Lasting Beauty Comes Standard

# Painted Wood Doors

Bring color to life with the consistency and convenience of factory-finished painted doors. State-of-the-art equipment ensures a flawless finish for stunning results and a ready-to-install door, every time.

## Durable Flawless Finish

Our doors are painted in a controlled environment that reduces dust and dirt contaminants. They also go through flash-drying and cooling cycles to provide greater durability than field-painted doors.

## Consistent Reliable Results

Our doors are painted during the manufacturing process with our state-of-the-art finishing system which helps ensure a consistent color, texture, and coating for uniform results you just can't get in the field.

## Time-Saving Convenience

Skip the added time and costs that come with finishing doors in the field and keep your project moving with factory-finished doors that come ready to install.

## Repeatable Color Matching

With color-matching abilities, our factory finish options give you access to enhanced design options.

Flush panel doors in Graystone

# Hospitality

## Shape Guest Experiences With Flawless Designs

Doors provide warm welcomes in hotels, conference centers, and reception spaces, setting the tone for guests and elevating the property's unique identity. Our wide array of painted medium-density overlay (MDO) door options can help define each space with luxury styles that flow through lobbies and public entryways, and doors that afford privacy for guests to rest and recharge in safe, quiet rooms.

### Hospitality Design Guide

Find market-specific door recommendations here.

# Multifamily

## Create Community for Multifamily Housing

Well-designed doors promise durability and meet local building codes for multifamily housing. With uniform factory finishes, our painted medium-density overlay (MDO) and hardboard (HDF) options can upgrade the look and feel of shared hallways and add security for tenants. Doors that complement interior décor can be used to separate bathrooms and bedrooms for seamless style.

### Enduring Design & Durability

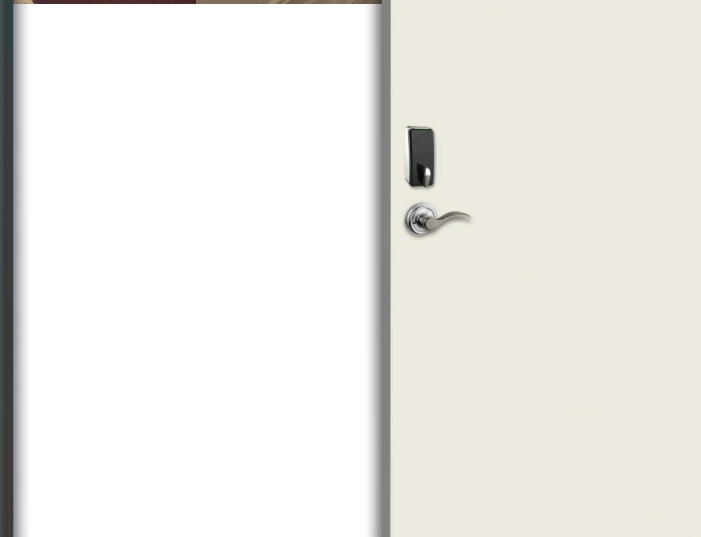

An array of design and color choices delivers sophisticated appeal for public spaces and private rooms, harmonizing with furnishings, carpet and walls.

Factory-finished surfaces provide the durability to withstand moderate to high traffic in areas such as hotel lobbies and restrooms.

### Egyptian Blue

Lush, saturated hues attract the eye and invoke a sense of adventure for enticing spaces that feel both exotic and sophisticated.

### Washed White

Make commercial spaces feel more like home with this soft warm white—perfect for extending a neutral palette or balancing today's energetic accent colors.

### Long-Lasting Beauty & Durability

When matched with trim or walls, color-matched doors add a unified look that fits with the building's style and various functions.

Painted doors provide lasting endurance and beauty in moderately trafficked rental properties or apartments.

# Office

## Power Up Productivity & Durability

Flexibility, collaboration, and comfort are key, whether a private office, communal space, or conference room. Office doors can achieve all these goals while facilitating workflow and wellbeing. Painted doors help achieve a cohesive aesthetic, while helping to minimize distractions and reduce noise.

### Office Design Guide

Find market-specific door recommendations here.

# Mixed-Use Spaces

## Harmonize A Diverse Environment

Painted doors add uniformity to commercial and residential mixed-use buildings. Separate access points or multipurpose lobbies, secure coworking spaces, and distinguish retail areas with inviting painted hardboard (HDF) or medium-density overlay (MDO) doors. For residential units or shared workspaces, acoustic-rated doors ensure privacy from adjacent restaurants or offices.

### Mixed-Use Design Guide

Find market-specific door recommendations here.

