Elevation Seating and Tables System Specification Guide

Elevation is a modular system of benches, ottomans, and tables that can be used in groupings or as individual products. Benches are available in two and three-seat versions and feature a quilted seat resting on an oak or walnut platform. Metal base options include: an asymmetrical T-leg and a symmetrical fin leg with finish options offered in a bronze metallic or matte black powder coat. Connecting and corner tables are available as an option with benches to create a scalable solution for larger spaces. Tables can be

positioned between or on either end of an Elevation bench. The collection also includes occasional, drum, and multipurpose tables that offer wireless and corded power options.

For additional information on Elevation tables see Bernhardtdesign.com. SCS Indoor Advantage™ Gold and LEVEL® 2 certified. See terms and conditions for additional finish and environmental information.

Elevation System Sample Configurations

Sku Description

Configuration 1

- 3812A** Three-seat asymmetrical bench (2)
- V60** Connecting table (2)
- 3804A** Two-seat symmetrical bench (2)
- V10** Corner Table
- ERL** 60" Round table*

*See Elevation Occasional Price List for more information.

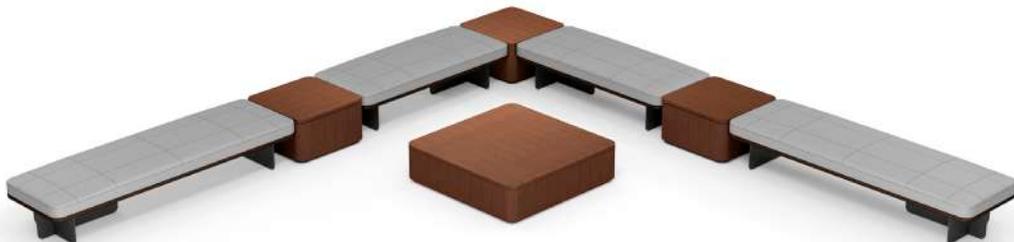

Configuration 2

- 3814A** Three-seat symmetrical bench (2)
- V60** Connecting table (2)
- 3804A** Two-seat symmetrical bench (2)
- V10** Corner table
- 3820A** 21" Ottomans (4)
- DRH** 54" Round table*

*See Elevation Multipurpose Price List for more information.

Configuration 3

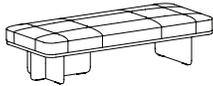

- 3812A** Three-seat asymmetrical bench (2)
- XDS** 28" Square drum table (3)*
- 3802A** Two-seat asymmetrical bench (2)
- UDS** 48" Square drum table*

*See Elevation Drum Price List for more information.

Luca Benches

Standard Features

The Luca bench collection offers a series of round and rectangular benches that can be used as freestanding or interchangeably with product from the Luca modular seating system. Select benches feature end tables that are available in oak or walnut and are offered with and without power. Legs are available in one of three finishes: polished aluminum, matte black powder coat and satin white powder coat.

Luca benches are part of the Luca modular seating system that is comprised of 41 unique modules. Options include freestanding benches, two-seat and threeseat modules, corner modules and seating and bench modules with end tables.

Luca is fully upholstered with 5/8" diameter non-marring adjustable nylon glides. When ordering configurations, please provide the total COM yardage from the same dye lot in a continuous roll(s). All COM/COL fabrics must be preapproved by Bernhardt Design prior to application. SCS Indoor Advantage™ Gold and LEVEL® 2 certified.

Configurations are connected by a ganging bracket. Ganging brackets are sold separately and will ship with product. See the Luca bench accessories page for ordering information

Please visit BernhardtDesign.com for a complete library of 2D, 3D and Revit models. You may also contact your local sales representative or the Bernhardt Design corporate office for specification assistance.

Edge Profile

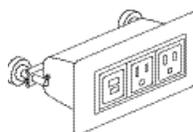

Surface Mount Power Modules

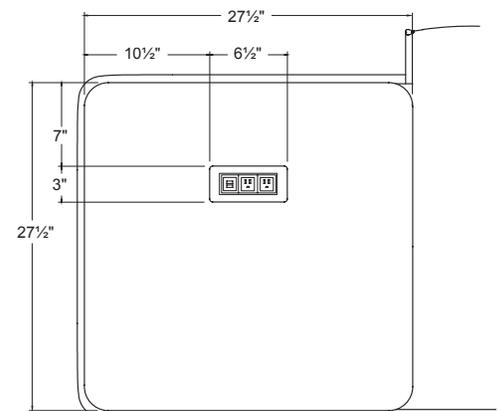

Luca offers a proprietary surface mount power solution which is installed flush to the worksurface and provides (2) 15 amp receptacles, (1) 2 amp USB-A port and (1) 2 amp USB-C port. The unit has a 10' infeed with a grounded plug. Power module finish is determined by leg finish selection.

Connecting Modules

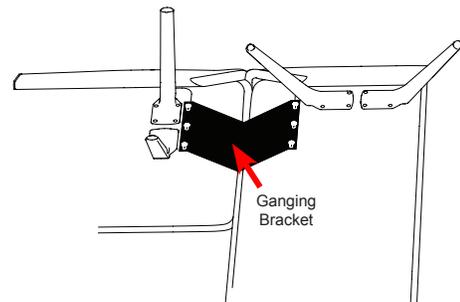

Luca modules connect by attaching a ganging bracket to the underside of the furniture. Order one ganging bracket per point of connection of modular units. Ganging brackets are sold separately and will ship with product.

To connect the modules together insert the three fasteners into the inserts at the location each module is desired to be connected. Push modules together in desired location.

Leave 1/4" between head of fastener and upholstery. Fit bracket over heads of fasteners and slide bracket to lock fasteners into keyhole slots cut into fastener. Tighten fasteners against bracket.

Ganging bracket is concealed behind flange and is not visible when looking at the sofa.

**High back swivel
5-star matte black powder coat base and arms
Adjustable height**

Leather with perforated leather back pad
Cantilevered arms with leather arm pads
Synchro tilt mechanism with adjustable height gas pneumatic lift

Inside seat width: 19½", Inside seat depth: 19¾", Inside arm height: 7"

Available only in Bernhardt Textiles Rogue or Essential leather. Same leather used for arms and back pad. Consult Bernhardttextiles.com for colorways.

Perforated leather in the Pique pattern for the back pad may be specified in Rogue or Essential by adding the suffix P to the end of the item number. The Pique pattern is subject to the minimum purchase requirements per colorway in addition to an upcharge of \$1.00 per sq. ft.

Specify the fabric or leather application by designating the appropriate letter on the purchase order.

Leather Requirements:

- A) Rogue or Essential leather for seat, back, arm pads and back pad welt
leather: 32.0 sq. ft.
- B) Pique pattern in Rogue or Essential leather for back pad
perforated leather: 13.5 sq. ft.

SCS Indoor Advantage™ Gold and LEVEL® 2 certified. See terms and conditions for additional environmental information.

Becca Seating System Specification Guide

Standard Features

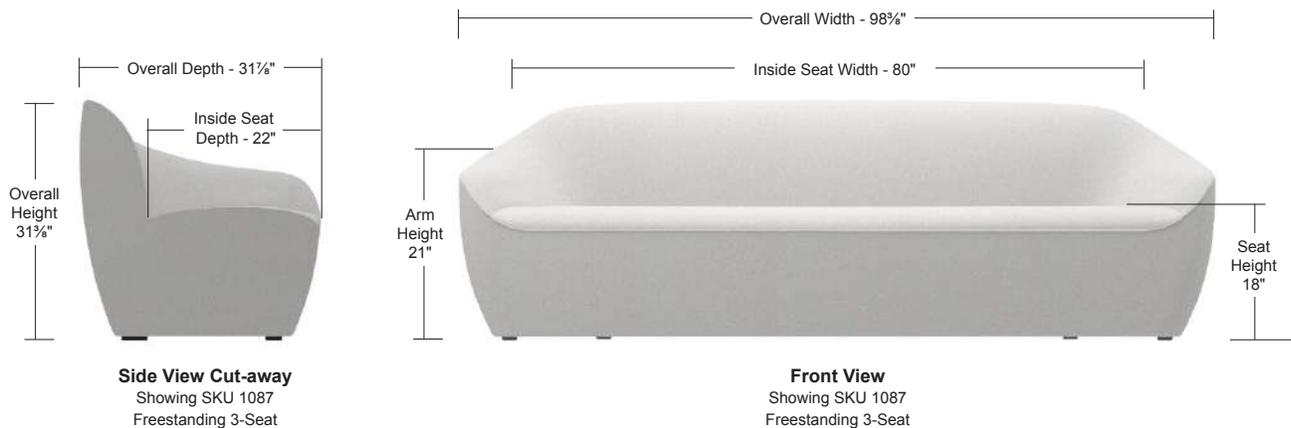

The Becca Lounge Collection is fully upholstered and includes 6 freestanding skus and 14 unique modules. Becca freestanding units come with non-leveling guides. The Becca modular units come with leveling non-marring glides.

Modules can be used interchangeably to create a variety of configurations. The Becca modules can only be used in conjunction with other Becca modules and are not intended to be used as freestanding units. All necessary ganging brackets are included and pre-installed.

All COM/COL fabrics must be preapproved by Bernhardt Design prior to application. SCS Indoor Advantage™ Gold and LEVEL® 2 certified. See terms and conditions for additional environmental information.

When ordering multi-item configurations, please provide the total COM yardage from the same dye lot in a continuous roll(s).

Please visit Bernhardtdesign.com for a complete library of 2D, 3D and Revit models. You may also contact your local sales representative or the Bernhardt Design corporate office for specification assistance.

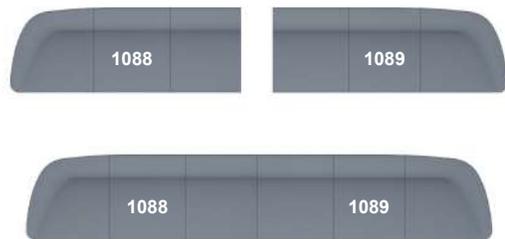

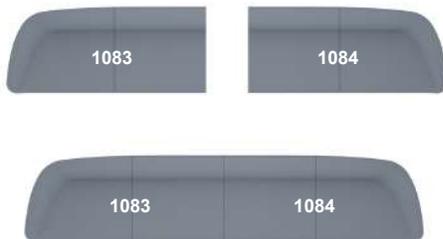

Product Selection

Becca modules can be used interchangeably to create a variety of modular options. A left and right arm module is required for all configurations. Specify a connecting module when a 45° or 90° angle is needed. All modules are available in fabric or leather. **Becca modules may not be used as a freestanding unit.** See modular options below.

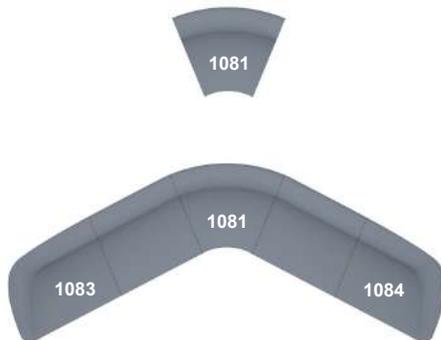

A. Arm Modules

All Becca configurations must include a left and right arm module for the ends of the configuration. All modules are available in fabric or leather. Left and right arm modules may not be used as a freestanding unit.

