larkin table price list

january 2025

Laminate Selections

A three character sku identifies each laminate selection as well as the standard finish offered. Individual components are priced with standard finish on standard laminate.

A variety of Wilsonart® standard laminates with standard finishes is offered on conference and multipurpose tables. Additional colors may be available but are subject to upcharges and extended lead times. The laminate option is available on components where noted as an option in the material specification code.

All laminate tops will have a 3mm matching edge band.

Veneer Selections

A three character sku identifies each species as well as the standard finish offered. Individual components are priced with standard finish. Special finishes on veneers made to customer specifications are subject to factory approval and a 10% net upcharge with a $500 net minimum.

Transparent stains and sealers are applied in multiple steps to enhance the beauty of the natural wood. A durable, baked-on, top-coat of conversion varnish or UV topcoat is applied to protect the product. It is recommended that felt, cork or fabric backed desk pads and accessories are used on worksurfaces to minimize wear.

When specifying light finishes the natural characteristics of the wood will be visible and color will vary. Paint finishes are available as custom orders. See terms and conditions for additional finish information.
*NOTE: Both solid wood and veneers are used in the design of the Larkin tables. This mixing of materials will show a tone/color difference between the parts when natural finishes are specified. Slight shading and color differences may be noticed between the two materials.

Larkin Table Collection

The Larkin meeting table offers a design that works beautifully within today's casual work environments. The table features a reverse beveled edge top, solid wood base, polished or power coat aluminum components and new innovative surface mount power options. The most unique offering is a new integrated light that can be used within a power module or alone within the work surface. Blending all these options together, the Larkin meeting table meets the needs of today's flexible work environment.

Conference Height Table
4 Leg Assembly - Ranging from 36" to 60" wide by 60" to 120" long

Conference Height Table
Shown with coordinating Larkin Credenza

Conference Height Table
6 Leg Assembly - Ranging from 36" to 60" wide by 126" to 222" long

Conference Height Table
8 Leg Assembly - Ranging from 36" to 60" wide by 228" to 240" long

Larkin Tops

Larkin tops are specifically constructed to accommodate the Larkin bases. Bases and tops are sold as a complete assembly.

Rectangular tops are available in 36" - 60" widths and 60" - 240" lengths. Tops 126"- 222" will have 6 legs, tops 228"- 240" will have 8 legs. Larkin table height is 29½".

Larkin tables are SCS Indoor Advantage™ Gold certified and LEVEL® 1 certified.

Larkin Bases

The Larkin conference table features an aluminum frame supported by solid wood legs equipped with adjustable levelers with a ½" range. Aluminum frames are available in polished or a range of powder coat finishes. Bases and tops are sold as a complete assembly.

Wood legs are available in solid oak or solid walnut with standard Bernhardt finishes. The Larkin conference table comes in a 4, 6, or 8 leg version. Table lengths up to 120" have 4 legs, lengths 126" to 222" have 6 legs and lengths 228" to 240" have 8 legs.

Larkin tables are SCS Indoor Advantage™ Gold and LEVEL 2 certified.

BERNHARDT | design
Power Overview

The Larkin meeting table collection offers a selection of power options designed to meet the diverse needs in today's work environment. Our traditional undermount and mediatrac1™ power are offered along with new Larkin surface mount power options. Larkin power options are tailor made and offer a variety of power options along with an integrated light that can be used with or without the power module.

Larkin Power with Pass Thru
(3) Receptacles on the faceplate, (1) receptacle on the underside of the module, (4) USB-C ports and (1) pass thru location for HDMI or other cables. Available in white and graphite.

Larkin Power
(3) Receptacles on the faceplate, (1) receptacle on the underside of the module and (4) USB-C ports. Available in white and graphite.

Under Mount Power
(1) Grounded receptacle, (1) USB-A port and (1) USB-C port available as single corded or in multiples.

Mediatrac1
(4) Grounded receptacles with open positions for (4) AAP plates.

Larkin Power Overview

The Larkin meeting table collection features custom, surface mount power options designed to allow for increased functionality on the work surface. Options are: the Larkin Power grommet, Larkin Power with pass thru, Larkin Power with light grommet and Larkin light.

