## Aviat Certified Operations Specialist (ACOS) Certification Exam – CTR8540/83xx TRN-ACOS-EXAM-X

---

### Course Specifics

Duration:	Self-paced online assessment
Delivery Format	Online

### Description

The Aviat Certified Operations Specialist Certification - CTR8540/83xx Exam covers the assessments focused on developing skills required for installing, operating, and maintaining the Aviat Eclipse microwave radio. This certification is a specialized track targeted at installers working with Aviat Eclipse products and builds on the foundational product knowledge provided by the pre-requisite Aviat Networks Associate track.

Upon successfully passing the assessment, the student will be certified as an Aviat Certified Operations Specialist (ACOS) on CTR8540/83xx.

### Target Audience

This exam is intended for individuals requiring ACOS certification for CTR8540/83xx.

### Prerequisites

- Aviat Network Associate Certification and completed ILT or VILT on the CTR8540/83xx Installation, Operation, and Maintenance course.
- PC with Internet access, Internet browser software, and access and subscription to AviatCare LMS

### Objectives

Upon completing this course, participants will be able to:

- Demonstrate installation best practices and specialized installation-related skills for the CTR8540/83xx platforms.
- Demonstrate specialized knowledge in the configuration, operation, troubleshooting, and maintenance of the CTR8540/83xx microwave radio

### Assessment

Completing and passing the assessment validates the students' knowledge and will provide students with the credentials necessary for the Aviat Certified Operation Specialist certification level for the CTR8500/8300 radio.

### Compliance

Upon successfully passing the re-certification exam, the individual is certified for 3 years. To renew, the individual must complete the recertification examination before the current certification expiration date.