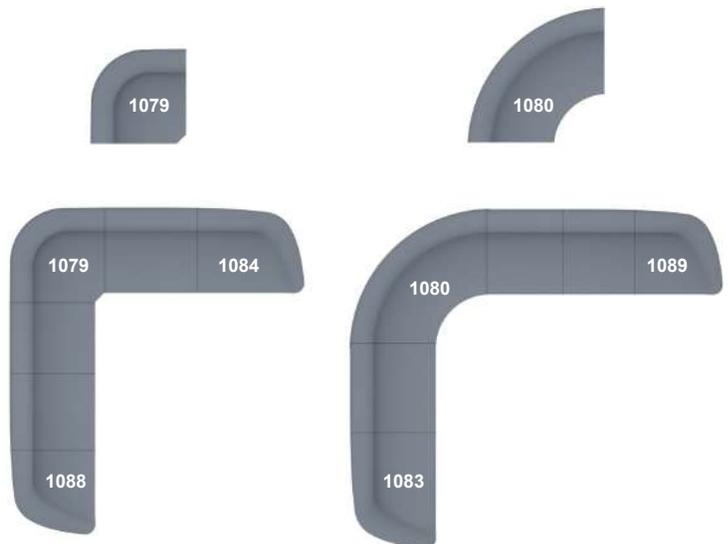

B. 45° Connecting Modules

45° connecting modules are used in conjunction with the left and right arm modules. Connecting modules may not be used at the end of a configuration or as a freestanding unit.

C. 90° Connecting Modules

90° connecting modules are used in conjunction with the left and right arm modules. Connecting modules may not be used at the end of a configuration or as a freestanding unit.

Cinema Seating System Specification Guide

Standard Features

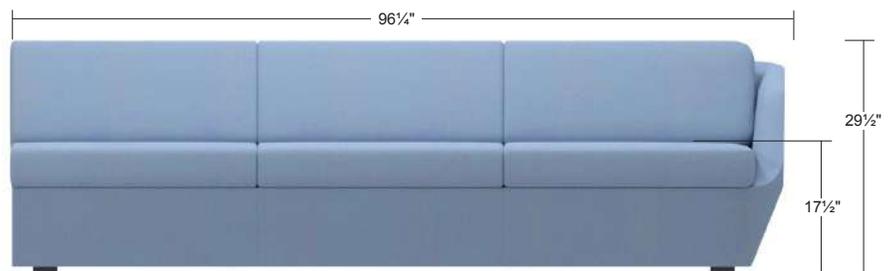

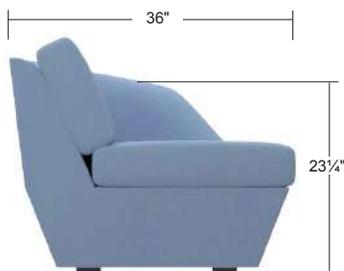

Cinema is a modular seating product comprised of 15 unique modules which may be used interchangeably to create an unlimited number of configurations.

Cinema is fully upholstered with leveling non-marring glides. When ordering multi-item configurations, please provide the total COM yardage from the same dye lot in a continuous roll(s).

All necessary ganging brackets are included and pre-installed.

SCS Indoor Advantage™ Gold and LEVEL® 2 certified. See terms and conditions for additional environmental information.

Please visit BernhardtDesign.com for a complete library of 2D, 3D and Revit models. You may also contact your local sales representative or the Bernhardt Design corporate office for specification assistance.

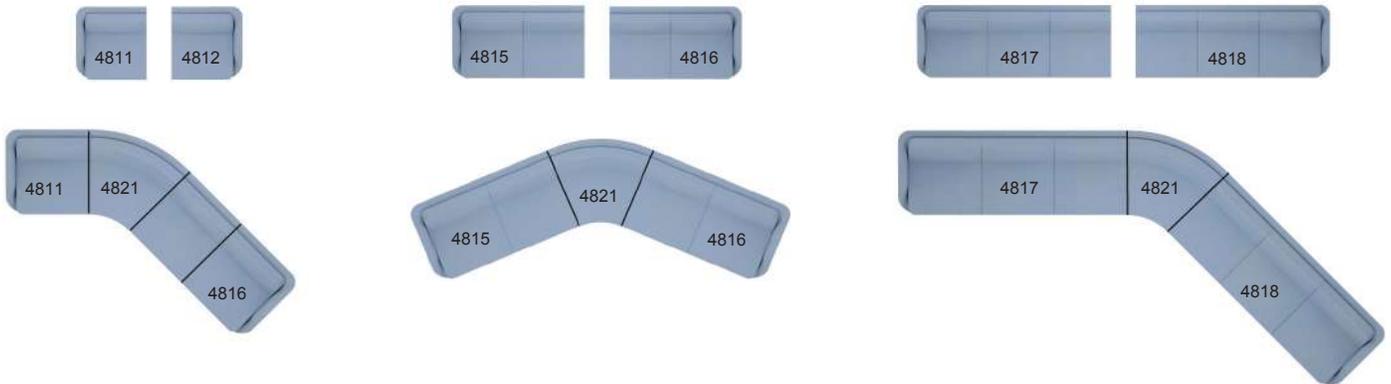

Product Selection

Cinema modules can be used interchangeably to create a variety of modular options. A left and right end module is required for all configurations. Specify a connecting module when a 45°, 67.5° or 90° angle is needed. All modules are available in fabric or leather. **Cinema modules may not be used as a freestanding unit.** See modular options below.

A. Arm Modules

All Cinema configurations must include a left and right arm module for the ends of the configuration. Arm modules may not be used as a freestanding unit.

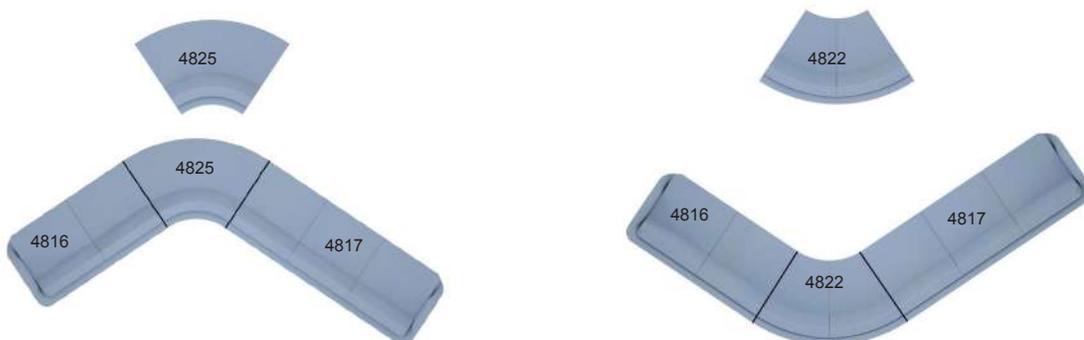

B. 45° Connecting Modules

45° Connecting modules are used in conjunction with arm modules. Connecting modules may not be used at the end of a configuration or as a freestanding unit.

C. 67.5° Connecting Modules

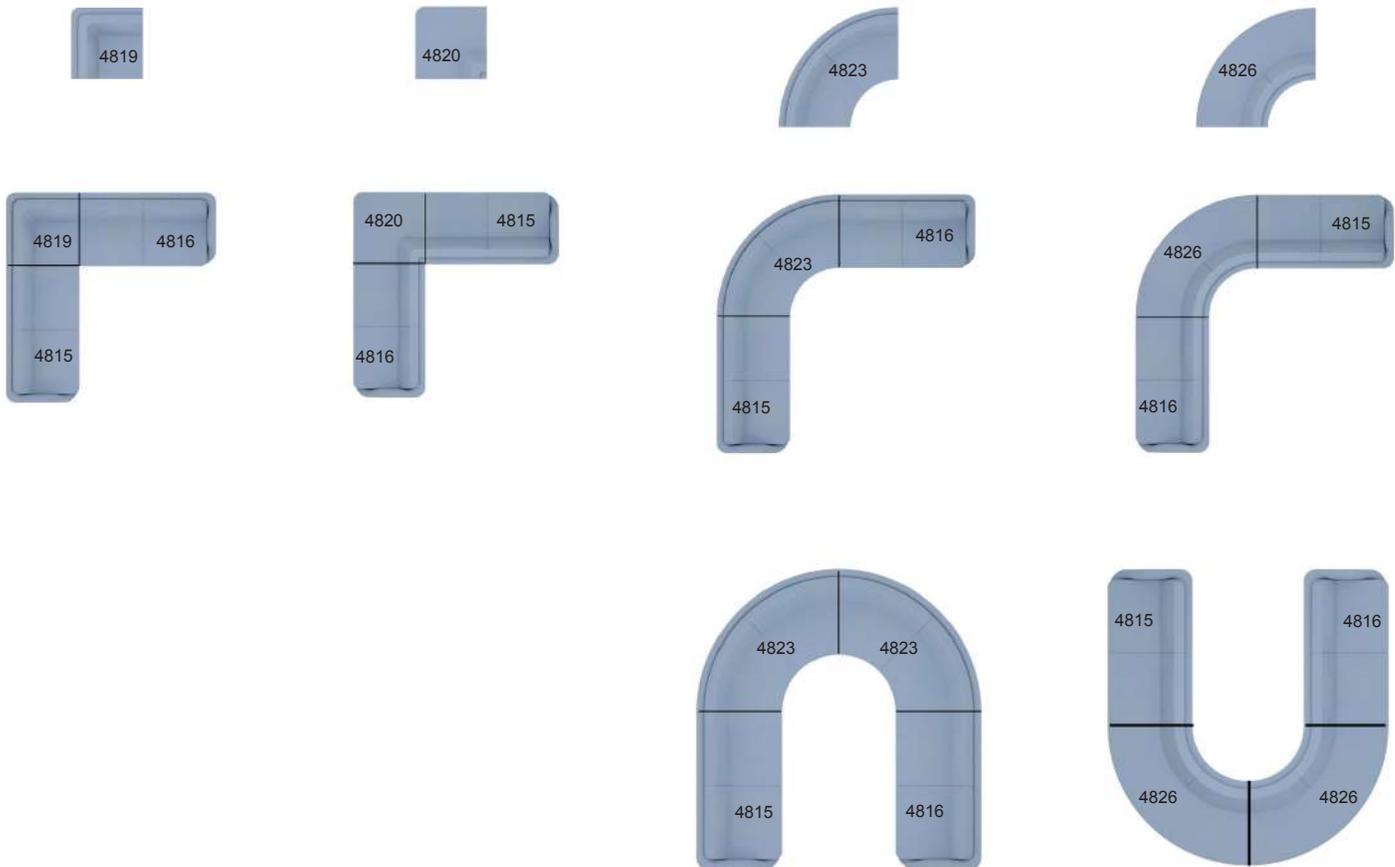

67.5° Connecting modules are used in conjunction with arm modules. Connecting modules may not be used at the end of a configuration or as a freestanding unit.

Cinema Seating System Specification Guide

D. 90° Connecting Arm Modules

90° Connecting modules are used in conjunction with arm modules. Connecting modules may not be used at the end of a configuration or as a freestanding unit.

E. Straight Connecting Modules

Connecting modules are used in conjunction with arm modules. Connecting modules may not be used at the end of a configuration or as a freestanding unit.

Code Seating System Specification Guide

Standard Features

Code is a seating system designed to provide privacy and create landscapes in open spaces. The system includes modular units which can be combined to create expanded sofas, U-Shaped and L-Shaped configurations. Individual freestanding privacy units are also available, as well as conventional chairs, settees and sofas. When ordering multi-item configurations, please provide the total COM yardage from the same dye lot in a continuous roll(s).

Privacy walls are attached to the seat prior to shipping. **Verify that the assembled sku are within size requirements for delivery (elevators, hall intersections, stairwells, etc.).**

SCS Indoor Advantage™ Gold and LEVEL® 2 certified. See terms and conditions for additional environmental information.

