What is a fixed index annuity?

A fixed index annuity (FIA) is an insurance product that is designed to help you meet your long-term retirement needs. An FIA may help you:

- Grow your money—earn interest based on the performance of the indexed-linked crediting options or fixed account.
- Protect your money—lock in gains each year to protect your account value from market drops.
- Convert your savings into retirement income, including income for life.

¹ Subsequent premium not permitted after any owner/annuitant has attained age 85.

² Withdrawals are taxed as ordinary income and, if taken prior to age 59½, there may be a 10% federal tax penalty. Withdrawals will reduce any protection benefits and may result in a surrender charge or a market value adjustment (MVA).

³ With a non-rolling surrender charge, all payments are free from surrender charges at the end of the surrender charge schedule. Below is the California-only surrender schedule.

	Year	1	2	3	4	5	6	7	8+
California schedule	5-Year	9.20%	8.20%	7.20%	6.20%	5.20%	0%	0%	0%
	7-Year	9.20%	8.20%	7.20%	6.20%	5.20%	4.15%	3.15%	0%

⁴ We may offer other options other than those listed. Please refer to the contract for details.

⁵ Precision Portfolios are selected at issue. If you choose a Precision Portfolio, any reallocation during Benefit Holding Period will reduce the Enhanced GMAV back to the original GMAV of either 112% or 118%, respectively.

⁶ Must meet certain criteria. Subject to state availability. Please refer to the contract for details.