### Serene & Secure Spaces

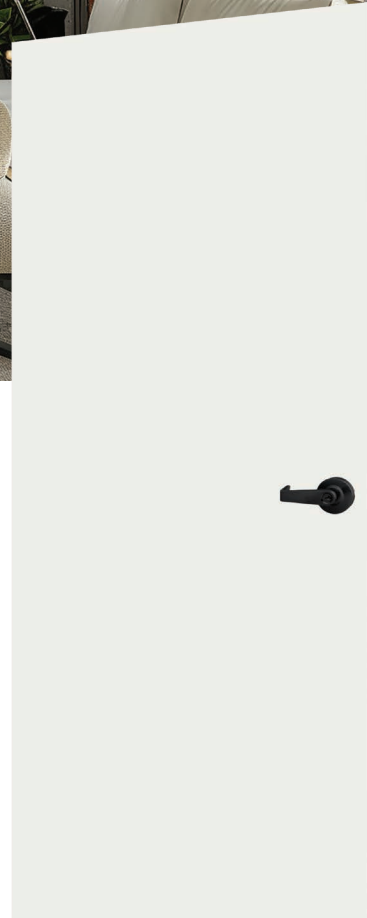

Factory finishes are available in calming neutral colors that foster a serene environment. Or, select custom colors that match company branding.

Enhance privacy and security with acoustic-rated and bullet-resistant options for painted doors.

### Platinum White

A classic choice in changing times, this crisp, clean color helps employees keep their edge by supporting workspaces that are bright, airy, and inviting.

### Linen Taupe

Balance the hard lines and bold textures of industrial materials with this warm, organic neutral, making open spaces feel more intimate and inviting.

### Aesthetics & Acoustics

MDO doors feature smooth, painted surfaces and offer noise-control solutions for mixed-use establishments.

Cendura doors in these spaces balance performance, aesthetics, and value to ensure projects remain on budget.

# Specify with Confidence

With a streamlined offering, we make it easy to select doors based on your specific requirements. Choose our Aspiro® Series to make a grand entrance or select our Cendura® Series to meet commercial needs.

## Aspiro® Series Premium Painted

### SHOPPING OTHER SURFACES?

Aspiro® and Cendura® are global product lines that span our full offering, including laminate, wood veneer, painted, and stile and rail. So, it's simpler to select, spec and order the right door solutions —no matter what surface or style you have in mind.

# Aspiro® Series

## Premium Painted Doors

Bring color to life with the versatility and consistency of factory-finished painted doors.

### Medium Density Overlay (MDO)

Exclusive to the Aspiro® Series, medium density overlay (MDO) provides premium adhesion for our factory-applied paints and ensures a light, smooth finish with unmatched durability and lasting beauty.

### Hardboard (HDF)

Achieve superior uniformity and durability while bringing vibrant color into any space. Hardboard, also known as high-density fiberboard or HDF, is ideal for paint and features a smooth surface with no pronounced wood grain.

WARNING: This product can expose you to chemicals including wood dust, which is known to the State of California to cause cancer. For more information go to [www.P65Warnings.ca.gov](http://www.P65Warnings.ca.gov).

# Cendura® Series

## Standard Painted Doors

Ensure color uniformity with a variety of factory-finished surface options.

### Molded Panel

Complement any environment, from healthcare to hospitality with Cendura® molded panel doors featuring smooth hardboard. Choose from a variety of familiar design choices featuring deep embossments and simple, pleasing lines.

### Hardboard (HDF)

Also known as high-density fiberboard or HDF, hardboard features a smooth, paintable surface for uniformity and durability, and is available in the flush door style.

# Factory-Finished in Designer Colors

Our collection of factory-applied paint colors is hand-selected to complement most popular interior design styles.

All Standard and Standard+ paint colors are available on both Aspiro® and Cendura® doors.

## Designer Colors Collection

These colors have been carefully curated to evoke a sense of tranquility and sophistication, drawing inspiration from the natural world and urban landscapes. With hues that range from soft whites to deep grays and browns reflective of weathered stone and city streets, this collection offers versatility and elegance for any space.

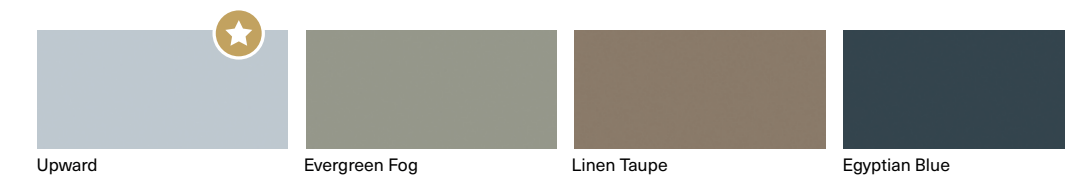

### Standard Paint Colors

Our best value with a range of options to meet the needs of most projects.

### Standard+ Paint Colors

Trend-inspired hues for a more customized look without the custom price.