The power grommet offers USB-C and receptacle power only. The power with accessory grommet offers the choice of (2) faceplate options; a power with light grommet and power with pass thru for HDMI and other cables. The power with light option features an integrated light that plugs into a power module located conveniently beneath the table and features a USB-A port. An optical sensor is used to turn on, dim and turn off the light.

The Larkin light can be used within the power with light grommet or used separately on the table. When using the light separately and additional power is needed, under mount power can be specified. Offered in white and graphite, tables can accept 1-6 lights depending on the size of the table.

Power is certified to UL STD 962 A CSA STD 22.2 No. 21.

Power Infeed 10' long, 15 amp cord   Larkin Power Module   H-Block Connector

Note: Bernhardt Design provides recommendations for installation locations. End user installation will be required per individual sku. Power is specified separately.

Larkin Wire Management

The Larkin Conference collection offers a concealed wire management solution through the use of a cable pass thru. The cable pass thru is a plastic tray that is mounted in a pocket machined in the underside of the tabletop. This allows the cable to travel above the rail to the center of the table. The cable can then be routed down a leg with clear plastic clips, or down a drop down power tube.

A drop down power tube is recommended when using a floor core. The tube does not run all the way to ground to allow for flexibility of its location to any floor cores that may be used. The drop down power tube is sold separately.

4"   8"

Power Infeed

Clear wire management clips attach to wood legs to manage infeed wire to the floor.
Single Under Mount Shown

Larkin Grommet Placement Kits

Larkin power options by Bernhardt Design are offered as a grommet kit which includes all lights, grommets, jumpers and necessary components needed to bring power from the floor to the user. The number of grommets and lengths of jumpers are determined by the lengths and power options selected. Your kit will come complete with all necessary parts to install in the field.

Ordering Larkin Power Grommets

- Determine the amount of power and data needed
- Select the grommet code that best suits your requirements
- Select the power option
- Select the length of table that this is to be used on
  (make sure that this grommet code matches the code used when ordering your top)
- Select the faceplate finish
The Grommet Kit will ship separately and will be installed in the field.
Ordering Example:

**120" x 60" Table Top
Oak veneer, 870 finish
WH Faceplate Finish
LKS-LP3-CRD-120**

Top Depth	Distance to Grommet	Distance to Light
42"	19¾"	15"
48"	22¾"	18"
54"	25¾"	21"
60"	28¾"	24"

---

specification codes example: LKS-SKU-CRD-240

series	sku	power option	table length			
Larkin		**CRD** corded	060	108	156	204
			066	114	162	210
			072	120	168	216

Larkin Light - Only

Larkin offers a custom power module with an integrated light that plugs into a power module underneath the table. The light features a USB-A port and is available in white and graphite. An optical sensor is used to turn on, dim and turn off the light. Depending on the size of the table, 1-6 lights can be used.

Under mount power is certified to UL STD 962 A CSA STD 22.2 No. 21.

Under Mount Power

Larkin offers a proprietary under mount power solution allowing quick and easy daisy chaining of modules together. A maximum of (6) under mount power modules can be connected on one power infeed.

The under mount power modules are available in (1) configuration: (1) receptacle, (1) 2 amp USB-A port and (1) 2 amp USB-C port. End user installation will be required per individual SKU. Each SKU includes a separate power infeed with a 10' grounded plug to connect to the power source. See installation instructions for installing.

The Larkin table collection provides suggested locations for 2 - 6 under mount power modules. See following pages for details on recommended configurations. Under mount power is certified to UL STD 962 A CSA STD 22.2 No. 21.

Mediatrac1™

The Larkin collection introduces new structural rails that work in conjunction with Mediatrac1.

Mediatrac1 is a simplified system for routing power and data to the conference table worksurface while managing wires and auxiliary equipment.

Mediatrac1 grommet system provides power and (16) different options for Extron data configurations. Grommets are available in (5) different sizes ranging from an 8" x 4" single door unit to a 48" x 8" (4) door unit. All units have brushed aluminum trim with options for aluminum, laminate, or veneer lids in corded, hardwired or 4-Trac system power infeed.

