SCS Indoor Advantage<sup>TM</sup> Gold and LEVEL<sup>®</sup> 2 certified. See terms and conditions for additional environmental information.

**Laminate Selections**

A three character sku identifies each laminate selection as well as the standard finish offered. Individual components are priced with standard finish on standard laminate.

A variety of Wilsonart® standard laminates with standard finishes is offered on conference and multipurpose tables. Additional colors may be available but are

subject to upcharges and extended lead times. The laminate option is available on components where noted as an option in the material specification code.

All laminate tops will have a 3mm matching edge band.

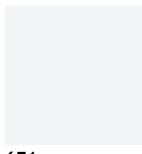

**PLL Solid Laminate**

**Veneer Selections**

A three character sku identifies each species as well as the standard finish offered. Individual components are priced with standard finish. Special finishes on veneers made to customer specifications are subject to factory approval and a 10% net upcharge with a \$500 net minimum.

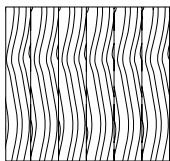

Transparent stains and sealers are applied in multiple steps to enhance the beauty of the natural wood. A durable, baked-on, top-coat of conversion varnish or UV topcoat is applied to protect the product. It is recommended that

felt, cork or fabric backed desk pads and accessories are used on worksurfaces to minimize wear.

When specifying light finishes the natural characteristics of the wood will be visible and color will vary. Paint finishes are available as custom orders. See terms and conditions for additional finish information.

**Blueprint Table Collection**

Designed for open environments, the Blueprint table collection meets a multitude of meeting table needs and expands Bernhardt Design's table offering. The collection features a large number of skus and multiple configurations that include standalone tables, media walls, and stepped tables. Blueprint offers two base options: Frame, and Block. SCS Indoor Advantage™ Gold and LEVEL® 2 certified. See terms and conditions for additional environmental information.

Conference Height Round Table - Ranging from 42" - 72" diameter

Conference Height Table - Ranging from 24" - 48" wide by 48" - 120" long

Conference Height Table - Ranging from 36" - 48" wide by 72" - 120" long

Block and Frame Stepped Table - Ranging from 36" - 48" wide up to 240" long

2 Piece Frame Table Run - Ranging from 36" - 48" wide up to 240" long

Block Stepped Table - Ranging from 24" - 48" wide up to 240" long

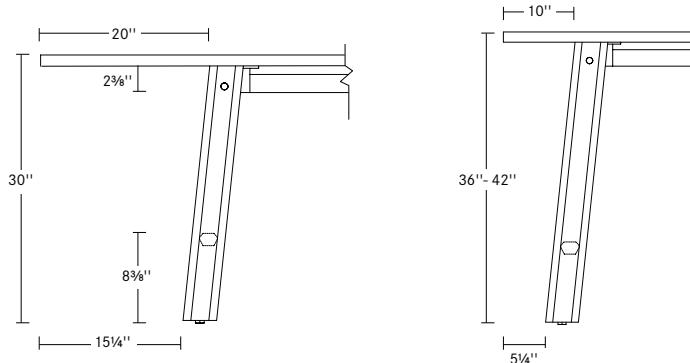

## Blueprint Base Offerings

### Frame Base

The frame base is constructed of solid oak with subtle bevel details. Configuration options include standalone tables, stepped runs and multiple configurations offered in 30", 36" and 42" base height.

**Top Overhang Summary for End Conditions**

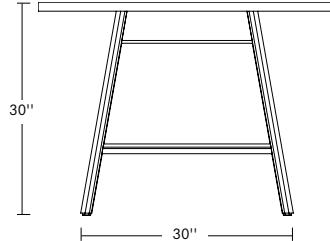

10" top overhang is standard for tops 54" to 90" lengths.

20" top overhang is standard for freestanding tops and those longer than 90".

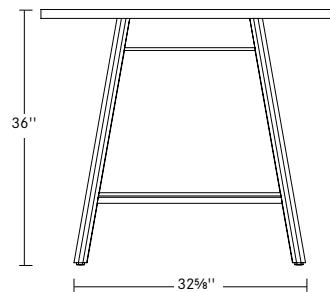

20" top overhang is standard for all 30" h tables.

### Frame Base Size

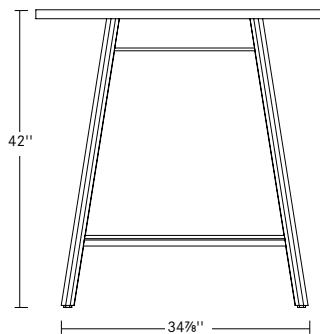

The following illustrations show the overall frame leg dimensions.

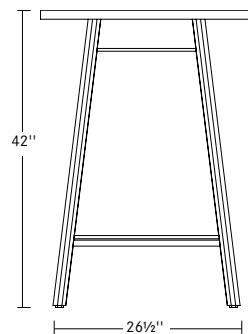

**30" h Frame Base**  
For use with 36", 42" and 48" tops

**36" h Frame Base**  
For use with 36", 42" and 48" tops

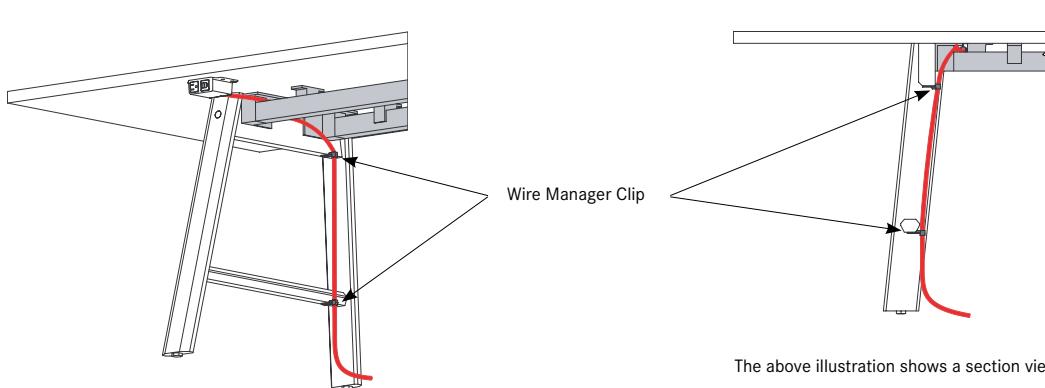

**42" h Frame Base**  
For use with 36" and 42" tops

**42" h Frame Narrow Base**  
For use with 24" and 30" tops only.

### Wire Management

The following illustration shows the wire management for the Frame table. A gray & white braided cotton cord (shown below in red) will be exposed and managed by clear polycarbonate clips down the leg. Cords will be routed by the wire management clips mounted on the bottom and

The above illustration shows a section view.

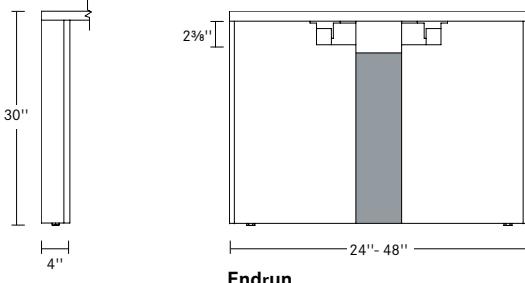

## Blueprint Base Offerings

### Block Base

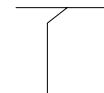

The Block base provides a traditional panel look with concealed wire management and features a unique beveled edge detail on the inside. Configuration options include standalone tables, stepped runs and multiple configurations offered in 30", 36" and 42" base height.

**Top Overhang Summary for Block Base**

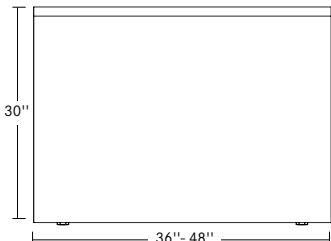

Endrun base to be flush with top edges.

### Block Base Size

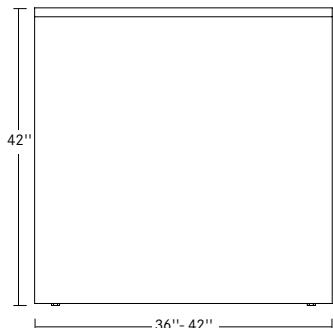

The following illustrations show the overall block leg dimensions.

