Laminate Selections

A three character sku identifies each laminate selection as well as the standard finish offered. Individual components are priced with standard finish on standard laminate.

A variety of Wilsonart® standard laminates with standard finishes is offered on conference and multipurpose tables. Additional colors may be available but are subject to upcharges and extended lead times. The laminate option is available on components where noted as an option in the material specification code.

All laminate tops will have a 3mm matching edge band.

Veneer Selections

A three character sku identifies each species as well as the standard finish offered. Individual components are priced with standard finish. Special finishes on veneers made to customer specifications are subject to factory approval and a 10% net upcharge with a $500 net minimum.

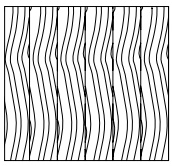

Transparent stains and sealers are applied in multiple steps to enhance the beauty of the natural wood. A durable, baked-on, top-coat of conversion varnish or UV topcoat is applied to protect the product. It is recommended that felt, cork or fabric backed desk pads and accessories are used on worksurfaces to minimize wear.

When specifying light finishes the natural characteristics of the wood will be visible and color will vary.

Standard Features

The Cp.3 table is available with four top options: ½" (12.7mm) leaded glass with a polished flat edge or ⅞" (22.2mm) glacier white corian, oak or walnut veneer with a reverse bevel edge. The frame is stainless steel with a brushed, polished or matte black powder coat finish. Bumpers protect the glass and prevent movement.

The Cp.3 table with a corian, walnut or oak veneer top is shipped assembled. When the glass option is specified, the table and top are packed separately in the same carton.

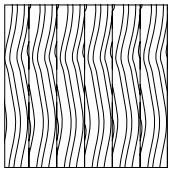

SCS Indoor Advantage™ Gold and LEVEL® 2 certified. See terms and conditions for additional environmental information.

Standard Features

Dymen is a collection of occasional tables designed to function individually and is offered in two heights: 14¼" and 18". The Dymen tables are constructed from solid suar wood with a standard black glaze finish and come with non-marring glides. Tables are available in two round sizes: 13" and 24". Each table features unique natural characteristics, and slight variations or movement in wood may occur over time. Cracks may occasionally be present as an inherent part of the wood curing process and are not of structural concern.

SCS Indoor Advantage™ Gold certified. See terms and conditions for additional environmental information.

Note: Cracks may occasionally be present as an inherent part of the wood curing process and are not of structural concern.

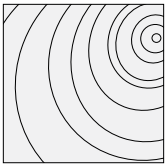

Finish Selection

The natural characteristics of the wood will be visible and color will vary.

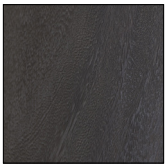

Solid Wood Selection

Suar Wood

Solid Wood

Black glaze finish

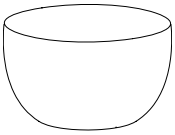

Suar wood, known as the Albizia Saman species and often referred to as Acacia or Raintree, is a large fast-growing tropical tree that can grow up to 80' high and 30' in diameter. Recognized by its umbrella canopy, the tree naturally creates an insulated, cool-climate underneath its thick, leafy branches. These trees tend be blown over from high winds during the rainy season, after which it is then sustainably harvested from these natural events.

Given its crisscrossed interlocking grains, suar-wood is highly sought-after for its robustness. Moderately heavy yet extremely strong, suar wood is highly resistant to decay and features a hardness and striking wood grain, similar to walnut.

A sustainable resource with NatureServe conservation status G5 – Globally, suar wood is widespread and is in no danger of extinction. It is a fast-growing tree that can reach a very spectacular size in a few decades, and is not listed in the CITES appendices or on the IUCN Red List of threatened species.

Standard Features

Elevation drum is a series of round and square tables. The tables are available in various sizes with oak or walnut veneer bases and contrasting tops in oak, walnut, Corian® or stone. When selecting oak or walnut tops, the base must be the same wood species. Three different charging solutions are integrated into the tables: round surface power + USB module, corded wireless charging and round surface power + USB/corded wireless charging.

