

DILU-LOK™

Pre-filled Dilution Vials

With Hardy, dilution vials are a snap!

The Dilu-Lok™ eliminates the time and money spent on preparing your own dilution vials! Our pre-filled dilution vial is designed especially for the food, dairy, pharmaceutical, and water industries. Our easy to use snap lid vials are filled to 25ml, 90ml, or 99ml with a variety of buffering and enrichment solutions. Each lot is tested for pH, sterility, and fill volume.

Convenient Write-on area

Easy-to-remove, shrink wrap

Heavy duty - Vials are made of sturdy polypropylene with a leak-resistant seal that holds up even during air transport.

Large Opening - A wide 45mm opening accommodates most sample sizes. Each vial is clearly marked with a 90ml and 99ml fill line.

One-Handed - Flip-top lid allows for easy one-handed opening and closing to make pipetting easier. Saves unnecessary motion! No awkward screw caps or plastic strips to tear off.

Variety - Available with peptone water, TAT broth, buffered peptone water, butterfield's buffer, deionized water, phosphate buffer with MgCl, and as an empty, sterile container.

Leak-Resistant - Re-engineered for an improved seal. Perforated shrink wrap is easy to remove and ensures product integrity.
