

## Neighborhood Seating System Specification Guide

### Standard Features

Neighborhood is a modular seating and table system consisting of thirty-nine unique modules for use in creating an unlimited number of configurations. Options include single sided, double sided and privacy modules as well as freestanding modules for use with any configuration. To select modules appropriate for your application use the scope of line shown on the following pages.

Neighborhood tables are available with worksurfaces in oak veneer in a variety of standard finishes, designer white laminate, or glacier white corian® as connecting modules and freestanding units. Power + USB duplex options are available.

Pivoting connectors join units in a configuration. When rotated inward, connectors are concealed allowing the modules to be used independently.

When specifying the privacy modules, please verify that the specified sku is within size requirements for delivery (elevators, hall intersections, doorways, stairwells).

Neighborhood is SCS Indoor Advantage ® Gold and LEVEL® 2 certified. See terms and conditions for additional finish and environmental information.

Visit [Bernhardtdesign.com](http://Bernhardtdesign.com) for a complete drawing library of 2D, 3D and Revit models. You may also contact your local sales representative or the Bernhard Design corporate office for specification assistance.

## Upholstery Specification Guide

The Neighborhood seating and table modules are fully upholstered with a saddle stitch or a jump master stitch. Thread color must be specified for the jump master stitch.

Reference Neighborhood/Stitching on [Bernhardtdesign.com](http://Bernhardtdesign.com) for thread color options available for jump master stitch only.

Leather may be specified for single sided, double sided and table modules. Leather is not applicable on privacy modules. Approved leather alternatives or fabric may be used on all Neighborhood frames.

When ordering multi-item configurations, please provide the total COM yardage from the same dye lot in a continuous roll(s).

**Saddle Stitch**

**Jump Master Stitch**

## COM/COL Preapproval Requirements

When specifying stripes or fabrics with linear grain, the curvature of certain frames may affect the pattern alignment. As a result, the COM/COL preapproval procedure requires ½ yard of fabric or leather alternative, or 1 sq. ft. leather to be submitted for testing for prior approval on all frames except mobile seating, freestanding ottomans, benches and tables.

Preapproval procedure for testing COM/COL for mobile seating, freestanding ottomans and benches, and all tables requires the standard 12" x 12" sample. Reference the terms and conditions for COM/COL approval procedures.

**Pattern Alignment When Specifying Directional Grain Fabric**

## Neighborhood Seating System Specification Guide

### A. Mobile Seating

Mobile modules have non-locking casters and are used as freestanding units. The mobile lounge 6030M has a brushed aluminum handle located mid-back.

## Neighborhood Seating System Specification Guide

### D. Single Sided Modules

Single sided connecting modules are used in conjunction with other single sided modules to create seating configurations. Single sided units may not be used with double sided units or privacy units.

Neighborhood Seating System Specification Guide

F. Double-Sided Modules

Double-sided connecting modules are used in conjunction with other double-sided modules to create seating configurations. Double-sided units may not be used with single sided units or privacy units.

G. Tables for Double-Sided Connecting Modules

Double-sided connecting module tables are used in conjunction with double-sided seating modules. A power/USB option is available on double-sided connecting tables.

## Neighborhood Seating System Specification Guide

### H. Privacy Modules

Privacy connecting modules are used in conjunction with other privacy modules to create seating configurations. Privacy units may not be used with single or double sided units.

Neighborhood Seating System Specification Guide

Tables for Freestanding and Connecting Modules

Neighborhood tables were designed for use as freestanding units or with single or double-sided connecting modules to create continuous configurations. Connecting tables are not available for use with privacy modules.

The Neighborhood table worksurface is available in oak veneer, laminate or corian.

Connecting tables have a flat edge profile; freestanding table edges are beveled.

The base is fully upholstered with saddle stitching or a jump master stitch. Thread color must be specified for the jump master stitch. Reference Neighborhood/Stitching on Bernhardtdesign.com for thread color options. When ordering multi-item configurations, please provide the total **COM** yardage from the same dye lot in a continuous roll(s).

Power + USB modules are optional and upcharges apply. Reference information on the following page for power options specifics.

End Tables

Connecting Modules

Neighborhood modules connect by inserting the ganging fork into the bracket plate located on the underside of the furniture. To connect modules, rotate the connecting forks perpendicular to the module and slide the modules together. The forks fit around the bracket plates when the modules are connected. Use the leveling glides as needed to align the overall height of the modules on uneven flooring surfaces.

To disconnect modules, lift the side of the module where the bracket plates are located, generally the left hand facing side. Pull to disconnect the brackets from the connecting forks and slide apart.

Modules used in configurations may also be used as freestanding units. The connector fork can be concealed by rotating the connecting fork underneath the furniture module.

Hardware is provided with the 180° curved module for left or right hand orientation.

## Neighborhood Seating System Specification Guide

### Power Module

An optional power + USB module is available for all Neighborhood tables except the 22" round table. Single sided connecting tables and the 42" round freestanding tables are available with a single power module; double-sided connecting tables and the 42" and 48" square freestanding tables are available with two modules. Upcharges apply as indicated on the price list for each table.

The power module has (1) 15 amp receptacle, (1) 2 amp USB-A port and (1) 2 amp USB-C port for charging tablets or other USB friendly devices. The power module is UL approved and includes a 10', 14/3 SJT black power cord with right angle plug. The power module has an aluminum powder coat finish and installs in the side of the base. An underside zipper allows access to power.