Visit BernhardtDesign.com for installation instructions as well as a library of 2D, 3D and Revit models. You may also contact your local sales representative or the Bernhardt Design corporate office for specification assistance.

Code Seating System Specification Guide

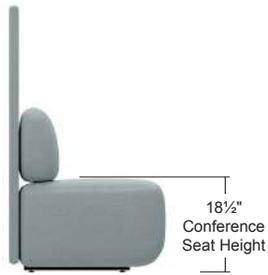

Seat Height Selection

Code units are available in two seat heights.
Standard seat height: 16½" and Conference seat height: 18½".
Product numbers ending with the suffix C are Conference height.

Standard Seat Height

Conference Seat Height

Wall Selection

Code privacy walls are available in two different models. Standard walls afford maximum privacy. Angled walls are lighter in appearance and provide improved seating access when used in a banquet application.

Colours Seating System Specification Guide

Standard Features

Colours is a modular seating product comprised of 13 unique modules which may be used interchangeably to create an unlimited number of configurations. To select the modules that are appropriate for your application use the guide below.

Colours is fully upholstered with saddle stitch detailing. Fabric and vinyl applications will be railroaded. Leather will incorporate saddle stitch seams on the top panel.

When ordering multi-item configurations, please provide the total COM yardage from the same dye lot in a continuous roll(s). Non-marring glides with vinyl sleeves prevent the units from sliding on smooth surfaces.

Due to the organic shapes, the dimensions can vary depending on the orientation of the product. Therefore, a maximum dimension is provided in the price list information. The 2D models provide dimensioned drawings of Colours. Consult Bernhardtdesign.com for a complete library of 2D, 3D and Revit models.

SCS Indoor Advantage™ Gold and LEVEL® 2 certified. See terms and conditions for additional environmental information.

Please visit Bernhardtdesign.com for a complete library of 2D, 3D and Revit models. You may also contact your local sales representative or the Bernhardt Design corporate office for specification assistance.

friends lounge modular seating collection

Friends Seating System Specification Guide

Standard Features

Friends is an upholstered modular seating system comprised of 35 unique modules which can be used interchangeably to create an unlimited number of configurations. The collection includes freestanding, two-seat, three-seat, corner and connecting modules that are available with and without arms. Arms are available as upholstered, solid oak or solid walnut.

The base is offered in polished aluminum or Bernhardt standard powder coat offerings and has $\frac{5}{8}$ " diameter non-marring adjustable nylon glides on each leg.

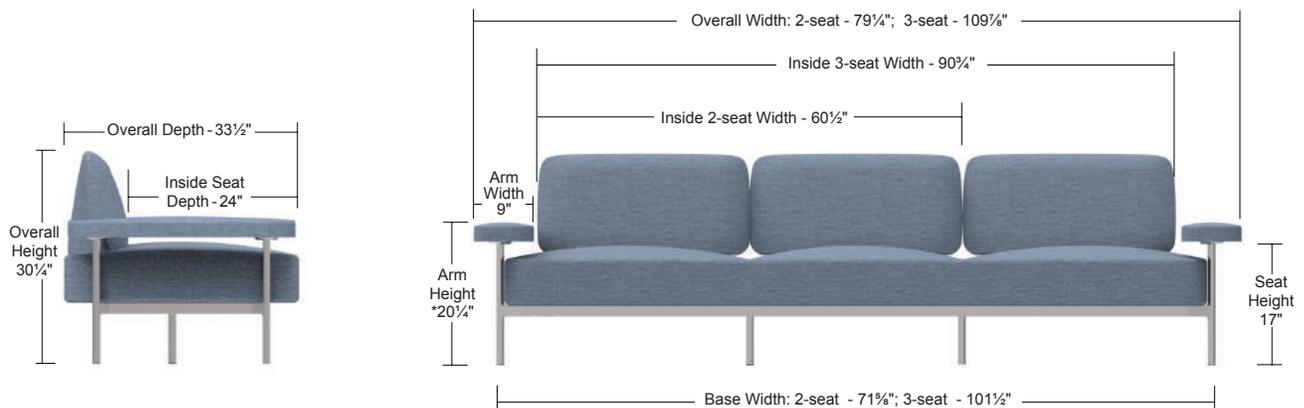

Welt is standard on the seat, back and upholstered arms. All COM/COL fabrics must be preapproved by Bernhardt Design prior to application.

When ordering configurations, please provide the total COM yardage from the same dye lot in a continuous roll(s).

All configurations are connected by pre-installed ganging brackets.

Friends is SCS Indoor Advantage™ Gold certified. See terms and conditions for additional finish and environmental information.

Please visit BernhardtDesign.com for a complete library of 2D, 3D and Revit models. You may also contact your local sales representative or the Bernhardt Design Corporate Office for specification assistance.

Harmony Seating System Specification Guide

Standard Features

Harmony is an extensive seating platform which allows you to design your own product. You can easily personalize pieces to create different looks within a space.

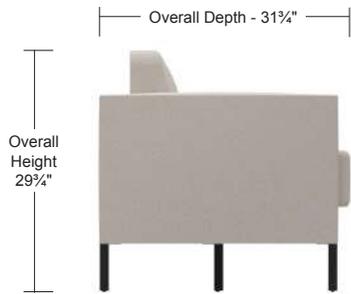

Customization is made easy by following a simple menu of options including: style, scale, cushion type, cushion stitching options, fabric application and leg design. The collection of chairs, sofas, benches and modular units are available in three distinctive styles - Classic, Tuxedo and Luxe, and two scales - Standard and Grande. Two cushion types are offered, along with five unique stitching details and twenty-five leg choices. A standalone compact chair is also offered in classic and tuxedo styles.

All necessary ganging brackets are included and pre-installed. When ordering multi-item configurations, provide the total COM yardage from the same dye lot in a continuous roll(s).

Harmony's 11,176 options present endless design possibilities.

Harmony is SCS Indoor Advantage™ Gold and LEVEL® 2 certified. See terms and conditions for additional environmental information.

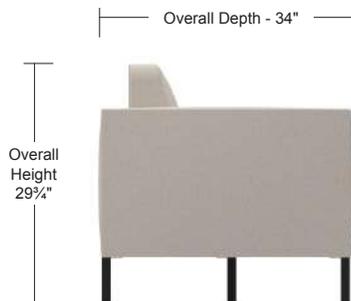

Please visit Bernhardtdesign.com for a complete library of 2D, 3D, and Revit models. You may also contact your local sales representative or the Bernhardt Design Corporate office for specification assistance.

Harmony Specification Guide

The next pages provide an overview of Harmony as well as a guide for ordering. Use these steps below to create your custom design.

1. Select your style: Classic or Luxe
2. Select your scale: Grande, Standard or Compact
3. Select the product
4. Select cushion type: Radius or Square
5. Select cushion stitching option
6. Select fabric or leather application
7. Specify leg shape and material. Choose either metal leg/metal finish code or wood leg/wood species. When specifying wood leg make sure to also specify the wood finish code.

holden lounge modular seating collection

Holden Seating System Specification Guide

Standard Features

The Holden modular seating system is comprised of 13 skus that can be used in multiple ways to create unique seating environments. Included within the collection are two freestanding skus and 11 connecting modules. Freestanding options are not available for the connecting modules.

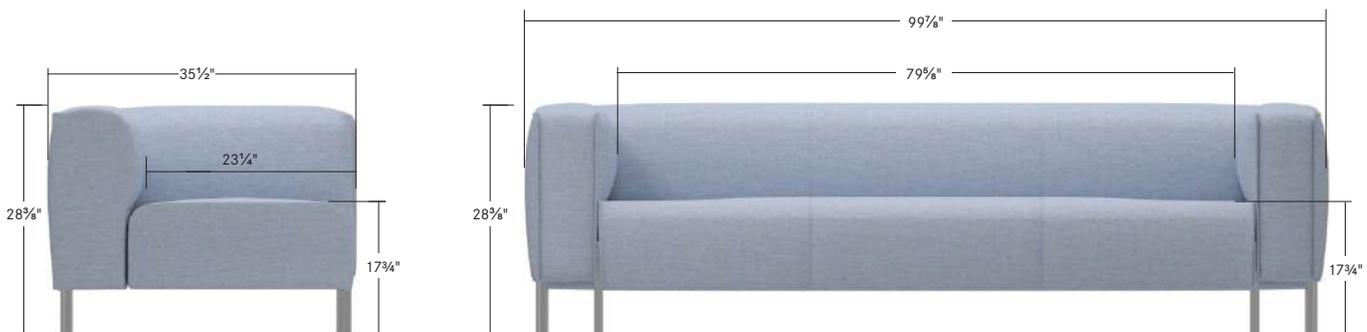

Holden is upholstered and features polished aluminum legs that are available in all Bernhardt standard powder coat finishes. Each unit comes standard with a non-marring leveler pre-installed.

Module configurations connect via a ganging bracket and a load bearing bracket for ease of installation and added support. The ganging bracket and load bearing bracket come pre-installed.

All COM/COL fabrics must be preapproved by Bernhardt Design prior to application. When ordering configurations, please provide the total COM yardage from the same dye lot in a continuous roll(s).

Holden is SCS Indoor Advantage Gold certified. See terms and conditions for additional finish and environment information.

Please visit Bernhardtdesign.com for a complete library of 2D, 3D and Revit models. You may also contact your local sales representative or the Bernhardt Design corporate office for specification assistance.

Connecting Modules

Holden features 11 connecting modules that connect via a pre-installed ganging bracket and a load bearing bracket to help with assembly. The load bearing bracket is part of what we call the Leg Configuration, which also includes 2 legs.

When connecting two modules, one module must contain a leg configuration, and the second module must have an open end with no legs on the open end. The leg configuration end is then pushed together with the open end, the ganging bracket and load bearing bracket positioned and secured with bolts.

Examples below show modules with the leg configuration and modules with open ends that together form a modular configuration.

Item Seating System Specification Guide

Standard Features

The Item modular seating system contains ten modules that were designed to create freeflowing design configurations. Item modules twist, rise and fall in their design creating a final assembly sculptured from both the plan and elevation views.

Modular heights range from 19 $\frac{1}{8}$ " to 31 $\frac{1}{8}$ " requiring modules with corresponding heights to be paired together.

All necessary ganging brackets are included and pre-installed. When ordering multi-item configurations, please provide the total COM yardage from the same dye lot in a continuous roll(s).

Fabric on corner module will be railroaded. If modules are used in a configuration with the corner module, specify fabric railroaded.

Item is SCS Indoor Advantage™ Gold and LEVEL® 2 certified. See terms and conditions for additional environmental information.

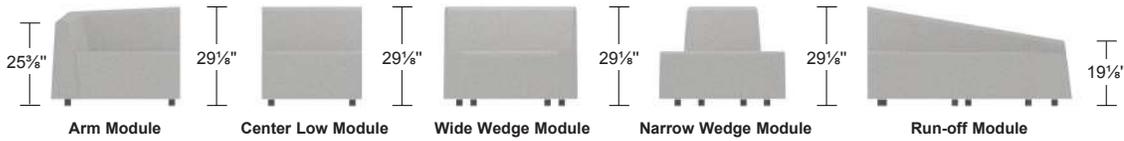

Please visit BernhardtDesign.com for a complete library of 2D, 3D and Revit models. You may also contact your local sales representative or the Bernhardt Design Corporate Office for specification assistance.

Item Seating System Product Overview

The Item product overview below shows examples of some of the different modules within the collection and their connecting heights. Item modules can only connect to another module of the same connecting height. Some

modules feature a low and high connecting side which allows for more flexibility in creating modular configurations.

