Haven Laptop Table

The Haven laptop tables are designed to function as an adjustable height worksurface that features an easy to use but discrete activation handle. Due to it's wide range of adjustablity the work surface can be raised or lowered to suit virtually any application.

Bases are available with a plate design. They are fitted with low-friction glides which allow the tables to easily glide across all surfaces.

All table tops are available in solid and woodgrain laminates, oak and walnut solids, solid surface and PureClad selections. The Haven bases are available in polished aluminum and powder coat finishes.

A three character sku identifies each finish and material selection.

Haven tables are SCS Indoor Advantage™ Gold and LEVEL® 2 certified.

Top Material Selections

PureClad Selections

PureClad is a highly durable powder coat process for tops that creates an encapsulated hardened finish. When PureClad finishes are selected along with their matching metal powder coat finishes for the base, the tables have a monolithic color look.

Edge Profile

PCD PureClad

PureClad option is available on skus where noted as an option in the material specification code.

Haven Features

The Haven collection features a plate base, which is fitted with low-friction glides that allow the table to easily glide across all surfaces. Bases are available in polished aluminum and standard powder coat colors.

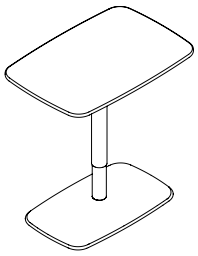

Tabletops are a spacious 21" x 14" and are available in laminate, solid wood, phenolic and PureClad finishes.

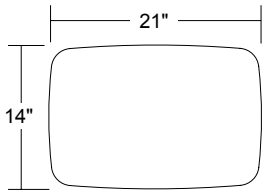

Underneath the tabletop, a custom black handle has been designed to activate a gas lift. Tops can be adjusted from 22" – 32", allowing for flexibility in height.
