

**TEA EXTRACTS
AND ESSENCES**

A central graphic featuring a dark blue rounded rectangle with the text "TEA EXTRACTS" in white, and a pink rounded rectangle below it with the text "AND ESSENCES" in white. The background of the entire page is a light beige color with a large, stylized circular graphic in the center. This circle is divided into four quadrants: top-left shows a close-up of dark, dried tea leaves; top-right shows a vibrant green tea plant with fresh leaves; bottom-left shows a close-up of dark, dried tea leaves; and bottom-right shows a glass bottle of dark tea extract next to a pile of dried tea leaves and a few fresh green leaves. The circle is framed by concentric orange and white lines.

Capturing the Essence of Nature

Our tea extracts and essences begin with just two natural ingredients: tea leaves and purified water. Using fully enclosed spinning cone technology, we gently capture the true character of the tea leaf while preserving its natural integrity. The result is clean label tea solutions that deliver consistent performance across food and beverage applications.

How we do it.

At Vibrant Ingredients™, our approach to tea extraction is guided by precision processing, clean label integrity, and consistent performance across applications.

Spinning Cone Extraction Technology

Our fully enclosed spinning cone technology captures aroma, flavor, and functional components of the tea leaf with precision, preserving authenticity while delivering clean label tea extracts and essences.

Minimal Processing, Maximum Potency

We use controlled processing designed to efficiently capture the essence of the tea leaf while preserving its natural integrity. This approach helps maintain potency, clarity, and true brewed tea character.

Dual-Site U.S. Manufacturing

With two U.S. production sites, we provide continuity of supply and consistent manufacturing performance, supporting customers from development through commercialization.

What we offer.

We offer brewed tea extracts and essences developed as ingredient solutions designed to integrate seamlessly into customer formulations while maintaining clean label integrity.

Our Tea Extracts & Essences Portfolio Includes:

Brewed Black Tea Extracts and Essences

With full body and balanced astringency

Brewed Green Tea Extracts

Including organic options, offering fresh aroma and clean profiles

Black Tea Essence

Imparts a robust, fresh top notes of tea flavor without any caffeine

When you partner with Vibrant Ingredients™, our team works alongside you to support food and beverage applications with high-quality, authentic tea extracts and essences developed with clean label integrity and deep technical expertise.

Bring authentic tea extracts and essences into your products today.
