

Mirador Seating System Specification Guide

Mirador is a modular seating product comprised of 63 unique modules, which may be used interchangeably to create an unlimited number of configurations. To select the modules that are appropriate for your application use the four steps listed below.

Please visit BernhardtDesign.com for a complete library of 2D and 3D models. You may also contact your local sales representative or the Bernhardt Design corporate office for specification assistance. Mirador is fully upholstered with a polished cast aluminum frame with levelers and non-marring glides.

When ordering multi-item configurations, please provide the total COM yardage from the same dye lot in a continuous roll(s). *All COM/COL fabrics must be preapproved by Bernhardt Design prior to application. See terms and conditions for instructions on tagging COM. Specify fabric railroaded when used with Item 5905 corner module.

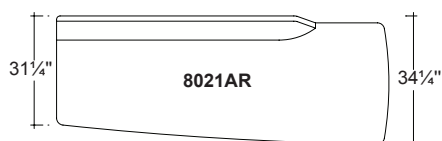

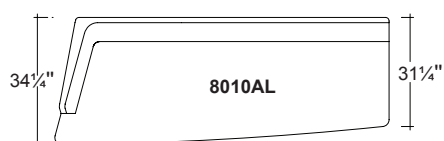

All necessary ganging brackets are included and pre-installed. SCS Indoor Advantage™ Gold and LEVEL® 2 certified. See terms and conditions for additional environmental information.

Four Step Selection Process

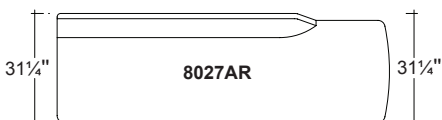

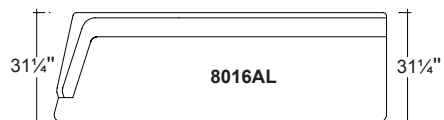

Step 1 - Front Selection

Sofa and Settee modules are available with two different front conditions.

A - Flared Fronts

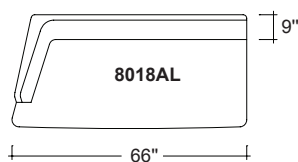

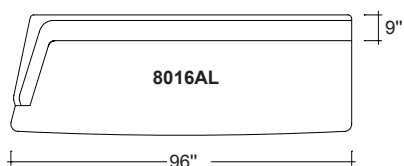

B - Non-Flared Fronts

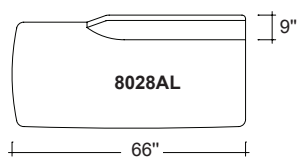

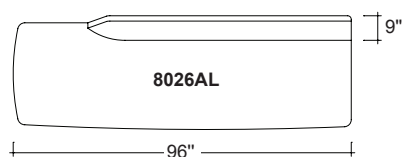

Step 2 - Arm Selection

Sofa and Settee modules are available with arms or without arms.

A - Arm Module

B - Armless Module

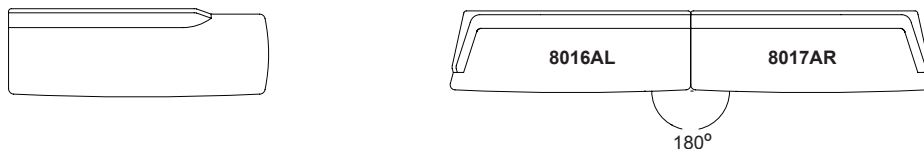

Mirador Seating System Specification Guide

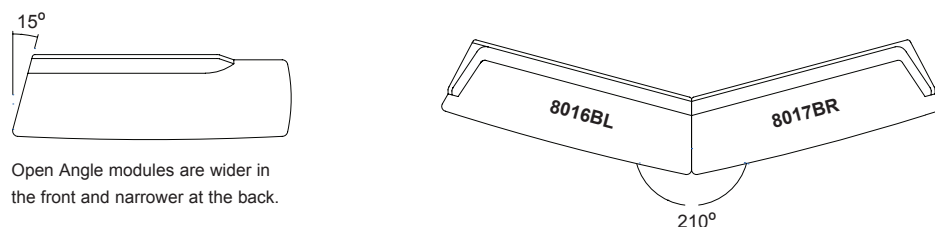

Step 3 - End Selection

Sofa and Settee modules are available with three unique end conditions. The selection of an end condition is used to achieve different angles when connecting multiple modules.

