

NEW CODES FOR EU CUPS

Meet our updated cup designs, now fully compliant with the EU's new marking requirements. Use the tables below to find your new product codes. These changes only apply to cups, so keep using the same codes for all other Vegware products.

The SUP Directive does not differentiate between conventional plastics and the bio-based compostable materials Vegware uses. That's why we have to update our cups designs to add the 'plastic' warning.

As well as the turtle and EU text, we have enhanced our eco messaging:

- Large visible 'compostable' text on all paper cups
- QR code leads consumers to sustainability and waste info
- Compostability certification logos added for trust and traceability
- 'Packaging made from plants' printed on all cups

There's no other change - we still only use plant-based materials, not conventional plastics. All our cups are certified for commercial composting.

LANGUAGES IN THE YE REGION

Always choose codes ending in -YE for products to be used in EU countries with these official languages:

Croatian - HR - hrvatski
 Dutch - NL - Nederlands
 French - FR - français
 English - EN - English
 Gaelic - GA - Gaeilge
 German - DE - Deutsch
 Italian - IT - italiano
 Portuguese - PT - português
 Spanish - ES - español

	EV-16G		VDW-16-YE	16oz double wall brown kraft cup, 89-Series - YE

SINGLE WALL HOT CUPS

Choose from two families of single wall cups - kraft or white. These PLA-lined paper cups feature Vegware's Green Leaf band design. The Green Tree design is available as a custom print.

Our design groups the compliance markings together, leaving blank space on the other side.

	OLD CODE		NEW YE CODE	NEW PRODUCT NAME
