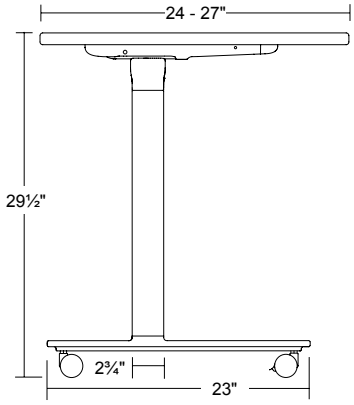

C-bases are positioned in either an inset mount or an edge mount. The inset mount allows for guests to be seated on all fours sides of the table. The edge mount allows guests to be seated on one of the long sides of the table with an optional modesty panel installed on the opposite side. Finish selections for the C-base are polished aluminum or standard Bernhardt powder coat finishes.

The C-Base is available with either 2” heavy duty casters (2 locking, 2 non-locking) with non-marring urethane wheels or with adjustable leveling glides with a height adjustment range of ½”.

A trough between bases provides a channel for wire management and electrical components. A removable cover located on the inside of either base leg provides wire management access and conceals cables. An optional modesty panel may be used with C-bases. The modesty panel is hinged to swivel when stored. Specify modesty panels separately.

C-base with Glides

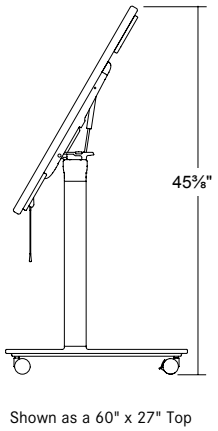

Mobile C-base with Casters

Tables are available with a folding or fixed top.

C-Base Storage

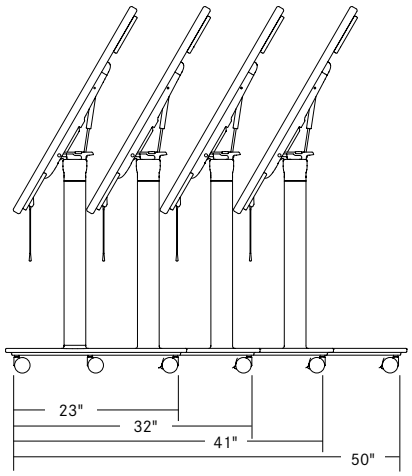

Dillon tables are designed to fold and nest for compact storage. The C-base design allows the top to be folded in an angled vertical position. When nested, each additional table adds only 9” depth and 3¼” width for storage. Pulling the pull bar/handle, located underneath the table top, towards the table edge releases the top to fold. A gas spring allows the top to rest gently when folding or closing.

Folded Position
End View with Optional Modesty Panel

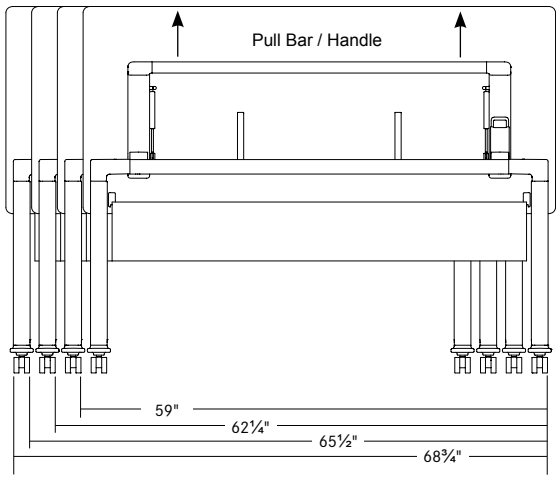

Shown as a 60" x 27" Top

End View with Optional Modesty Panel

Nested Storage Position
Back View with Optional Modesty Panel

T-base Design

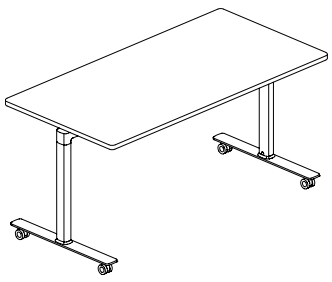

The T-bases are positioned in either an inset mount or an edge mount. The inset mount allows for guest to be seated on all four sides of the table. The edge mount allows guests to be seated on the two long sides of the table and is designed to provide maximum user leg space in ganging application. Finish selections for the T-base are polished aluminum or standard Bernhardt powder coat finishes.

