Aviat Certified Installer (ACI) Re-Certification Exam – CTR8540/83xx
TRN-ACI-RECERTIF-X

Course Specifics

Duration:	Self-paced online assessment
Delivery Format	Online
Description

The Aviat Certified Installer Re-certification exam covers the assessments focused on developing skills required for installing Aviat equipment. This certification is a specialized track targeted at installers working with Aviat products and builds on the foundational product knowledge provided by the pre-requisite Aviat Networks Associate track.

Upon successfully passing the assessment, the student will be recertified as an Aviat Certified Installer (ACI) on CTR8540/83xx.

Target Audience

This exam is intended for individuals requiring recertification in the CTR8540/83xx ACI certification.

Prerequisites

- CTR8540/83xx ACI certification
- PC with Internet access, Internet browser software, and access and subscription to AviatCare LMS

Objectives

Upon completing this course, participants will be able to:

- Demonstrate knowledge of installation best practices when installing the CTR8540/83xx microwave equipment.
- Demonstrate specialized installation-related skills and knowledge for the CTR8540/83xx platforms.

Assessments

Completing the assessment successfully validates the students' knowledge and will provide students with the credentials necessary for the Aviat Certified Installer certification level for CTR8540/83xx.

Compliance

Upon successfully passing the re-certification exam, the individual is certified for 3 years. To renew, the individual must complete the recertification examination before the current certification expiration date.
