AL BRAND

OUR MOTION

## *the art of motion*

Honoring refined design, unparalleled craftsmanship, and quiet luxury, our motion collection is as timeless as it comfortable.

*Featuring gentle, rounded edges, an oversized barrel back, and a fully upholstered frame, the Arden Swivel Chair is the epitome of sophisticated comfort.*

## OUR STORY

Rooted in American heritage, AL was founded in 1990 by engineers with a passion for innovation and craftsmanship, and a determination to cut industry standard timelines in half. Believing that three months was far too long to wait for a custom piece of furniture, they flew in Italian Master Craftsmen to personally train the AL artisans based on generations-old trade secrets. Not only were the AL founders successful in marrying speed and quality, but they effectively redefined the standard for American furniture craftsmanship.

and luxury design, our Accent Collection will

The cushion is positioned diagonally across the frame, with the top right corner showing the edge of the seat and the bottom left corner showing the side of the cushion.

*Sculpted lines, premium finishes,  
and endless cover options bring an elevated  
sense of luxury to any space.*

OUR BEDS

## *the art of luxury*

Sleek, sophisticated, and effortlessly  
luxurious, our Bed Collection was purposely  
to elevate the everyday and exist as the  
heart of the room.

Fine, light-colored stitching is visible along the edges and corners, highlighting the craftsmanship. The lighting is soft, creating subtle highlights and shadows that emphasize the contours of the chair.

*Each piece is a study in refined simplicity...  
where the touch of opulence is found in subtle details.*
