

YOUR COMPLETE HOSPITAL
DOOR SOLUTION FOR CANADA

Shaping Better Environments™ In Healthcare

FORTE
OPENING SOLUTIONS

We help you shape better healthcare environments by designing with the patient in mind. Our door solutions address aesthetics, noise reduction, impact resistance and safety to help increase performance and patient satisfaction.

Beautiful openings that
withstand heavy traffic

Easy-to-clean surfaces
for optimal hygiene

Quiet spaces for patients
to encourage healing

PERFORMANCE SOLUTIONS

- **Fire-Rated** — Meets life safety building codes to protect guests, employees and visitors.
Available in 20/45/60/90 minute ratings
- **Acoustic (STC) Rated 30 to 46** — Increases privacy and reduces noise to meet codes and guidelines
- **Factory Finish Paints and Stains** — Clear, Stain or Paint with UV coat for highly durable finish
- **Choice of Laminates** — High Pressure Decorative Laminates (HPDL) or Fibre Reinforced Laminates (FRL)
- **Factory Installed Glass and Mirror (surface applied or flush mirror)** — Meets building codes and standards
- **Environmental Attributes** — Contributes towards sustainable building codes and standards
- **Performance Measurement** — ANSI/WDMA/AWI/AWMAC
