
ProVision Overview ELearning

TRN-PV-OVIEW-E

Course Specifics

Duration:	Self-paced e-learning (~1hour)
Delivery Format	ELearning
Materials provided:	Student Handbook (e-Book)

Online Training

Course Description

Aviat ProVision™ is a powerful, standards-based Element Management System (EMS). Designed to simplify Carrier Ethernet and TDM network designs and services, it provides superior intelligence for mobile and private network operators. ProVision delivers network management across the full Aviat product portfolio, key partner products and many third-party SNMP-based platforms. It provides efficient, seamless end-to-end network management solutions for TDM, Carrier Ethernet, and hybrid microwave networks.

The course is a pre-requisite for ProVision installation, configuration & Management ILT course

The ProVision Overview course provides students with an overview of the basic features, equipment configuration, functionality and preventive maintenance of microwave network elements using ProVision EMS.

Target Audience

This course is intended for Network Operations Center (NOC) operators and engineers involved in managing microwave networks using the ProVision EMS

Prerequisites

- No technical knowledge prerequisites are needed.
- PC with Internet access, Internet browser software, access and subscription to AviatCare LMS.

Objectives

Upon successfully completing this course, participants will be able to:

- Basic diagnostics, troubleshooting and preventive maintenance of microwave network elements using ProVision EMS.

Course Outline

- SNMP Overview
- Deployment options
- Planning Network Hardware
- ProVision Server Command Prompt
- Installing ProVision Client
- Downloading Client Software from Server
- ProVision Web Interface
- Logging in to Client Software
- ProVision Client Interface
- ProVision User Interface
- Customizing the User Interface