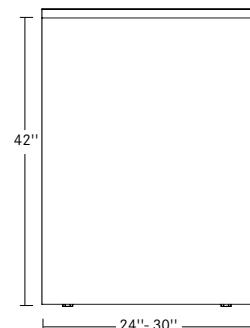

**30" h Block Base**  
For use with 36", 42" and 48" tops

**36" h Block Base**  
For use with 36", 42" and 48" tops

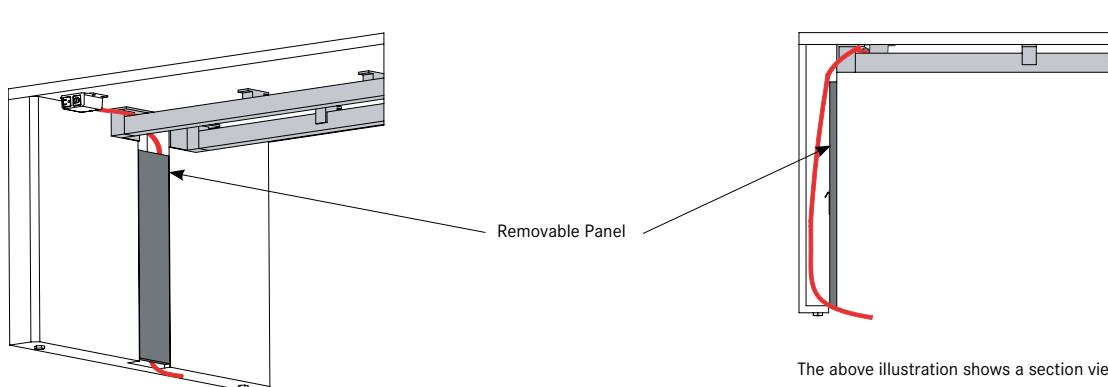

**42" h Block Base**  
For use with 36" and 42" tops

**30" - 42" h Block Narrow Base**  
For use with 24" and 30" tops only.

### Wire Management

The following illustration shows the wire management for the Block table. A gray & white braided cotton cord (shown below in red) will be routed behind the concealed, removable panel.

The above illustration shows a section view.

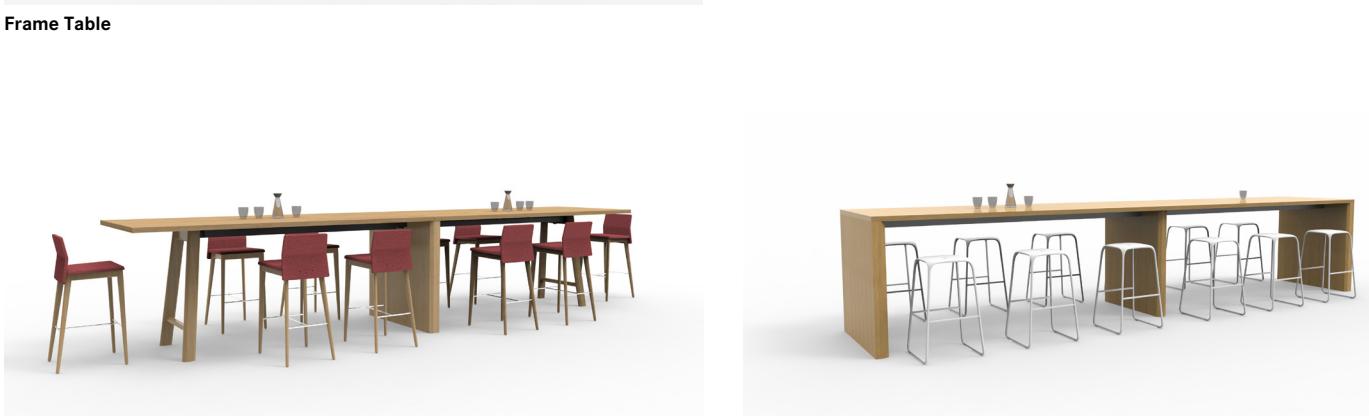

## In-Line Conditions

Frame Table

Blueprint is designed for open environments and offers various in-line configurations. Blueprint structural rails are designed to accommodate long table runs.

Frame runs are unique with the ability to adapt to both block and frame legs in long runs.

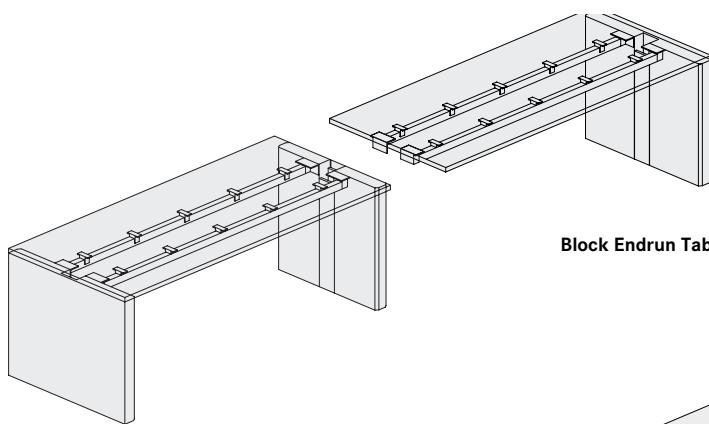

Frame with Block Run

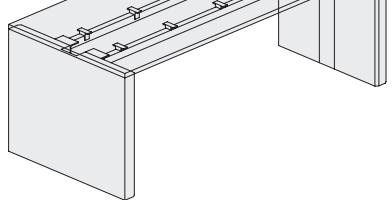

Block Run

## Specifying In-Line Configurations

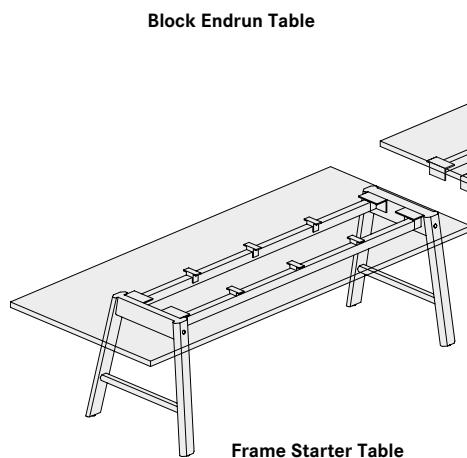

Blueprint tables are unique in how they are skued. Please see below illustration on how to specify in-line tables.

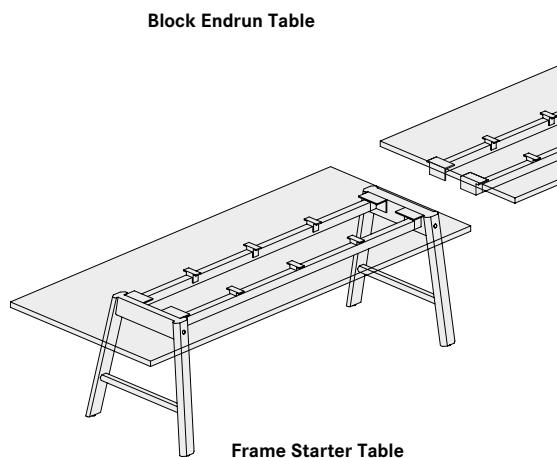

Block Endrun Table

Block Starter Table

Frame Endrun Table

Frame Starter Table

## Blueprint Stepped Conditions

Frame Stepped Configuration

Frame Block Stepped Configuration

## Stepped Overview

Blueprint is designed for open environments and offers various stepped configurations. The Frame legs provide a lighter look, yet with the mass and disposition to hold their own in any space. The Block leg presents a classic aesthetic with a modern case.