A - Straight Ends are specified for creating a configuration in a straight line 180°.

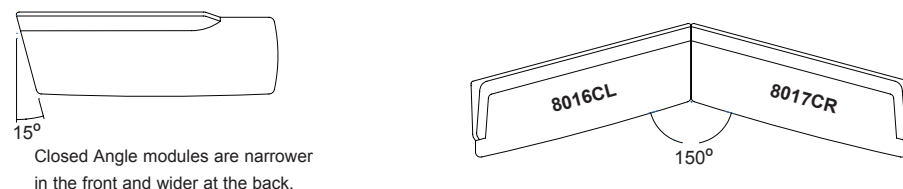

B - Open Angle Ends are specified for opening up a configuration and achieving an angle which is greater than 180°.

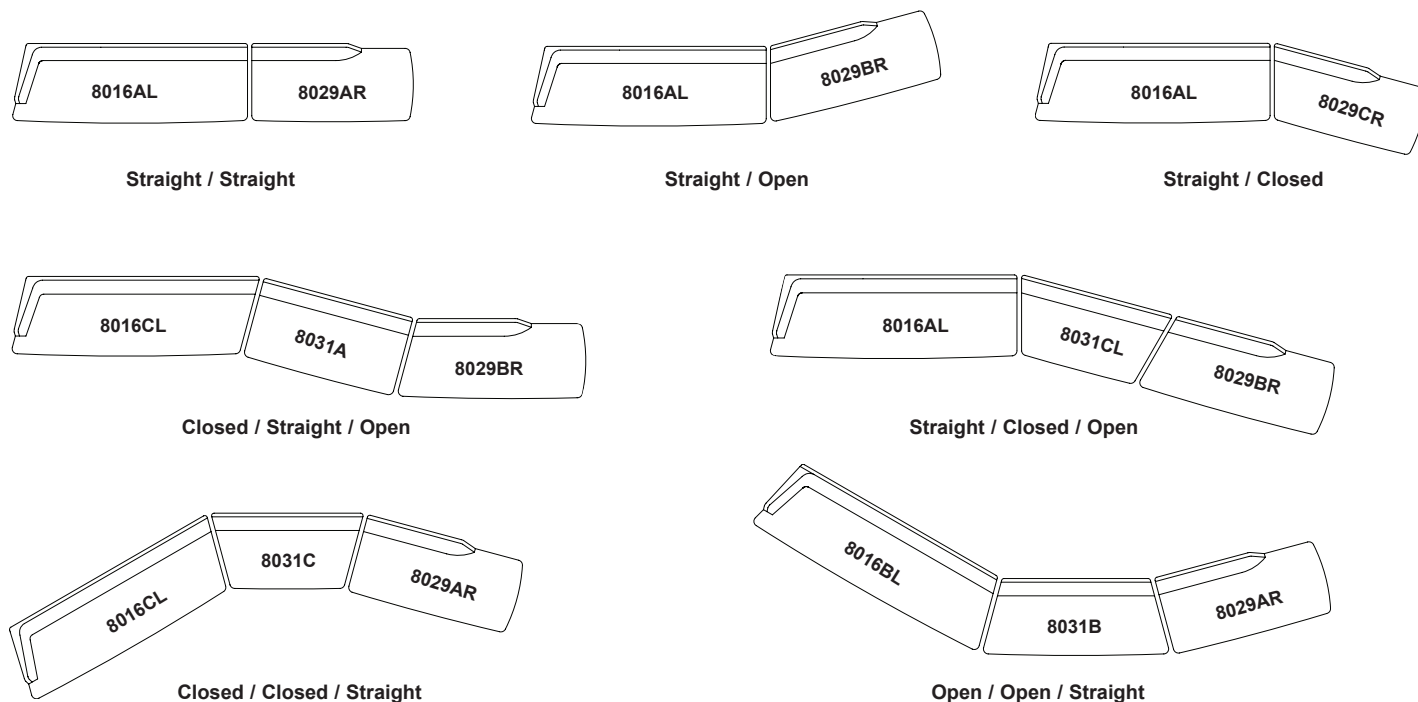

Open Angle modules are wider in the front and narrower at the back.

C - Closed Angle Ends are specified for closing up a configuration and achieving an angle which is less than 180°.

Closed Angle modules are narrower in the front and wider at the back.

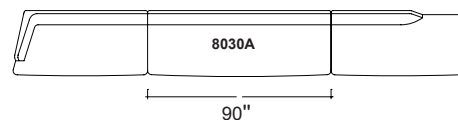

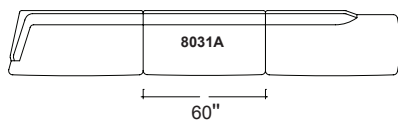

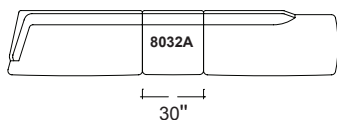

Modules with different end conditions may be connected to achieve the appropriate angle.