The T-base is available with either 2” heavy duty casters (2 locking, 2 non-locking) with non-marring urethane wheels or with adjustable leveling glides with a height adjustment range of ½".

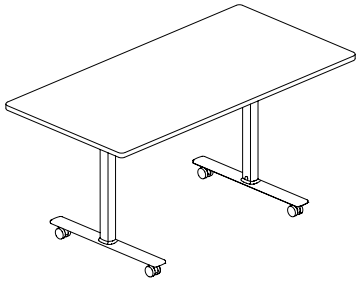

A trough between bases provides a channel for wire management and electrical components. A removable cover located on the inside of either base leg provides wire management access and conceals cables. An optional modesty panel may be used with T-bases. The modesty panel is hinged to swivel when stored. Specify modesty panels separately.

T-Base Storage

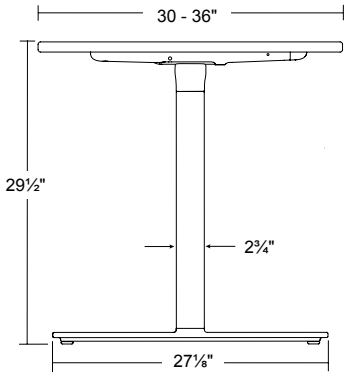

Dillon tables are designed to fold and nest for compact storage. The T-base design allows the top to be folded in a vertical position. When nested, each additional table adds only 5¼" depth and 3¼” width for storage. Pulling the pull bar/handle, located underneath the table top, towards the table edge releases the top to fold. A gas spring allows the top to rest gently when folding or closing.

Modesty Panel

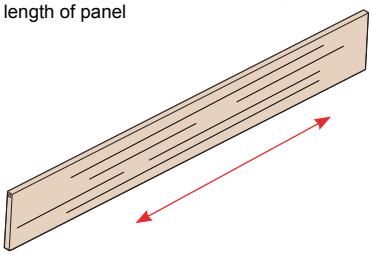

Dillon tables are available with a ¾" thick modesty panel in laminate and veneer or a ¼" thick, light weight bright anodized aluminum finish. Panels are 7½" high with the veneer running the length of the panel.

Modesty panels are easily installed and removed by the use of hanging in conjunction with pre-machined holes. The panel clips simply insert into the channel. The modesty panels are hinged to swivel for storage. All tables fold and store with the modesty panels installed.

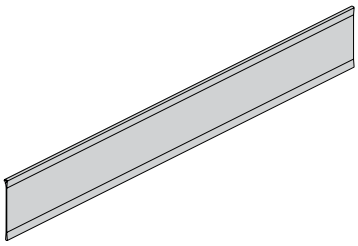

Veneer modesty panels are available in oak or walnut. The aluminum modesty panel comes standard as bright anodized aluminum, Bernhardt powder coat finishes also available.