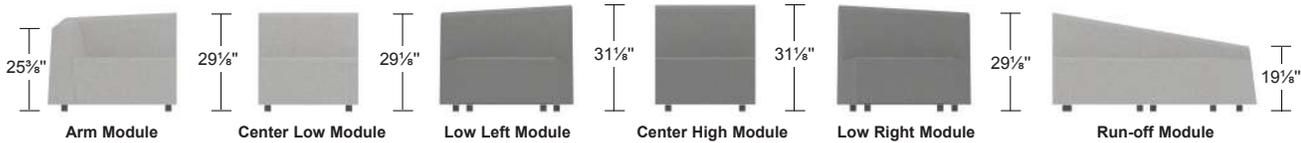

Low Lounge Modules - Connecting Height 29 1/8"

Low and Tall Transition Modules - Connecting Heights 29 1/8" and 31 1/8"

Items low and tall transition modules change in height adds to the palette of creativity that exists within the sectional group. Low and tall modules must be paired with a module with a matching height.

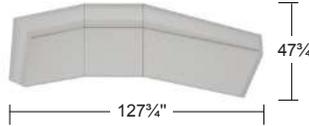

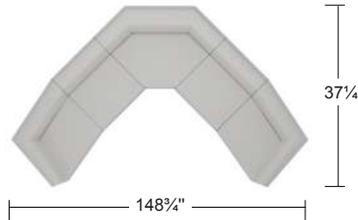

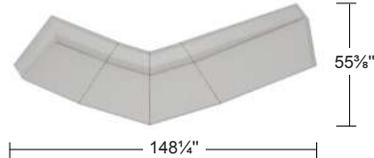

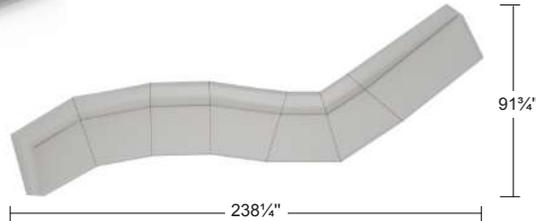

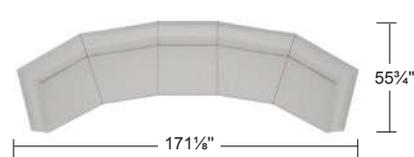

The 31 1/8" height will only pair to other 31 1/8" height modules, as the 29 1/8" height will only pair with corresponding 29 1/8" height modules. Note: Shaded modules show the tall and transitional modules.

Luca Seating System Specification Guide

Standard Features

Luca is a modular seating system comprised of 41 unique modules which can be used as freestanding or interchangeably to create an unlimited number of configurations. Options include freestanding benches, two-seat and three-seat modules, corner modules and seating and bench modules with end tables. End table tops are available in oak or walnut and are offered with and without power. Legs are available in one of three finishes: polished aluminum, matte black powder coat and satin white powder coat.

Luca is fully upholstered with 5/8" diameter non-marring adjustable nylon glides. When ordering configurations, please provide the total COM yardage from the same dye lot in a continuous roll(s). All COM/COL fabrics must be preapproved by Bernhardt Design prior to application. SCS Indoor Advantage™ Gold and LEVEL® 2 certified. See terms and conditions for additional finish and environmental information.corporate office for specification assistance.

Configurations are connected by a ganging bracket. Ganging brackets are sold separately and will ship with product. See the Luca lounge-modular accessories page for ordering information.

Please visit Bernhardtdesign.com for a complete library of 2D, 3D and Revit models. You may also contact your local sales representative or the Bernhardt Design corporate office for specification assistance.

Edge Profile

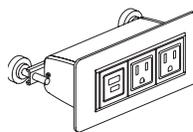

Surface Mount Power Modules

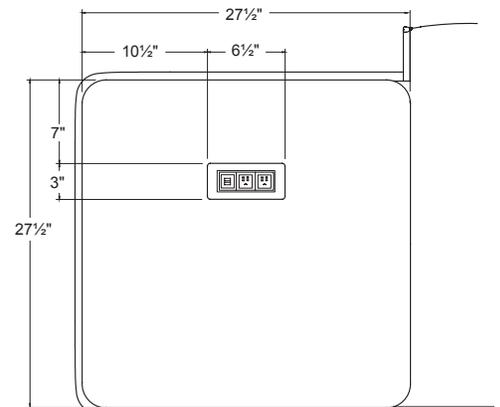

Luca offers a proprietary surface mount power solution which is installed flush to the worksurface and provides (2) 15 amp receptacles and (1) 2 amp USB-A port and (1) 2 amp USB-C port. The unit has a 10' infeed with a grounded plug. Power module finish is determined by leg finish selection.

Power Module
Black Finish

- (2) 120 v 60 Hz. 15 amp receptacles
- (1) 2 amp USB-A port, 10 watt
- (1) 2 amp USB-C port, 20 watt
- 6½" w x 3" d x 2¾" h

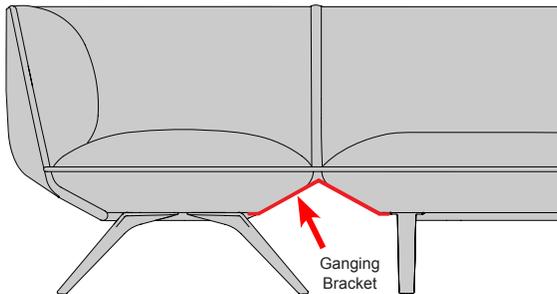

Connecting Modules

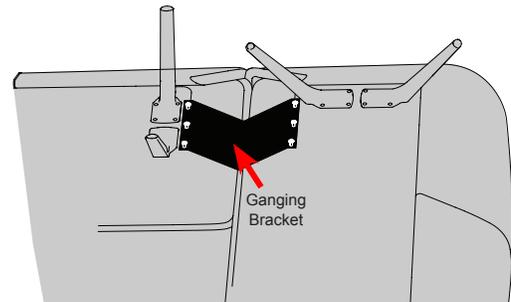

Luca modules connect by attaching a ganging bracket to the underside of the furniture. Order one ganging bracket per point of connection of modular units. Ganging brackets are sold separately and will ship with product.

To connect the modules together insert the three fasteners into the inserts at the location each module is desired to be connected. Push modules together in desired location.

Leave 1/4" between head of fastener and upholstery. Fit bracket over heads of fasteners and slide bracket to lock fasteners into keyhole slots cut into fastener. Tighten fasteners against bracket.

Ganging bracket is concealed behind flange and is not visible when looking at the sofa.

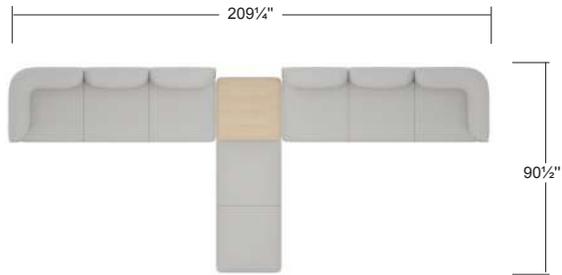

Under side view of the ganging bracket placement

Mirador Seating System Specification Guide

Standard Features

Mirador is a modular seating product comprised of 63 unique modules, which may be used interchangeably to create an unlimited number of configurations. To select the modules that are appropriate for your application use the Four Step Selection Process shown on the next page.

Mirador is fully upholstered with a polished cast aluminum frame with levelers and non-marring glides.

When ordering multi-item configurations, please provide the total COM yardage from the same dye lot in a continuous roll(s). *All COM/COL fabrics must be preapproved by Bernhardt Design prior to application.

See terms and conditions for instructions on tagging COM. Specify fabric railroaded when used with Item 5905 corner module.

All necessary ganging brackets are included and pre-installed.

SCS Indoor Advantage™ Gold and LEVEL® 2 certified. See terms and conditions for additional environmental information.

Please visit Bernhardtdesign.com for a complete library of 2D, 3D and Revit models. You may also contact your local sales representative or the Bernhardt Design corporate office for specification assistance.

Mirador Seating System Specification Guide

Four Step Selection Process

To specify Mirador configurations follow our Four Step Selection process.

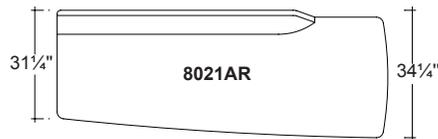

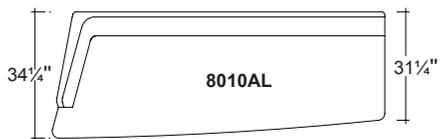

The process includes;

1. Front Selection
2. Arm Selection
3. End Selection
4. Connecting Module Selection

Step 1 - Front Selection

Two and Three-seat modules offer two different front styles.

A - Flared Front

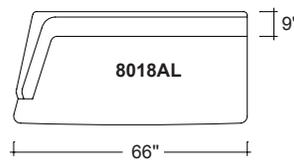

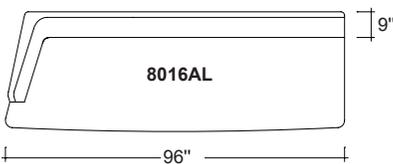

B - Non-Flared Front

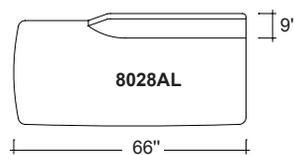

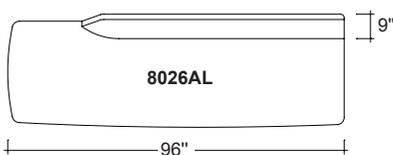

Step 2 - Arm Selection

Two and Three-seat modules are available with and without arms.

A - Arm Module

B - Armless Module

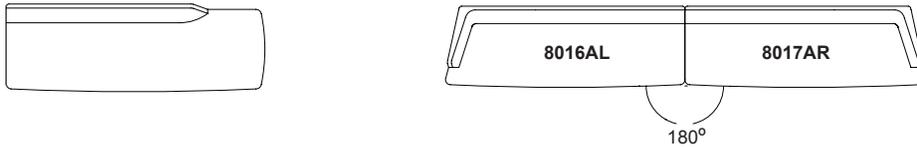

Mirador Seating System Specification Guide

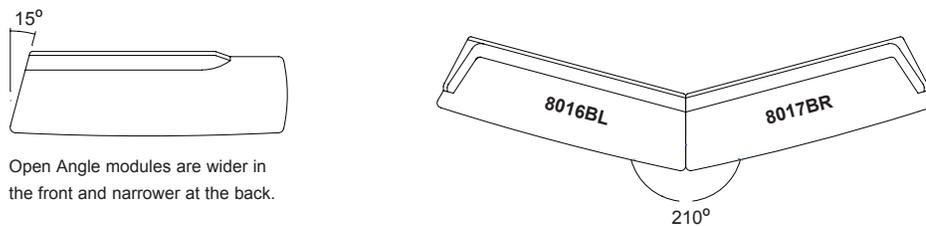

Step 3 - End Selection

Two and Three-seat modules are available with three unique ends: straight end, open angle end and closed angle end.. The selection of an end is used to achieve different angles

A - Straight Ends are specified for creating a configuration in a straight line 180°.

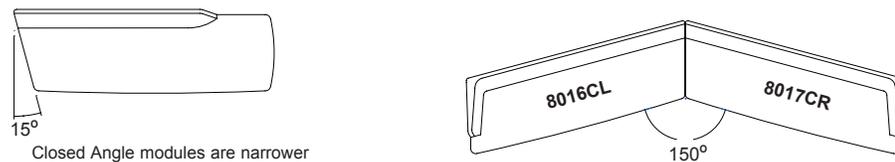

B - Open Angle Ends are specified for opening up a configuration and achieving an angle which is greater than 180°.

