## What is Basler University's DECS-2100 Training Class?

Professional hands-on training at our manufacturing facility where Basler Electric's experts will present the basic configuration of the DECS-2100 system with an emphasis on the actual hardware included in each system as well as necessary tools for maintenance and troubleshooting.

A conceptual and practical review of BESTCOMS™ *Pro* software will teach professionals how to configure their DECS-2100 and use BESTCOMS™ *Pro* for troubleshooting, changing settings, or maintenance.

This course is not intended to instruct the attendees on commissioning the product.