Hinged Modesty Panel
Laminate and Veneer

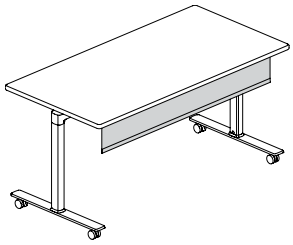

Grain direction follows arrow along length of panel

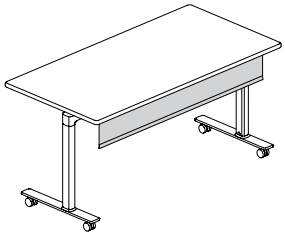

Hinged Modesty Panel
Anodized Aluminum

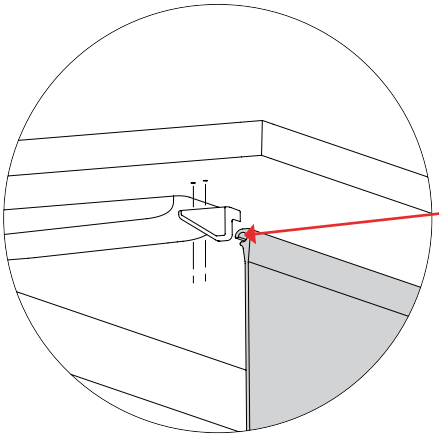

T-base with Modesty Panel

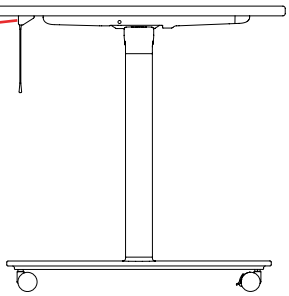

C-base with Modesty Panel

Attaching the Modesty Panel

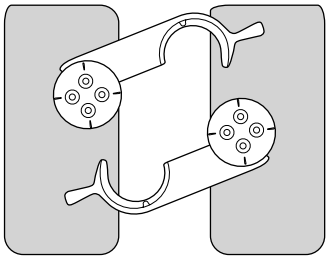

Using (2) #8 wood screws, secure the modesty panel bracket to the underside of the table top.

Ganging Bracket

Dillon tables feature (4) pre-installed ganging brackets making it easier to provide a secure method for connection tables. Position tables in desired grouping, with table ends touching, then connect the pre-installed ganging brackets. Tables can only be connected at table ends unless positioned with half-round or teleconference tables. Additional brackets can be purchased. See accessories for ordering information.

Ganged Bracket

Power + Configurations

Under Mount Power (Minitap)

The under mount power solution allows for quick and easy power access, allowing for a maximum of (10) power units per 50' run length.

All table configurations begin with a starter table with a 9' power infeed.

Under mount power is available as dual and quad under mount power.

When specifying (2) dual under mount power modules a maximum of (5) tables can be daisy chained per 50' run.

Power source must be located within 6' of each starter table.

When using the corner configuration (short end to long end) additional jumpers must be ordered. See configurations below for examples and page 27 for ordering information.

Surface Mount Power (Dean)

Surface mount power solution allows for quick and easy power access, allowing for a maximum of (10) power modules per 50' run length.

All table configurations begin with a starter table with a 9' power infeed.

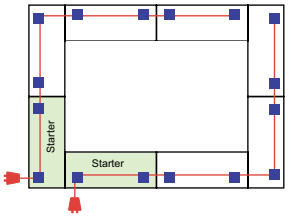

Surface mount power is available as single or dual modules. When specifying single surface mount power a maximum of (10) tables can be daisy chained per 50' run. When specifying double surface mount power a maximum of (5) tables can be daisy chained per 50' run.

Power source must be located within 6' of each starter table.

When using the corner configuration (short end to long end) additional jumpers must be ordered. See configurations below for examples and page 27 for ordering information.

Large Closed Conference Configuration - Dual Power

Includes: (2) starter and (6) add-on table assemblies.
Requires the customer to order (2) starter table assembllies,
and (2) additional jumpers.
Power: (16) under mount power modules.

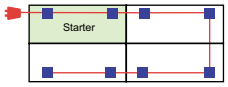

Classroom Seating - Dual Power

Includes: (1) starter and (4) add-on table assemblies.
Requires the customer to order (1) starter table assembly per row.
No additional jumpers needed.
Power: (10) under mount power modules.

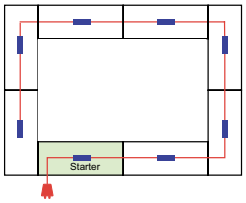

Small Closed Conference - Dual Power

Includes: (1) starter and (3) add-on table assemblies.
Requires the customer to order (1) starter table assembly,
and (1) additional jumper.
Power: (8) under mount power modules.

Large Closed Conference Configuration - Single Power

Includes: (1) starter and (7) add-on table assemblies.
Requires the customer to order (1) starter table assembly per row,
and (3) additional jumpers.
Power: (8) surface mount power modules.

Classroom Seating - Single and Dual Power

Includes: (1) starter and (7) add-on table assemblies.
Requires the customer to order (1) starter table assembly per row.
No additional jumpers needed.
Power: (8) surface mount power modules.

Includes: (1) starter and (4) add-on table assemblies.
No additional jumpers needed.
Power: (10) surface mount power modules.

Small Closed Conference - Single Power

Includes: (1) starter and (7) add-on table assemblies.
Requires the customer to order (1) starter table assembly,
and (1) additional jumper.
Power: (8) surface mount power modules.

