

Standard Lite Mouldings - Removable Grilles

- Grilles are available in the Aspiro® and Cendura® Series*. Some limitations apply, *Applied grilles limited in the Cendura Series to wood veneer surfaces only.
- Available in a variety of species.
- Factory glazing recommended.

Classic Grille options available on non-rated up to 90 minutes (ITS-WH and UL). Only available with flat profiled mouldings: Straight Lip Bead, Straight Bead, Straight Bead with Reveal, Veneer Wrap Bead. MD Grille options are available on non-rated doors with Flush Bead-MD or Lip Bead-MD profiles.

When field installation is specified, the following applies:

- Lite mouldings are installed on one side with the other side either tacked loose with brads, fastened with countersunk screws to installed piece, or with pre/cut pieces wrapped in a bundle for field installation. This varies by grille design.
- Mouldings are set for 1/4" glass or upon request for different glass thickness.

NOTES: Dimensions in brackets [X] indicate metric mm dimensions.

*Construction method may deviate from what is shown based on service listing. Specifications are subject to change without notice.