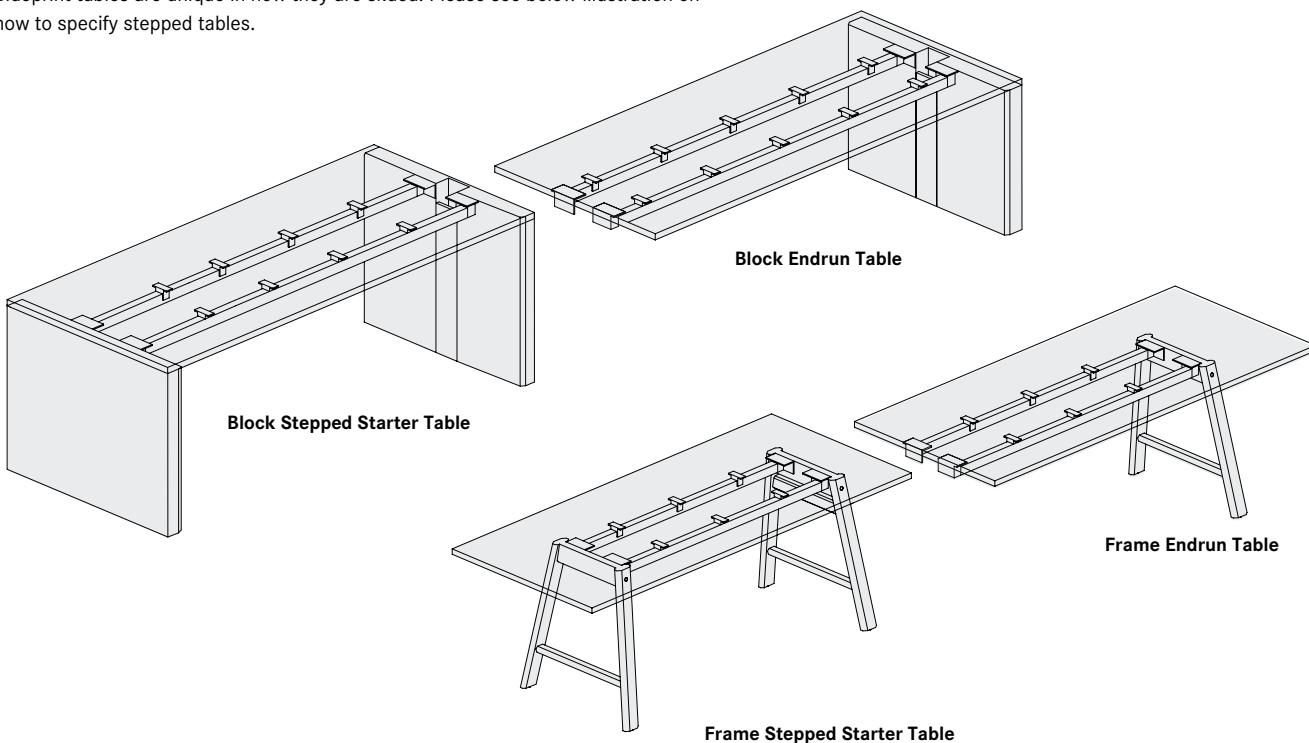

The multi-level design provides the opportunity for interesting landscaping layouts that can accommodate both high and low seating.

Block Stepped Configuration

## Specifying Stepped Configurations

Blueprint tables are unique in how they are skued. Please see below illustration on how to specify stepped tables.

## Blueprint Mediawall

Mediawalls are designed for installation against a wall or as freestanding units with single or double-sided tables. The bold design elements compliment the open frame legs and block base, while also helping ground the table collection.

Blueprint mediawalls help build a functional meeting space in open environments and offer a location for customer's to mount various monitors and/or marker boards. Blueprint tables utilize structural rails, incorporating new wire management and multiple power options that work together to create a collaborative workspace for open environments. The mediawall wire management incorporates a removable panel to route cords from the rails down the inside of the panel.

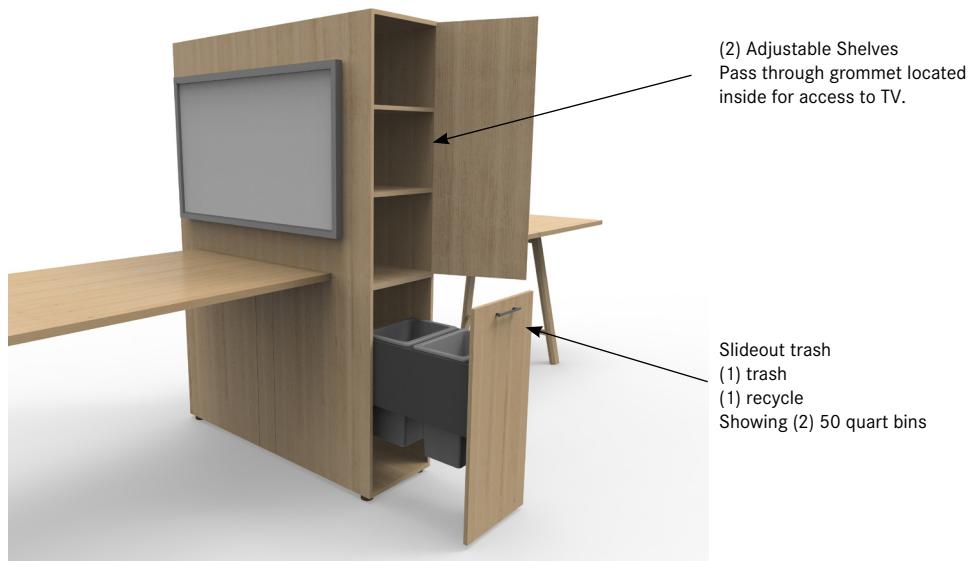

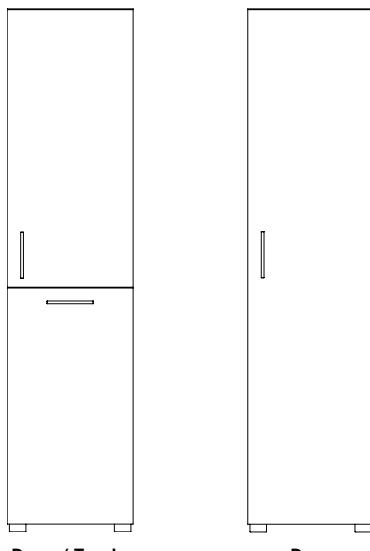

**Double-Sided Mediawall**

**Single-Sided Mediawall Configuration with Lounge**

## Mediawall Features

Mediawalls offer (2) Sku's; door/trash and open door with general storage.

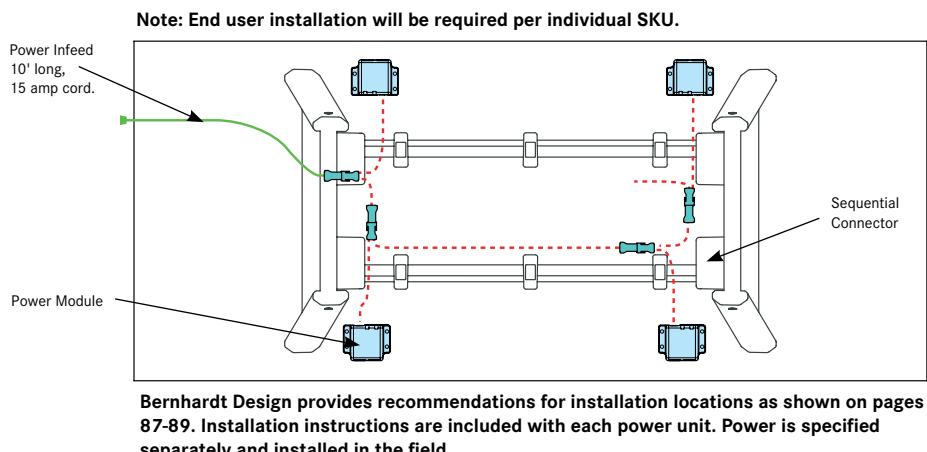

## Under Mount Power

Bernhardt Design offers a proprietary under mount power solution allowing quick and easy daisy chaining of modules together. A maximum of (7) under mount power modules can be connected on one power infeed.

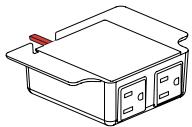

The under mount power modules are available in (2) configurations: (2) receptacles, or (1) receptacle, (1) 2 amp USB-A port and (1) 2 amp USB-C port. Each module in a kit will be provided with the same configuration as specified by the end user.

End user installation will be required per individual SKU. Each SKU includes a separate power infeed with a 10' grounded plug to connect to the power source. [See installation instructions for installing.](#)

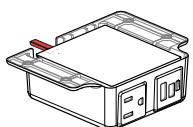

Under mount power is certified to UL STD 962 A CSA STD 22.2 No. 21.

## Blueprint Wire Management

Blueprint power infeeds are routed through integral spacers to a multi-wire clip that offers advanced wire management.

The following illustration shows a section view of the Blueprint table with under mount power.