Power Infeed 10' long, 15 amp cord

Power Module

Note: Bernhardt Design provides recommendations for installation locations. End user installation will be required per individual sku. Power is specified separately.

Mediatrac1™ offers power options that utilize the electrical 4-Trac Power System, allowing for easy installation and reconfiguration capabilities. 4-Trac snaps together easily underneath the worksurface using whips from each power module and the integral 4-Trac jumpers specified for use with each particular Mediatrac1 grommet size. The grommet layout and wiring scheme is specified specifically for each top size, requiring the customer to separately purchase only the required infeeds and jumpers.

Mediatrac1 is certified to UL STD 962A, UL STD 1363, CSA STD 22.2 No. 308-14. 4-Trac is certified to UL STD 183 CSA STD 22.2 No. 203.1-14.

Mediatrac1 **Options**

8" Single Door Mediatrac™ Grommet
2 grounded outlets, 1 exit plug, accepts 2 Extron single space AAP's, AAP modules specified separately, brushed aluminum frame

8" Double Door Mediatrac™ Grommet
4 grounded outlets, 1 exit plug, accepts 4 Extron single space AAP's, AAP modules specified separately, brushed aluminum frame

24" Double Door Mediatrac™ Grommet
8 grounded outlets, 2 exit plugs, accepts 8 Extron single space AAP's, AAP modules specified separately, brushed aluminum frame
Mediatrac1 **Grommet Kits** (Includes the following)

Power Module
Number and configuration of grommet modules determined by the grommet code

Jumper
(if required)

Jumper are determined by the length of the top specified

H-Block Connector
Grey Finish

Not used with cored or hardwired modules

Power Infeed Options
72" 4-Trac Power Infeed with 20 amp plug

20 amp receptacle 4-trac Only

72" 4-Trac Power Infeed with Hardwired Conduit
72" Power Infeed with 15 amp plug

15 amp receptacle

Mediatrac1 **Features**

Mediatrac1 is available in a range of sizes up to 72" which can be used in longer spans. Mediatrac1 utilizes the plug and play power system and offers 1" diameter round grommets that are available for speakerphone wire management. Single door grommets have (2) receptacles and (2) AAP single plates while double door grommets have (4) receptacles and (4) AAP single plates. Mediatrac1 is UL listed.

8" x 4"
Power/Data locations in Mediatrac1 grommets

Mediatrac 1™ 4-Trac Power System

Mediatrac 1 Grommets Using Electrical 4-Trac Power System

- ■ Power Infeed
- ■ Power Module Whip
- ■ Modular Connector
- ■ Jumper
- ■ Power Drop
- ■ Power Module
- ■ H-Block
Mediatrac 1 is available in our 4–Trac Power System, allowing for easy installation and reconfiguration capabilities.

4–Trac snaps together easily underneath the worksurface using whips from each power module and the integral 4–Trac jumpers specified for use with each particular Mediatrac 1 grommet size. **The grommet layout and wiring scheme is specified specifically for each top size and is included with each kit.**

Each power transition is accommodated by an H-Block, which gives the ability to snap together four power leads. Using the provided documentation to facilitate installation, powering the Mediatrac 1 system is as easy as snapping together connectors.

Infeeds are available in both hardwired and corded version in a 72" length. The plug version for the Mediatrac 1 power system is 20 amps and will require plugging into a 20 amp outlet to comply with electrical codes.

72" 4-Trac Power Infeed with Hardwired Conduit

72" 4-Trac Power Infeed with 20 amp Plug

20 amp Receptacle

Illustrations showing electrical 4–Trac power infeed end options – hardwired conduit and 20 amp corded plug. Both are available in 72" lengths. 20 amp receptacle must be used with the plug.

4-Trac Infeed snaps into an H-Block connected to a Mediatrac 1 power module with a 18" modular end.
4-Trac H-Block connects up to (4) Jumpers and Power Modules.
4-Trac Jumpers used in conjunction with the H-Block to wire the system.

