

COLD BREW COFFEE

EXTRACTS & ESSENCES

Clean Label, High-Quality Extracts that Deliver on Great Taste

Exceptional cold brew starts with the right bean, roast, and process. Our patented single-pass extraction delivers smooth, consistent flavor using just two ingredients: coffee and purified water. With a diverse portfolio and dual U.S. production, we offer unmatched taste, scalability, and supply confidence. From bold roasts to certified organic options, there's a solution for every application.

How we do it.

At Vibrant Ingredients™, our cold brew coffee extracts & essences are developed as ingredient solutions designed to integrate seamlessly into custom formulations. We work closely with customers to understand final application requirements and guide extract selection accordingly, aligning coffee characteristics with performance expectations and formulation goals.

Patented Single-Pass Extraction

Our patented single-pass extraction process creates cold brew extracts with unmatched taste, aroma, and consistency—made simply with just two natural ingredients: coffee and purified water.

Coffee Expertise & Roast Profiling

Our deep expertise in coffee sourcing and roast profiling guides every extract, ensuring alignment with your application needs and desired performance.

Reliable U.S. Manufacturing

With two U.S. production sites, we support continuity of supply and consistent performance as products move from development to production.

What we offer.

Our Cold Brew Coffee Extract Portfolio Includes:

Conventional Extracts (Organic formats available)
Suited for a full range of finished product applications.

Responsibly Sourced & Certified Extracts
Suited for brands seeking organic, fair trade or sustainably sourced products.

Ambient & Decaf Ambient Extracts

Toll roasting available with minimum order quantity requirement. All extracts are available in shelf-stable and refrigerated formats to meet your unique needs. Available packaging formats include pails, drums, totes and tankers.

When you partner with Vibrant Ingredients™, our team works alongside you to select the right ingredient solutions for your food and beverage applications, helping deliver clean label solutions that are Purely Better™.

Discover the right cold brew coffee extract for your formulation today.
