Index Features																							
VersaGain™	Momentum Growth Plus offers index strategies with a unique built-in feature we refer to as "VersaGain." With the VersaGain feature, you can choose to either protect the interest you've accrued over the past term or put some, or all of it, at risk the following year in exchange for higher crediting rate(s). Each year you can choose to protect 100%, 50%, or 0% of your interest by adjusting your protected auto-credit percentage.																						
Index lock	You can elect to lock in your gains, thus locking the index value, in an index at any time during the year. Once those gains are locked in, they are locked in for the remainder of the year, regardless of how markets perform.																						

What is a fixed index annuity?

A fixed index annuity (FIA) is an insurance product that is designed to help you meet your long-term retirement needs. A FIA may help you:

- **Grow your money**—earn interest based on the performance of the indexed-linked crediting options or fixed account.
- **Protect your money**—lock in gains each year to protect your account value from market drops.
- **Convert your savings into retirement income, including income for life.**

¹ Subsequent premium not permitted after any owner/annuitant has attained age 80.

² All payments are free from surrender charges at the end of the surrender charge schedule.

³ Withdrawals are taxed as ordinary income, and if taken prior to age 59½, there may be a 10% federal tax penalty. Withdrawals will reduce any protection benefits and may result in a surrender charge or a market value adjustment.

⁴ Must meet certain criteria. Subject to state availability. Please refer to the contract for details.

⁵ We may offer options other than those listed. Please refer to the contract for details.

Delaware Life annuities are long-term investment vehicles designed for retirement purposes. They are not intended to replace emergency funds, to be used as income for day-to-day expenses, or to fund short-term savings goals.