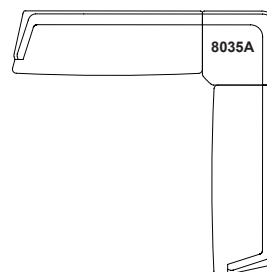

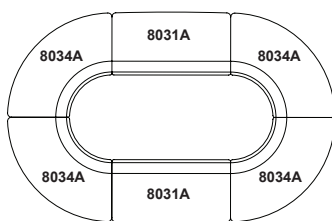

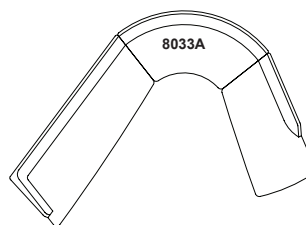

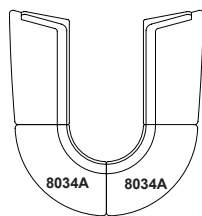

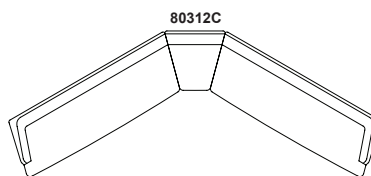

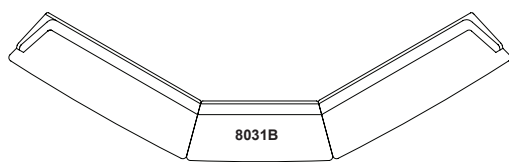

Mirador Seating System Specification Guide

Step 4 - Connecting Module Selection

A - Specifying connecting modules to achieve a desired length.

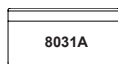

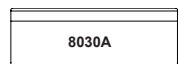

B - Specifying connection modules to achieve a desired angle.

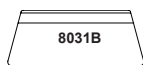

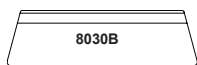

Twelve unique connecting modules are available to alter both the length and the angle of a configuration.