Mediatrac 1™ Grommet Placement Kits

Mediatrac 1™ power options by Bernhardt Design are offered as a grommet kit which includes all grommets, jumpers and necessary components needed to bring power from the floor to the user. The number of grommets and lengths of jumpers are determined by the lengths and power options selected. Your kit will come complete with all necessary parts to install in the field.
Ordering Mediatrac 1 Grommets

- Determine the amount of power and data needed
- Select the grommet code that best suits your requirements
- Select the type of power infeed you need
- Select the length of table that this is to be used on
  (make sure that this grommet code matches the code used when ordering your top)
- Select the grommet trim/frame finish
- Select the lid/door material
- Select the lid/door finish
Top Depth	Distance to Grommet
42"	17"
48"	20"
54"	23"
60"	26"

Prices and Specifications

Prices and specifications are subject to change without notice. All prices quoted will be FOB our factories. If applicable, sales tax will be based on ship-to destination.

Bernhardt Design reserves the right to make changes in dimensions, construction, price lists, or product literature without prior notice.

All measurements and weights are approximate and subject to change without notice.

Order Entry

All orders are subject to final acceptance by Bernhardt Design in Lenoir, NC. Receipt of our acknowledgment indicates acceptance of your order subject to the terms set forth on the acknowledgment.

Bernhardt Design attempts to clarify all purchase orders. However, in the event the price list number and description on the purchase order differ, the price list number will prevail.

Changes/Cancellation

All orders in production are considered firm orders and are not subject to changes or cancellation.

Shipping

Bernhardt Design will ship in accordance with customer instructions whenever possible. For convenience, Bernhardt Design offers a guaranteed freight program (GFP). Bernhardt Design will exercise our best judgment in selecting a carrier under our GFP. When selecting a carrier, Bernhardt Design will make our best effort to meet requested delivery dates.

Transportation lead-times and delays including equipment problems, weather, general traffic, traffic accidents, customer warehouse space, labor disputes, customer changes, etc., that occur on a carrier will not be the responsibility of Bernhardt Design. Furthermore, Bernhardt Design will not be responsible for additional costs incurred due to aforementioned delays.

For customers who decline our GFP, Bernhardt Design will stage orders for pick up at 1% of the list price, or $75 minimum.

Customer orders in production will be shipped as scheduled and will not be held. Bernhardt Design reserves the right to make partial shipments on any order, unless notified otherwise by the customer.

High quality cartoning meeting trucking and railroad specifications is standard at no extra charge. Some items may be blanket wrapped for shipment.

Freight Damage and Claims

Bernhardt Design is not liable for any damages to products that occur during transit or storage. The carrier assumes all responsibility upon acceptance of product. It is the customer's responsibility to inspect products upon receipt and file any claims with the carrier. No product should be refused. If products are received damaged, a written exception should be made on the bill of lading and an immediate inspection be requested of the carrier.

Concealed damage must be reported to the carrier within 10 business days from date of delivery. Failure to make claims shall constitute acceptance of the products and waiver any claims of defects, errors or shortages.

In the event delivery is made on a Bernhardt Design truck, the products should be carefully inspected for transit damage. If contents are damaged, the driver should be notified to call his dispatcher for immediate disposition.

Concealed damage must be reported within 10 business days from date of delivery and product/packaging held for inspection by a Bernhardt Design representative. Replacements for product damaged in shipment or storage will be manufactured upon receipt of a purchase order.

Returns

No merchandise may be returned to Bernhardt Design without written consent in the form of a Return Authorization from our Quality Assurance Department stating why item is being returned and how item will be shipped.

Unauthorized returns will be automatically refused by our receiving department as well as returns not in accordance with Bernhardt Design shipping instructions. Liability for defective merchandise shall be limited to the replacement or repair of that merchandise, and Bernhardt Design shall not be liable for other damages or losses.

Terms and Credit

Pricing and terms of sale apply to orders accepted by Bernhardt Design, and no terms, stipulations, or conditions contained in the dealer's submitted purchase orders shall have any force or effect. Bernhardt Design requires a completed and signed credit application from every dealer. Bernhardt Design also requires dealers to provide a Blanket Certificate of Resale/Use containing valid sales tax exemption number(s) for their respective state(s).