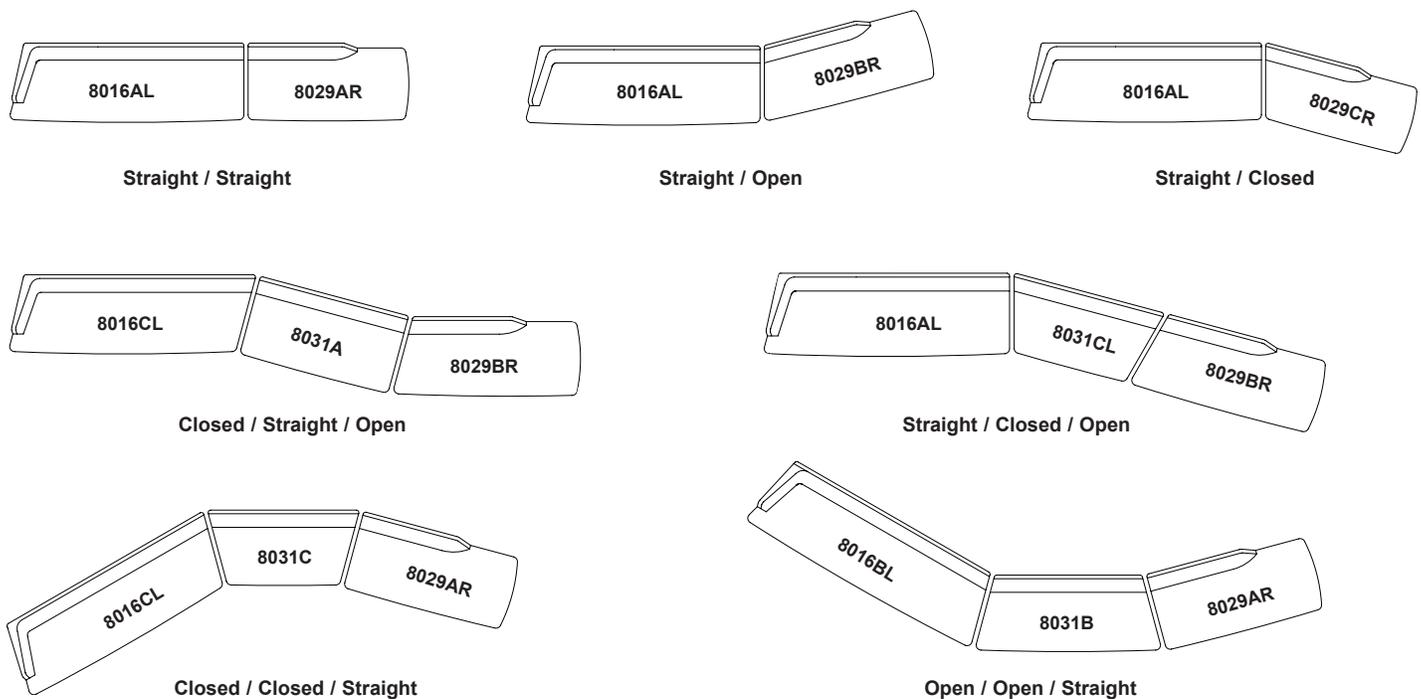

Open Angle modules are wider in the front and narrower at the back.

C - Closed Angle Ends are specified for closing up a configuration and achieving an angle which is less than 180°.

Closed Angle modules are narrower in the front and wider at the back.

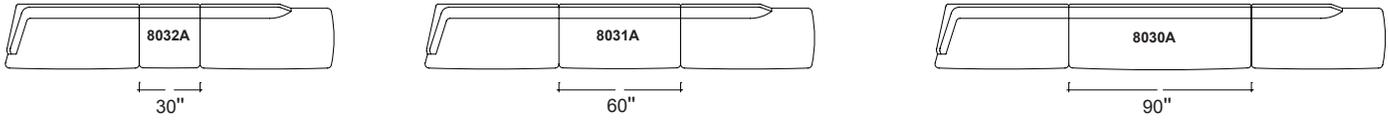

Modules with different end conditions may be connected to achieve the appropriate angle.

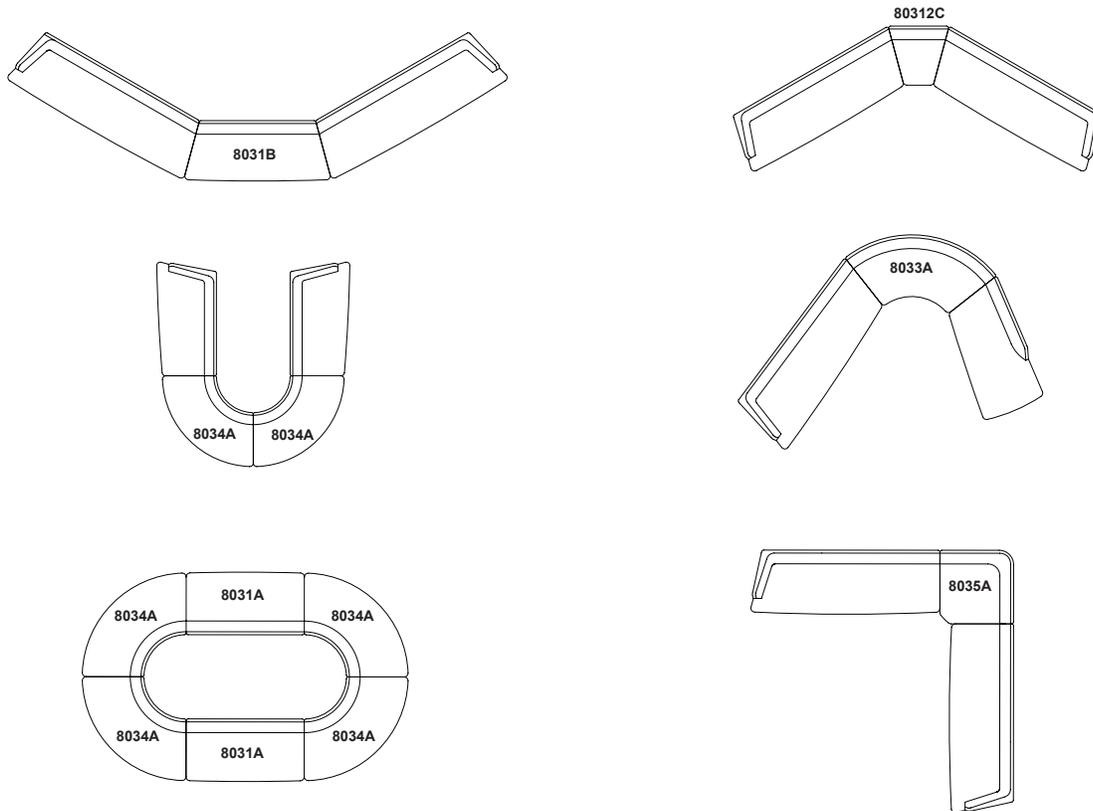

Mirador Seating System Specification Guide

Step 4 - Connecting Module Selection

A - Specify these connecting modules to achieve a desired length. - Or - For a desired length, specify these connecting modules.

B - Specify these connection modules to achieve a desired angle. - or - For a desired angle, specify these connecting modules.

Connecting module overview: There are twelve unique connecting modules available to alter both the length and the angle of a configuration.

Neighborhood Seating System Specification Guide

Standard Features

Neighborhood is a modular seating and table system consisting of thirty-nine unique modules for use in creating an unlimited number of configurations. Options include single sided, double sided and privacy modules as well as freestanding modules for use with any configuration. To select modules appropriate for your application use the scope of line shown on the following pages.

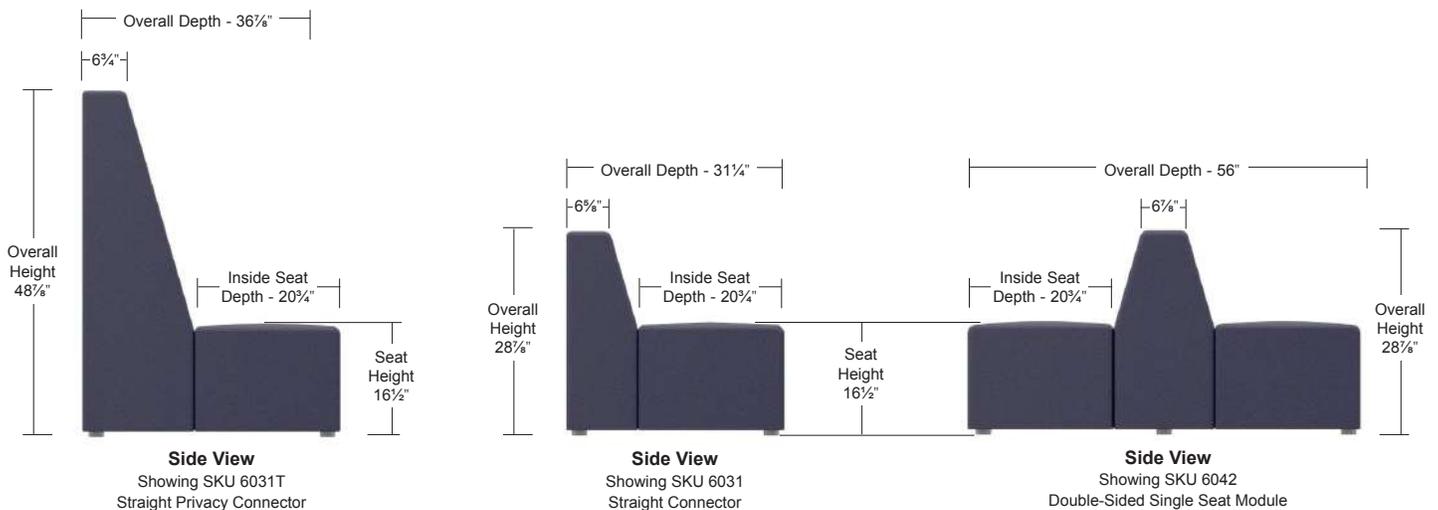

Neighborhood tables are available with worksurfaces in oak veneer in a variety of standard finishes, designer white laminate, or glacier white corian® as connecting modules and freestanding units. Power + USB duplex options are available.

Pivoting connectors join units in a configuration. When rotated inward, connectors are concealed allowing the modules to be used independently.

When specifying the privacy modules, please verify that the specified sku is within size requirements for delivery (elevators, hall intersections, doorways, stairwells).

Neighborhood is SCS Indoor Advantage® Gold and LEVEL® 2 certified. See terms and conditions for additional finish and environmental information.

Visit Bernhardtdesign.com for a complete drawing library of 2D, 3D and Revit models. You may also contact your local sales representative or the Bernhardt Design corporate office for specification assistance.

Upholstery Specification Guide

The Neighborhood seating and table modules are fully upholstered with a saddle stitch or a jump master stitch. Thread color must be specified for the jump master stitch.

Reference Neighborhood/Stitching on BernhardtDesign.com for thread color options available for jump master stitch only.

Leather may be specified for single sided, double sided and table modules. Leather is not applicable on privacy modules. Approved leather alternatives or fabric may be used on all Neighborhood frames.

When ordering multi-item configurations, please provide the total COM yardage from the same dye lot in a continuous roll(s).