The multi-wire clip presents a wire management solution that offers space for (2) thicker power cords and an area for ethernet cords and smaller cords in the center. This system for wire management provides a cleaner and more simplified look by containing wires up against the extrusion.

## Surface Mount Power Module

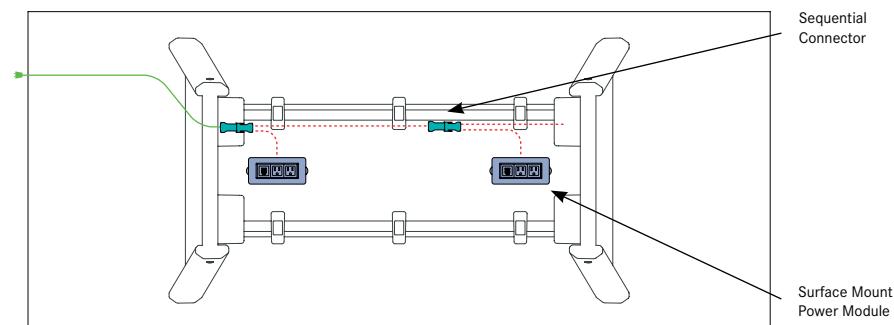

Blueprint offers a proprietary surface mount power solution allowing quick and easy daisy chaining of tables. A maximum of (3) surface mount power modules can be connected on a single power infeed.

The surface mount power module is available in one configuration with (2) grounded receptacles and (1) 2 amp USB-A port and (1) 2 amp USB-C port.

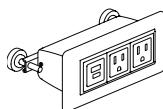

Each SKU includes a separate power infeed with a 10' grounded plug to connect to the power source. If specified as a single module, the unit will have a 10' infeed with a grounded plug rather than a sequential connector.

Surface mount power is certified to UL STD 962 A CSA STD 22.2 No. 21.

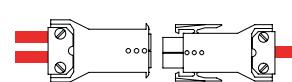

**Note:** End user installation will be required per individual SKU.  
Power specified separately. See pages 91-93 for grommet codes.

**Power Module**

(1) 2 amp USB-C port, 20 watt  
6½" w x 3" d x 2¾" h

## Round Surface Power Module

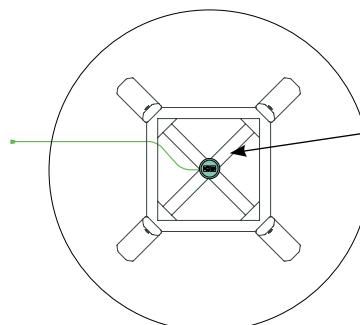

Available only for the round and arched square tables, the Blueprint Power Module offers a simple and clean way of bringing power and USB to the worksurface.

The Power Module installs flush to the worksurface and is offered in one configuration: (1) receptacle and (1) 2 amp USB-A port and (1) 2 amp USB-C port.

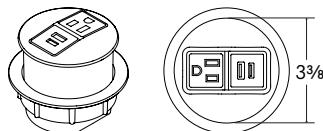

The power module is UL approved with spill-proof technology and a 15 amp 10' power infeed.

Power module power is certified to UL STD 962 A CSA STD 22.2 No. 21.

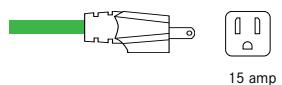

**Note:** Power Module will come pre-installed.  
Power is specified separately.

3¾" w x 3¾" d x 2¾" h

## Mediatrac 1™

Mediatrac 1 grommet system is a simplified for bringing power and data to the meeting table worksurface in a clean simple way.

Mediatrac 1 provides power and various options for Extron AAP data configurations. Grommets are available in (3) different sizes: a 8" x 4" single door unit, a 8" x 8" double door unit and a 8" x 24" double door unit. All units have brushed aluminum trim with options for aluminum, laminate, veneer, corian and glass lids.

Mediatrac 1 has 4 different options for bringing power to the table, corded, hardwired or 4-trac system with either a corded or hardwired power infeed.

Note: End user installation will be required per individual SKU.  
Power specified separately. See pages 98-103 for grommet kits.

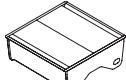

## Mediatrac 1 Options

### 8" Single Door Mediatrac™ Grommet

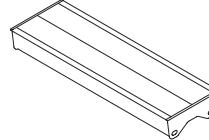

2 grounded outlets, 1 exit plug,  
accepts 2 Extron single space AAP's,  
AAP modules specified separately,  
brushed aluminum frame

### 8" Double Door Mediatrac™ Grommet

4 grounded outlets, 1 exit plug,  
accepts 4 Extron single space AAP's,  
AAP modules specified separately,  
brushed aluminum frame

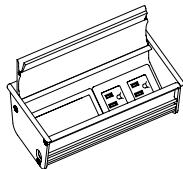

### 24" Double Door Mediatrac™ Grommet

8 grounded outlets, 2 exit plugs,  
accepts 8 Extron single space AAP's,  
AAP modules specified separately,  
brushed aluminum frame

## Mediatrac 1 Grommet Kits (Includes the following)

### Power Module

Number and configuration  
of grommet modules determined  
by the grommet code

### Jumper (if required)

Jumper are determined by the  
length of the top specified

### Connector + H-Block

Will be included in kit when  
the 4-trac option is specified

### Power Infeed Options

72" 4-Trac Power Infeed with 20 amp plug

72" 4-Trac Power Infeed with Hardwired

72" Power Infeed with 15 amp plug

72" 3/8" Hardwire Whip

15 amp

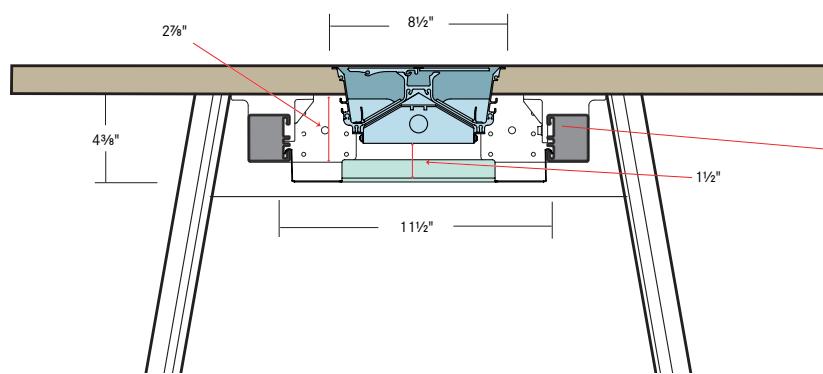

20 amp receptacle, 4-Trac Only

### Wire Management

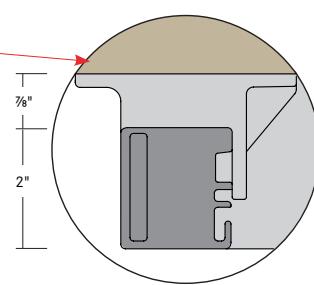

brushed nickel finish  
flexible cable management  
weighted metal base

## Mediatrac 1 Dimensional Specifications

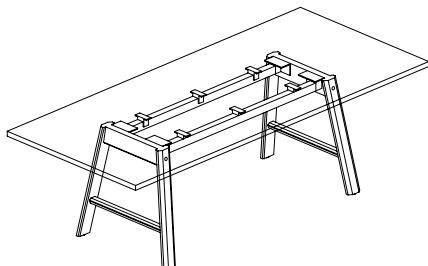

The narrow frame leg has a smaller span, pulling an 11" width from the outside of each extrusion.

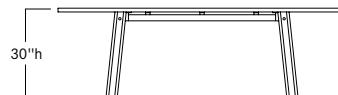

Mediatrac 1 is certified to UL STD 962A, UL STD 1363, CSA STD 22.2 No. 308-14. 4-Trac is certified to UL STD 183 CSA STD 22.2 No. 203.1-14.

**double-sided mediawall use with 36" h**

- mediawalls must be specified with additional runoff tables with media wall connection
- tables connect to both sides of the mediawall
- 36" h and 42" h runoff tables connect to 86½" h mediawalls

Double-sided mediawall connects to runoff tables on both sides.

## Under Mount Power

Bernhardt Design offers a proprietary under mount power solution allowing quick and easy daisy chaining of modules together. A maximum of (7) under mount power modules can be connected on one power infeed.