If credit has been approved, the standard terms for all Bernhardt Design products are Net 30 from the invoice date. In certain instances, as an additional condition of order acceptance, buyer may be required to provide a deposit at time of order and/or remit the balance before shipment is released. If credit has not been approved, a 100% prepayment, including any freight charges, is required prior to production.

Acceptable forms of payment include a certified check or electronic bank transfer. For information on where to send check/electronic bank information contact our Financial Services Department. If a dealer or company check is submitted, three (3) weeks should be allowed for the clearance of the check. If electronic bank transfer is submitted, one (1) week should be allowed for the clearance of the electronic bank transfer. The order is subject to cancellation if payment in full is not received within three (3) weeks from the acknowledgment date.

The dealer may not make deductions for advertising, promotions, quality problems, freight, or any other reason without prior authorization by Bernhardt Design. Such a deduction could result in the curtailment or suspension of further shipments until the matter is resolved. Delinquency notices are generated and mailed periodically. Service charges of 18% per annum will be added to each past-due transaction. Unpaid service charges

will be accrued and invoiced on a periodic basis. Past-due notices may result in orders being held until the situation is resolved. This credit hold could prevent orders from being placed into production or shipped. Orders not in production that are placed on credit hold for three (3) weeks will be subject to cancellation.

Severe past-due situations may result in the employment of a collection agency or other collection litigation. If any collection activity is necessary regarding a dealer account, the dealer will be responsible for the payment of any and all attorney and collection agency fees.

A slow payment history may result in reducing or eliminating an open line of credit. At the discretion of Bernhardt Design, amounts owed by a dealer to Bernhardt Design arising from any transaction or dealings between the dealer and Bernhardt Design may be offset against any amounts owed to the dealer by Bernhardt Design.

Warranty

Bernhardt Design will repair or replace, at its discretion, any product or part thereof which fails as the result of defects in material and workmanship, under single shift use and normal care for five years from date of shipment. This warranty shall apply only to the original purchaser.

This warranty does not cover normal wear and tear, misuse or abuse of product, dramatic temperature changes, exposure to unusual conditions or damages incurred by contact with seating products, tables, desks or other surfaces. Natural color changes, variations or movements in lumber or veneer products, exposure to extreme temperature changes and direct sunlight may cause color changes and/or surface damage. These are circumstances beyond the control of Bernhardt Design and are not warranty issues. Repair or replacement of discontinued product will be at the discretion of Bernhardt Design.

This warranty is the customer's exclusive remedy for product defect and does not apply to damage caused by a freight carrier, dealer, installer, user modification, attachments to a product, or any third party. Bernhardt Design has the exclusive right to make the final determination of product misuse or abuse. Except as stated above, Bernhardt Design makes no express or implied warranties as to any product, and in particular, makes no warranty of merchantability or of fitness for any particular purpose. Bernhardt Design shall not be liable for any consequential or incidental damages or for commercial loss arising from any product defect.

Operational Parts Warranty

Drawer glides, drawer boxes, drawer pulls, and lock mechanisms have a Life-Time Warranty for original purchaser. Power and communication components are warranted for one year.

Parts Order

Bernhardt Design parts have a $25 net minimum per order. This does not include freight costs.

Custom Design

Bernhardt Design may alter products to meet specific needs. Contact your local sales representative when a custom design is needed. Custom designs,

if approved, require minimum quantities, additional leadtime and upcharges. A custom job number, available from your Bernhardt Design sales representative, must be submitted with purchase orders.

Orders combining custom design with standard product cannot be scheduled for production until custom items are approved. Custom design orders are not subject to revision or cancellation after acknowledgment.

Wood Finishes

Bernhardt Design tables are available in finishes that are compatible with credenzas and seating finishes. However, finishes on tables may vary slightly from those on seating due to the natural characteristics of the wood. No absolute match is implied or guaranteed.