Saddle Stitch

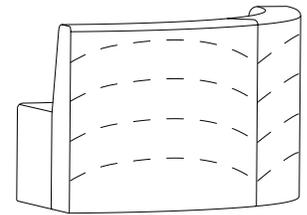

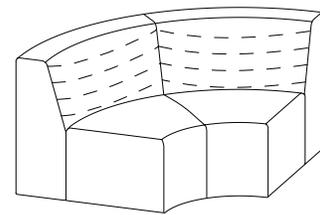

Jump Master Stitch

COM/COL Preapproval Requirements

When specifying stripes or fabrics with linear grain, the curvature of certain frames may affect the pattern alignment. As a result, the COM/COL preapproval procedure requires ½ yard of fabric or leather alternative, or 1 sq. ft. leather to be submitted for testing for prior approval on all frames except mobile seating, freestanding ottomans, benches and tables.

Preapproval procedure for testing COM/COL for mobile seating, freestanding ottomans and benches, and all tables requires the standard 12" x 12" sample. Reference the terms and conditions for COM/COL approval procedures.

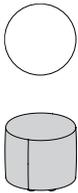

Pattern Alignment When Specifying Directional Grain Fabric

Neighborhood Seating System Specification Guide

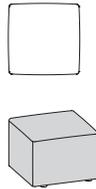

A. Mobile Seating

Mobile modules have non-locking casters and are used as freestanding units. The mobile lounge 6030M has a brushed aluminum handle located mid-back.

Tables for Freestanding and Connecting Modules

Neighborhood tables were designed for use as freestanding units or with single or double-sided connecting modules to create continuous configurations. Connecting tables are not available for use with privacy modules.

The Neighborhood table worksurface is available in oak veneer, laminate or corian. Connecting tables have a flat edge profile; freestanding table edges are beveled.

The base is fully upholstered with saddle stitching or a jump master stitch. Thread color must be specified for the jump master stitch. Reference Neighborhood/Stitching on BernhardtDesign.com for thread color options. When ordering multi-item configurations, please provide the total **COM** yardage from the same dye lot in a continuous roll(s).

Power + USB modules are optional and upcharges apply. Reference information on the following page for power options specifics.

Connecting Modules

Neighborhood modules connect by inserting the ganging fork into the bracket plate located on the underside of the furniture. To connect modules, rotate the connecting forks perpendicular to the module and slide the modules together. The forks fit around the bracket plates when the modules are connected. Use the leveling glides as needed to align the overall height of the modules on uneven flooring surfaces.

To disconnect modules, lift the side of the module where the bracket plates are located, generally the left hand facing side. Pull to disconnect the brackets from the connecting forks and slide apart.

Modules used in configurations may also be used as freestanding units. The connector fork can be concealed by rotating the connecting fork underneath the furniture module.

Hardware is provided with the 180° curved module for left or right hand orientation.

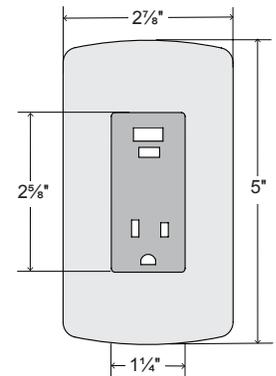

Neighborhood Seating System Specification Guide

Power Module

An optional power + USB module is available for all Neighborhood tables except the 22" round table. Single sided connecting tables and the 42" round freestanding tables are available with a single power module; double-sided connecting tables and the 42" and 48" square freestanding tables are available with two modules. Upcharges apply as indicated on the price list for each table.

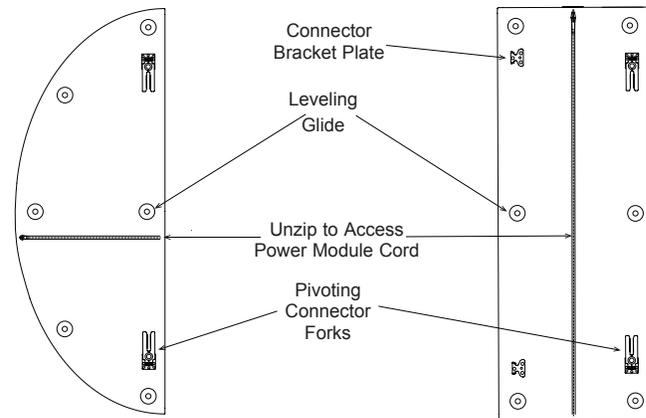

The power module has (1) 15 amp receptacle, (1) 2 amp USB-A port and (1) 2 amp USB-C port for charging tablets or other USB friendly devices. The power module is UL approved and includes a 10', 14/3 SJT black power cord with right angle plug. The power module has an aluminum powder coat finish and installs in the side of the base. An underside zipper allows access to power.

pasadena lounge modular seating collection

Pasadena Seating System Specification Guide

Standard Features

Pasadena is a modular seating system comprised of 64 unique modules which can be used as freestanding or interchangeably to create an unlimited number of configurations. Options include freestanding benches, two and three-seat modules, corner modules and seating and bench modules with end tables. End table tops are available in oak and walnut as well as black or white phenolic materials. All table options are offered with and without power. Base assemblies are available in all powder coat finishes or with polished aluminum.

Pasadena is fully upholstered. When ordering configurations, please provide the total COM yardage from the same dye lot in a continuous roll(s). All COM/COL fabrics must be preapproved by Bernhardt Design prior to application.

Each unit comes standard with felt glides installed and ships with non-marring nylon glides that can be installed as needed.

All configurations are connected by a ganging bracket. Ganging brackets are sold separately and field installed. See the Pasadena accessories page for ordering information.

Pasadena is SCS Indoor Advantage™ Gold certified. See terms and conditions for additional finish and environmental information. Please visit bernhardtdesign.com for a complete library of 2D, 3D and Revit models. You may also contact your local sales representative or the Bernhardt Design Corporate Office for specification assistance.

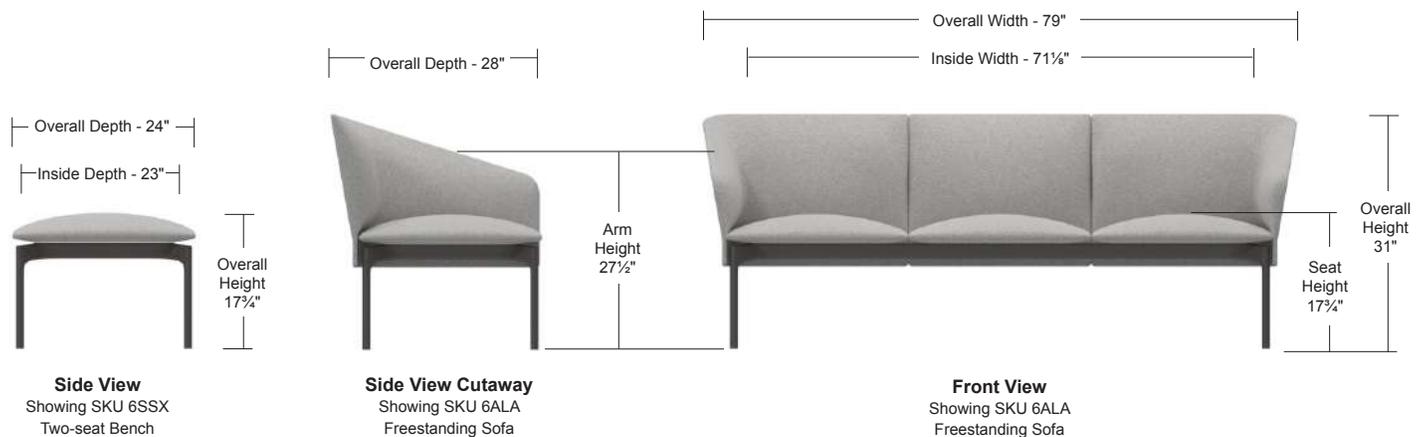

Table Options

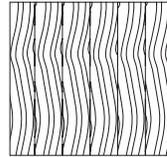

Veneer Selection

A sku identifies each wood veneer option as well as standard finishes. Base and top finishes are specified separately.

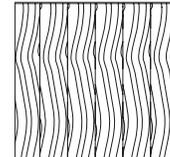

When specifying light finishes the natural characteristics of the wood will be visible and color will vary. See terms and conditions for additional finish information.

Surface Mount Power Modules

Pasadena offers a proprietary surface mount power solution which is installed flush to the worksurface and provides (2) 15 amp receptacles and (1) 2 amp USB-A port and (1) 2 amp USB-C port. The unit has a 10' infeed with a grounded plug. Power module finish is determined by table finish selection. The power module location is determined by table location as shown below.

(1) 2 amp USB-C port, 20 watt
6 1/2" w x 3" d x 2 3/4" h

In Line Power Location

Corner Table Power Location

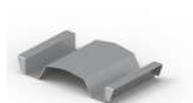

Connecting Modules

Pasadena modules connect by attaching a ganging bracket to the underside of the module. Order one ganging bracket per point of connection. Ganging brackets are sold separately and will ship with the product. See Pasadena accessories page to order brackets.

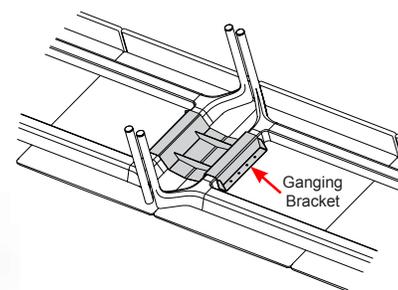

To connect the modules together, attach one end of the bracket to the underside of one module using the supplied hardware. The ganging brackets are formed to nest around the extruded base rails. Push modules together into desired location then attach the other end of the bracket in the same manner.

sunset lounge modular seating collection

Sunset Seating System Specification Guide

Standard Features

The Sunset lounge collection is fully upholstered and features 9 freestanding skus and 8 connecting modules. Modules can be used interchangeably to create an unlimited number of configurations.

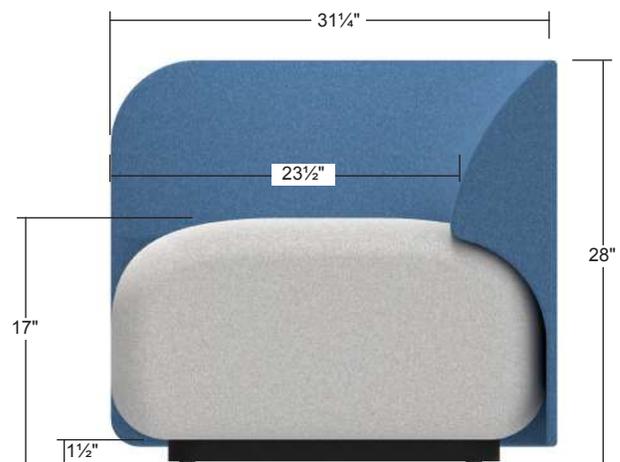

All necessary ganging brackets are included and installed.

Sunset features a black 1½" maple plinth base with adjustable non-marring glides.

All COM/COL fabrics must be preapproved by Bernhardt Design prior to application. When ordering multi-item configurations, please provide the total COM yardage from the same dye lot in a continuous roll(s).

SCS Indoor Advantage™ Gold and LEVEL® 2 certified. See terms and conditions for additional environmental information.

Please visit BernhardtDesign.com for a complete library of 2D, 3D and Revit models. You may also contact your local sales representative or the Bernhardt Design corporate office for specification assistance.

Valentina Seating System Specification Guide

Standard Features

Valentina is a modular seating system comprised of 6 unique modules which can be used interchangeably to create an unlimited number of configurations. All modules can also be used as freestanding units.

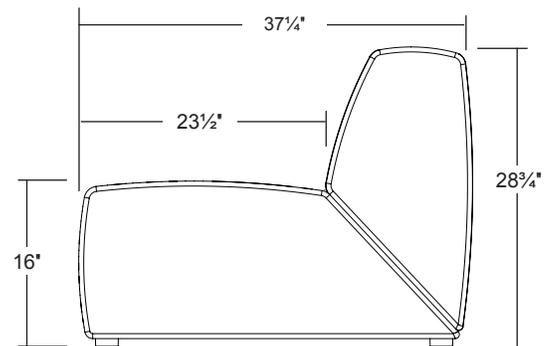

Valentina features new contrasting fabric options and comes standard with welt and a saddle stitch detail on the seat, back and arm.

