6700 | LARGE FORMAT CUBE | SOLID WOOD

Designed for refined sophistication, the 9Wood Large Format Cube style wood ceiling presents an open trellis design within a smooth, uninterrupted ceiling field. The Large Format Cube is hung with a flexible aircraft cable system equipped with pre-installed brackets, enabling simple adjustments for

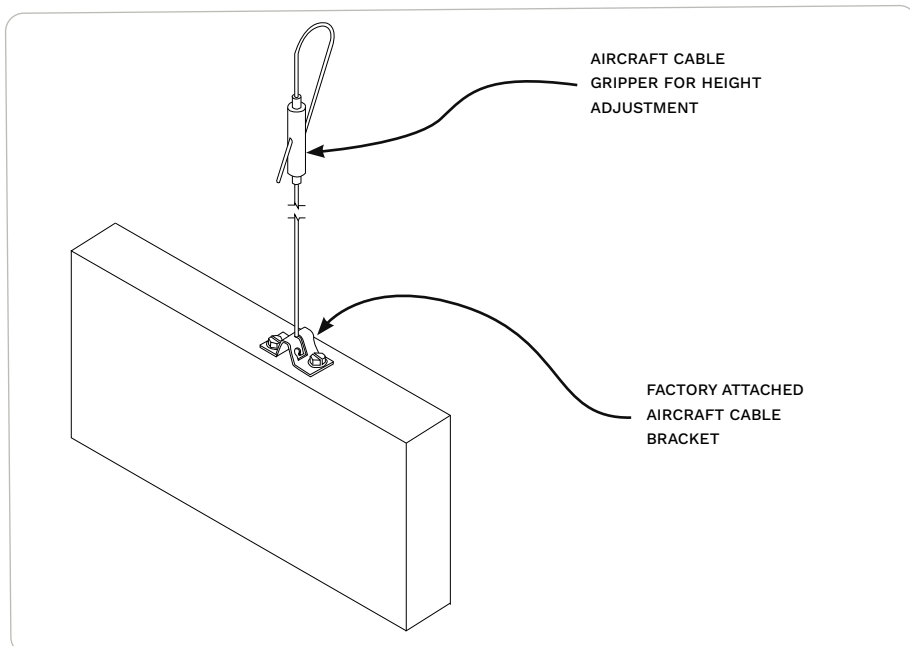

perfect height and alignment. This clever design produces a cohesive and visually captivating look, highlighting the enduring allure of wood with style. Free from the limitations of standard T-Bar grids, larger wood components can be emphasized, enhancing the ceiling's aesthetic appeal.

LARGE FORMAT CUBE | SKU Table

How to build your SKU

- **Pick your member size** (second column). This gives you your first four digits (e.g., 6724).
- **Pick your cell size** (last column). This is the O.C. distance between wood members.
- **Combine them with a dash.** A 2 x 4 member with 24 inch cell size creates SKU 6724-24.

SKU Table (solid only)

SKU	Member Size (Nominal)	Member Width	Member Depth	Cell Size
6713-12	1 x 3	¾"	2 ¼"	12"
6713-24	1 x 3	¾"	2 ¼"	24"
6714-12	1 x 4	¾"	3 ¼"	12"
6714-24	1 x 4	¾"	3 ¼"	24"
6716-12	1 x 6	¾"	5 ¼"	12"
6716-24	1 x 6	¾"	5 ¼"	24"
6723-12	2 x 3	1 ⅜"	2 ¼"	12"
6723-24	2 x 3	1 ⅜"	2 ¼"	24"
6723-48	2 x 3	1 ⅜"	2 ¼"	48"
6724-12	2 x 4	1 ⅜"	3 ¼"	12"
6724-24	2 x 4	1 ⅜"	3 ¼"	24"
6724-48	2 x 4	1 ⅜"	3 ¼"	48"

Please check with 9Wood if you don't see the combination that you have in mind.

SPECIES OPTIONS | Solid Wood

Species Options

Custom Made Fast is available in three solid wood species. Mixed Grain Western Hemlock is recommended for most applications due to its cost efficiency, versatility, and visual consistency. White Oak is available only in 1x2 and 1x3 members. Douglas Fir availability is limited and subject to market volatility.

Finish & Color Options

All products are finished with a clear matte topcoat, regardless of stain color. Standard stain colors are available with Western Hemlock. Custom Color Matching is always available with no required minimums and at the same cost as Standard options. Send 9Wood a control sample to get started.

Application

The 9Wood Large Format Cube is crafted for a striking monolithic open trellis aesthetic, delivering a bold, modern look. Featuring the 9Wood dovetail system, it ensures seamless on-site assembly, while the adjustable aircraft cable suspension system, complete with pre-installed brackets, allows for effortless height and leveling adjustments. This thoughtful design creates a balanced and visually stunning installation, showcasing the timeless beauty of wood with unparalleled elegance. Elevate your project with a solution that blends form, function, and sophistication effortlessly.

Acclimatization

Large Format Cubes must be cared for in a controlled interior environment (RH 25%-55% max; temp. 60°-80°) and installed only after reaching equilibrium moisture content.

Acoustics

Large Format Cubes may enhance acoustics via deflection between cells. Additional acoustic enhancement can be achieved in situations where insulation or batting is applied above the open cells or ceiling plane, typically enclosed plenum spaces.

Fire Rating

Individual members are treated with a Fire Retardant that helps it meet Class A per ASTM E84.

LEED

Large Format Cubes may help contribute to LEED credits for: Material sourcing, Material ingredients, Low Emitting Materials, and Environmental Product Declarations. Credit support based on design choices, please contact 9Wood for more information.

MEP

Large Format Cubes permit MEP penetrations in the ceiling's surface. Fixtures and diffusers must be independently supported.

Seismic

Large Format Cubes have attached aircraft cable brackets with a retention slot. Please contact local code or a licensed engineer for any additional requirements.

Suspension

Large Format Cubes are suspended using Aircraft cables with adjustable cable grippers.

System Weight

Monolithic Cubes typically weigh 2-4 pounds per square foot, depending on members per linear foot and species.
