ProVision Plus Overview ELearning

TRN-PVPLUS-OVIEW1-E

Course Specifics

Duration:	Self-paced e-learning (~1hour)
Delivery Format	ELearning
Materials provided:	Student Handbook (e-Book)

Online Training

Course Description

ProVision Plus is Aviat's next generation management and application platform, designed from the ground up to minimize the total cost of ownership and maximize the intelligence and flexibility of modern complex wireless transport networks. ProVision Plus is designed to be open and programmable to enable custom built applications to automate the microwave lifecycle.

ProVision Plus is a easy to use web-based system accessed via modern web browsers such as Google Chrome and Microsoft Edge. No client application installation is required, minimizing deployment and support cost. Multiple server deployment options are available. ProVision Plus is designed for premise deployments and compliments Avia Cloud for cloud-based installations.

The course is a pre-requisite for ProVision Plus installation, configuration & Management ILT course

The ProVision Plus Overview ProVision Plus is designed to work seamlessly with ProVision. Deployable on same server, ProVision Plus provides a web front-end for ProVision for ease of deployment and ease of remote access.   The course provides students with an overview of the basic features, equipment configuration, functionality and preventive maintenance of microwave network elements using ProVision Plus.

Target Audience

This course is intended for Network Operations Center (NOC) operators and engineers involved in managing microwave networks using the ProVision EMS

Prerequisites

- No technical knowledge prerequisites are needed.
- PC with Internet access, Internet browser software, access and subscription to AviatCare LMS.

Objectives

Upon successfully completing this course, participants will be able to:

- Basic diagnostics, troubleshooting and preventive maintenance of microwave network elements using ProVision Plus

Course Outline

- SNMP Overview
- Deployment options
- Planning Network Hardware
- ProVision Server Command Prompt
- Installing ProVision Client
- Downloading Client Software from Server
- ProVision Web Interface
- Logging in to Client Software
- ProVision Client Interface
- ProVision User Interface
- Customizing the User Interface