Power Options

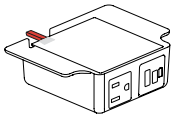

For Surface Mount and Under Mount Grommet locations the following rules apply:

Starter Table | Power Source | Surface Power Module

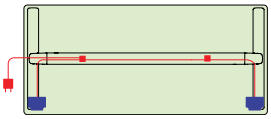

Add-on Table | Jumper | Under Mount Power Module

Under Mount Power (Minitap) Grommet Locations/Codes

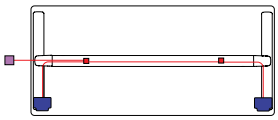

Under Mount offers two location options for under mount power grommet locations.

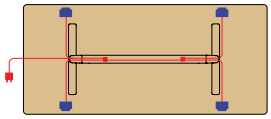

power + usb-a + usb-c
(1) 120v 60 Hz. 15 AMP Receptacles
(1) 2 AMP USB-A Port, 10 Watt
(1) 2 AMP USB-C Port, 20 Watt

Prices and Specifications
Prices and specifications are subject to change without notice. All prices quoted will be FOB our factories. If applicable, sales tax will be based on ship-to destination.

Bernhardt Design reserves the right to make changes in dimensions, construction, price lists, or product literature without prior notice.

All measurements and weights are approximate and subject to change without notice.

Order Entry
All orders are subject to final acceptance by Bernhardt Design in Lenoir, NC. Receipt of our acknowledgment indicates acceptance of your order subject to the terms set forth on the acknowledgment.

Bernhardt Design attempts to clarify all purchase orders. However, in the event the price list number and description on the purchase order differ, the price list number will prevail.

Changes/Cancellation
All orders in production are considered firm orders and are not subject to changes or cancellation.

Shipping
Bernhardt Design will ship in accordance with customer instructions whenever possible. For convenience, Bernhardt Design offers a guaranteed freight program (GFP). Bernhardt Design will exercise our best judgment in selecting a carrier under our GFP. When selecting a carrier, Bernhardt Design will make our best effort to meet requested delivery dates.

Transportation lead-times and delays including equipment problems, weather, general traffic, traffic accidents, customer warehouse space, labor disputes, customer changes, etc., that occur on a carrier will not be the responsibility of Bernhardt Design. Furthermore, Bernhardt Design will not be responsible for additional costs incurred due to aforementioned delays.

For customers who decline our GFP, Bernhardt Design will stage orders for pick up at 1% of the list price, or $75 minimum.

Customer orders in production will be shipped as scheduled and will not be held. Bernhardt Design reserves the right to make partial shipments on any order, unless notified otherwise by the customer.

High quality cartoning meeting trucking and railroad specifications is standard at no extra charge. Some items may be blanket wrapped for shipment.

Freight Damage and Claims
Bernhardt Design is not liable for any damages to products that occur during transit or storage. The carrier assumes all responsibility upon acceptance of product. It is the customer's responsibility to inspect products upon receipt and file any claims with the carrier. No product should be refused. If products are received damaged, a written exception should be made on the bill of lading and an immediate inspection be requested of the carrier.

Concealed damage must be reported to the carrier within 10 business days from date of delivery. Failure to make claims shall constitute acceptance of the products and waiver any claims of defects, errors or shortages. In the event delivery is made on a Bernhardt Design truck, the products should be carefully inspected for transit damage. If contents are damaged, the driver should be notified to call his dispatcher for immediate disposition.

Concealed damage must be reported within 10 business days from date of delivery and product/packaging held for inspection by a Bernhardt Design representative. Replacements for product damaged in shipment or storage will be manufactured upon receipt of a purchase order.

Returns
No merchandise may be returned to Bernhardt Design without written consent in the form of a Return Authorization from our Quality Assurance Department stating why item is being returned and how item will be shipped.

Unauthorized returns will be automatically refused by our receiving department as well as returns not in accordance with Bernhardt Design shipping instructions. Liability for defective merchandise shall be limited to the replacement or repair of that merchandise, and Bernhardt Design shall not be liable for other damages or losses.

Terms and Credit
Pricing and terms of sale apply to orders accepted by Bernhardt Design, and no terms, stipulations, or conditions contained in the dealer's submitted purchase orders shall have any force or effect. Bernhardt Design requires a completed and signed credit application from every dealer.

Bernhardt Design also requires dealers to provide a Blanket Certificate of Resale/Use containing valid sales tax exemption number(s) for their respective state(s).