The under mount power modules are available in (2) configurations: (2) receptacles, or (1) receptacle, (1) 2 amp USB-A port and (1) 2 amp USB-C port. Each module in a kit will be provided with the same configuration as specified by the end user.

End user installation will be required per individual SKU. Each SKU includes a separate power infeed with a 10' grounded plug to connect to the power source. See [installation instructions for installing](#).

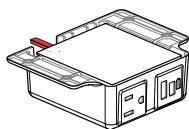

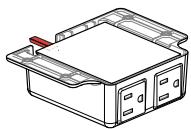

Under mount power is certified to UL STD 962 A CSA STD 22.2 No. 21.

**Bernhardt Design provides recommendations for installation locations as shown on pages 87-89. Installation instructions are included with each power unit. Power is specified separately and installed in the field.**

## Blueprint Wire Management

Blueprint power infeeds are routed through integral spacers to a multi-wire clip that offers advanced wire management.

The following illustration shows a section view of the Blueprint table with under mount power.

The multi-wire clip presents a wire management solution that offers space for (2) thicker power cords and an area for ethernet cords and smaller cords in the center. This system for wire management provides a cleaner and more simplified look by containing wires up against the extrusion.

Under mount power kits are specified and sold separately. Each kit lists the table top sizes compatible with the number of power units shown.

All kits include a 10' corded infeed with grounded and fused plug.

## Surface Mount Power Module

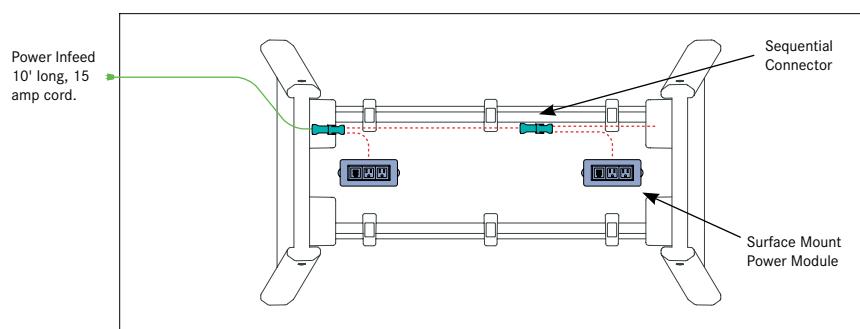

Blueprint offers a proprietary surface mount power solution allowing quick and easy daisy chaining of tables. A maximum of (3) surface mount power modules can be connected on a single power infeed.

The surface mount power module is available in one configuration with (2) 15 amp grounded receptacles, (1) 2 amp USB-A port and (1) 2 amp USB-C port.

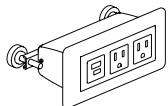

Each SKU includes a separate power infeed with a 10' grounded plug to connect to the power source. If specified as a single module, the unit will have a 10' infeed with a grounded plug rather than a sequential connector.

Surface mount power is certified to UL STD 962 A CSA STD 22.2 No. 21.

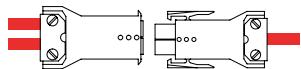

**Note:** End user installation will be required per individual SKU.  
 Power specified separately. See the following pages for grommet codes.

**Power Module**  
Black, Silver or White Finish

**Sequential Connector**  
Matte Black Finish

**Power Infeed**  
10' Grounded Plug

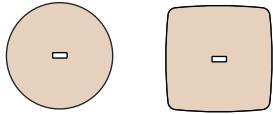

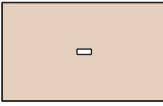

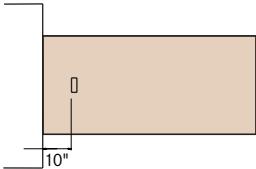

### Updated Information Shown in RED

- (2) 120 v 60 Hz. 15 amp receptacles
  - (1) 2 amp USB-A port, 10 watt
  - (1) 2 amp USB-C port, 20 watt
- 6½" w x 3" d x 2¾" h

**Round Surface Power Module**

Available only for the round and arched square tables, the Round Surface Power Module offers a simple and clean way of bringing power and USB to the worksurface.

The Power Module installs flush to the worksurface and is offered in one configuration: (1) receptacle and (1) 2 amp USB-A port and (1) 2 amp USB-C port.

The power module is UL approved with spill-proof technology and a 15 amp 10' power infeed. Power module power is certified to UL STD 962 A CSA STD 22.2 No. 21.

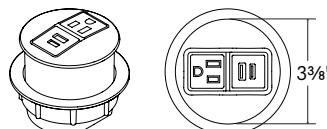

Blueprint Power Module is ideal for charging tablets or other USB friendly devices.

**Note: End user installation will be required per individual SKU.**

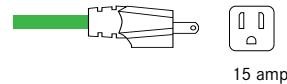

**Power specified separately. See below for grommet code.**

## Mediatrac1™

Mediatrac1 grommet system is a simplified system for bringing power and data to the meeting table worksurface in a clean simple way.

Mediatrac1 provides power and various options for Extron AAP data configurations. Grommets are available in (3) different sizes: a 8" x 4" single door unit, a 8" x 8" double door unit and a 8" x 24" double door unit. All units have brushed aluminum trim with options for aluminum, laminate, veneer, corian and glass lids.

Mediatrac1 has 4 different options for bringing power to the table, corded, hardwired or 4-trac system with either a corded or hardwired power infeed.

**Note:** End user installation will be required per individual SKU.  
Power specified separately. See pages 98-104 for grommet codes.

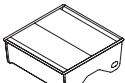

## Mediatrac1 Options

### 8" Single Door Mediatrac™ Grommet

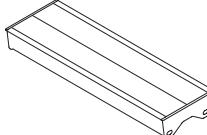

2 grounded outlets, 1 exit plug,  
accepts 2 Extron single space AAP's,  
AAP modules specified separately,  
brushed aluminum frame

### 8" Double Door Mediatrac™ Grommet

4 grounded outlets, 1 exit plug,  
accepts 4 Extron single space AAP's,  
AAP modules specified separately,  
brushed aluminum frame

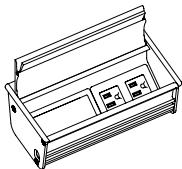

### 24" Double Door Mediatrac™ Grommet

8 grounded outlets, 2 exit plugs,  
accepts 8 Extron single space AAP's,  
AAP modules specified separately,  
brushed aluminum frame

## Mediatrac1 Grommet Kits (Includes the following)

### Power Module

Number and configuration  
of grommet modules determined  
by the grommet code

### Jumper (if required)

Jumper are determined by the  
length of the top specified

### Connector + H-Block

Will be included in kit when the  
4-trac option is specified

### Power Infeed Options

72" 4-Trac Power Infeed with 20 amp plug

72" 4-Trac Power Infeed with Hardwired

72" Power Infeed with 15 amp plug

72" 3/8" Hardwire Whip

15 amp receptacle

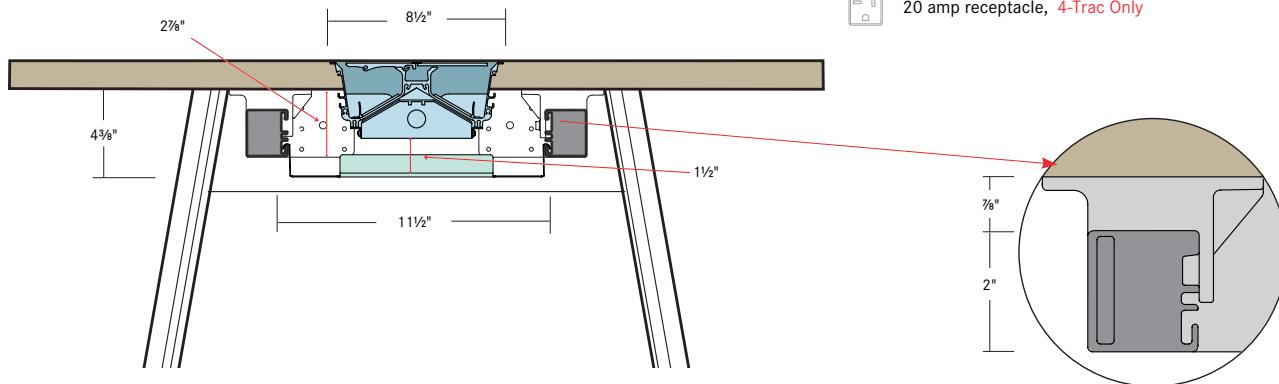

20 amp receptacle, 4-Trac Only

### Wire Management Snake

brushed nickel finish  
flexible cable management  
weighted metal base

## Mediatrac1 Dimensional Specifications

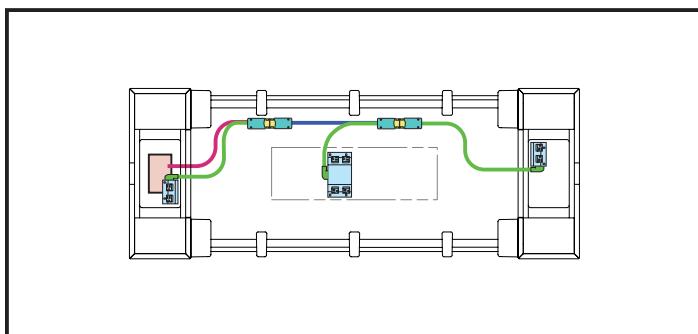

The narrow frame leg has a smaller span, pulling an 11" width from the outside of each extrusion.