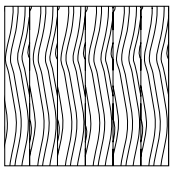

Elevation drum tables are part of the Elevation Modular System. Also included in the collection are benches, ottomans, occasional tables and mid-height tables. See Bernhardtdesign.com for additional product information.

LEVEL® 2 certified. See terms and conditions for additional environmental information.

Power Options

The Elevation table collection offers three power options available on tables, depending on the table size ordered: round surface power module + USB, corded wireless power module and round surface power module + USB and corded wireless power module combination.

When specifying power for the Elevation drum table, select the type of power for each table and use the codes below to specify the power option chosen when ordering or use code 000 when no power is needed.

Round Surface Power + USB Module

The round surface power + USB module includes (1) 15 amp receptacle, (1) 2 amp USB-A port and (1) 2 amp USB-C port. Options for one or two round surface power + USB modules are available depending on table size. Modules are available in white, chrome and black finishes and are UL approved with spill-proof technology. Each table includes a 15 amp 9' black cord. Power comes installed.

Power Specification: When specifying the round surface power + USB module for power use the following codes:

1SN Nickel Trim/White Outlets (1 module)
1SW White Trim/White Outlets (1 module)
1SB Black Trim/Black Outlets (1 module)
2SN Nickel Trim/White Outlets (2 modules)
2SW White Trim/White Outlets (2 modules)
2SB Black Trim/Black Outlets (2 modules)

Round Surface Power + USB Module/ Corded Wireless Charging

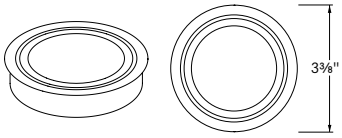

Elevation offers a combination of both round surface power + USB and corded wireless module available installed into one table. This option is available on all elevation drum tables. Power comes installed.

Power Specification: When specifying the round surface power + USB module/corded wireless module for power use the following codes:

WSN Round Surface Power + UBS – Nickel Trim/White Outlets (1 module)
Corded Wireless Charging – Nickel Trim/Black Center (1 module)

Corded Wireless Charging

Elevation offers corded wireless charging options on occasional, drum and multipurpose tables. Wireless power modules are surface mounted and are compatible with all Qi-certified smartphones and devices. Options for one or two corded wireless modules are available depending on table size. Corded wireless chargers are available in a nickel trim with black center and include a 78" USB power cord along with a 3 amp USB power adapter. Power comes installed.

Power Specification: When specifying the round surface power + USB module for power use the following codes:

1WN - Nickel Trim/Black Center (1 module)

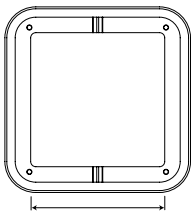

Grommet Placement

The grommet placement codes below correlate with the SKU numbers for Elevation drum tables. Each code represents the table sku, grommet placement, type of power available and number of power modules available.

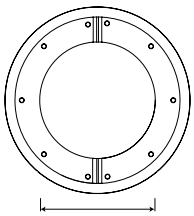

Illustrations are for grommet placement only. Overall dimensions will vary between round surface power + USB modules and corded wireless charging modules.

See pricing pages for power upcharges.

Grommet Placement

The grommet placement codes below correlate with the SKU numbers for Elevation drum tables. Each code represents the table sku, grommet placement, type of power available and number of power modules available.

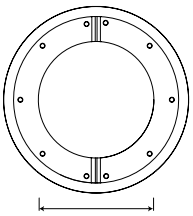

Illustrations are for grommet placement only. Overall dimensions will vary between round surface power + USB modules and corded wireless charging modules.

See pricing pages for power upcharges.

Standard Features

Gwyn laptop tables are available in two top options: solid ash and laminate top. The solid ash top is offered in all standard wood and paint finishes. The laminate top is available in all standard solid and woodgrain laminates. The stainless steel tubular base is available in three options: polished, matte black powder coat and satin white powder coat. SCS Indoor Advantage™ Gold and LEVEL® 2 certified. See terms and conditions for additional environmental information.

Laminate Selections

A three character sku identifies each laminate selection as well as the standard finish offered. Individual components are priced with standard finish on standard laminate.