Light Finishes

Bernhardt Design offers lighter finishes on certain veneers and solid woods. When specifying light finishes the natural characteristics of the wood will be visible and color will vary.

Natural characteristics include the natural discolorations of the wood substance and color variations in glued up stock. These natural characteristics are not considered defects by Bernhardt Design, and therefore merchandise will not be replaced.

Special Finishes

Special finishes, made to customer specifications and subject to factory approval, may be available at a **10% net upcharge with a $500 net minimum.**

Additional leadtime may be required for special finish items. Special finish orders will not be acknowledged until the special finish sample is approved in writing and received by Bernhardt Design Customer Service. Special finish orders are not subject to revision or cancellation after acknowledgment.

Installation and Maintenance

All freestanding tables and credenzas are equipped with leveling devices. Local floor conditions vary, and it is always necessary to properly adjust leveling devices. Proper leveling is essential to the alignment and function of doors and drawers.

Improperly leveled units result in misaligned doors and drawers and may impair locking mechanisms or other functional hardware.

After the initial installation of credenzas, it may be necessary to readjust and align the units to compensate for settling. This should be expected as a matter of routine maintenance and follow-up to assure proper case function.

Proper installation of Bernhardt Design tables and credenzas is the responsibility of the dealer. Improperly installed units can result in permanent damage to case components. Damage due to improperly installed furniture not covered under product warranty.

Orders combining custom design with standard product cannot be scheduled for production until custom items are approved. Custom design orders are not subject to revision or cancellation after acknowledgment.

Care and Cleaning

Finished wood surfaces should be cleaned with a soft damp cloth, wiping in the direction of the grain. Furniture should be buffed dry immediately with a soft cloth.

Design and Patent Rights

All of the products shown in Bernhardt Design catalogs and described in Bernhardt Design price lists are, and remain, the property of Bernhardt Design, with the sole right reserved to manufacture and to distribute.

Some of the product designs shown are patented in the United States and will remain the property of Bernhardt Design. Any reproduction of the products constitutes an infringement of patented copyright laws and will be subject to prosecution.

Environmental

Some tables and credenzas are LEVEL® for ANSI/BIFMA e3-2019 – Furniture Sustainability Standard and SCS Indoor Advantage™ Gold certified. Visit the product page at bernhardtdesign.com for certifications.

BERNHARDT|design

Preferred Carrier Guaranteed Freight Rates

Freight charges will be applied to orders as a separate line item based on the zones listed. Rates are based on zones with a minimum for each zone. All zones are located within the Continental United States.

The freight amount is calculated on the total merchandise list COM price. Additional freight fuel surcharges may apply. Rates are based on deliveries made Monday through Friday, 8 am until 5 pm.

All orders are shipped by Bernhardt Design company trucks or preferred carriers specified by Bernhardt Design. **If a purchase order does not specify that the product must ship complete, Bernhardt Design reserves the right to select the most effective shipping method necessary, including split shipments.** Dealer warehouse information, including phone number and contact name, must be specified on the purchase order.

Direct site deliveries may be requested with an additional freight cost. Requests for direct site deliveries must be made 2 weeks prior to the scheduled ship week and meet the following criteria:

•Minimum of half truckload
•Delivery site accessible by a 53' trailer
•Complete delivery site address with contact name and on-site phone number
•Labor available for unloading

Deliveries that do not meet the criteria must be directed to a receiver warehouse. If a receiver warehouse is not available, the dealer may make arrangements with their own 3rd party carrier. If a 3rd party carrier is elected, a contact name, phone number and e-mail address is required.

Bernhardt Design has a no touch freight policy. Drivers are not allowed to unload freight.

Weekend direct site deliveries will incur a $500 per trailer weekend delivery fee. Weekend is defined as between 5 pm Friday and 8 am Monday.

Customers who decline GFP should refer to the shipping section of the Terms and Conditions page.

Zone	Percent	Minimum
Zone 1	3%	$150
Zone 2	4%	$150
Zone 3	5%	$150
Zone 4	5.5%	$150
Zone 5	6%	$150

Percent bases on List Price.
