

TRIDAK Filling Equipment

Model 2400 High Pressure Filling System

SYSTEM FEATURES:

Dispenses extremely high-viscosity, filled materials

Solid-state sensing system controls the amount of fill

Includes a forced convection oven to lower material viscosity when needed

Fills single syringes and compules

Removable cartridge assembly allows materials to be prepared off-line and permits easy storage of materials for future use

Quick, convenient changeover of material

A stainless steel medical version is available

Other customized versions available upon request

Tridak® specializes in the manufacture of bench-top and semi-automated systems for filling cartridges and syringes. Our filling systems are easy to use and cost effective – offering quick, repeatable filling, and years of trouble-free service.
