

# Overcoming barriers to return-to-work

## CHALLENGE

An urgent need to get injured workers back to productivity as soon as possible in a highly technical industry in which their absence significantly impacts the business.

## SOLUTION

Broadspire's Clinical Care Advocate in collaboration with our case managers routinely roundtable on more complex cases for this client to uncover barriers to returning to work. They coordinate their efforts with key client contacts to address issues around transportation, medical equipment, light duty, and other accommodations to remove those barriers.

“We are high volume. Broadspire's Clinical Care Advocate helps summarize things for us quickly when needed and helps support our philosophy.”

Aerospace manufacturing client

## INDUSTRY

Manufacturing

## LOCATION

United States

## CLAIM TYPE

Workers' Compensation

## RESULTS

**45%**  
Decrease in TTD days  
over a 3-year period

**\$204K**  
Annual savings attributable  
to earlier RTW