If credit has been approved, the standard terms for all Bernhardt Design products are Net 30 from the invoice date. In certain instances, as an additional condition of order acceptance, buyer may be required to provide a deposit at time of order and/or remit the balance before shipment is released. If credit has not been approved, a 100% prepayment, including any freight charges, is required prior to production.

Acceptable forms of payment include a certified check or electronic bank transfer. For information on where to send check/electronic bank information contact our Financial Services Department. If a dealer or company check is submitted, three (3) weeks should be allowed for the clearance of the check. If electronic bank transfer is submitted, one (1) week should be allowed for the clearance of the electronic bank transfer. The order is subject to cancellation if payment in full is not received within three (3) weeks from the acknowledgment date.

The dealer may not make deductions for advertising, promotions, quality problems, freight, or any other reason without prior authorization by Bernhardt Design Such a deduction could result in the curtailment or suspension of further shipments until the matter is resolved.

Delinquency notices are generated and mailed periodically. Service charges of 18% per annum will be added to each past-due transaction. Unpaid service charges will be accrued and invoiced on a periodic basis. Past-due notices may result in orders being held until the situation is resolved.

This credit hold could prevent orders from being placed into production or shipped. Orders not in production that are placed on credit hold for three (3) weeks will be subject to cancellation.

Severe past-due situations may result in the employment of a collection agency or other collection litigation. If any collection activity is necessary regarding a dealer account, the dealer will be responsible for the payment of any and all attorney and collection agency fees.

A slow payment history may result in reducing or eliminating an open line of credit. At the discretion of Bernhardt Design, amounts owed by a dealer to Bernhardt Design arising from any transaction or dealings between the dealer and Bernhardt Design may be offset against any amounts owed to the dealer by Bernhardt Design.

Warranty

Bernhardt Design will repair or replace, at its discretion, any product or part thereof which fails as the result of defects in material and workmanship, under single shift use and normal care for five years from date of shipment. This warranty shall apply only to the original purchaser.

This warranty does not cover normal wear and tear, misuse or abuse of product, dramatic temperature changes, exposure to unusual conditions or damages incurred by contact with seating products, tables, desks or other surfaces. Natural color changes, variations or movements in lumber or veneer products, exposure to extreme temperature changes and direct sunlight may cause color changes and/or surface damage. These are circumstances beyond the control of Bernhardt Design and are not warranty issues. Repair or replacement of discontinued product will be at the discretion of Bernhardt Design.

This warranty is the customer's exclusive remedy for product defect and does not apply to damage caused by a freight carrier, dealer, installer, user modification, attachments to a product, or any third party. Bernhardt Design has the exclusive right to make the final determination of product misuse or abuse. Except as stated above, Bernhardt Design makes no express or implied warranties as to any product, and in particular, makes no warranty of merchantability or of fitness for any particular purpose. Bernhardt Design shall not be liable for any consequential or incidental damages or for commercial loss arising from any product defect.

Operational Parts Warranty

Drawer glides, drawer boxes, drawer pulls, and lock mechanisms have a Life-Time Warranty for original purchaser. Power and communication components are warranted for one year.

Parts Order

Bernhardt Design parts have a $25 net minimum per order. This does not include freight costs.

Custom Design

Bernhardt Design may alter products to meet specific needs. Contact your local sales representative when a custom design is needed. Custom designs,

if approved, require minimum quantities, additional leadtime and upcharges.
A custom job number, available from your Bernhardt Design sales representative, must be submitted with purchase orders. Orders combining custom design with standard product cannot be scheduled for production until custom items are approved. Custom design orders are not subject to revision or cancellation after acknowledgment.

Wood Finishes

Bernhardt Design tables are available in finishes that are compatible with credenzas and seating finishes. However, finishes on tables may vary slightly from those on seating due to the natural characteristics of the wood. No absolute match is implied or guaranteed.

Light Finishes

Bernhardt Design offers lighter finishes on certain veneers and solid woods. When specifying light finishes the natural characteristics of the wood will be visible and color will vary. Natural characteristics include the natural discolorations of the wood substance and color variations in glued up stock. These natural characteristics are not considered defects by Bernhardt Design, and therefore merchandise will not be replaced.

Special Finishes

Special finishes, made to customer specifications and subject to factory approval, may be available at a 10% net upcharge with a $500 net minimum.

Additional leadtime may be required for special finish items. Special finish orders will not be acknowledged until the special finish sample is approved in writing and received by Bernhardt Design Customer Service. Special finish orders are not subject to revision or cancellation after acknowledgment.