**Detail of Mediatrac1 Rail**

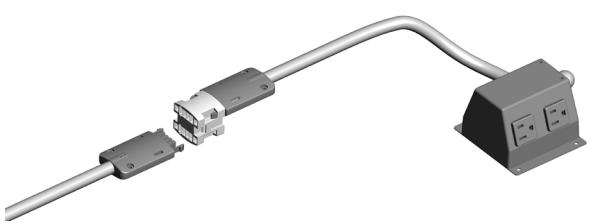

Mediatrac1 is certified to UL STD 962A, UL STD 1363, CSA STD 22.2 No. 308-14. 4-Trac is certified to UL STD 183 CSA STD 22.2 No. 203.1-14.

## Mediatrac1™ 4-Trac Power System

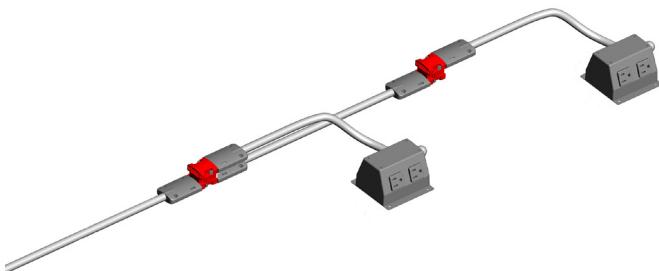

Mediatrac1 Grommets Using Electrical 4-Trac Power System

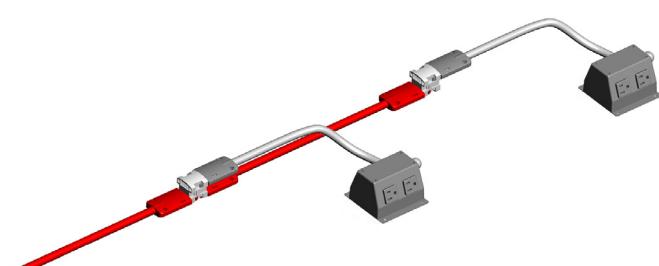

|                     |                |
|---------------------|----------------|
| ■ Power Infeed      | ■ Power Drop   |
| ■ Power Module Whip | ■ Power Module |
| ■ Modular Connector | ■ H-Block      |
| ■ Jumper            |                |

4-Trac Infeed snaps into an H-Block connected to a Mediatrac1 power module with a **18"** modular end.

4-Trac H-Block connects up to (4) Jumpers and Power Modules.

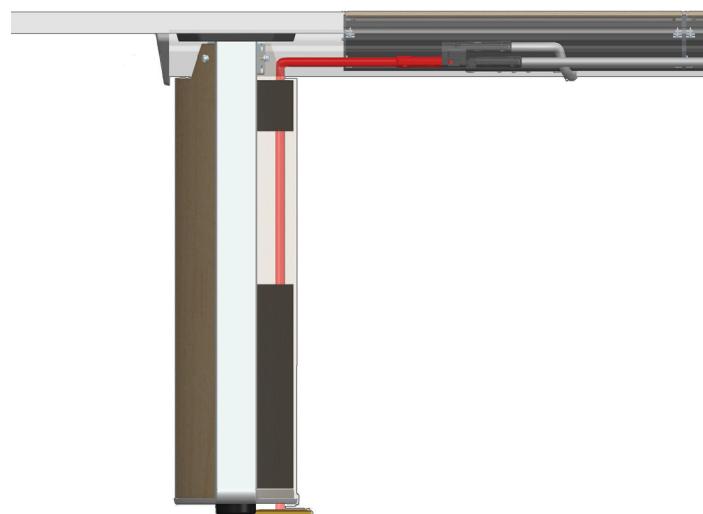

4-Trac Jumpers used in conjunction with the H-Block to wire the system.

Mediatrac1 is available in our 4-Trac Power System, allowing for easy installation and reconfiguration capabilities.

4-Trac snaps together easily underneath the worksurface using whips from each power module and the integral 4-Trac jumpers specified for use with each particular Mediatrac1 grommet size. **The grommet layout and wiring scheme is specified specifically for each top size and is included with each kit.**

Each power transition is accommodated by an H-Block, which gives the ability to snap together four power leads. Using the provided documentation to facilitate installation, powering the Mediatrac1 system is as easy as snapping together connectors.

Infeeds are available in both hardwired and corded version in a 72" length. The plug version for the Mediatrac1 power system is 20 amps and will require plugging into a 20 amp outlet to comply with electrical codes.

**72"** 4-Trac Power Infeed with Hardwired Conduit

**72"** 4-Trac Power Infeed with 20 amp Plug

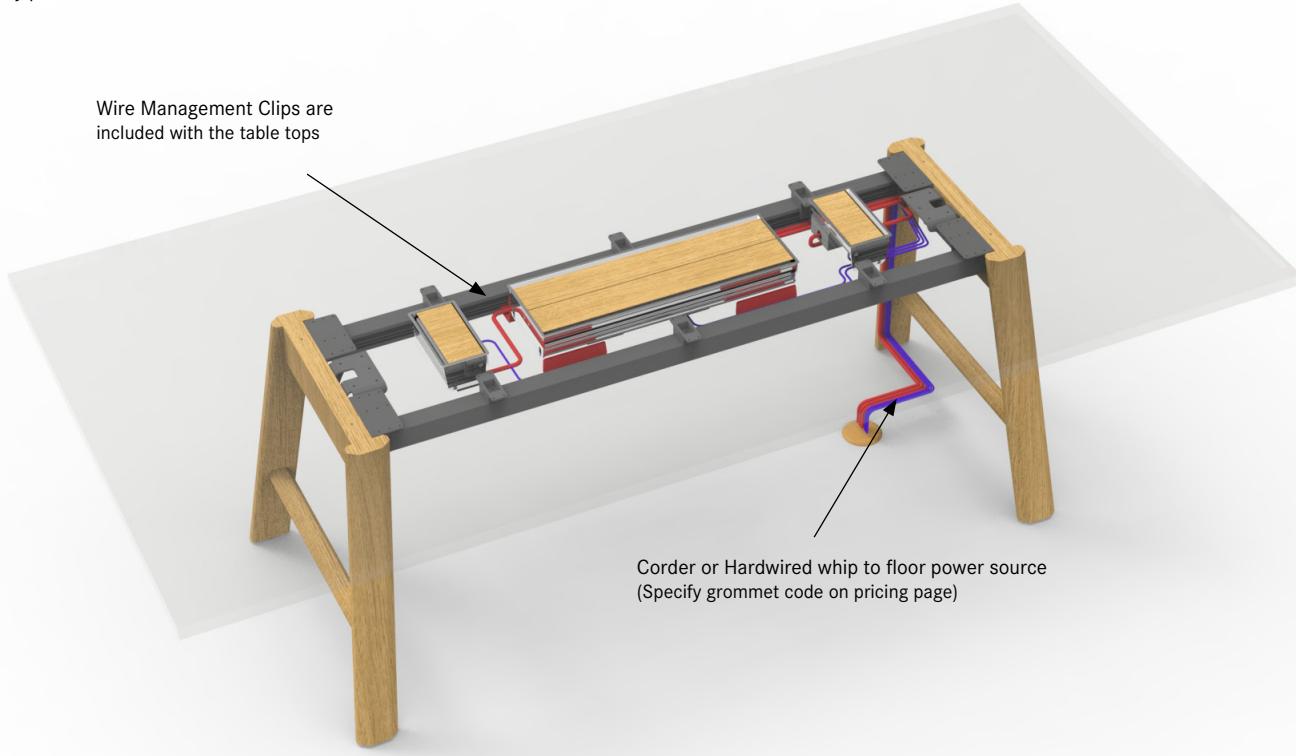

20 amp Receptacle

Illustrations showing electrical 4-Trac power infeed end options – hardwired conduit and 20 amp corded plug. Both are available in 72" lengths. 20 amp receptacle must be used with the plug.

