Course Description

The WTM4000 System Overview course provides students with an overview of the basic features, equipment configuration and functionality for the Aviat WTM 4000 all outdoor radio. Upon successfully completing the course and a short assessment student will receive the credentials necessary towards the Aviat Network Associate certification level.

Target Audience

This course is intended for individuals requiring knowledge of WTM4000 radio concepts.

Prerequisites

- No technical knowledge prerequisites are needed.
- PC with Internet access, Internet browser software, access and subscription to AviatCare LMS.

Objectives

Upon successfully completing this course, participants will be able to:

- Understand the different network elements which are incorporated in WTM4000 radio platform.
