Momentum Growth™ Fixed Index Annuity Rates

Current as of 10/01/2026

Momentum Growth™ fixed index annuity ("FIA") is a modified single premium insurance product that combines the principal protection and growth potential of a traditional FIA, with a unique built-in feature called VersaGain™. VersaGain™ provides you with the ability to **Control** what you protect, **Customize** your annual growth potential, and **Capitalize** on positive equity markets.

Combining evolution (✓) and innovation (+)

Control

- ✓ **With a traditional FIA,** your premium and any interest ("gains") credited are 100% protected, regardless of market conditions.
- \+ In addition, **Momentum Growth™** allows you to control how much of your interest is protected by electing a percentage of it to credit, each year.

Customize

- ✓ **With a traditional FIA,** you can adjust your strategy annually to optimize growth potential based on risk tolerance and market conditions.
- \+ In addition, **Momentum Growth™** gives you the option to set aside a portion of your gains for a potentially higher upside.

Capitalize

- ✓ **With a traditional FIA,** you choose where to allocate funds from a variety of index options based on broader market conditions.
- \+ In addition, **Momentum Growth™** can help you capitalize on positive equity markets with the potential for higher rates and higher returns through higher crediting rates.