Additional colors may be available but are subject to upcharges and extended lead times. The laminate option is available on components where noted as an option in the material specification code.

All laminate tops will have a 3mm matching edge band.

Haven Laptop Table

The Haven laptop tables are designed to function as an adjustable height worksurface that features an easy to use but discrete activation handle. Due to it's wide range of adjustablity the work surface can be raised or lowered to suit virtually any application.

Bases are available with a plate design. They are fitted with low-friction glides which allow the tables to easily glide across all surfaces.

All table tops are available in solid and woodgrain laminates, oak and walnut solids, solid surface and PureClad selections. The Haven bases are available in polished aluminum and powder coat finishes.

A three character sku identifies each finish and material selection.

Haven tables are SCS Indoor Advantage™ Gold and LEVEL® 2 certified.

Top Material Selections

PureClad Selections

PureClad is a highly durable powder coat process for tops that creates an encapsulated hardened finish. When PureClad finishes are selected along with their matching metal powder coat finishes for the base, the tables have a monolithic color look.

Standard Features

Ice is a collection of occasional tables created with hand-blown glass bases and cast glass tops. Individually made by artisans outside of Venice, Italy, each table is designed as a standalone piece of art.

Prized for its artistic and handmade nature, traditional hand-blown glass and cast production creates unique details in table tops and bases. It is not uncommon to find naturally formed bubbles, particulates, ripples or color variations within hand-blown glass tables. Bubbles and ripples are formed during the blowing and cooling down process as the tables are being formed. Color variations occur as the layers of glass overlap each other and may be seen depending on the angle the table is viewed from. These organic imperfections create our unique and one-of-a-kind glass tables, created by artisans and have a character all their own. Ice tables are available in three gradients: blue, amber, and smoke grey. They range in height from 15½" to 18" and have diameters of 21½", and 28" as well as 13" x 19".

Tables will be shipped wrapped in a cloth protective layer and packaged in custom styrofoam lined boxes. Ice tables have a one (1) year warranty for quality and workmanship. Due to the hand-made nature of these tables, certain variations, as noted above, may be visible to the user. These are characteristics of the artisanal process and are not considered defects. Scratches and breaking are not covered under warranty.

SCS Indoor Advantage Gold certified. See terms and conditions for additional warranty and environmental information.

Finish Selection

The natural characteristic of hand blown glass will be visible.

Standard Features

Map is a collection of solid oak occasional and laptop tables ranging in heights of 14” to 25”. Tops are available as square or rectangular with rounded corners and range in widths of 14” to 40”. Map tables are available in all oak and oak select finishes.

SCS Indoor Advantage™ Gold and LEVEL® 2 certified. See terms and conditions for additional environmental information.

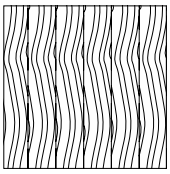

Solid Wood Selections

Solid wood tables feature unique natural characteristics that reveal slight variations in color, texture and grain. Slight variations or movement in wood may occur over time resulting in cracking or other imperfections. These imperfections are an inherent part of the wood curing process and are typical for natural products and are not considered defects.

When specifying light finishes, the natural characteristics of the wood will be more visible and color will vary.

Standard Features

Marlowe Drum Tables

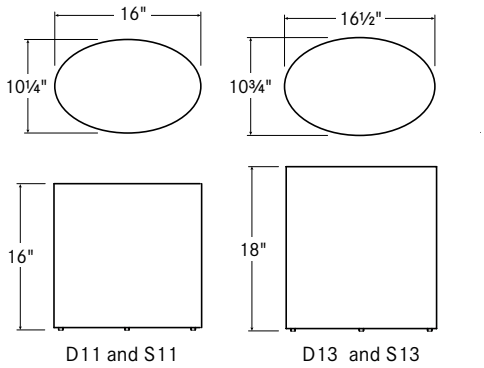

The Marlowe drum table is part of the Marlowe occasional table collection that features uniquely designed coffee and drum tables.

Marlowe drum tables are fully enclosed tables available in either ash veneer or brushed stainless steel. The stainless steel tables feature two finishes: brushed graphite and brushed brass. Tables are available in three sizes: 16" x 10¼" oval and 16½" x 10¾" oval.