Configurations are connected by a ganging bracket. Ganging brackets are included with each module. 1½" diameter non-marring adjustable glide.

When ordering configurations, please provide the total COM yardage from the same dye lot in a continuous roll(s). All COM/COL fabrics must be preapproved by Bernhardt Design prior to application.

Valentina is SCS Indoor Advantage™ Gold and LEVEL® 2 certified. See terms and conditions for additional finish and environmental information.

Please visit Bernhardtdesign.com for a complete library of 2D, 3D, and Revit models. You may also contact your local sales representative or the Bernhardt Design Corporate office for specification assistance.

Side view of sku 5650

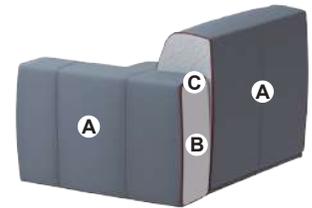

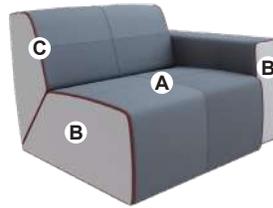

1½" Diameter Non-Marring Adjustable Nylon Glides

Valentina Contrasting Fabric Options

Valentina modular seating offers three contrasting fabric options.

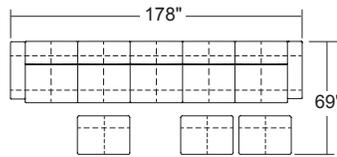

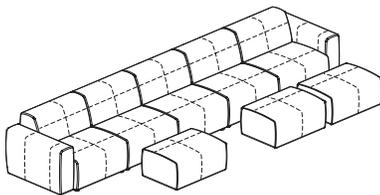

- A. Inside seat and back, top and side panels of the arms.
- B. Seat and back side panels, front and back panels of the arms.
- C. Welt

*All COM/COL fabrics must be preapproved by Bernhardt Design prior to application. When ordering multi-item configurations, provide the total COM yardage from the same dye lot in a continuous roll(s). See terms and conditions for instructions for tagging COM.

Veneer Selections

A three character sku identifies each species as well as the standard finish offered. Individual components are priced with standard finish. Special finishes on veneers made to customer specifications are subject to factory approval and a 10% net upcharge with a \$500 net minimum.

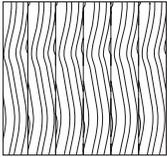

Transparent stains and sealers are applied in multiple steps to enhance the beauty of the natural wood. A durable, baked-on, top-coat of conversion

varnish or UV topcoat is applied to protect the product. It is recommended that felt, cork or fabric backed desk pads and accessories are used on worksurfaces to minimize wear.

When specifying light finishes the natural characteristics of the wood will be visible and color will vary. Paint finishes are available as custom orders. See terms and conditions for additional finish information.

Prices and Specifications

Prices and specifications are subject to change without notice. All prices quoted will be FOB our factories. If applicable, sales tax will be based on ship-to destination.

Bernhardt Design reserves the right to make changes in dimensions, design and/or construction, price lists, or product literature without prior notice.

All measurements and weights are approximate and subject to change without notice.

Order Entry

All orders are subject to final acceptance by Bernhardt Design in Lenoir, NC. Receipt of our acknowledgment indicates acceptance of your order subject to the terms set forth on the acknowledgment.

Bernhardt Design attempts to clarify all purchase orders. However, in the event the price list number and description on the purchase order differ, the price list number will prevail.

Changes / Cancellation

All orders in production are considered firm orders and are not subject to changes or cancellation.

Shipping

Bernhardt Design will ship in accordance with customer instructions whenever possible. For convenience, Bernhardt Design offers a guaranteed freight program (GFP). Bernhardt Design will exercise our best judgment in selecting a carrier under our GFP. When selecting a carrier, Bernhardt Design will make our best effort to meet requested delivery dates.

Transportation lead-times and delays including equipment problems, weather, general traffic, traffic accidents, customer warehouse space, labor disputes, customer changes, etc., that occur on a carrier will not be the responsibility of Bernhardt Design. Furthermore, Bernhardt Design will not be responsible for additional costs incurred due to aforementioned delays.

For customers who decline our GFP, Bernhardt Design will stage orders for pick up at 1% of the list price, or \$75 minimum.

Customer orders in production will be shipped as scheduled and will not be held. Bernhardt Design reserves the right to make partial shipments on any order, unless notified otherwise by the customer.

High quality cartoning meeting trucking and railroad specifications is standard at no extra charge. Some items may be blanket wrapped for shipment.

Freight Damage and Claims

Bernhardt Design is not liable for any damages to products that occur during transit or storage. The carrier assumes all responsibility upon acceptance of product. It is the customer's responsibility to inspect products upon receipt and file any claims with the carrier. No product should be refused.

If products are received damaged, a written exception should be made on the bill of lading and an immediate inspection be requested of the carrier.

Concealed damage must be reported to the carrier within 10 business days from date of delivery. Failure to make claims shall constitute acceptance of the products and waiver any claims of defects, errors or shortages.

In the event delivery is made on a Bernhardt Design truck, the products should be carefully inspected for transit damage. If contents are damaged, the driver should be notified to call his dispatcher for immediate disposition.

Concealed damage must be reported within 10 business days from date of delivery and product/packaging held for inspection by a Bernhardt Design representative. Replacements for product damaged in shipment or storage will be manufactured upon receipt of a purchase order.

Returns

No merchandise may be returned to Bernhardt Design without written consent in the form of a Return Authorization from our Quality Assurance Department, stating why the item is being returned and how the item will be shipped.

Unauthorized returns will be automatically refused by our receiving department as well as returns not in accordance with Bernhardt Design shipping instructions. Liability for defective merchandise shall be limited to the replacement or repair of that merchandise, and Bernhardt Design shall not be liable for other damages or losses.

Terms and Credit

Pricing and terms of sale apply to orders accepted by Bernhardt Design, and no terms, stipulations, or conditions contained in the dealer's submitted purchase orders shall have any force or effect. Bernhardt Design requires a completed and signed credit application from every dealer. Bernhardt Design also requires dealers to provide a Blanket Certificate of Resale/Use containing valid sales tax exemption number(s) for their respective state(s).

If credit has been approved, the standard terms for all Bernhardt Design products are Net 30 from the invoice date. In certain instances, as an additional condition of order acceptance, buyer may be required to provide a deposit at time of order and/or remit the balance before shipment is released. If credit has not been approved, a 100% prepayment, including any freight charges, is required prior to production. Acceptable forms of payment include a certified check or electronic bank transfer. For information on where to send check/electronic bank information contact our Financial Services Department. If a dealer or company check is submitted, three (3) weeks should be allowed for the clearance of the check. If electronic bank transfer is submitted, one (1) week should be allowed for the clearance of the electronic bank transfer. The order is subject to cancellation if payment in full is not received within three (3) weeks from the acknowledgment date.

The dealer may not make deductions for advertising, promotions, quality problems, freight, or any other reason without prior authorization by Bernhardt Design. Such a deduction could result in the curtailment or suspension of further shipments until the matter is resolved. Delinquency notices are generated and mailed periodically. Service charges of 18% per annum will be added to each past-due transaction. Unpaid service charges will be accrued and invoiced on a periodic basis. Past-due notices may result in orders being held until the situation is resolved. This credit hold could prevent orders from being placed into production or shipped. Orders not in production that are placed on credit hold for three (3) weeks will be subject to cancellation.

Severe past-due situations may result in the employment of a collection agency or other collection litigation. If any collection activity is necessary regarding a dealer account, the dealer will be responsible for the payment of any and all attorney and collection agency fees.

A slow payment history may result in reducing or eliminating an open line of credit. At the discretion of Bernhardt Design, amounts owed by a dealer to Bernhardt Design arising from any transaction or dealings between the dealer and Bernhardt Design may be offset against any amounts owed to the dealer by Bernhardt Design.

Warranty - Bernhardt Design

Bernhardt Design will repair or replace, at its discretion, to the original purchaser, any seating product or part thereof which fails as the result of defects in material and workmanship, under single shift use and normal care, for five years from date of shipment, with the exception of guest and stacking chairs which will be warranted for three years.

This warranty does not cover misuse or abuse of product, damages caused by contact with tables, desks or other surfaces, or normal wear associated with use of product. Repair or replacement of discontinued product will be at the discretion of Bernhardt Design.

Natural color changes, variations or movements in lumber or veneer products, exposure to extreme temperature changes and direct sunlight may cause color changes and/or surface damage. These are circumstances beyond the control of Bernhardt Design and are not warranty issues. Repair or replacement of discontinued product will be at the discretion of Bernhardt Design.

Certain chair styles with exposed wood require construction methods that accent color variations in light and natural stains. These variations are not considered product defects and are not warranty issues.

Damages to stacking chairs caused by stacking/unstacking methods are not controllable by Bernhardt Design and are not considered warranty issues.

This warranty is the customer's exclusive remedy for product defect and does not apply to damage caused by a carrier, dealer, installer, user modification, attachments to a product, or any third party.

Bernhardt Design has the exclusive right to make the final determination of product misuse or abuse.

This warranty excludes fabrics, leathers and any other textiles for wearing quality, color fastness, shrinkage, wrinkling, stretching, or dye lot match.

Except as stated above, Bernhardt Design makes no express or implied warranties as to any product, and in particular, makes no warranty of merchantability or of fitness for any particular purpose.

Bernhardt Design shall not be liable for any consequential or incidental damages or for commercial loss arising from any product defect.

Parts Order

Bernhardt Design parts have a \$25 net minimum per order. This does not include freight costs.

Custom Design

Bernhardt Design may alter some of its products to meet specific needs. Contact your Bernhardt Design sales representative when a custom design is needed. Custom designs, **if approved**, require minimum quantities, additional leadtime and upcharges.

A custom job number, available from your Bernhardt Design sales representative, must be submitted with purchase orders. Orders combining custom design with standard product cannot be scheduled for production until custom items are approved.

Custom design orders are not subject to revision or cancellation after acknowledgment.

Customer's Own Material (COM) - Customer's Own Leather (COL)

Due to aesthetic reasons or application restraints, Bernhardt Design must preapprove COM/COL fabrics for application on certain Bernhardt Design products. Reference the individual product details for frames requiring preapproval.

Certain fabric types require COM approval for use on any frame. The fabric types include, but are not limited to, thin fabrics without backing such as nylon or linen, parachute cloth, woven grass cloth or transparent materials, and heavier fabrics such as "rug" weight and thick mohair.

Fabrics with more than 40% silk content will not be accepted.

Preapproval Procedures

Please submit a 12" X 12" sample for testing prior to the actual shipment of COM/COL to Bernhardt Design.

Exception: Certain Neighborhood frames require additional yardage for testing. See product for details.

Shipping Address For Samples:

**Bernhardt Design
1839 Morganton Blvd. SW
Lenoir, NC 28645
Attn: Customer Service**

Along with the COM/COL sample the following information must be included for the preapproval:

**Product number
Quantity of products
Contact information**

Bernhardt Design reserves the right to reject any covering which in our opinion is unsuitable for upholstery purposes.

However, Bernhardt Design shall in no instance be held responsible for tailoring variances that result from the application of a particular textile or leather to a specific frame.

