|                 |                              |
|-----------------|------------------------------|
| Duration:       | Self-paced online assessment |
| Delivery Format | Online                       |

### Description

The Aviat Certified Installer Re-certification exam covers the assessments focused on developing skills required for installing Aviat equipment. This certification is a specialized track targeted at installers working with Aviat products and builds on the foundational product knowledge provided by the pre-requisite Aviat Networks Associate track.

Upon successfully passing the assessment, the student will be recertified as an Aviat Certified Installer (ACI) on WTM4000.

### Target Audience

This exam is intended for individuals requiring recertification in the WTM4000 ACI certification.

### Prerequisites

- CTR8500/8300 ACI certification
- PC with Internet access, Internet browser software, and access and subscription to AviatCare LMS

### Objectives

Upon completing this course, participants will be able to:

- Demonstrate knowledge of installation best practices when installing the WTM4000 microwave equipment.
- Demonstrate specialized installation-related skills and knowledge for the WTM4000 platforms.

### Assessments

Completing the assessment successfully validates the students' knowledge and will provide students with the credentials necessary for the Aviat Certified Installer certification level for WTM4000.

### Compliance

Upon successfully passing the re-certification exam, the individual is certified for 3 years. To renew, the individual must complete the recertification examination before the current certification expiration date.
