
Aviat Certified Operations Specialist (ACOS) Certification Exam – RDL3000 TRN-ACOS-EXAM-X

Course Specifics

Duration:	Self-paced online assessment
Delivery Format	Online

Description

The Aviat Certified Operations Specialist Certification – RDL3000 Exam covers the assessments focused on developing skills required for installing, operating, and maintaining the Aviat RDL3000 microwave radio. This certification is a specialized track targeted at installers working with Aviat products and builds on the foundational product knowledge provided by the pre-requisite Aviat Networks Associate track.

Upon successfully passing the assessment, the student will be certified as an Aviat Certified Operations Specialist (ACOS) on RDL3000.

Target Audience

This exam is intended for individuals requiring ACOS certification for RDL3000.

Prerequisites

- Aviat Network Associate Certification and completed ILT or VILT on the RDL3000 Installation, Operation, and Maintenance course
- PC with Internet access, Internet browser software, and access and subscription to AviatCare LMS

Objectives

Upon completing this course, participants will be able to:

- Demonstrate installation best practices and specialized installation-related skills for the RDL3000 platforms
- Demonstrate specialized knowledge in the configuration, operation, troubleshooting, and maintenance of the RDL3000 microwave radio

Assessment

Completing and passing the assessment validates the students' knowledge and will provide students with the credentials necessary for the Aviat Certified Operation Specialist certification level for the RDL3000 radio.

Compliance

Upon successfully passing the re-certification exam, the individual is certified for 3 years. To renew, the individual must complete the recertification examination before the current certification expiration date.