Bases available with non-marring glides.

Quiet Table Collection

The Quiet collection is a comprehensive table system that offers over 550 different options and combinations. The collection includes: occasional tables available in two heights, a series of mid height work tables for use with lounge seating, conference/cafe tables and bar height tables.

All tables are available in solid and woodgrain laminates, maple, oak, paldao and walnut veneers, back-painted etched glass and glacier white solid surface, unless noted on individual sku. When specifying light finishes the natural characteristics of the wood will be visible and color will vary. Therefore, exact color matches are not possible. Bases are brushed stainless steel and are available in eight powder coat finishes.

The occasional tables and mid height tables are designed to function as movable work tables and have "finger pull channels" carved into the underside of the tops. The flat base rests upon a custom glide for ease of movement.

Quiet laminate, solid surface and glass top tables are SCS Indoor Advantage™ Gold and LEVEL® 2 certified.

Laminate Selections

A three character sku identifies each laminate selection as well as the standard finish offered. Individual components are priced with standard finish on standard laminate.

Additional colors may be available but are subject to upcharges and extended lead times. The laminate option is available on components where noted as an option in the material specification code.

All laminate tops will have a 3mm matching edge band.

Prices and Specifications
Prices and specifications are subject to change without notice. All prices quoted will be FOB our factories. If applicable, sales tax will be based on ship-to destination.

Bernhardt Design reserves the right to make changes in dimensions, construction, price lists, or product literature without prior notice.

All measurements and weights are approximate and subject to change without notice.

Order Entry
All orders are subject to final acceptance by Bernhardt Design in Lenoir, NC. Receipt of our acknowledgment indicates acceptance of your order subject to the terms set forth on the acknowledgment.

Bernhardt Design attempts to clarify all purchase orders. However, in the event the price list number and description on the purchase order differ, the price list number will prevail.

Changes/Cancellation
All orders in production are considered firm orders and are not subject to changes or cancellation.

Shipping
Bernhardt Design will ship in accordance with customer instructions whenever possible. For convenience, Bernhardt Design offers a guaranteed freight program (GFP). Bernhardt Design will exercise our best judgment in selecting a carrier under our GFP. When selecting a carrier, Bernhardt Design will make our best effort to meet requested delivery dates.

Transportation lead-times and delays including equipment problems, weather, general traffic, traffic accidents, customer warehouse space, labor disputes, customer changes, etc., that occur on a carrier will not be the responsibility of Bernhardt Design. Furthermore, Bernhardt Design will not be responsible for additional costs incurred due to aforementioned delays.

For customers who decline our GFP, Bernhardt Design will stage orders for pick up at 1% of the list price, or $75 minimum.

Customer orders in production will be shipped as scheduled and will not be held. Bernhardt Design reserves the right to make partial shipments on any order, unless notified otherwise by the customer.

High quality cartoning meeting trucking and railroad specifications is standard at no extra charge. Some items may be blanket wrapped for shipment.

Freight Damage and Claims
Bernhardt Design is not liable for any damages to products that occur during transit or storage. The carrier assumes all responsibility upon acceptance of product. It is the customer's responsibility to inspect products upon receipt and file any claims with the carrier. No product should be refused. If products are received damaged, a written exception should be made on the bill of lading and an immediate inspection be requested of the carrier.

Concealed damage must be reported to the carrier within 10 business days from date of delivery. Failure to make claims shall constitute acceptance of the products and waiver any claims of defects, errors or shortages. In the event delivery is made on a Bernhardt Design truck, the products should be carefully inspected for transit damage. If contents are damaged, the driver should be notified to call his dispatcher for immediate disposition.

Concealed damage must be reported within 10 business days from date of delivery and product/packaging held for inspection by a Bernhardt Design representative. Replacements for product damaged in shipment or storage will be manufactured upon receipt of a purchase order.

Returns
No merchandise may be returned to Bernhardt Design without written consent in the form of a Return Authorization from our Quality Assurance Department stating why item is being returned and how item will be shipped.