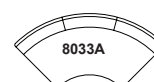

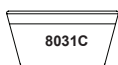

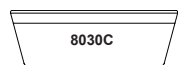

Straight Connecting Modules

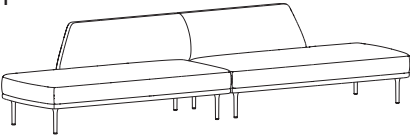

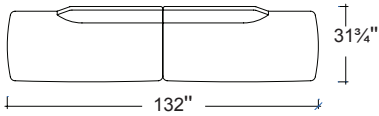

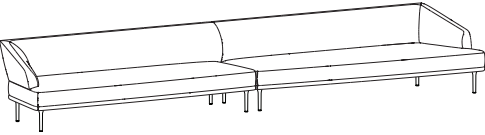

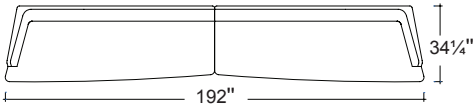

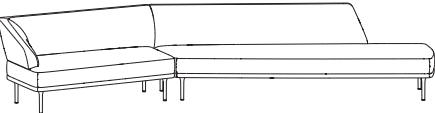

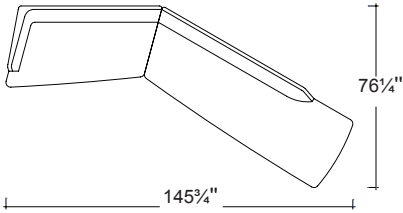