## Mediatrac 1™ Grommet Placement Kits

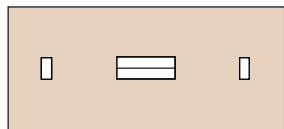

Mediatrac 1™ power options by Bernhardt Design are offered as a grommet kit which includes all grommets, jumpers and necessary components needed to bring power from the floor to the user. The number of grommets and lengths of jumpers are determined by the lengths and power options selected. Your kit will come complete with all necessary parts to install in the field.

### Ordering Mediatrac 1 Grommets

- Determine the amount of power and data needed
- Select the grommet code that best suits your requirements
- Select the type of power infeed you need
- Select the length of table that this is to be used on  
(make sure that this grommet code matches the code used when ordering your table)
- Select the grommet trim/frame finish
- Select the lid/door material
- Select the lid/door finish

The Grommet Kit will ship separately and will be installed in the **field**.

**Prices and Specifications**

Prices and specifications are subject to change without notice. All prices quoted will be FOB our factories. If applicable, sales tax will be based on ship-to destination.

Bernhardt Design reserves the right to make changes in dimensions, construction, price lists, or product literature without prior notice.

All measurements and weights are approximate and subject to change without notice.

**Order Entry**

All orders are subject to final acceptance by Bernhardt Design in Lenoir, NC. Receipt of our acknowledgment indicates acceptance of your order subject to the terms set forth on the acknowledgment.

Bernhardt Design attempts to clarify all purchase orders. However, in the event the price list number and description on the purchase order differ, the price list number will prevail.

**Changes/Cancellation**

All orders in production are considered firm orders and are not subject to changes or cancellation.

**Shipping**

Bernhardt Design will ship in accordance with customer instructions whenever possible. For convenience, Bernhardt Design offers a guaranteed freight program (GFP). Bernhardt Design will exercise our best judgment in selecting a carrier under our GFP. When selecting a carrier, Bernhardt Design will make our best effort to meet requested delivery dates.

Transportation lead-times and delays including equipment problems, weather, general traffic, traffic accidents, customer warehouse space, labor disputes, customer changes, etc., that occur on a carrier will not be the responsibility of Bernhardt Design. Furthermore, Bernhardt Design will not be responsible for additional costs incurred due to aforementioned delays.

For customers who decline our GFP, Bernhardt Design will stage orders for pick up at 1% of the list price, or \$75 minimum.

Customer orders in production will be shipped as scheduled and will not be held. Bernhardt Design reserves the right to make partial shipments on any order, unless notified otherwise by the customer.

High quality cartoning meeting trucking and railroad specifications is standard at no extra charge. Some items may be blanket wrapped for shipment.

**Freight Damage and Claims**

Bernhardt Design is not liable for any damages to products that occur during transit or storage. The carrier assumes all responsibility upon acceptance of product. It is the customer's responsibility to inspect products upon receipt and file any claims with the carrier. No product should be refused. If products are received damaged, a written exception should be made on the bill of lading and an immediate inspection be requested of the carrier.

Concealed damage must be reported to the carrier within 10 business days from date of delivery. Failure to make claims shall constitute acceptance of the products and waive any claims of defects, errors or shortages.

In the event delivery is made on a Bernhardt Design truck, the products should be carefully inspected for transit damage. If contents are damaged, the driver should be notified to call his dispatcher for immediate disposition.

Concealed damage must be reported within 10 business days from date of delivery and product/packaging held for inspection by a Bernhardt Design representative. Replacements for product damaged in shipment or storage will be manufactured upon receipt of a purchase order.

**Returns**

No merchandise may be returned to Bernhardt Design without written consent in the form of a Return Authorization from our Quality Assurance Department stating why item is being returned and how item will be shipped.

Unauthorized returns will be automatically refused by our receiving department as well as returns not in accordance with Bernhardt Design shipping instructions. Liability for defective merchandise shall be limited to the replacement or repair of that merchandise, and Bernhardt Design shall not be liable for other damages or losses.

**Terms and Credit**

Pricing and terms of sale apply to orders accepted by Bernhardt Design, and no terms, stipulations, or conditions contained in the dealer's submitted purchase orders shall have any force or effect. Bernhardt Design requires a completed and signed credit application from every dealer. Bernhardt Design also requires dealers to provide a Blanket Certificate of Resale/Use containing valid sales tax exemption number(s) for their respective state(s).

If credit has been approved, the standard terms for all Bernhardt Design products are Net 30 from the invoice date. In certain instances, as an additional condition of order acceptance, buyer may be required to provide a deposit at time of order and/or remit the balance before shipment is released. If credit has not been approved, a 100% prepayment, including any freight charges, is required prior to production.

Acceptable forms of payment include a certified check or electronic bank transfer. For information on where to send check/electronic bank information contact our Financial Services Department. If a dealer or company check is submitted, three (3) weeks should be allowed for the clearance of the check. If electronic bank transfer is submitted, one (1) week should be allowed for the clearance of the electronic bank transfer. The order is subject to cancellation if payment in full is not received within three (3) weeks from the acknowledgment date.

The dealer may not make deductions for advertising, promotions, quality problems, freight, or any other reason without prior authorization by Bernhardt Design. Such a deduction could result in the curtailment or suspension of further shipments until the matter is resolved. Delinquency notices are generated and mailed periodically. Service charges of 18% per annum will be added to each past-due transaction. Unpaid service charges

will be accrued and invoiced on a periodic basis. Past-due notices may result in orders being held until the situation is resolved. This credit hold could prevent orders from being placed into production or shipped. Orders not in production that are placed on credit hold for three (3) weeks will be subject to cancellation.

Severe past-due situations may result in the employment of a collection agency or other collection litigation. If any collection activity is necessary regarding a dealer account, the dealer will be responsible for the payment of any and all attorney and collection agency fees.

A slow payment history may result in reducing or eliminating an open line of credit. At the discretion of Bernhardt Design, amounts owed by a dealer to Bernhardt Design arising from any transaction or dealings between the dealer and Bernhardt Design may be offset against any amounts owed to the dealer by Bernhardt Design.

#### **Warranty**

Bernhardt Design will repair or replace, at its discretion, any product or part thereof which fails as the result of defects in material and workmanship, under single shift use and normal care for five years from date of shipment. This warranty shall apply only to the original purchaser.

This warranty does not cover normal wear and tear, misuse or abuse of product, dramatic temperature changes, exposure to unusual conditions or damages incurred by contact with seating products, tables, desks or other surfaces. Natural color changes, variations or movements in lumber or veneer products, exposure to extreme temperature changes and direct sunlight may cause color changes and/or surface damage. These are circumstances beyond the control of Bernhardt Design and are not warranty issues. Repair or replacement of discontinued product will be at the discretion of Bernhardt Design.

This warranty is the customer's exclusive remedy for product defect and does not apply to damage caused by a freight carrier, dealer, installer, user modification, attachments to a product, or any third party. Bernhardt Design has the exclusive right to make the final determination of product misuse or abuse. Except as stated above, Bernhardt Design makes no express or implied warranties as to any product, and in particular, makes no warranty of merchantability or of fitness for any particular purpose. Bernhardt Design shall not be liable for any consequential or incidental damages or for commercial loss arising from any product defect.

#### **Operational Parts Warranty**

Drawer glides, drawer boxes, drawer pulls, and lock mechanisms have a Life-Time Warranty for original purchaser. Power and communication components are warranted for one year.

#### **Parts Order**

Bernhardt Design parts have a \$25 net minimum per order. This does not include freight costs.

#### **Custom Design**

Bernhardt Design may alter products to meet specific needs. Contact your local sales representative when a custom design is needed. Custom designs,

**if approved**, require minimum quantities, additional leadtime and upcharges. A custom job number, available from your Bernhardt Design sales representative, must be submitted with purchase orders.