Unauthorized returns will be automatically refused by our receiving department as well as returns not in accordance with Bernhardt Design shipping instructions. Liability for defective merchandise shall be limited to the replacement or repair of that merchandise, and Bernhardt Design shall not be liable for other damages or losses.

Terms and Credit
Pricing and terms of sale apply to orders accepted by Bernhardt Design, and no terms, stipulations, or conditions contained in the dealer's submitted purchase orders shall have any force or effect. Bernhardt Design requires a completed and signed credit application from every dealer.

Bernhardt Design also requires dealers to provide a Blanket Certificate of Resale/Use containing valid sales tax exemption number(s) for their respective state(s).

If credit has been approved, the standard terms for all Bernhardt Design products are Net 30 from the invoice date. In certain instances, as an additional condition of order acceptance, buyer may be required to provide a deposit at time of order and/or remit the balance before shipment is released. If credit has not been approved, a 100% prepayment, including any freight charges, is required prior to production.

Acceptable forms of payment include a certified check or electronic bank transfer. For information on where to send check/electronic bank information contact our Financial Services Department. If a dealer or company check is submitted, three (3) weeks should be allowed for the clearance of the check. If electronic bank transfer is submitted, one (1) week should be allowed for the clearance of the electronic bank transfer. The order is subject to cancellation if payment in full is not received within three (3) weeks from the acknowledgment date.

The dealer may not make deductions for advertising, promotions, quality problems, freight, or any other reason without prior authorization by Bernhardt Design Such a deduction could result in the curtailment or suspension of further shipments until the matter is resolved.

Delinquency notices are generated and mailed periodically. Service charges of 18% per annum will be added to each past-due transaction. Unpaid service charges will be accrued and invoiced on a periodic basis. Past-due notices may result in orders being held until the situation is resolved.

This credit hold could prevent orders from being placed into production or shipped. Orders not in production that are placed on credit hold for three (3) weeks will be subject to cancellation.

Severe past-due situations may result in the employment of a collection agency or other collection litigation. If any collection activity is necessary regarding a dealer account, the dealer will be responsible for the payment of any and all attorney and collection agency fees.

A slow payment history may result in reducing or eliminating an open line of credit. At the discretion of Bernhardt Design, amounts owed by a dealer to Bernhardt Design arising from any transaction or dealings between the dealer and Bernhardt Design may be offset against any amounts owed to the dealer by Bernhardt Design.

Warranty

Bernhardt Design will repair or replace, at its discretion, any product or part thereof which fails as the result of defects in material and workmanship, under single shift use and normal care for five years from date of shipment. This warranty shall apply only to the original purchaser.

This warranty does not cover normal wear and tear, misuse or abuse of product, dramatic temperature changes, exposure to unusual conditions or damages incurred by contact with seating products, tables, desks or other surfaces. Natural color changes, variations or movements in lumber or veneer products, exposure to extreme temperature changes and direct sunlight may cause color changes and/or surface damage. These are circumstances beyond the control of Bernhardt Design and are not warranty issues. Repair or replacement of discontinued product will be at the discretion of Bernhardt Design.

This warranty is the customer's exclusive remedy for product defect and does not apply to damage caused by a freight carrier, dealer, installer, user modification, attachments to a product, or any third party. Bernhardt Design has the exclusive right to make the final determination of product misuse or abuse. Except as stated above, Bernhardt Design makes no express or implied warranties as to any product, and in particular, makes no warranty of merchantability or of fitness for any particular purpose. Bernhardt Design shall not be liable for any consequential or incidental damages or for commercial loss arising from any product defect.

Operational Parts Warranty

Drawer glides, drawer boxes, drawer pulls, and lock mechanisms have a Life-Time Warranty for original purchaser. Power and communication components are warranted for one year.

Parts Order

Bernhardt Design parts have a $25 net minimum per order. This does not include freight costs.

Custom Design

Bernhardt Design may alter products to meet specific needs. Contact your local sales representative when a custom design is needed. Custom designs,

if approved, require minimum quantities, additional leadtime and upcharges.
A custom job number, available from your Bernhardt Design sales representative, must be submitted with purchase orders. Orders combining custom design with standard product cannot be scheduled for production until custom items are approved. Custom design orders are not subject to revision or cancellation after acknowledgment.