Installation and Maintenance

All freestanding tables and credenzas are equipped with leveling devices. Local floor conditions vary, and it is always necessary to properly adjust leveling devices. Proper leveling is essential to the alignment and function of doors and drawers.

Improperly leveled units result in misaligned doors and drawers and may impair locking mechanisms or other functional hardware. After the initial installation of credenzas, it may be necessary to readjust and align the units to compensate for settling. This should be expected as a matter of routine maintenance and follow-up to assure proper case function.

Proper installation of Bernhardt Design tables and credenzas is the responsibility of the dealer. Improperly installed units can result in permanent damage to case components. Damage due to improperly installed furniture not covered under product warranty.

Orders combining custom design with standard product cannot be scheduled for production until custom items are approved. Custom design orders are not subject to revision or cancellation after acknowledgment.

Care and Cleaning

Finished wood surfaces should be cleaned with a soft damp cloth, wiping in the direction of the grain. Furniture should be buffed dry immediately with a soft cloth.

Design and Patent Rights

All of the products shown in Bernhardt Design catalogs and described in Bernhardt Design price lists are, and remain, the property of Bernhardt Design, with the sole right reserved to manufacture and to distribute.

Some of the product designs shown are patented in the United States and will remain the property of Bernhardt Design. Any reproduction of the products constitutes an infringement of patented copyright laws and will be subject to prosecution.

Environmental

Some tables and credenzas are LEVEL® for ANSI/BIFMA e3-2019 – Furniture Sustainability Standard and SCS Indoor Advantage™ Gold certified. Visit the product page at bernhardtdesign.com for certifications.

BERNHARDT | design

Bernhardt Design is a registered trademark of
Bernhardt Furniture Company of Lenoir, NC.

Preferred Carrier Guaranteed Freight Rates

Freight charges will be applied to orders as a separate line item based on the zones listed. Rates are based on zones with a minimum for each zone. All zones are located within the Continental United States.

The freight amount is calculated on the total merchandise list COM price. Additional freight fuel surcharges may apply. Rates are based on deliveries made Monday through Friday, 8 am until 5 pm.

All orders are shipped by Bernhardt Design company trucks or preferred carriers specified by Bernhardt Design. **If a purchase order does not specify that the product must ship complete, Bernhardt Design reserves the right to select the most effective shipping method necessary, including split shipments.** Dealer warehouse information, including phone number and contact name, must be specified on the purchase order.

Direct site deliveries may be requested with an additional freight cost. Requests for direct site deliveries must be made 2 weeks prior to the scheduled ship week and meet the following criteria:

- Minimum of half truckload
- Delivery site accessible by a 53’ trailer
- Complete delivery site address with contact name and on-site phone number
- Labor available for unloading

Deliveries that do not meet the criteria must be directed to a receiver warehouse. If a receiver warehouse is not available, the dealer may make arrangements with their own 3rd party carrier. If a 3rd party carrier is elected, a contact name, phone number and e-mail address is required.

