Crawford®

Crawford CRD: Your expert partner in complex claims

Expertise, compliance, and strategic insight – we handle the complexities, so you don't have to.

With the insurance landscape rapidly shifting, having a trusted expert by your side is crucial for navigating its complexities and regulatory changes. Crawford CRD's team of fully credentialed Building Consultants, Engineers, and Quantity Surveyors provides integrated expertise under one roof. It offers unparalleled insight to help you manage high-value building, construction or engineering claims with confidence.

We handle everything from straightforward causation reports, independent scopes of work to intricate value-at-risk assessments, delivering precise, compliant, and strategic assessments for your most challenging claims.

Services at a glance

Forensic Engineering: Expertise across residential, commercial, industrial and institutional buildings of all types

Quantity Surveying: Comprehensive post-loss technical service, shining a forensic lens across failures, damages, or defects

Building Consultancy: Adaptable solutions to suit any manner of projects

Restoration Consultancy: Independent, expert restoration advice ensuring fair scope and cost for every claim

How do you benefit from using CRD?

✓ Assured Quality & Compliance

Seeking confidence in expert assessments? Crawford CRD's team complies with industry standards like AFCA and ICA's Best Practice Standard, ensuring quality control and GICOP monitoring for reliable and compliant results.

✓ Gain Clarity

Need to understand the root cause of damage for a complex claim? Our causation reports provide an in-depth analysis of liability disputes and claims resolution.

✓ Mitigate Risk

Unsure about the financial impact of an asset loss? Our accurate cost estimates and value-at-risk assessments provide the precise information you need for informed decisions and risk mitigation.

✓ Save Time & Money

Tired of managing multiple experts? Partnering with Crawford CRD means one cost for a comprehensive report, saving you time and money while covering all relevant fields with our multi-disciplined team.

✓ Reduce Cost Leakage

Worried about inflated repair scopes? Crawford CRD's experts provide the guidance you need to achieve fair pricing, prevent overspending and control repair costs.

✓ Strengthen Your Position

Facing legal challenges? Our team, routinely retained as expert witnesses, provides court-reliable testimony to strengthen your position and be well-positioned for successful outcomes.

Ready to experience the CRD difference? Contact us today for expert guidance on how we can help you manage your most challenging claims with precision, efficiency, and trust.