Wood Finishes

Bernhardt Design tables are available in finishes that are compatible with credenzas and seating finishes. However, finishes on tables may vary slightly from those on seating due to the natural characteristics of the wood. No absolute match is implied or guaranteed.

Light Finishes

Bernhardt Design offers lighter finishes on certain veneers and solid woods. When specifying light finishes the natural characteristics of the wood will be visible and color will vary. Natural characteristics include the natural discolorations of the wood substance and color variations in glued up stock. These natural characteristics are not considered defects by Bernhardt Design, and therefore merchandise will not be replaced.

Special Finishes

Special finishes, made to customer specifications and subject to factory approval, may be available at a 10% net upcharge with a $500 net minimum.

Additional leadtime may be required for special finish items. Special finish orders will not be acknowledged until the special finish sample is approved in writing and received by Bernhardt Design Customer Service. Special finish orders are not subject to revision or cancellation after acknowledgment.

Installation and Maintenance

All freestanding tables and credenzas are equipped with leveling devices. Local floor conditions vary, and it is always necessary to properly adjust leveling devices. Proper leveling is essential to the alignment and function of doors and drawers.

Improperly leveled units result in misaligned doors and drawers and may impair locking mechanisms or other functional hardware. After the initial installation of credenzas, it may be necessary to readjust and align the units to compensate for settling. This should be expected as a matter of routine maintenance and follow-up to assure proper case function.

Proper installation of Bernhardt Design tables and credenzas is the responsibility of the dealer. Improperly installed units can result in permanent damage to case components. Damage due to improperly installed furniture not covered under product warranty.

Orders combining custom design with standard product cannot be scheduled for production until custom items are approved. Custom design orders are not subject to revision or cancellation after acknowledgment.

Care and Cleaning

Finished wood surfaces should be cleaned with a soft damp cloth, wiping in the direction of the grain. Furniture should be buffed dry immediately with a soft cloth.

Design and Patent Rights

All of the products shown in Bernhardt Design catalogs and described in Bernhardt Design price lists are, and remain, the property of Bernhardt Design, with the sole right reserved to manufacture and to distribute.

Some of the product designs shown are patented in the United States and will remain the property of Bernhardt Design. Any reproduction of the products constitutes an infringement of patented copyright laws and will be subject to prosecution.

Environmental

Some tables and credenzas are LEVEL® for ANSI/BIFMA e3-2019 – Furniture Sustainability Standard and SCS Indoor Advantage™ Gold certified. Visit the product page at bernhardtdesign.com for certifications.

Preferred Carrier Guaranteed Freight Rates

Freight charges will be applied to orders as a separate line item based on the zones listed. Rates are based on zones with a minimum for each zone. All zones are located within the Continental United States.

The freight amount is calculated on the total merchandise list COM price. Additional freight fuel surcharges may apply. Rates are based on deliveries made Monday through Friday, 8 am until 5 pm.

All orders are shipped by Bernhardt Design company trucks or preferred carriers specified by Bernhardt Design. **If a purchase order does not specify that the product must ship complete, Bernhardt Design reserves the right to select the most effective shipping method necessary, including split shipments.** Dealer warehouse information, including phone number and contact name, must be specified on the purchase order.

Direct site deliveries may be requested with an additional freight cost. Requests for direct site deliveries must be made 2 weeks prior to the scheduled ship week and meet the following criteria:

- Minimum of half truckload
- Delivery site accessible by a 53’ trailer
- Complete delivery site address with contact name and on-site phone number
- Labor available for unloading

Deliveries that do not meet the criteria must be directed to a receiver warehouse. If a receiver warehouse is not available, the dealer may make arrangements with their own 3rd party carrier. If a 3rd party carrier is elected, a contact name, phone number and e-mail address is required.

