What is Basler University's DECS-250 & DECS-450 Training Class?

Attendees will learn:

The basic configuration of the DECS-250 and DECS-450 systems with an emphasis on the actual hardware included in each system.

Necessary maintenance and troubleshooting of the systems.

How to use the various features of BESTCOMSP^{Plus}® to configure the DECS-250 as well as a DECS-450 system.

How to use the software for troubleshooting or maintenance, and to change the settings in the device.