COM Yardage Specifications

All yardage requirements shown in the price list are based on 54" plain material. Fabrics with a vertical repeat that must be matched, or that are less than 54" wide, require more yardage.

The chart below should be used for determining additional COM yardage requirements.

Fabric Yardage Vertical Repeat

Fabric Width	Plain Fabric	2"-10" Repeat	11"-20" Repeat	21"-25" Repeat	26"-30" Repeat
54"	0%	10%	15%	20%	25%
51-53"	15%	20%	25%	30%	35%
48-50"	30%	35%	40%	45%	50%
45-47"	45%	50%	55%	60%	65%
36-44"	60%	65%	70%	75%	80%

Please add the indicated percentage to the yardage shown beside the style number in the price list. This guide will accurately cover most COM orders, but there will be instances due to unusual repeats or designs that additional yardages may be required.

When specifying a COM fabric that is more than 54" wide and includes a vertical and horizontal repeat, contact the Bernhardt Design office for additional yardage requirements. Bernhardt Design will not be held responsible for the purchase of any additional COM that may be required.

When specifying more than one textile on seating items, such as contrasting fabrics, welts, and contrasting welts, additional yardage may be required due to fabric yield.

When ordering multi-item modular configurations, the total COM/COL yardage must be provided from the same dye lot in a continuous roll(s).

All COM's will be cut and applied at the discretion of Bernhardt Design unless special cutting instructions are included in writing with the purchase order. Fabric patterns must be identified as horizontal or vertical application.

Bernhardt Design will not be held responsible for defective fabrics, as all COM's are accepted as first quality goods.

COL Specifications

Leather (COL) requirements are shown in square feet and calculated for hides that are 40 square feet or above. For hides below 40 square feet add 15% to the footage requirements. For calf hides below 30 square feet add 30% to the footage requirements. Bernhardt Design will not be held responsible for receipt of defective leathers, as all COL's are accepted as first quality goods.

COM/COL Tagging

All COM/COL must be properly tagged on the receiving documents in order for Bernhardt Design to match your fabric with your order.

Bernhardt Design will not be responsible for any delays caused by fabric not correctly marked.

COM/COL Disclaimer

Bernhardt Design is not responsible for any unclaimed COM/COL 30 days after shipment of Bernhardt Design acknowledgment. It is the responsibility of the dealer to request the return of excess COM/COL on the initial purchase order.

Contrasting Fabric and Welt Upcharges

Bernhardt Design must approve contrasting fabric and welt applications. If approved, the following upcharges apply:

Single chairs and seats: \$75.00 Net each
 Two or more connected seats: \$125.00 Net each

Exceptions: Reference individual product skus for exceptions to contrasting fabric/welt upcharges.

Flammability

It is the responsibility of the dealer to advise Bernhardt Design of local fire code requirements for final shipping destinations at the time of order placement.

Bernhardt Design certifies that all upholstered products in our current Seating Price List comply with California Technical Bulletin 117-2013, as manufactured, when upholstered in Bernhardt Textiles.

All upholstered products in our current Seating Price List comply with California Technical Bulletin 117-2013, as manufactured, when upholstered in customer's own material which complies with California Technical Bulletin 117-2013.

Substitutions of customer's own material for Bernhardt Textiles are accepted at customer's risk. Contact your Bernhardt Design sales representative for other flammability requirements and upcharges.

Bernhardt Design will not be responsible for any changes in color or appearance of fabrics with special treatments, nor for replacement of goods damaged during treatment process.

Seating Materials

Bernhardt Design guest seating is constructed of kiln dried solid maple parts except as noted in the price list. These solid maple parts are double doweled, utilizing corner blocks and lag bolts on the seat frame. The seat consists of high resilience urethane foam over woven webbing.

Stretchers, which enhance product durability in high use public areas, are available on selected Bernhardt Design exposed wood seating products.

Contact your Bernhardt Design sales representative for information regarding applicable upcharges for the addition of stretchers to chairs that are intended to be used in areas such as restaurants, cafeterias, training centers, hotel/motels, and other applications where chairs would be subject to above normal movement and use.

Bernhardt Design lounge seating is constructed from kiln dried lumber using double and triple dowel methods. High resilience urethane foam is used in conjunction with polyester fiber filling. Exposed wood components consist of maple, walnut, or parawood solids.

Bernhardt Design offers high and low back swivel chairs with pneumatic gas lifts and tilt controls and five star aluminum bases.

Wood Finishes

Bernhardt Design seating is available in finishes that are compatible with credenza and table finishes. However, finishes on tables may vary slightly from those on seating due to the natural characteristics of the wood. No absolute match is implied or guaranteed.

Light Finishes

Bernhardt Design offers lighter finishes on certain veneers and solid woods. When specifying light finishes the natural characteristics of the wood will be visible and color will vary.

Natural characteristics include the natural discolorations of the wood substance and color variations in glued up stock. These natural characteristics are not considered defects by Bernhardt Design, and therefore merchandise will not be replaced.

Standard Finishes

Finishes must be specified on all orders. The following finishes are available:

Maple

805	845	870
823	860	871
836	861	872
837	865	
839	866	

Oak/Ash

805	839	861	870
836	845	865	871
837	860	866	872

Oak/Ash Select Finishes

M71	M74	M76
M73	M75	M77

Walnut

823	861	872
839	866	LV8*
860	870	

Exceptions. *Reference individual product skus for applicable finishes.

Special Finishes

Special finishes, made to customer specifications and subject to factory approval, may be available at a **10% net upcharge with a \$500 net minimum**.

Contact your Bernhardt Design sales representative when a special finish is desired. When ordering a special finish, additional lead times may be required. Special finishes cannot be cancelled after acknowledged by Bernhardt Design.

Care and Cleaning - Bernhardt Design

Finished wood surfaces should be cleaned with a soft damp cloth, wiping in the direction of the grain. Dry with a soft cloth, wiping in the grain direction. Do not use waxes or furniture polish as these will cause an unsightly film build-up.

Design and Patent Rights

All of the products shown in Bernhardt Design catalogs and described in Bernhardt Design price lists are, and remain, the property of Bernhardt Design, with the sole right reserved to manufacture and to distribute.

Some of the product designs shown are patented in the United States and will remain the property of Bernhardt Design. Any reproduction of the products constitutes an infringement of patented copyright laws and will be subject to prosecution.

Environmental

Some seating products are LEVEL[®] for ANSI/BIFMA e3-2019 – Furniture Sustainability Standard and SCS Indoor Advantage[™] Gold certified. Visit the product page at bernhardtdesign.com for certifications.

Preferred Carrier Guaranteed Freight Rates

Freight charges will be applied to orders as a separate line item based on the zones listed. Rates are based on zones with a minimum for each zone. All zones are located within the Continental United States.

The freight amount is calculated on the total merchandise list COM price. Additional freight fuel surcharges may apply. Rates are based on deliveries made Monday through Friday, 8 am until 5 pm.

All orders are shipped by Bernhardt Design company trucks or preferred carriers specified by Bernhardt Design. **If a purchase order does not specify that the product must ship complete, Bernhardt Design reserves the right to select the most effective shipping method necessary, including split shipments.** Dealer warehouse information, including phone number and contact name, must be specified on the purchase order.

Zone	Percent	Minimum
Zone 1	3%	\$150
Zone 2	4%	\$150
Zone 3	5%	\$150
Zone 4	5.5%	\$150
Zone 5	6%	\$150

Percent bases on List Price.

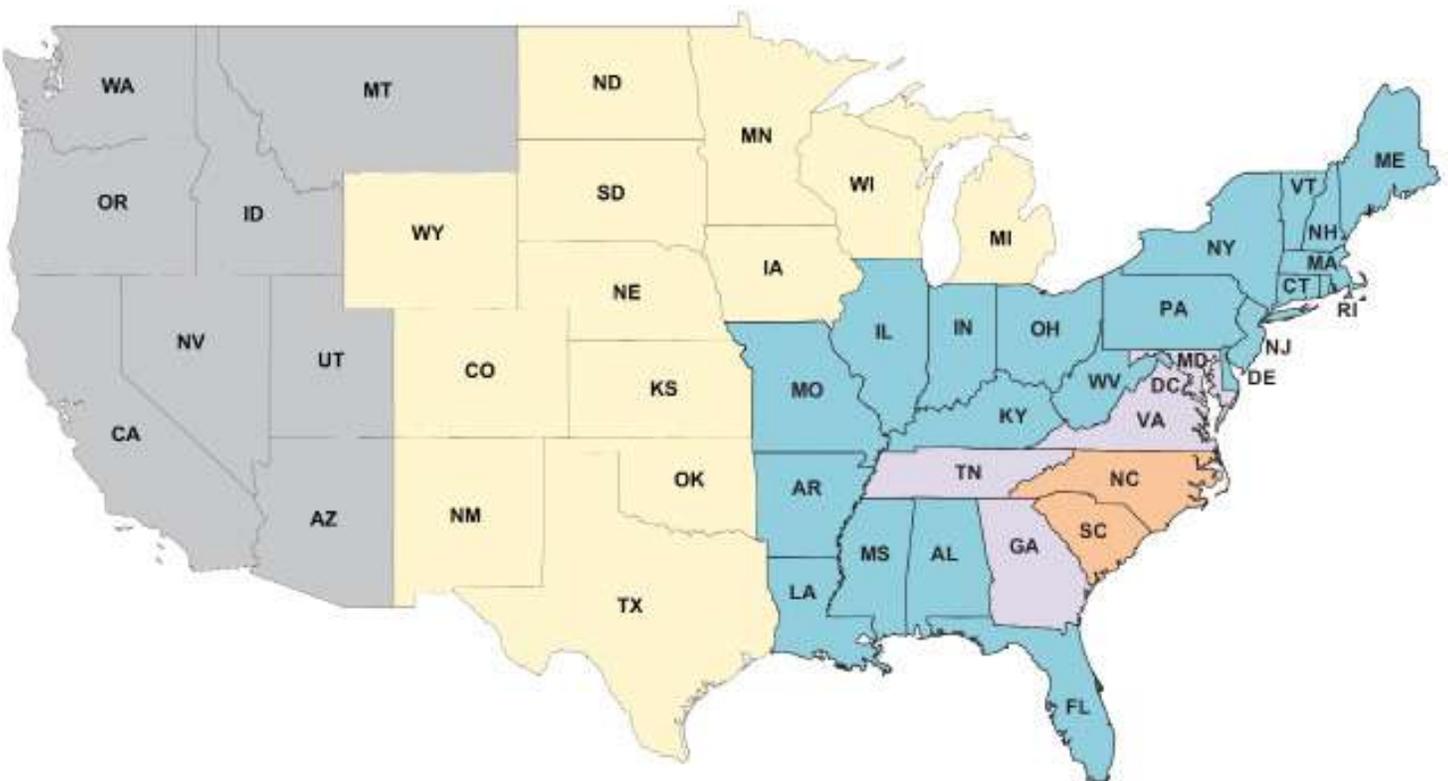

Direct site deliveries may be requested with an additional freight cost. Requests for direct site deliveries must be made 2 weeks prior to the scheduled ship week and meet the following criteria:

- Minimum of half truckload
- Delivery site accessible by a 53' trailer
- Complete delivery site address with contact name and on-site phone number
- Labor available for unloading

Deliveries that do not meet the criteria must be directed to a receiver warehouse. If a receiver warehouse is not available, the dealer may make arrangements with their own 3rd party carrier. If a 3rd party carrier is elected, a contact name, phone number and e-mail address is required.

Weekend direct site deliveries will incur a \$500 per trailer weekend delivery fee. Weekend is defined as between 5 pm Friday and 8 am Monday.

Customers who decline GFP should refer to the shipping section of the Terms and Conditions page.