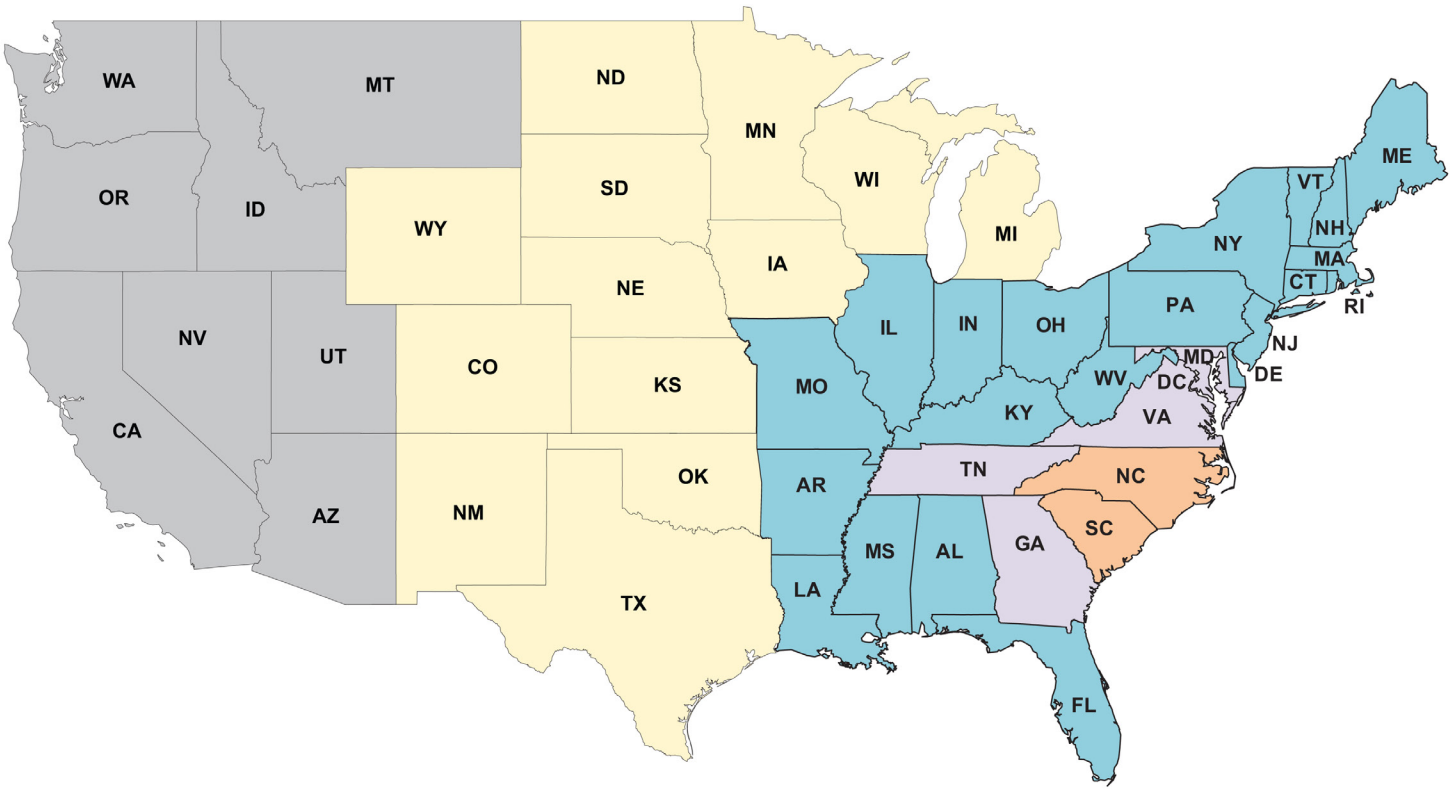

Bernhardt Design has a no touch freight policy. Drivers are not allowed to unload freight.

Weekend direct site deliveries will incur a $500 per trailer weekend delivery fee. Weekend is defined as between 5 pm Friday and 8 am Monday.

Customers who decline GFP should refer to the shipping section of the Terms and Conditions page.

Zone	Percent	Minimum
Zone 1	3%	$150
Zone 2	4%	$150
Zone 3	5%	$150
Zone 4	5.5%	$150
Zone 5	6%	$150

Percent bases on List Price.