Orders combining custom design with standard product cannot be scheduled for production until custom items are approved. Custom design orders are not subject to revision or cancellation after acknowledgment.

#### **Wood Finishes**

Bernhardt Design tables are available in finishes that are compatible with credenzas and seating finishes. However, finishes on tables may vary slightly from those on seating due to the natural characteristics of the wood. No absolute match is implied or guaranteed.

#### **Light Finishes**

Bernhardt Design offers lighter finishes on certain veneers and solid woods. When specifying light finishes the natural characteristics of the wood will be visible and color will vary.

Natural characteristics include the natural discolorations of the wood substance and color variations in glued up stock. These natural characteristics are not considered defects by Bernhardt Design, and therefore merchandise will not be replaced.

#### **Special Finishes**

Special finishes, made to customer specifications and subject to factory approval, may be available at a **10% net upcharge with a \$500 net minimum**.

Additional leadtime may be required for special finish items. Special finish orders will not be acknowledged until the special finish sample is approved in writing and received by Bernhardt Design Customer Service. Special finish orders are not subject to revision or cancellation after acknowledgment.

#### **Installation and Maintenance**

All freestanding tables and credenzas are equipped with leveling devices. Local floor conditions vary, and it is always necessary to properly adjust leveling devices. Proper leveling is essential to the alignment and function of doors and drawers.

Improperly leveled units result in misaligned doors and drawers and may impair locking mechanisms or other functional hardware.

After the initial installation of credenzas, it may be necessary to readjust and align the units to compensate for settling. This should be expected as a matter of routine maintenance and follow-up to assure proper case function.

Proper installation of Bernhardt Design tables and credenzas is the responsibility of the dealer. Improperly installed units can result in permanent damage to case components. Damage due to improperly installed furniture not covered under product warranty.

Orders combining custom design with standard product cannot be scheduled for production until custom items are approved. Custom design orders are not subject to revision or cancellation after acknowledgment.

**Care and Cleaning**

Finished wood surfaces should be cleaned with a soft damp cloth, wiping in the direction of the grain. Furniture should be buffed dry immediately with a soft cloth.

**Design and Patent Rights**

All of the products shown in Bernhardt Design catalogs and described in Bernhardt Design price lists are, and remain, the property of Bernhardt Design, with the sole right reserved to manufacture and to distribute.

Some of the product designs shown are patented in the United States and will remain the property of Bernhardt Design. Any reproduction of the products constitutes an infringement of patented copyright laws and will be subject to prosecution.

**Environmental**

Some tables and credenzas are LEVEL® for ANSI/BIFMA e3-2019 – Furniture Sustainability Standard and SCS Indoor Advantage™ Gold certified. Visit the product page at [bernhardtdesign.com](http://bernhardtdesign.com) for certifications.

## Preferred Carrier Guaranteed Freight Rates

**Freight charges will be applied to orders as a separate line item based on the zones listed. Rates are based on zones with a minimum for each zone. All zones are located within the Continental United States.**

**The freight amount is calculated on the total merchandise list COM price. Additional freight fuel surcharges may apply. Rates are based on deliveries made Monday through Friday, 8 am until 5 pm.**

All orders are shipped by Bernhardt Design company trucks or preferred carriers specified by Bernhardt Design. **If a purchase order does not specify that the product must ship complete, Bernhardt Design reserves the right to select the most effective shipping method necessary, including split shipments.** Dealer warehouse information, including phone number and contact name, must be specified on the purchase order.

Direct site deliveries may be requested with an additional freight cost. Requests for direct site deliveries must be made 2 weeks prior to the scheduled ship week and meet the following criteria:

- Minimum of half truckload
- Delivery site accessible by a 53' trailer
- Complete delivery site address with contact name and on-site phone number
- Labor available for unloading

Deliveries that do not meet the criteria must be directed to a receiver warehouse. If a receiver warehouse is not available, the dealer may make arrangements with their own 3rd party carrier. If a 3rd party carrier is elected, a contact name, phone number and e-mail address is required.

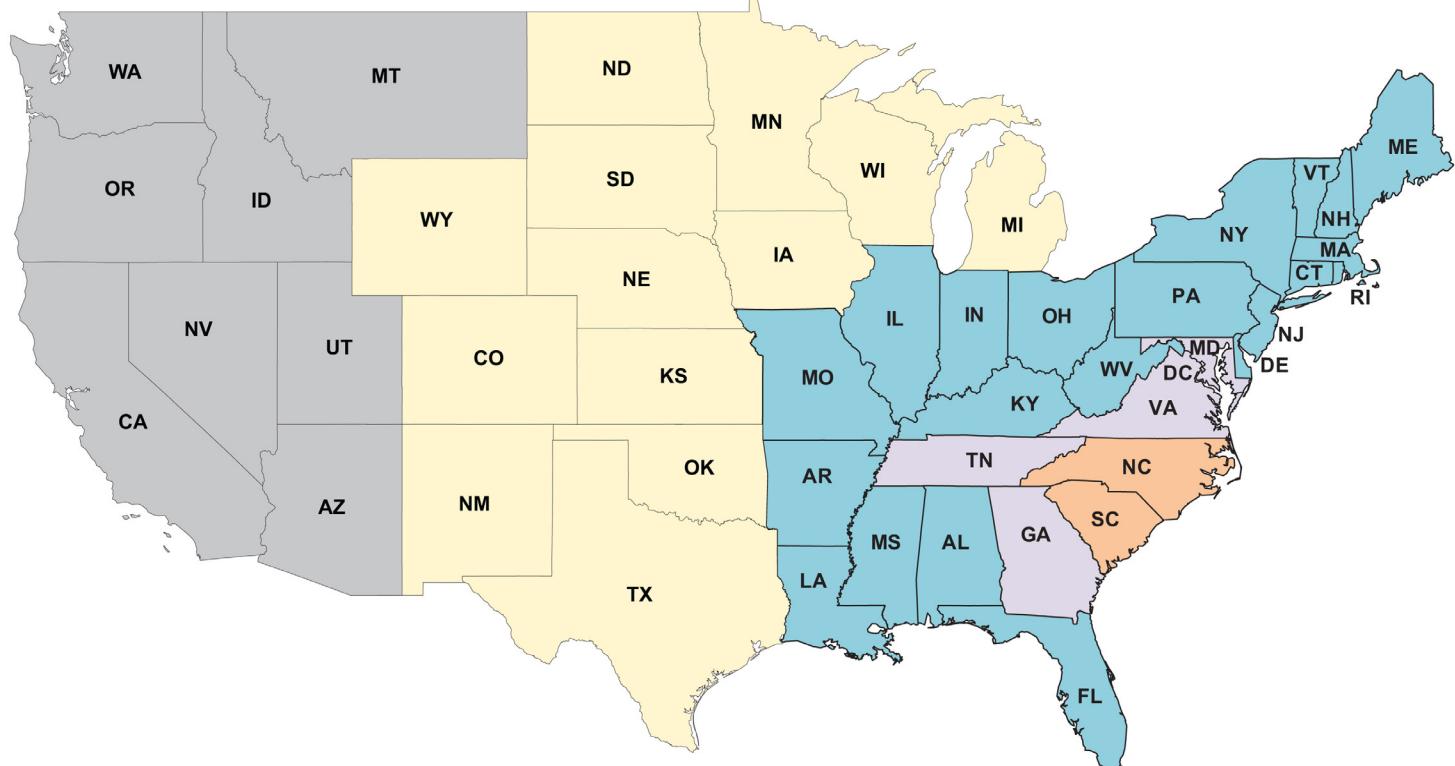

Bernhardt Design has a no touch freight policy. Drivers are not allowed to unload freight.

Weekend direct site deliveries will incur a \$500 per trailer weekend delivery fee. Weekend is defined as between 5 pm Friday and 8 am Monday.

Customers who decline GFP should refer to the shipping section of the Terms and Conditions page.

| Zone   | Percent | Minimum |
|--------|---------|---------|
| Zone 1 | 3%      | \$150   |
| Zone 2 | 4%      | \$150   |
| Zone 3 | 5%      | \$150   |
| Zone 4 | 5.5%    | \$150   |
| Zone 5 | 6%      | \$150   |

Percent bases on List Price.
