Index account features																																			
<b>Lowest starting index value</b>	A no-cost feature that has the potential to increase both the size and likelihood of an interest credit for money allocated to an index account option. The initial starting index value is set using the lowest index value following the first 90 days of your contract issue date. This feature applies to any index account option your initial premium is allocated to in the first contract year.																																		
<b>Flex-Lock index account options</b>	Flex-lock index account options guarantee that the initial crediting rate set at issue will not change for the length of the surrender charge period. These options are only available at issue and may not be available with all index options.																																		
<b>Enhanced index account options</b>	Enhanced index account options offer higher crediting rates, such as cap or participation rates, for an additional annual fee. The fee is calculated by multiplying the index account value of the associated enhanced index account and an enhancement fee rate at the beginning of the term and is deducted at the end of the term. The initial enhancement fee rate is set at contract issue and guaranteed for the first index term. A new enhanced fee rate will be declared at the start of each subsequent index term.																																		

# What is a fixed index annuity?

A fixed index annuity (FIA) is an insurance product that is designed to help you meet your long-term retirement needs. An FIA may help you:

- **Grow your money**—earn interest based on the performance of the indexed-linked crediting options or fixed account.
- **Protect your money**—lock in gains each year to protect your account value from market drops.
- **Convert your savings into retirement income, including income for life.**

## Additional no-cost benefits

### Nursing home & terminal illness waivers<sup>6</sup>

- After a period of one year, you may withdraw money from your annuity without a surrender charge to pay for an eligible nursing home or hospice care
- Contract must be purchased prior to owner's attained age of 76 for the nursing home waiver

<sup>1</sup> Subsequent payments not permitted after any owner/annuitant has attained age 85.

<sup>2</sup> A portion of the premium bonus is returned to us if you withdraw more than your free withdrawal amount or begin annuity payments before the end of the surrender charge period.

<sup>3</sup> Withdrawals are taxed as ordinary income and, if taken prior to age 59½, there may be a 10% federal tax penalty. Withdrawals may result in a surrender charge or MVA.

<sup>4</sup> With a non-rolling surrender charge, all payments are free from surrender charges at the end of the surrender charge period. Below is the California-only surrender schedule.

California	Year	1	2	3	4	5	6	7	8	9	10
