Hugues Baurier and Terra Arzu

Metravib Material Testing is pleased to announce a new partnership with the company Terra, based in Ankara, for the distribution of its range of Mechanical Analysis instruments in Turkey, Turkish Republic of Northern Cyprus and Azerbaijan.

The cooperation with Terra will allow us to respond more effectively to Turkey's growing demands for Dynamic Mechanical Analyzers and to ensure better support for our customers thanks to a local partner.

About Terra

Terra Analysis and Measurement Equipment Trade Co. Inc. operates in Turkey in the area of sales and technical support of Chemical Analysis and Life Science Instruments since 1994. Terra always aims to provide reliable, fast and qualified service and to produce creative solutions to the demands of customers with the support of their expert team who follows the developing technology in the laboratory world and their supplier companies who are the world leaders in their fields.