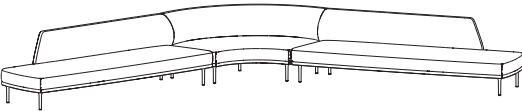

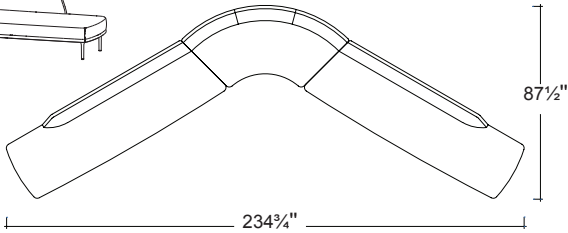

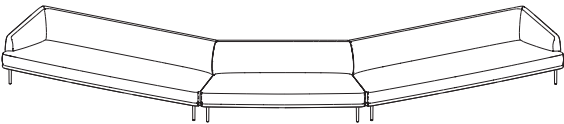

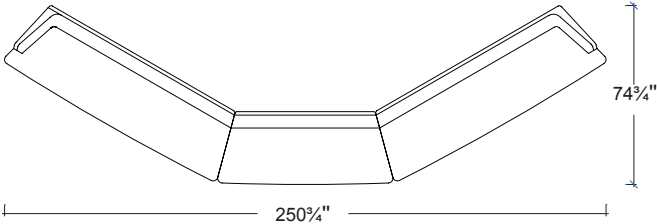

Open Angle Connecting Modules

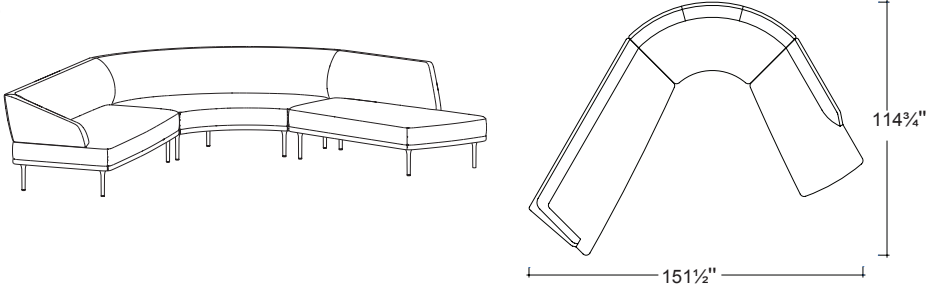

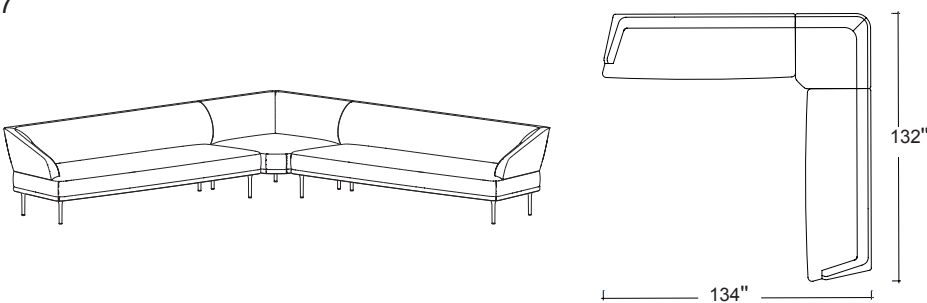

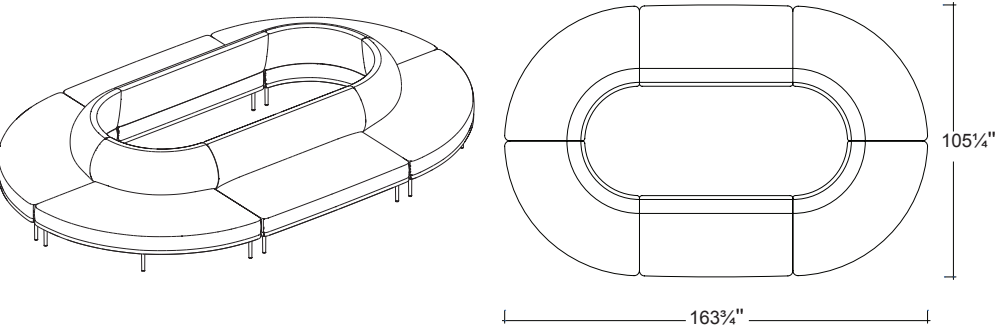

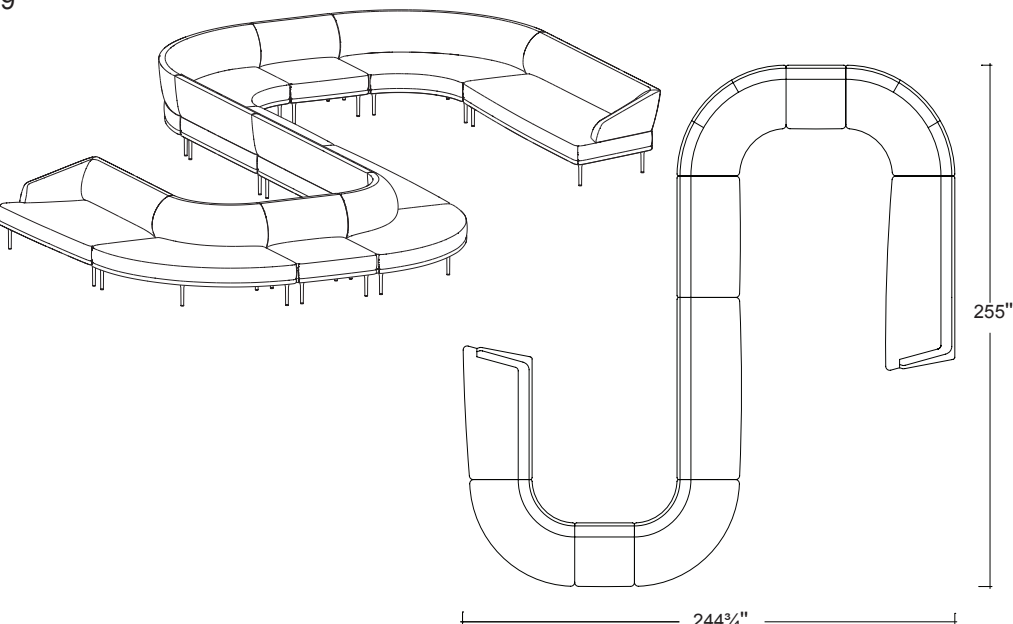

Closed Angle Connecting Modules