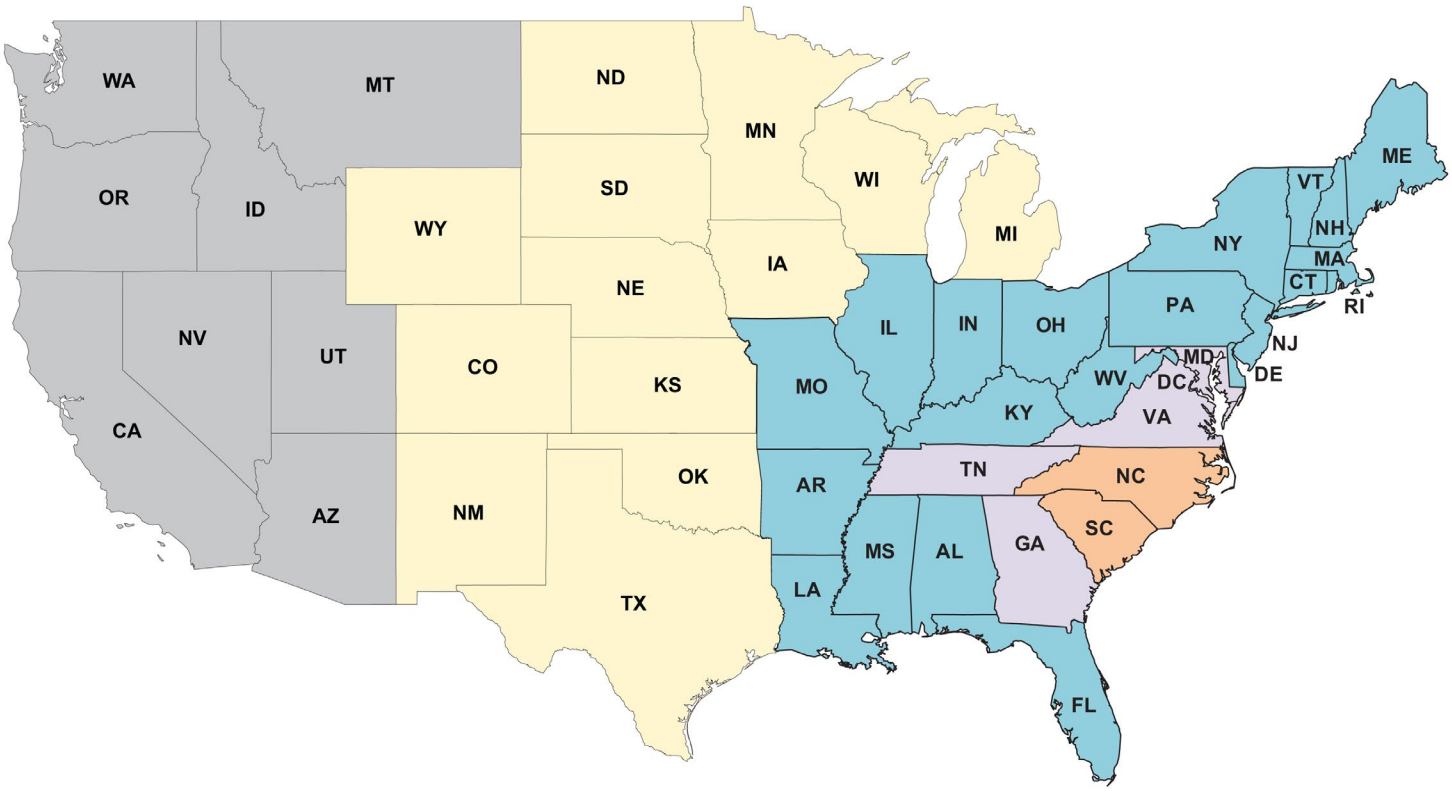

Bernhardt Design has a no touch freight policy. Drivers are not allowed to unload freight.

Weekend direct site deliveries will incur a $500 per trailer weekend delivery fee. Weekend is defined as between 5 pm Friday and 8 am Monday.

Customers who decline GFP should refer to the shipping section of the Terms and Conditions page.

Zone	Percent	Minimum
Zone 1	3%	$150
Zone 2	4%	$150
Zone 3	5%	$150
Zone 4	5.5%	$150
Zone 5	6%	$150

Percent bases on List Price.

Preferred Carrier Guaranteed Freight Rates - Canada

Direct site deliveries may be requested with an additional freight cost. Requests for direct site deliveries must be made 2 weeks prior to the scheduled ship week and meet the following criteria:

- Minimum of half truckload
- Delivery site accessible by a 53' trailer
- Complete delivery site address with contact name and on-site phone number
- Labor available for unloading

Deliveries that do not meet the criteria must be directed to a receiver warehouse. If a receiver warehouse is not available, the dealer may make arrangements with their own 3rd party carrier. If a 3rd party carrier is elected, a contact name, phone number and e-mail address is required.

Bernhardt Design has a no touch freight policy. Drivers are not allowed to unload freight.

Weekend direct site deliveries will incur a $500 per trailer weekend delivery fee. Weekend is defined as between 5 pm Friday and 8 am Monday.

Customers who decline GFP should refer to the shipping section of the Terms and Conditions page.

Zone	Minimums	Freight	Avg. Bus. Days
Zone 1	$200	5%	10 - 15
Zone 2	$200	9%	10 - 15
Zone 3	$200	8%	10 - 15
Zone 4	$200	11%	10 - 15
Zone 5	Quote	Quote	

The attached rates are strictly freight and do not include brokerage fees.
