

## Casino Seating System Specification Guide

### Standard Features

Casino is a modular seating system comprised of eleven unique modules which may be used interchangeably to create an unlimited number of configurations. All Casino configurations must include an end module on each end of the configuration.

Casino is fully upholstered with leveling non-marring glides. All COM/COL fabrics must be preapproved by Bernhardt Design prior to application. When ordering multi-item configurations, please provide the total COM yardage from the same dye lot in a continuous roll(s).

All necessary ganging brackets are included and pre-installed.

SCS Indoor Advantage™ Gold and LEVEL® 2 certified. See terms and conditions for additional environmental information

Please visit BernhardtDesign.com for a complete library of 2D, 3D and Revit models. You may also contact your local sales representative or the Bernhardt Design corporate office for specification assistance.

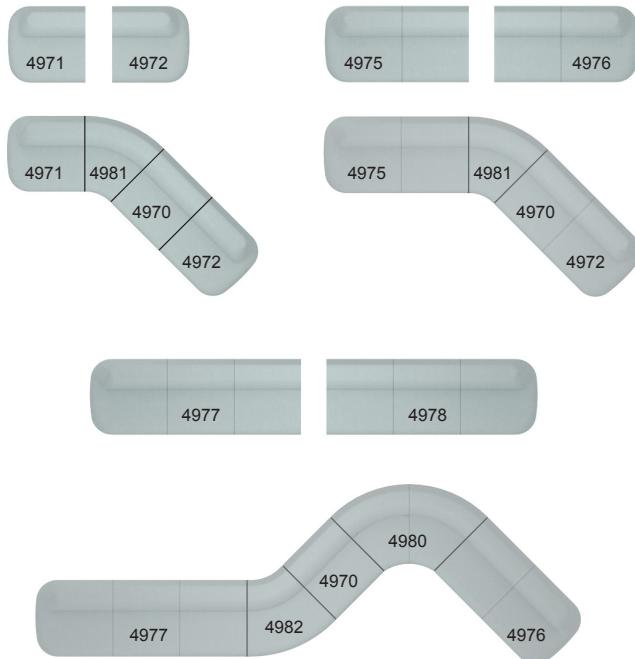

## Product Selection

Casino modules can be used interchangeably to create a variety of modular options. A end module is required for all configurations. Specify a connecting module when a 45° or 90° angle is needed. **Casino modules may not be used as a freestanding unit.** See modular options below.

### A. End Modules

All Casino configurations must include an end module on each configuration. All modules are available in fabric or leather. End modules can not be used as freestanding units.

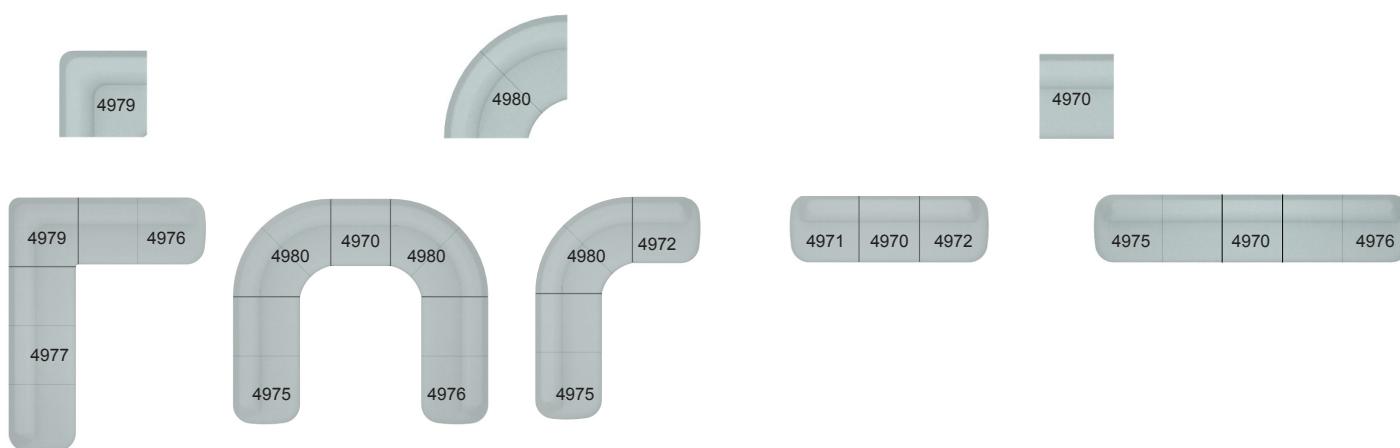

### B. 45° Connecting Modules

45° connecting modules are used in conjunction with end modules. Connecting modules may not be used at the end of a configuration or as a freestanding unit.

### C. 90° Connecting Modules

90° connecting modules are used in conjunction with end modules. Connecting modules may not be used at the end of a configuration or as a freestanding unit.

### D. Straight Connecting Module

Connecting modules are used in conjunction with end modules. Straight connecting modules may not be used at the end of a configuration or as a freestanding unit.
