pasadena lounge modular seating collection

Pasadena Seating System Specification Guide

Standard Features

Pasadena is a modular seating system comprised of 64 unique modules which can be used as freestanding or interchangeably to create an unlimited number of configurations. Options include freestanding benches, two and three-seat modules, corner modules and seating and bench modules with end tables. End table tops are available in oak and walnut as well as black or white phenolic materials. All table options are offered with and without power. Base assemblies are available in all powder coat finishes or with polished aluminum.

Pasadena is fully upholstered. When ordering configurations, please provide the total COM yardage from the same dye lot in a continuous roll(s). All COM/COL fabrics must be preapproved by Bernhardt Design prior to application.

Each unit comes standard with felt glides installed and ships with non-marring nylon glides that can installed as needed.

All configurations are connected by a ganging bracket. Ganging brackets are sold separately and field installed. See the Pasadena accessories page for ordering information.

Pasadena is SCS Indoor Advantage™ Gold certified. See terms and conditions for additional finish and environmental information. Please visit bernhardtdesign.com for a complete library of 2D, 3D and Revit models. You may also contact your local sales representative or the Bernhardt Design Corporate Office for specification assistance.

Surface Mount Power Modules

Pasadena offers a proprietary surface mount power solution which is installed flush to the worksurface and provides (2) 15 amp receptacles and (1) 2 amp USB-A port and (1) 2 amp USB-C port. The unit has a 10' infeed with a grounded plug. Power module finish is determined by table finish selection. The power module location is determined by table location as shown below.

(1) 2 amp USB-C port, 20 watt

6½"w x 3"d x 2¾"h

In Line Power Location
Corner Table Power Location
Connecting Modules

Pasadena modules connect by attaching a ganging bracket to the underside of the module. Order one ganging bracket per point of connection. Ganging brackets are sold separately and will ship with the product. See Pasadena accessories page to order brackets.

To connect the modules together, attach one end of the bracket to the underside of one module using the supplied hardware. The ganging brackets are formed to nest around the extruded base rails. Push modules together into desired location then attach the other end of the bracket in the same manner.
