## COMPANY PROFILE: **HONG KONG**

---

### **Introducing Device Technologies**

Device Technologies is the largest and leading medical technology distributor in Australia and New Zealand and has also expanded into Asia. We have been in the business for over 30 years now and we remain committed to continuously improving and positively impacting the healthcare communities we serve.

### **More about Device Technologies**

Device Technologies has been successfully providing hospitals and healthcare professionals with superior medical solutions since 1992. With over 200 trusted brands and over 1000 highly skilled staff in Australia, Hong Kong, Malaysia, New Zealand, Philippines, Singapore, Thailand, and Vietnam - Device Technologies is dedicated to improving patients' lives through leading-edge technology services.

### **What can you expect from Device Technologies?**

Here at Device Technologies, we strive for innovation, collaboration, taking ownership, and conducting good business in everything that we do.

From the consulting room to the operating theatre, the Device Technologies vision is to enable superior health outcomes. By connecting healthcare professionals with the finest medical technologies and supplies in the market, Device Technologies is helping them to deliver the best care possible.

Behind every brand distributed by Device Technologies is the concept that we deliver leading technology into the most capable hands. We nurture the relationship between distributor and healthcare professionals, guiding the process from concept to delivery, and beyond.

After quickly expanding our footprint in Asia with the opening of 6 offices in Hong Kong, Malaysia, Philippines, Singapore, Thailand, and Vietnam since December 2019, we are focused on further broadening our expertise into the region and improving more lives, one medical technology or solution, at a time.
