

California's Safe Drinking Water & Toxic enforcement Act (Proposition 65)

Marshfield DoorSystems (Forte™ Opening Solutions) is required by the State of California's Safe Drinking Water and Toxic Enforcement Act to provide a clear and reasonable warning to Californians about the potential for exposure to significant amounts of certain chemicals or substances in the products we produce or that are released into the environment.

Following is a summary of chemicals or substances that may be found in our products that fall under Proposition 65.

WOOD DUST

Forte Opening Solutions products are likely to be comprised of wood. Drilling, sawing, sanding or machining wood products generates wood dust, a substance known to the State of California to cause cancer. Following is an example of the sign that must be displayed in the immediate vicinity of retail display shelving or at the retail point-of-sale for wood products being sold in California:

WARNING

Drilling, sawing, sanding or machining wood products generates wood dust, a substance known to the State of California to cause cancer. Avoid inhaling wood dust or use a dust mask or other safeguards for personal protection.

California Health and Safety Code Section 25249.6

METHANOL

Forte Opening Solutions products may contain trace amounts of methanol; a chemical known to the State of California to cause cancer.

FORMALDEHYDE

Forte Opening Solutions products may contain trace amounts of formaldehyde; a chemical known to the State of California to cause cancer.

LEAD

Very specific Forte Opening Solutions products designed for ionizing radiation and noise shielding contain Lead (Pb); a substance known to the State of California to cause cancer, birth defects or reproductive harm. Due to the finished nature of Forte Opening Solutions products that contain lead, ingesting or inhaling toxic levels of lead is highly unlikely.

Warnings identifying the potential risks associated with exposure to lead (when applicable), wood dust and formaldehyde have been included on the packing lists and invoices that accompany our products. As our customer, we ask that any further distribution of our products retain these warnings when there is potential for the products to be distributed to California.

If you have questions or require additional information regarding this matter, please contact Forte Opening Solutions.
