

Color the World

Create the visual impact of a painted door without the risk of field-applied finishes. With every factory-finished painted door, Forte infuses color-critical design elements and unmatched quality from our professionally applied finish. Our state-of-the-art equipment ensures stunning results in every project—every time.

Unlike field finished doors, which are susceptible to color inconsistency and damage, our factory-finished doors offer superior uniformity, arrive in your selected color and are backed by a manufacturer's warranty.* Also, factory painted doors are more eco-friendly since factory-finishing reduces potentially harmful chemical pollutants from jobsites by minimizing the amount of finish coatings that are introduced into the air.

*See manufacturer warranty for details.

Our factory finished painted doors are now available in seven designer colors. Custom color-matching options are also available.

Standard Paint Colors

Our best value with a range of options to meet the needs of most projects.

Platinum White

Washed White

Harbor Gray

Midnight Sky

Graystone

Urban Gray

Wrought Iron

Standard+ Paint Colors

Trend-inspired hues for a more customized look without the custom price.

Upward

Evergreen Fog

Linen Taupe

Egyptian Blue

 Sherwin-Williams Color of the Year, 2024.

CONSISTENCY

Uniform color, texture and coating consistency

Paint applied and cured with state-of-the-art modern spray system designed for optimal flash-drying and cooling cycles, providing quality finish with greater durability than field-painted doors.

EFFICIENCY

Expedited project completion with production scheduled factory-finishing

Lower finishing costs, as jobsite preparation, painting and cleanup are not necessary

RELIABILITY

Factory-controlled environment that reduces contact with dust and dirt

Enhanced design options afforded by reliable and repeatable factory color matching

Beautiful Doors Start at the Surface

Factory-finished painted wood doors by Forte are available in a variety of surface materials* to meet aesthetic preferences and project objectives so you can always specify with confidence.

PAINTE GRADE BIRCH

- Optimal surface for opaque finished doors
- Light colored surface material that provides excellent adhesion for factory applied finishes
- 1 year warranty

WEST END COLLECTION®

- Smooth hardboard surface with embossed reveals
- Embossed insets create streamlined, modern appeal
- 1 year warranty

MOLDED PANEL

- Smooth hardboard with deep, rich embossments
- Raised panels in an array of design choices
- 1 year warranty

FIBERBOARD

- High density, smooth surface with enhanced physical properties and no pronounced wood grain
- Smooth hardboard with deep, rich embossments
- Raised panels in an array of design choices
- 1 year warranty
